Contents

About the Catalog	9
Schools, Departments, and Programs	10
School of Arts and Sciences	10
Department of Creative Arts	10
Major in Art Education - Bachelor of Arts Degree	11
Major in Music - Bachelor of Arts Degree	12
Major in Fine Arts - Bachelor of Arts Degree	14
Major in Music Education - Bachelor of Arts Degree	15
Major in Graphic Design - Bachelor of Fine Arts	17
Minor in Music	18
Minor in Art	18
Minor in Art History	19
Minor in Graphic Design	19
Minor in Photography	20
Department of Behavioral Sciences	20
Major in Criminology: Justice Studies Concentration - Bachelor of Science Degree	20
Major in Psychology - Bachelor of Science Degree (Optional Child Life Specialist Concentration)	22
Major in Criminology: Fraud and Financial Crime Investigation Concentration - Bachelor of Science Degree	23
Minor in Psychology	24
Major in Behavioral Science - Bachelor of Science Degree (Optional Child Life Specialist Concentration)	25

Minor in Criminology	26
Minor in Socio-Psychology	27
Minor in Victim Studies	27
Major in Criminology: Victimology Concentration - Bachelor of Science Degree	28
Minor in Fraud and Financial Crime Investigation	29
Minor in Sociology	30
Department of Biomedical and Natural Sciences	30
Biology Program	31
Major in Biology - Bachelor of Science Degree	32
Major in Chemistry: Research and Industry Concentration (BS)	33
Biomedical Sciences: Pre-Chiropractic Concentration - Bachelor of Science Degree	35
Major in Biochemistry: Research and Industry Concentration - Bachelor of Science Degree	36
Biomedical Sciences: Pre-Dental Concentration - Bachelor of Science Degree	38
Biomedical Sciences: Pre-Medical Concentration - Bachelor of Science Degree	39
Major in Natural Sciences - Bachelor of Science Degree, with selected minor	41
Biomedical Sciences: Pre-Occupational Therapy Concentration - Bachelor of Science Degree	42
Minor in Chemistry	43
Biomedical Sciences: Pre-Podiatry Concentration - Bachelor of Science Degree	44
Minor in Sustainability Studies	45
Biomedical Sciences: Pre-Optometry Concentration - Bachelor of Science Degree	46
Biomedical Sciences: Pre-Pharmacy Concentration - Bachelor of Science Degree	48
Major in Biochemistry: Pre-Pharmacy Concentration - Bachelor of Science Degree	50
Biomedical Sciences: Pre-Physical Therapy Concentration - Bachelor of Science Degree	51
Major in Biochemistry: Pre-Medical Concentration - Bachelor of Science Degree	52
Biomedical Sciences: Pre-Physician Assistant Concentration - Bachelor of Science Degree	54
Biomedical Sciences: Pre-Veterinarian Concentration - Bachelor of Science Degree	55
Minor in Biology	57
Minor in Forensic Science	58
Major in Chemistry: Business Concentration (BS)	59

Department of Liberal Arts	60
Major in Liberal Arts - Bachelor of Arts Degree	61
Major in Liberal Arts - Bachelor of Arts degree - English Concentration	63
Major in Liberal Arts - Bachelor of Arts degree - History Concentration	63
Major in Liberal Arts - Bachelor of Arts degree - Philosophy Concentration	64
Major in Liberal Arts - Bachelor of Arts degree - Religious Studies Concentration	64
Major in Liberal Arts - Bachelor of Arts degree - Theatre Concentration	65
Minor in American Studies	65
Minor in Creative Writing	66
Minor in English	67
Minor in History	68
Interdisciplinary Minor in Ethics	68
Minor in Philosophy	69
Minor in Religious Studies	69
Department of Computer Science and Mathematics	70
Major in Computer Science Application Development Concentration - Bachelor of Science Degree	71
Major in Computer Science with Concentration in Social Computing - Bachelor of Science Degree	72
Minor in Computer Science	73
Minor in Data Science	73
Minor in Mathematics	74
Minor in Web & Mobile App Development	74
School of Business & Communication	74
4+1 Master of Business Administration	75
Admission Requirements	75
Program Requirements	76
Program Outcomes	76
Department of Communication and New Media Studies	77
Major in Communication & New Media Studies - Bachelor of Arts Degree	77
Major in Communication & New Media Studies - Associate of Arts Degree	78

Minor in Communication & New Media Studies	79
Major in Communication & New Media Studies: Health Communication Concentration- Bachelor of Arts Degree	79
Major in Communication & New Media Studies: Sports Communication Concentration - Bachelor of Arts Degree	81
Major in Communication & New Media Studies: Strategic Communication Concen- tration Bachelor of Arts Degree	82
Major in Communication & New Media Studies: Communication Design Concen- tration - Bachelor of Arts Degree	83
Major in Communication & New Media Studies: Communication Leadership Concen- tration - Bachelor of Arts Degree	84
Department of Undergraduate Business	85
Major in Accounting - Bachelor of Science Degree	85
Major in Financial Economics - Bachelor of Science Degree	87
Major in Management and Leadership- Bachelor of Science Degree	88
Minor in Sport Management	89
Major in Marketing - Bachelor of Science Degree	90
Minor in Business Administration	91
Major in Sport Management - Bachelor of Science Degree	91
Minor in Nonprofit Management	92
School of Education	94
Middle Childhood Education	97
Middle Childhood Major & Licensure (grades 4-9) - Bachelor of Arts Degree	97
Major in Education Studies, Non-Licensure Program, Concentration in Curriculum and In- struction (BA)	99
Program Requirements	100
Program Outcomes	101
Secondary Education Licensure (grades 7-12), English or Social Studies	101
AYA Licensure Programs (grades 7-12) (Social Studies or English)	102
Secondary Education Major (Science or Math) (grades 7-12) Bachelor of Arts Degree	105
Program Requirements	105

About the Catalog

Released annually, the Undergraduate Catalog contains undergraduate degree and academic program requirements, academic policies and admission criteria, as well as a listing of all undergraduate courses and their descriptions.

Students are required to comply with the policies, degree and major requirements stated in the Catalog in effect for the first semester of enrollment following their acceptance. If a student is admitted and enrolled for the first time during a summer session, then he or she should follow the Catalog released for the next fall semester.

Mount St. Joseph University is located at 5701 Delhi Road, Cincinnati, OH 45233-1670.

Major in Music Education (BA)
Minor in Art
Minor in Art History
Minor in Graphic Design
Minor in Music
Minor in Photography

Major in Art Education - Bachelor of Arts Degree

The B.A. in Art Education is designed for the student who plans to become a professional art educator. The comprehensive curriculum includes studio art, art history, art criticism, aesthetics, and an intensive two-semester course in the theory and practice of teaching visual arts. The art program, coupled with professional education coursework, may lead to Ohio licensure as a Visual Art Specialist, Pre-K-12.

Program Requirements

Hours: 104

Major Courses - 45 hours

AED 390 Comprehensive Art Education II (4)
EDU 333A Art Education Practicum (3) EXP
EDU 444A Art Education Student Teaching (12) EXP

Minimum grade of C in all major/cognate courses.

Program Outcomes

Students who successfully complete the art education major will:

- engage in the creative art making process, using imagery, methods and media to express and communicate ideas, feelings, experiences and aspirations.
- understand the formal, technical and expressive aspects in visual artworks, using critical skills to describe, analyze, interpret and evaluate such works.
- understand and appreciate the historical, social and cultural contexts of the arts and artists in societies past and present, while being equipped to enter the dialogue.
- acquire the knowledge, skills, dispositions, and values required to meet the visual art needs of Pre-K-12 students in a dynamic and diverse society.

Major in Music - Bachelor of Arts Degree

Program Requirements

Hours: 51

Theory -12 hours

MUS 101 Theory and Skills 1 (3)
MUS 118 Theory and Skills 2 (3)
MUS 307 Theory and Skills 3 (3)
MUS 404 Theory and Skills 4 (3)

History - 6 hours

MUS 131 World Music (3) CAM

MUS 212 American Popular Music: From Minstrelsy to MP3 (3) CAM

Ensemble Leadership - 3 hours

MUS 213 Church Music and Worship (3)

OR

MUS 403 Basic Conducting (3)

Piano - 6 hours

MUS 105 Piano I (3) CAM

MUS 106 Piano II (3)

Production - 4 hours

MUS 309 Game Music Lab (1)

MUS 311 Film Music Lab (1)

Live Production - 4 hours

MUS 121 Live Sound and Lights (1)

COM 151 Peak Production (1)

Ensembles - 8 hours

**MUS 120F or MUS 110E or MUS 120K must be taken for 1 credit hour for 8 semesters

MUS 120F University Band (1)

or

MUS 110E University Singers (1)

or

MUS 120K Orchestra (1)

**Piano Majors may choose either University Band or University Singers. Not performing in an Ensemble is not an option. In Singers, they would be responsible for some of the accompanying, as well as singing. Students choose ensembles appropriate for their instrument.

Students pursuing a music education licensure must take at least 1 credit hour of MUS 110E as part of their 8 hours of ensemble courses.

Applied - 8 hours

MUS 140A-200A (6), MUS 104A (1), MUS 405 Senior Recital (1), MUS 000R Repertoire Class (0) Required every semester, unless student teaching for a music education licensure.

Program Outcomes

Students who successfully complete the Music major will be able to:

- demonstrate performance ability appropriate for the B.A. in music.
- develop vocal and keyboard skills appropriate for the B.A. in music.
- perform advanced ensemble literature.

- comprehend various musical genres and stylistic periods.
- identify historical periods and cultures.
- improvise in various musical styles.
- understand theoretical/compositional music concepts.
- understand formal/structural concepts.
- critically review personal musical/intellectual performance.

Major in Fine Arts - Bachelor of Arts Degree

The B.A. in Fine Arts is designed for the student interested in becoming a professional artist.

Program Requirements

Hours: 55-57

Major Courses - 52-54 hours

ART 101 Drawing I (3) CAM

Licensure for Teachers

The Multi-Age Education Licensure programs are offered to those who are interested in teaching students in grades P-12 in the areas of art or music. These programs are accredited by the Council for the Accreditation of Educator Preparation (CAEP) and are approved by the Ohio Department of Higher Education (ODHE). Students in a Multi-Age Licensure program must meet the Core Curriculum requirements of the University while completing course work in their major area of study. They also take a block of professional education courses that provide a strong framework in the philosophy, theory, and practice of teaching.

Program Outcomes

Teacher Competencies

The School of Education has developed the following five teacher competencies describing the knowledge, skills and dispositions that each teacher candidate will have upon completion of any licensure program.

1. **Content knowledge** - The candidate articulates accurate subject matter and applies that knowledge in planning and presenting lessons aligned with content standards.
2. **Learner characteristics** - the candidate incorporates knowledge of how students learn and how diverse experiences affect learning when planning and presenting lessons aligned with content standards.
3. **Instructional strategies** - The candidate applies a variety of scientifically-based, data-driven instructional strategies based on learning goals, assesses student's progress toward these goals and differentiates instruction based on students' needs and assessment results.
4. **Learning environment** - The candidate creates and manages a learning environment that encourages active, engaged learning and respect for others.

5. **Professional responsibilities** - The candidate engages in reflective practice, promotes collaboration among peers, families, and communities, and takes on opportunities for professional development.

Department of Behavioral Sciences

Tracy McDonough, Ph.D., Chairperson

Programs offered:

Major in Behavioral Science (BS) (Optional Child Life Specialist Concentration)

Major in Criminology: Fraud and Financial Crime Investigation Concentration (BS)

Major in Criminology: Justice Studies Concentration (BS)

Major in Criminology: Victimology Concentration (BS)

Major in Psychology (BS) (Optional Child Life Specialist Concentration)

Minor in Criminology

Minor in Fraud and Financial Crime Investigation

Minor in Psychology

Minor in Socio-Psychology

Minor in Sociology

Minor in Victim Studies

Major in Criminology: Justice Studies Concentration - Bachelor of Science Degree

Program Requirements

Hours: 66

Major Courses - 39 hours

CRM 103 Foundations of Criminal Justice (3) LAS

CRM 105 Elements of Inquiry (3)
CRM 217 Cops, Bobbies & Thief-Takers (3) LAS
CRM 218 Victimology (3) LAS
CRM 220 Courts in America (3) LAS
CRM 293 Juvenile Delinquency (3) LAS
CRM 295 Corrections (3) LAS
CRM 300 Critical Issues in Criminology (3) LAS
CRM 361 Professionalism and Decision Making in Criminal Justice (3) LAS
CRM 370 Criminological Theory (3) LAS
CRM 372 Comparative Criminal Justice/Criminology (3) LAS
CRM 375 Criminology Research (3)
CRM 400 Senior Thesis (3)

Cognate Courses - 12 hours

LGS 151 Legal Principles (3)
MTH 174 Statistics I (3) CMA
PSY 103 Introduction to Psychology (3) CEP
SOC 103 Our Social World (3) CS

Major Electives - 15 hours - Select 15 hours of additional CRM courses from the following

CRM 104 Introduction to Criminalistics (3) LAS
CRM 204 Bullies & Bullets:Victimization in Schools (3)
CRM 206 Crime & Constitution (3) LAS
CRM 207 Animals and Criminal Justice (3) LAS
CRM 208 Serial Murder (3) LAS
CRM 210 Drugs and Crime (3) LAS
CRM 223 Guns, Crime and American Society (3)
CRM 225 Sex Crimes (3) LAS
CRM 230 Crime Prevention (3) LAS
CRM 235 Crimes of Technology (3) LAS
CRM 240 Crime & Media (3) LAS
CRM 292 Forensic Psychology (3) LAS
CRM 306 White Collar Crime (3)
CRM 307 Fraud Examination (3)
CRM 392 Managing Criminal Justice Organizations (3) LAS
CRM 397 Social Deviance (3) LAS
CRM 407 Law & Society (3) LAS
CRM 408 Biosocial Criminology (3) LAS

A grade of "C" or higher is required in all major, minor, and cognate courses.

Students majoring in Criminology with a Justice Studies concentration cannot also complete a minor in Criminology.

Criminology majors must earn at least 50% of their major credits at Mount St. Joseph University. In addition, no more than 6 credit hours of independent study and/or consortium online courses may be used toward graduation requirements. Students may earn up to 3 service learning credits and/or CRM 396/CRM 496 Co-op credits in addition to major, cognate, and major elective requirements.

Recommended minors for the Criminology major are: Forensic Science, Fraud and Financial Crime Investigation, Sociology or Victim Studies.

Program Outcomes

Students who successfully complete the criminology major will be able to:

- Define, explain, and use the correct terminology applicable to the disciplines of criminology and criminal justice
- Demonstrate an understanding of the components and functions of the criminal justice system (police, courts, corrections)
- Articulate the historical development of key issues, policies, and practices in criminology and criminal justice
- Demonstrate the ability to research and analyze crime data
- Demonstrate a knowledge of the link between theoretical foundations of crime and the development of crime policy
- Understand the ethical and social justice implications of criminology and criminal justice.

Major in Psychology - Bachelor of Science Degree (Optional Child Life Specialist Concentration)

Program Requirements

Hours: 50

Major Courses - 44 hours

PSY 103 Introduction to Psychology (3) CEP

or

PSY 103H HON:Intro Psychology (3) CEP

PSY 204 Lifespan Development (3)

or

PSY 205 Child/Adolescent Development (3) *

or
BIO 197/197A Human Anatomy and Physiology for the Health Sciences I/Lab (4) CN

Experiential Learning/Co-op (3) EXP (recommended)

Program Outcomes

Students who successfully complete the behavioral science major will be able to:

- demonstrate a broad understanding of the main theories and concepts used in the behavioral sciences.
- demonstrate critical thinking and analytic proficiency skills for understanding a wide range of social problems and issues.
- apply the scientific research process to behavioral sciences topics.

Minor in Criminology

Program Requirements

Hours: 18

Minor Courses - 3 hours

CRM 103 Foundations of Criminal Justice (3) LAS

Elective Courses - 15 hours

Select five additional CRM courses (except CRM 396, CRM 496)

A grade of "C" or higher is required in all major, minor, and cognate courses.

Criminology minors must earn at least 50% of their minor credits at Mount St. Joseph University. In addition, no more than 3 credit hours of independent study and/or consortium/online courses may be used toward minor requirements.

Minor in Socio-Psychology

Program Requirements

Hours: 18

Available to students with any major or minor other than psychology or behavioral science.

Minor Courses - 6 hours

PSY 103 Introduction to Psychology (3) CEP

or

PSY 103H HON:Intro Psychology (3) CEP

Choose one other Psychology course (minimum 3 credit hours) excluding PSY 110, 396, & 397.

Cognate Courses - 6 hours

SOC 103 Our Social World (3) CS

Choose one other SOC course (3)

Psychology/Sociology Electives - 6 hours

Choose at least two additional PSY and/or SOC courses (minimum 6 credit hours) excluding PSY 110, 396, & 397; may include up to 3 hours of PSY 395A, 398, or 399.

Residency requirement: A minimum of 3 credit hours in psychology and 3 credit hours in sociology must be completed at Mount St. Joseph University.

Must earn a "C" or higher in minor courses

Minor in Victim Studies

Program Requirements

Hours: 16

Required Courses - 13 hours

CRM 218 Victimology (3) LAS
CRM 218S Serv Lrng:Victimology (1) EXP
CRM 230 Crime Prevention (3) LAS
CRM 298 Community Justice (3) LAS
PSY 212 Domestic Violence (3)

Elective Course - 3 hours

Choose one of the following:

CRM 204 Bullies & Bullets:Victimization in Schools (3)
CRM 217 Cops, Bobbies & Thief-Takers (3) LAS
SWK 332 Child Abuse (3) IDS
SWK 333 Elder Abuse (3) IDS

A grade of "C" or higher is required in all major, minor, and cognate courses.

Victim Studies minors must earn at least 50% of their minor credits at Mount St. Joseph University. In addition, no more than 3 credit hours of independent study and/or consortium/online courses may be used toward minor requirements.

Major in Criminology: Victimology Concentration - Bachelor of Science Degree

Requirements

Hours Required: 57

Major Required Courses - 27 hours

CRM 103 Foundations of Criminal Justice (3) LAS
CRM 105 Elements of Inquiry (3)
LGS 151 Legal Principles (3)
CRM 217 Cops, Bobbies, & Thief-Takers (3) LAS

Major in Chemistry: Business Concentration (BS)
Major in Chemistry: Research and Industry Concentration (BS)
Major in Natural Sciences (BS)
Minor in Biology
Minor in Chemistry
Minor in Forensic Science
Minor in Sustainability Studies

Biology Program

The Biology Department offers courses designed to meet the needs of a wide variety of students. The program aims to cultivate an understanding and appreciation of the creative and critical nature of scientific thought, as well as a knowledge of the processes involved in the phenomenon of life. In addition, students acquire skills necessary for the further pursuit of biological knowledge. Students who wish to pursue a career in research and industry or field studies, who plan to continue their education on the graduate level in the biological and natural sciences, and those preparing for careers in medicine or other health professions will be well prepared by the completion of the biology major or biomedical sciences major. Courses are also offered for students who desire to obtain some knowledge of biology as part of their general education, those who need a mastery of certain areas of biology to complement other programs such as nursing, health and wellness, physician assistant and physical therapy, and those who propose to specialize in this subject in preparation for a teaching license. The Biology Department is home to the Xi Gamma Chapter of Beta Beta Beta, the Biological Honor Society, a national organization devoted to the pursuit and dissemination of scientific knowledge.

The majors' curricula are designed to accommodate a variety of interests and abilities within the discipline of biology. The department provides a solid foundation in biology and permits students to focus on courses in which they have particular interest and which will best prepare them for advanced study in biology, for Ohio teacher licensure, for professional programs such as medicine or dentistry, and for employment in industry. The student-advisor relationship is a crucial component of appropriate curricular planning, and students are expected to set clear goals and follow a sequence of courses appropriate for meeting those goals.

The Biology Department encourages undergraduate participation in research with the faculty or through opportunities at other research facilities. To support the research experience the department houses research facilities in molecular biology, genetics, ornithology, bioanthropology, anatomy, paleobiology, botany, agriculture and entomology. Alternatively, in consultation with his or her advisor and in keeping with the student's goals, an internship may be chosen in place of the experimental research project.

In order to remain in one of the Department's majors, a student must earn a grade of "C" or higher in all major and cognate courses. Students earning a D or F in any major or cognate course (lecture and lab count as one course) will be subject to the following action(s):

- Student will receive a warning letter from the department chairperson after the first D or F.
- Student will be placed on probation in the department after the second D or F.
- Student will be dismissed from the major after the third D or F.

A student may appeal in writing the dismissal from the major to the chairperson. In extenuating circumstances, the chairperson may reinstate the student to the major.

Requirements for Ohio Teacher Licensure in Biology Students choosing a major in biology who also want to pursue Ohio teacher licensure must satisfy the same requirements as the major and additional requirements in chemistry and physical sciences, and education. The pertinent Adolescent to Young Adult License (grades 7-12) is biology/life science, or integrated science. A concentration in science is available in the Middle Childhood Licensure (grades 4-9) program. See Education.

Minor in Forensic Science

The Biology Department offers a minor in Forensic Science particularly designed for students majoring in Biology, Chemistry, Criminology, Psychology, and Sociology. The minor consists of 21 total credit hours, many of which satisfy major or liberal arts and science requirements.

Minor in Biology

The Biology Department offers a minor in Biology for students in any major outside those in the Biology Department. The minor consists of 20 credit hours in lecture and laboratory courses including one four-credit introductory course in biology, followed by an additional 16 credits in biology coursework.

Major in Biology - Bachelor of Science Degree

In order to remain in one of the Department's majors, a student must earn a grade of "C" or higher in all major and cognate courses. Students earning a D or F in any major or cognate course (lecture and lab count as one course) will be subject to the following action(s):

- Student will receive a warning letter from the department chairperson after the first D or F.
- Student will be placed on probation in the department after the second D or F.
- Student will be dismissed from the major after the third D or F.

A student may appeal in writing the dismissal from the major to the chairperson. In extenuating circumstances, the chairperson may reinstate the student to the major.

Program Requirements

Hours: 55

Biology/Chemistry Foundation Courses - 19 hours

BIO 111 Principles of Biology I (4) CN
BIO 111A Principles of Biology I (LAB) (0) CN
BIO 112 Principles of Biology II (4)
BIO 112A Principles of Biology II (LAB) (0)
BIO 204 Biology Seminar (2)

CHE 111 General Chemistry I (3) CN
CHE 111A General Chemistry I (LAB) (1) CN
CHE 112 General Chemistry II (3) CN
CHE 112A General Chemistry II (LAB) (1) CN

Students must take an additional 28 credit hours in biology courses, specified as follows:

- At least 20 hours must be courses with corequisite laboratories
- At least 15 credits must be 300 level courses
- No more than ten 100 level hours may be used to fulfill this requirement
- Co-op courses are excluded from these 28 hours

Expanded Knowledge and/or Application - 8 hours

Any courses from these areas:

- Physics (200 level or above)
- Additional Chemistry (200 level or above)
- Additional Biology (200 level or above)

Program Outcomes

Students who successfully complete the biology major will be able to:

- demonstrate and apply an appropriate knowledge of the terms, concepts, and theories relative to the biological sciences.
- undertake advanced work in industry, secondary education, graduate or professional school.
- be competitive and marketable in a chosen field.
- demonstrate the critical thinking, communication, and research skills needed to excel, particularly in the use of the scientific method to investigate problems and synthesize results in written and oral presentations.

Major in Chemistry: Research and Industry Concentration (BS)

Admission Requirements

Prerequisites

Chemistry: College preparatory high school chemistry or the successful completion of a placement test.

Math: Three years of college preparatory high school mathematics including functions.

Program Requirements

In order to remain in the chemistry (BS) major, biochemistry (BS) major, minor in chemistry, and minor in sustainability studies, a student must earn a grade of "C" or higher in all major and cognate courses. Students earning a D, F, or W in any major or cognate course will be subject to the following action(s):

- Student will receive a warning letter from the department chairperson after the first D, F, or W.
- Student will be placed on probation after the second D, F, or W.
- Student will be dismissed from the major after the third D, F, or W.

A student may appeal in writing the dismissal from the major to the chairperson. In extenuating circumstances, the chairperson may reinstate the student to the major.

Program Outcomes

Students who successfully complete the chemistry major will be able to:

- demonstrate foundational knowledge of scientific theories and competence in laboratory techniques.
- generate scientific data using appropriate and ethical disciplinary protocols and laboratory techniques, including proper use of equipment, instruments and materials.

- analyze and interpret scientific data based on sound scientific reasoning.
- assess scientific questions, and design methods to answer them.
- research, understand and cite scientific literature.
- describe scientific results using clear, concise language, and observe technical conventions in written and oral reports.

Biomedical Sciences: Pre-Chiropractic Concentration - Bachelor of Science Degree

In order to remain in one of the Department's majors, a student must earn a grade of "C" or higher in all major and cognate courses. Students earning a D or F in any major or cognate course (lecture and lab count as one course) will be subject to the following action(s):

- Student will receive a warning letter from the department chairperson after the first D or F.
- Student will be placed on probation in the department after the second D or F.
- Student will be dismissed from the major after the third D or F.

A student may appeal in writing the dismissal from the major to the chairperson. In extenuating circumstances, the chairperson may reinstate the student to the major.

Program Requirements

Hours: 79

Biology/Chemistry/Cognate Foundation - 25 hours

BIO 111 Principles of Biology I (4) CN
 BIO 111A Principles of Biology I (LAB) (0) CN
 BIO 112 Principles of Biology II (4)
 BIO 112A Principles of Biology II (LAB) (0)
 BIO 204 Biology Seminar (2)

 CHE 111 General Chemistry I (3) CN
 CHE 111A General Chemistry I (LAB) (1) CN
 CHE 112 General Chemistry II (3) CN
 CHE 112A General Chemistry II (LAB) (1) CN
 PSY 103 Introduction to Psychology (3) CEP

Ethics Required: Recommended Course:

ETH:PHI 250 Health Care Ethics (3) CE

Pre-Chiropractic Concentration - 26 hours

CHE 211 Organic Chemistry I (3)
 CHE 211A Organic Chem I (LAB) (1)
 CHE 212 Organic Chemistry II (3)

CHE 212A Organic Chemistry II (LAB) (1)
CHE 325 Biochemistry I (3)
CHE 325A Biochemistry I (LAB) (1)
MTH 174 Statistics I (3) CMA
PHY 201 General Physics I (3)
PHY 201A Gen Physics I (LAB) (1)
PHY 202 General Physics II (3)
PHY 202A Gen Physics II (LAB) (1)

Choose one English Literature course (3) CL

Biology Electives Additional Courses in Biology - 28 hours

- At least 20 of these hours must be in courses with co-requisite laboratories
- At least 15 of these credits must be in 300-level courses
- no more than ten 100-level credits may be used to fulfill this portion of the major
- co-op courses are excluded from these 28 hours.

Program Outcomes

Students who successfully complete the biomedical sciences major will be able to:

- demonstrate and apply an appropriate knowledge of the terms, concepts, and theories relative to the biological sciences.
- undertake advanced work in industry, secondary education, graduate or professional school.
- be competitive and marketable in a chosen field.
- demonstrate the critical thinking, communication, and research skills needed to excel, particularly in the use of the scientific method to investigate problems and synthesize results in written and oral presentations.

Major in Biochemistry: Research and Industry Concentration - Bachelor of Science Degree

Program Requirements

Hours: 69

Major Courses - 36 hours

CHE 111 General Chemistry I (3) CN
CHE 111A General Chemistry I (LAB) (1) CN
CHE 111R General Chemistry I (Recitation) (0) (CN)

Cognate Elective Courses - 8 hours

Choose 8 hours from the following (two lectures and the corresponding LABs)

BIO 305 Microbiology (4)
 BIO 305A Microbiology (LAB) (0)
 BIO 310 Cell Biology (4)
 BIO 310A Cell Biology (LAB) (0)
 BIO 320 Genetics (4)
 BIO 320A Genetics (LAB) (0)

Admission Requirements

Prerequisites:

Chemistry: College preparatory high school chemistry or the successful completion of a placement test.
 Math: Three years of college preparatory high school mathematics including functions.

Program Requirements In order to remain in the chemistry (BS) major, biochemistry (BS) major, minor in chemistry, and minor in sustainability studies, a student must earn a grade of "C" or higher in all major and cognate courses. Students earning a D, F, or W in any major or cognate course will be subject to the following action(s):

- Student will receive a warning letter from the department chairperson after the first D, F, or W.
- Student will be placed on probation after the second D, F, or W.
- Student will be dismissed from the major after the third D, F, or W.

A student may appeal in writing the dismissal from the major to the chairperson. In extenuating circumstances, the chairperson may reinstate the student to the major.

Biomedical Sciences: Pre-Dental Concentration - Bachelor of Science Degree

In order to remain in one of the Department's majors, a student must earn a grade of "C" or higher in all major and cognate courses. Students earning a D or F in any major or cognate course (lecture and lab count as one course) will be subject to the following action(s):

- Student will receive a warning letter from the department chairperson after the first D or F.
- Student will be placed on probation in the department after the second D or F.
- Student will be dismissed from the major after the third D or F.

A student may appeal in writing the dismissal from the major to the chairperson. In extenuating circumstances, the chairperson may reinstate the student to the major.

Major in Natural Sciences - Bachelor of Science Degree, with selected minor

Program Requirements

Hours: 41, plus selected minor

Foundational Courses - 16 hours

Choose one course with lab from the following:

CHE 111 General Chemistry I (3) CN
CHE 111A General Chemistry I (LAB) (1) CN
CHE 104 General, Organic and Biochemistry (3) CN
CHE 104A General & Organic Chemistry LAB (1) CN

Choose one course with lab from the following:

BIO 101 Introduction to Biology (4) CN
BIO 111 Principles of Biology I (4) CN
BIO 111A Principles of Biology I (LAB) (0) CN

Choose one course with lab from the following)

PHY 105 Physical Science L/L (4) CN
PHY 201 General Physics I (3)
PHY 201A Gen Physics I (LAB) (1)

Math Requirement - 3 hours

MTH 174 Statistics I (3) CMA

Career Education - 1 hour

CED 220 Foundations of Professionalism (1)

Expanded Knowledge in Natural Sciences - 24 Hours (at least 8 hours in this section must be 300 level or above from the following disciplines)

- BIO - Biology
- CHE - Chemistry
- GEO - Geology
- PHY - Physics

Natural Science Seminar - 1 hour

CHE 401 Natural Science Seminar (1)

Biomedical Sciences: Pre-Occupational Therapy Concentration - Bachelor of Science Degree

In order to remain in one of the Department's majors, a student must earn a grade of "C" or higher in all major and cognate courses. Students earning a D or F in any major or cognate course (lecture and lab count as one course) will be subject to the following action(s):

- Student will receive a warning letter from the department chairperson after the first D or F.
- Student will be placed on probation in the department after the second D or F.
- Student will be dismissed from the major after the third D or F.

A student may appeal in writing the dismissal from the major to the chairperson. In extenuating circumstances, the chairperson may reinstate the student to the major.

Admission Requirements

Prerequisites:

Chemistry: College preparatory high school chemistry or the successful completion of a placement test.

Math: Three years of college preparatory high school mathematics including functions.

Program Requirements In order to remain in the chemistry (BS) major, biochemistry (BS) major, minor in chemistry, and minor in sustainability studies, a student must earn a grade of "C" or higher in all major and cognate courses. Students earning a D, F, or W in any major or cognate course will be subject to the following action(s):

- Student will receive a warning letter from the department chairperson after the first D, F, or W.
- Student will be placed on probation after the second D, F, or W.
- Student will be dismissed from the major after the third D, F, or W.

A student may appeal in writing the dismissal from the major to the chairperson. In extenuating circumstances, the chairperson may reinstate the student to the major.

Biomedical Sciences: Pre-Physical Therapy Concentration - Bachelor of Science Degree

Additional Courses in Biology - 18 hours

- At least 12 of these hours must be in courses with co-requisite laboratories
- At least 14 of these credits must be in 300-level courses
- no 100-level credits may be used to fulfill this portion of the major
- co-op courses are excluded from these 18 hours.

Program Outcomes

Students who successfully complete the biomedical sciences major will be able to:

- demonstrate and apply an appropriate knowledge of the terms, concepts, and theories relative to the biological sciences.
- undertake advanced work in industry, secondary education, graduate or professional school.
- be competitive and marketable in a chosen field.
- demonstrate the critical thinking, communication, and research skills needed to excel, particularly in the use of the scientific method to investigate problems and synthesize results in written and oral presentations.

Biology Electives (additional courses in biology) - 28 Hours

- At least 20 of these hours must be in courses with co-requisite laboratories
- At least 15 of these credits must be in 300-level courses
- no more than ten 100-level credits may be used to fulfill this portion of the major

- co-op courses are excluded from these 28 hours.

Program Outcomes

Students who successfully complete the biomedical sciences major will be able to:

- demonstrate and apply an appropriate knowledge of the terms, concepts, and theories relative to the biological sciences.
- undertake advanced work in industry, secondary education, graduate or professional school.
- be competitive and marketable in a chosen field.
- demonstrate the critical thinking, communication, and research skills needed to excel, particularly in the use of the scientific method to investigate problems and synthesize results in written and oral presentations.

Minor in Biology

In order to remain in one of the Department's majors, a student must earn a grade of "C" or higher in all major and cognate courses. Students earning a D or F in any major or cognate course (lecture and lab count as one course) will be subject to the following action(s):

- Student will receive a warning letter from the department chairperson after the first D or F.
- Student will be placed on probation in the department after the second D or F.
- Student will be dismissed from the major after the third D or F.

A student may appeal in writing the dismissal from the major to the chairperson. In extenuating circumstances, the chairperson may reinstate the student to the major.

Program Requirements

Hours: 20

Minor Requirements - 4 hours in one of the following :

BIO 101 Introduction to Biology (4) CN

BIO 111 Principles of Biology I (4) CN

Expanded Knowledge in Biology - 16 additional hours are required

Two of these must be 300-level Biology courses; co-op courses are excluded from these 16 hours

NOTE: Many 200 and 300 level biology courses have chemistry prerequisites.

Residency requirement: 6 hours

Minimum 2.0 cumulative GPA in those 6 hours

Minor in Forensic Science

In order to remain in one of the Department's majors, a student must earn a grade of "C" or higher in all major and cognate courses. Students earning a D or F in any major or cognate course (lecture and lab count as one course) will be subject to the following action(s):

- Student will receive a warning letter from the department chairperson after the first D or F.
- Student will be placed on probation in the department after the second D or F.
- Student will be dismissed from the major after the third D or F.

A student may appeal in writing the dismissal from the major to the chairperson. In extenuating circumstances, the chairperson may reinstate the student to the major.

PHY 202A Gen Physics II (LAB) (1)

Cognate Elective Courses - 3 hours

Choose 3 hours from the following:

ECO 211 Principles of Macroeconomics (3)
ECO 212 Principles of Microeconomics (3)

Program Outcomes

Students who successfully complete the chemistry major will be able to:

- demonstrate foundational knowledge of scientific theories and competence in laboratory techniques.
- generate scientific data using appropriate and ethical disciplinary protocols and laboratory techniques, including proper use of equipment, instruments and materials.
- analyze and interpret scientific data based on sound scientific reasoning.
- assess scientific questions, and design methods to answer them.
- research, understand and cite scientific literature.
- describe scientific results using clear, concise language, and observe technical conventions in written and oral reports.

Department of Liberal Arts

Elizabeth Bookser Barkley, Ph.D., Chairperson

Drawing on the Mount's one hundred years of excellence in teaching, the liberal arts faculty invite students to engage in an experience that challenges them to explore intellectual interests and talents with the support of community on campus and beyond. Our community of faculty scholars from a variety of disciplines guides students as they mature into broadly educated writers, speakers, and learners prepared to embrace the diverse opportunities of twenty-first century life, work, and service. Our graduates are rooted in the past, engaged with the present, and empowered to thrive in the future.

Students can pursue the major in one of the following options:

- Liberal Arts
- Liberal Arts with a Concentration in English
- Liberal Arts with a Concentration in History
- Liberal Arts with a Concentration in Philosophy
- Liberal Arts with a Concentration in Religious Studies
- Liberal Arts with a Concentration in Theatre

Minors include:

- Minor in American Studies
- Minor in Creative Writing
- Minor in English
- Minor in History
- Minor in Philosophy
- Minor in Religious Studies
- Interdisciplinary Minor in Ethics

Major in Liberal Arts - Bachelor of Arts Degree

Program Requirements

Hours: 42

Foundational Course - 3 Hours

LIB 115 Foundations of the Liberal Arts (3)

Core Curriculum Cognate Courses (one each) - 12 hours

English (3) CL
History (3) CH
Philosophy (3) CP
Religious Studies (3) CR

Liberal Arts Major Electives - 15 hours

Electives must represent at least three of the four above disciplines.

- History
- Literature
- Philosophy
- Religious Studies

Liberal Arts Seminars - 9 hours

300 Level Seminars include but are not limited to the following:

LIB 300 Seriously Funny: The Liberal Art of Humor (3)

LIB 301 The Loving Friends: The Bloomsbury Group (3)

LIB 302 Real or Not Real: The History of the Documentary as History (3)

Liberal Arts Project - 3 hours

LIB 400 Liberal Arts Culminating Experience (3)

Residency requirement :6 hours

Minimum 2.0 GPA in major

Program Outcomes

To develop as proficient writers:

- Use appropriate, relevant, and compelling content to illustrate understanding of a topic.
- Use graceful language that skillfully communicates meaning to readers with clarity and fluency and is relatively error-free.

To mature as articulate speakers:

- Express thoughts orally with clarity and conviction.
- Collaborate with others to deliver effective oral presentations to diverse audiences.

To interact as engaged learners:

- Develop self-motivation as a learner through rigorous engagement with challenging questions.
- Connect academic knowledge to a wide variety of life experiences, such as service, family, work, travel, or other experiences beyond the classroom.

To grow as analytical/critical thinkers:

- Develop skills of information fluency.
- Recognize the value of the liberal arts in addressing complex questions.
- Thoroughly analyze the multiple perspectives surrounding a problem in presenting an informed position/conclusion.

Major in Liberal Arts - Bachelor of Arts degree - English Concentration

Program Requirements

Hours: 42

LIB 115 Foundations of the Liberal Arts (3)

Core Curriculum Cognate Courses (one each) - 12 hours:

English (3) CL

History (3) CH

Philosophy (3) CP

Religious Studies (3) CR

English Elective Courses (CL) - 15 hours

Liberal Arts Seminar - 9 hours. Twenty one hours of the major must be completed before enrolling in a seminar. Courses must be 300 or higher.

LIB 400 Liberal Arts Culminating Experience (3)

Residency requirement 6 hours

Minimum, 2.0 GPA in major

Major in Liberal Arts - Bachelor of Arts degree - History Concentration

Program Requirements

Hours: 42

LIB 115 Foundations of the Liberal Arts (3)

Core Curriculum Cognate Courses (one each) - 12 hours:

English (3) CL

History (3) CH

Philosophy (3) CP

Religious Studies (3) CR

History Elective Courses (CH) - 15 hours

Liberal Arts Seminar - 9 hours. Twenty one hours of the major must be completed before enrolling in a seminar. Courses must be 300 or higher.

LIB 400 Liberal Arts Culminating Experience (3)

Residency requirement 6 hours

Minimum, 2.0 GPA in major

Major in Liberal Arts - Bachelor of Arts degree - Philosophy Concentration

Program Requirements

Hours: 42

LIB 115 Foundations of the Liberal Arts (3)

Core Curriculum Cognate Courses (one each) - 12 hours:

English (3) CL
History (3) CH
Philosophy (3) CP
Religious Studies (3) CR

Philosophy (CP) or Ethics Elective Courses (CE) - 15 hours

Liberal Arts Seminar - 9 hours. Twenty one hours of the major must be completed before enrolling in a seminar. Courses must be 300 or higher.

LIB 400 Liberal Arts Culminating Experience (3)

Residency requirement 6 hours

Minimum, 2.0 GPA in major

Major in Liberal Arts - Bachelor of Arts degree - Religious Studies Concentration

Program Requirements

Hours: 42

LIB 115 Foundations of the Liberal Arts (3)

Core Curriculum Cognate Courses (one each) - 12 hours:

English (3) CL
History (3) CH
Philosophy (3) CP
Religious Studies (3) CR

Religious Studies Elective Course (CR) - 15 hours

Liberal Arts Seminar - 9 hours. Twenty one hours of the major must be completed before enrolling in a seminar. Courses must be 300 or higher.

LIB 400 Liberal Arts Culminating Experience (3)

Residency requirement 6 hours

Minimum, 2.0 GPA in major

Major in Liberal Arts - Bachelor of Arts degree - Theatre Concentration

Program Requirements

Hours: 42

LIB 115 Foundations of the Liberal Arts (3)

Core Curriculum Cognate Courses (one each) - 12 hours:

English (3) CL
History (3) CH
Philosophy (3) CP
Religious Studies (3) CR

Elective Courses (choose five additional courses from the following; at least two theatre courses coded CL and three more theatre courses from Music Department offerings or coded CL) - 15 hours:

ENG 174 Meet Me at the Theatre: Mod & Contemp American Drama (3) CL
ENG 206 State of the Unions:20th Century British and American Drama (3) CL
ENG 301 The Past in Stages:A History of Theatre in Society (3)
ENG 360 The Play's the Thing: Shakespeare's Major Works (3) CL
ENG 316 The School for Scandal: Restoration Comedy (3) CL
ENG 397 Theater Production (1-3)
MUS 119 Acting Workshop (3) CAM
MUS 214 Stagecraft and Theatre Design (3)
MUS 217 Directing (3)

Liberal Arts Seminar - 9 hours. Twenty one hours of the major must be completed before enrolling in a seminar. Courses must be 300 or higher.

LIB 400 Liberal Arts Culminating Experience (3)

Residency requirement 6 hours

Minimum, 2.0 GPA in major

Minor in American Studies

Program Requirements

Hours: 21

American History - 6 hours

Choose two courses:

HIS 109 U.S. History to 1877 (3) CH
HIS 110 U.S. History Since 1877 (3) CH
HIS 200 Local History (3) CH

HIS 211 U.S. History Since 1945 (3) CH
HIS 260 19th Century American Thought And Prose (3) CL/CH
HIS 281 Women in American History (3)
HIS 385 Sea, Sail & Song: Early American Maritime History (3) CH/EXP
HIS 400 American History Seminar (3)

American Literature - 6 hours

Choose two courses:

ENG 171 Sports in Literature (3) CL
ENG 174 Meet Me at the Theatre: Mod & Contemp American Drama (3) CL
ENG 223 Cincinnati Authors (3) CL
ENG 245 African-American Writers (3) CL
ENG 260 19th-Century American Thought And Prose (3) CL/CH
ENG 276 The 20th-Century Graphic Novel (3) CL
ENG 277 Dollars & Sense: Materialism in 20th-Century American Fiction (3) CL
ENG 278 The End of the World as We Know It: Fiction After 9/11 (3) CL
ENG 280 In Their Own Voices: American Autobiography, Letters, Memoirs (3) CL

American Art, Film, Media, and Music - 3 hours

Choose one course:

ART 239 American Art: Plucky Originality (3) CAM
COM 201 New Media, Culture & Society (3) LAS
COM 359 American Film Authors (3) LAS
MUS 212 American Popular Music: From Minstrelsy to MP3 (3) CAM

American Experience - 6 hours

Choose two courses that emphasize the American experience (6)

Minimum grade of "C" in all courses for the minor.

Residency requirement: 6 hours

Minor in Creative Writing

Program Requirements

Hours: 18

Minor Required Course - 3 hours

ENG 101 Written Word (3) C

Minor electives - 15 hours

Choose from the following to total 15 hours:

COM 295 Writing for New Media Environments (3) LAS
COM 380 Newswriting I (3) LAS
ENG 290 The Story of Your Life: Writing Diaries, Memoirs & Autobiographies (3) LAS
ENG 300 Advanced Composition (3)

ENG 370 Creative Writing: Poetry (3) LAS
ENG 371 Sem Creative Writing:Poetry (3) LAS
ENG 372 Creative Writing: Fiction (3) LAS
ENG 373 Sem Creative Writing:Fiction (3) LAS
ENG 374 Screenwriting Workshop (3) LAS
ENG 388 Feature Writing (3) LAS
LIB 100 Writer's Block (1)

Choose other upper level writing courses as available and appropriate.

Students are also expected to contribute to campus publications, for example, Dateline and Lions-on-Line.

Minimum grade of "C" in all courses in the minor.

Residency requirement: 6 hours

Minor in English

Program Requirements

Hours: 21

Writing - 3 hours

Choose one from the following:

COM 295 Writing for New Media Environments (3) LAS
ENG 290 The Story of Your Life: Writing Diaries, Memoirs & Autobiographies (3) LAS
ENG 300 Advanced Composition (3) LAS
ENG 370 Creative Writing: Poetry (3) LAS
ENG 371 Sem Creative Writing:Poetry (3) LAS
ENG 372 Creative Writing: Fiction (3) LAS
ENG 373 Sem Creative Writing:Fiction (3) LAS
ENG 374 Screenwriting Workshop (3) LAS
ENG 388 Feature Writing (3) LAS

Literature - 18 hours

Choose six courses from any literature course with an ENG prefix (coded as CL or LAS), excluding those listed in the writing category above

Minimum grade of "C" in all courses for the minor.

Residency requirement: 6 hours

Program Outcomes

Course work in English at Mount St. Joseph University will expose students to literary voices from a variety of cultures and time periods, give students the tools to become critical thinkers as they engage texts and their world, give students practice in writing critically, give students opportunities to develop their creative voices, and give students practice in working with and critiquing texts other than written ones.

Course work in English at Mount St. Joseph University will:

- expose students to literary voices from a variety of cultures and time periods,
- give students the tools to become critical thinkers as they engage texts and their world,

- give students practice in writing critically
- give students opportunities to develop their creative voices
- give students practice in working with and critiquing texts other than written ones.

Minor in History

Historical study develops critical thinking, research and writing skills as well as an appreciation of the impact of the past upon the present. The study of history, because of the comprehensive nature of the subject, prepares one for a wide range of career possibilities including law, government service, teaching, business, communications, and museum and archival work.

Program Requirements

Hours: 21

Choose any seven history courses (21)

Residency requirement: 6 hours

Cumulative GPA in all courses for the minor: 2.0

Program Outcomes

Students who successfully complete the history minor will be able to:

- critically research, read and evaluate historical sources, both primary and secondary.
- write clearly and effectively when examining a historical problem or question.
- recognize the interrelationship of social, economic, political, intellectual, and cultural forces that determine and influence history.

Interdisciplinary Minor in Ethics

Program Requirements

Hours: 18

Courses selected must include 3 different disciplines (from philosophy, religious studies, communication studies, business, sociology).

COM 201 New Media, Culture & Society (3) LAS

Choose one course from the following:

ETH:PHI 240 Ethics (3) CE

ETH:REL 250 Christian Ethics (3) CE

JCG 255 Christian Social Justice (3) JCG

Choose one course from the following:

ETH:PHI 250 Health Care Ethics (3) CE

ETH:REL 252 Theological Health Care Ethics (3) CE

Choose one course from the following:

ETH:PHI 397 Ethical Conduct of Business (3) CE

ETH:REL 251 Business Ethics (3) CE

Choose one course from the following:

JCG 390 Appalachian Culture & Spirit (3) JCG/EXP

JCG 391 Cherokee Culture and Spirituality:Immersion (3) JCG/EXP

Choose one course from any of the above listed courses (3)

With prior approval from the director of the interdisciplinary minor in ethics, a student may substitute one of the above three credit courses for: another 3 credit Mount course which targets ethical issues; or 3 credits of service learning taken in combination with approved service learning courses.

Cumulative GPA in courses in minor: 2.0

Residency requirement 6 hours

Minor in Philosophy

The philosophy program emphasizes theories, their applications and influential philosophers' contributions to the arts, economics, history, politics, science, social theories, and/or developments in the field.

Program Requirements

Hours: 18

Minor Courses - 18 hours

Choose any six philosophy courses.

Cumulative GPA in courses in minor: 2.0

Residency requirement: 6 hours

Minor in Religious Studies

Religious and pastoral studies is presented as an academic discipline and as an opportunity for personal and professional growth. In its courses for the core curriculum requirements, the department provides opportunities for the student to deepen her/his critical understanding of the spiritual and specifically Christian dimension of life. On a professional level the department provides a comprehensive program to prepare laity and religious to fill the growing need in the church for religious educators and for lay pastoral ministers.

Program Requirements

Hours: 18

Minor Courses - 18 hours

ETH:REL 250 Christian Ethics (3) CE

or

JCG 255 Christian Social Justice (3) JCG

REL 100 Introduction to Christianity (3) CR

or

REL 102 Christian Scriptures (3) CR

Choose four additional Religious Studies courses to be tailored to the student's major course of study (12)

Cumulative GPA in courses in minor: 2.0

Residency requirement 6 hours

Department of Computer Science and Mathematics

Rebecca Allen, Ph.D., Program Chair

The Department of Computer Science and Mathematics offers a Computer Science major with a choice of concentration in either Social Computing or Application Development.

Social computing is a double major program, designed to infuse technology with another area of study, such as business, art, communication, education or health. Students pursuing social computing must double major in another available bachelor's degree in order to earn a social computing degree. Many double degree plans do require only four years; students should consult the computer science department for advising to map out their time at the Mount.

In addition to the major, the department offers minors in Computer Science, Data Science, Mathematics, and Web & Mobile App Development. Students interested in these programs should contact the Department of Computer Science.

Academic Progress and Standing for Computer Science Majors

To ensure timely progress toward graduation, students in the Computer Science major must demonstrate consistent academic performance in required INF, MTH, and NLP courses. The following policy outlines the expectations and consequences related to course performance and degree progress:

1. Minimum Annual Progress Requirement

Until degree program requirements are fulfilled, students must complete and earn a grade of **C or higher in at least one required INF, MTH, or NLP course each academic year** to remain in good standing within the program.

- Students pursuing a double major or experiencing extenuating circumstances may request a **one-semester extension**, provided they submit a **clear, documented plan** that demonstrates the degree can still be completed within a reasonable timeframe.
- The **Department Chair must approve this extension in writing.**

2. Consequences for Poor Performance (D, F, or W Grades)

Students earning a grade of **D, F, or W** in any required INF, MTH, or NLP course will be subject to the following progression of actions:

- **First D, F, or W:** Student receives a **warning letter** from the Department Chair.
- **Second D, F, or W:** Student is placed on **departmental probation.**
- **Third D, F, or W:** Student is **dismissed from the major.**

3. Dismissal for Lack of Progress

Students who **fail to meet the minimum progress requirements** (i.e., not completing at least one required course with a C or higher per academic year without an approved extension) may also be **dismissed from the program**, regardless of the D/F/W count.

Programs offered:

Major in Computer Science: Application Development Concentration (BS)
 Major in Computer Science: Social Computing Concentration (BS)
 Minor in Computer Science
 Minor in Data Science
 Minor in Mathematics
 Minor in Web & Mobile App Development

Major in Computer Science Application Development Concentration - Bachelor of Science Degree

Program Requirements**Hours: 59-63**

Students transferring to the Mount from another college and wishing to obtain a major in Computer Science must complete at least half of the credits for their major program through the Mount. Students cannot double major in Computer Science: Social Computing and Computer Science: Application Development.

Foundational Skills Core Courses: 24 hours

NLP 105 Practical AI and Computers I (3)
 NLP 106 Introduction to Research: Understanding Stakeholder Needs I (3)
 NLP 120 Python Programming I (3)
 NLP 125 Practical AI and Computers II (3)
 NLP 126 Introduction to Research: Understanding Stakeholder Needs II (3)
 NLP 221 Python Programming II (3)
 NLP 230 Databases and Data Analytics I (3)
 NLP 250 Web Design and Development I (3)

Application Development Concentration Courses: 24 hours

INF 255 Client-Side and Server Side Scripting I (3)
 INF 256 Client-Side and Server Side Scripting II (3)
 INF 270 Intro to Mobile Application Development (3)
 INF 325 Networks (3)
 INF 331 Databases and Data Analytics II (3)
 INF 355 Client-Side and Server Side Scripting III (3)
 INF 378 AI, Machine Learning, and Large Language Models (3)
 INF 380 Operating Systems (3)

Additional Math Training: 8 hours

MTH 193 Calculus I (4)
 MTH 320 Probability and Statistics (4)

Co-op 1-4 hours

INF 396 Co-Op:Parallel(PT) (0-3) EXP
 OR
 INF 496 Co-Op:Parallel(FT) (0-3) EXP
 OR

CED 394 Cooperative Education (0) EXP
CED 220 Foundations of Professionalism (1)

Senior Experience 2- 3 hours

NLP 350 Applied Social Computing (3)
OR
INF 400 Senior Research (1) (2 semesters of INF 400 (1 credit) taken over two semesters is required)

Program Outcomes

Students who successfully complete the Computer Science Major will be able to:

- solve complex problems effectively and efficiently.
- demonstrate knowledge and understanding of the basic concepts in their declared minor.
- demonstrate the skills necessary to design, implement and maintain a complex computing project.
- analyze issues ranging from storage, retrieval, and interpretation of information to the implementation and management of complex information systems.
- analyze how legal and ethical technology issues impact business activities such as data access, privacy, confidentiality, security, and intellectual property standards and polices.
- demonstrate their participation in professional organizations that promote responsible computing and service to society.
- develop a personal learning strategy for continuing education and lifelong learning that is independent of employer sponsorship.

Major in Computer Science with Concentration in Social Computing - Bachelor of Science Degree

Program Requirements

Hours: 42

Social computing is a double major program, designed to infuse technology with another area of study, such as business, art, communication, education or health. Students pursuing social computing must double major in another available bachelor's degree in order to earn a social computing degree. Many double degree plans do require only four years; students should consult the computer science department for advising to map out their time at the Mount.

Students cannot double major in Computer Science: Social Computing and Computer Science: Application Development.

Students transferring to the Mount from another college and wishing to obtain a major in Computer Science must complete at least half of the credits for their major program through the Mount.

Major Requirements - 27 hours

NLP courses other than NLP 105, NLP 106, NLP 125, and NLP 126 may be substituted for more advanced courses with permission.

NLP 105 Practical AI and Computers I (3)
NLP 106 Introduction to Research: Understanding Stakeholder Needs I (3)
NLP 120 Python Programming I (3)
NLP 125 Practical AI and Computers II (3)
NLP 126 Introduction to Research: Understanding Stakeholder Needs II (3)
NLP 221 Python Programming II (3)
NLP 230 Databases and Data Analytics I (3)
NLP 250 Web Design and Development I (3)
NLP 350 Applied Social Computing (3)

Content Area Courses - 15 hours

Courses for second major (200 or 300 level) (15)

Minor in Computer Science

Program Requirements

Hours: 18

Required Minor Courses - 18 hours

INF 120 Principles of Programming I (3)
INF 221 Principles of Programming II (3)
INF 230 Database Design & Development (3)
INF 324 Data Structures (3)
INF 325 Networks (3)
INF 328 Object-Oriented Analysis and Design (3)

Residency requirement: 9 hours

Minimum 2.0 cumulative GPA in those 9 hours

Minor in Data Science

Program Requirements

Hours: 23

Required Courses - 20 hours

INF 120 Principles of Programming I (3)
INF 221 Principles of Programming II (3)
INF 230 Database Design & Development (3)
INF 378 Machine Learning and Data Mining (3)
MTH 193 Calculus I (4) CMA
MTH 320 Probability/Statistics (4)

Elective: Choose one of the following - 3 hours

INF 324 Data Structures (3)
INF 331 Applied Database (3)
INF 377 Introduction to Automata (3)

MTH 220 Discrete Mathematics (3)
MTH 301 Mathematical Modeling (3)

Restriction: Computer Science students cannot use this minor as their required minor for the major since they can receive it with just one additional course. However, they can still receive the minor as a secondary minor, but only if they choose MTH 301 as their elective.

Minor in Mathematics

Program Requirements

Hours: 20-21

Minor Courses - 17 hours

INF 120 Principles of Programming I (3)
MTH 193 Calculus I (4) CMA
MTH 194 Calculus II (4)
MTH 220 Discrete Mathematics (3)
MTH 255 Introduction to Linear Algebra (3)

Choose one MTH course numbered above 255 - 3-4 hours

Residency requirement: 9 hours
Minimum 2.0 cumulative GPA in those 9 hours

Minor in Web & Mobile App Development

Program Requirements

Hours: 24

INF 120 Principles of Programming I (3)
INF 221 Principles of Programming II (3)
INF 230 Database Design & Development (3)
INF 250 Web Fundamentals & Standards (3)
INF 255 Client-Side Scripting (3)
INF 256 Server-Side Scripting (3)
INF 270 Intro to Mobile Application Development (3)
INF 355 Advanced Client-Side Scripting (3)

Residency requirement: 9 hours
Minimum 2.0 cumulative GPA in those 9 hours

School of Business & Communication

Charlene Kalenkoski, Ph.D., Dean, School of Business and Communication

- Department of Communication and New Media Studies
- Department of Undergraduate Business
- 4-1-program">4+1 Master of Business Administration (MBA)

4+1 Master of Business Administration

The mission of the Master of Business Administration (MBA) program at Mount St. Joseph University is to prepare students with the knowledge, skills, and abilities to be business professionals who are ethical, socially responsible, and make strong contributions to organizations. The 4 + 1 format allows students to complete the requirements for an MBA in one additional year after completing their undergraduate degree. Admitted students complete four MBA courses during their senior year (12 credits). These 12 credits count toward both their baccalaureate and MBA requirements, and are included in the calculation of the undergraduate and graduate grade point averages. During the "+1" (5th) year, students complete 24 graduate credits for a total of 36 graduate credits.

Admission Requirements

MBA 4+1 Track:

There are two stages to the 4+1 MBA program application process: 1) application for provisional status and 2) progression to full admission status.

Application for Provisional Status to the MBA program

Students apply for the MBA program during their junior year at the Mount. Acceptance to the 4+1 MBA program is provisional, allowing students to complete the first four courses in the MBA program during their senior year. Requirements for application to the 4+1 program are:

- Undergraduate cumulative GPA of 2.75 or above
- Graduate Admission Application
- MBA Required Foundational Courses form
- One-page, typed statement of your career goals in the next five years and how an MBA will help you in achieving those goals. (This requirement is waived for Mount students with a 3.0 GPA or higher)

Progression to Full Admission in the MBA Program

Provisionally admitted 4+1 MBA students become fully admitted, graduate degree-seeking students at the end of their senior year upon the completion of the following:

- Undergraduate cumulative GPA of 3.0 or above
- Completion of MBA foundational courses with GPA of 3.0 or above, or completion of an alternative method provided by the School of Business to demonstrate mastery of foundational areas
- Completion of the first 12 credits of the MBA program with a GPA of 3.0 or above
 - These 12 credits do not fulfill any undergraduate major requirements, but do count towards the total hours and cumulative GPA for both the undergraduate and graduate degrees.

Program Requirements

Hours: 51

Candidates for the MBA must successfully complete the 36 hours of MBA coursework with a GPA of 3.0 or above.

FOUNDATIONAL COURSES (15 credits)

ACC 213 Principles of Accounting I - Financial (3)

FIN 300 Corporate Finance (3)

MTH 174 Statistics I (3) CMA

MGL 300 Management/Org Behavior (3)

or

MKT 300 Principles of Marketing (3)

ECO 211 Principles of Macroeconomics (3)

or

ECO 212 Principles of Microeconomics (3) CEP

or

ECO 201 Economic Issues (3)

MBA PROGRAM COURSES (36 credits)

ACC 600 Managerial Accounting (3)

BUS 505 Legal and Ethical Responsibility (3)

BUS 510 Social Responsibility for Managers (3)

BUS 604 MBA Seminar I (3)

BUS 606 MBA Seminar II (3)

ECO 600 Global Economic Issues (3)

FIN 610 Managerial Finance (3)

MGT 585 Understanding and Managing Others (3)

MGT 602 Leadership in Organizations (3)

MGT 603 Project and Operations Management (3)

MGT 607 Strategic Management (3)

MKT 520 Marketing for Management (3)

For students accepted into the 4+1 MBA program as MSJ undergraduates, graduate level courses must be completed with a cumulative of 3.0 GPA or above before full acceptance into the MBA program. These 12 credits do not fulfill any undergraduate major requirements, but do count towards the total hours and cumulative GPA for both the undergraduate and graduate degrees.

Program Outcomes

- Graduates will effectively communicate business ideas in writing and in speaking.
- Graduates are able to critically evaluate, analyze, and interpret information to solve problems and make business decisions.
- Graduates will make decisions informed by ethical and social responsibilities related to business prac-

tices.

- Graduates will recognize and appreciate diversity and will have gained a global perspective grounded in an understanding of the complexity of the social environments within which organizations operate.
- Graduates demonstrate knowledge of core business functions and use appropriate technology to obtain financial and business information.
- Graduates will demonstrate effective interpersonal, group, and team skills and lead effectively in team-based environments.

Department of Communication and New Media Studies

Robert Bodle, Ph.D., Chair, Communication and New Media Studies

The Communication and New Media Studies program at Mount St. Joseph University endeavors to graduate students who are creative, ethical, and strategic in reading and writing in the new media environment. Students graduating from this program are professionals and citizens who are equipped with exceptional written, visual, oral, interpersonal, and group communication skills and knowledge to serve their communities and organizations. Program requirements consist of eight to nine experiential learning credit hours. Students are encouraged and able to earn paid experiential learning credits every semester enrolled in our program and may choose from the following concentration areas: Communication Design, Communication Leadership, Health Communication, Sports Communication, and Strategic Communication. Career outcomes pursued are in areas such as: social media marketing, sports communication and broadcasting, community relations, community affairs, non-profit communications, graphic design, meeting and event planning, public relations, corporate communications and training, public health, advocacy, and beyond. Graduates of the program also possess a deep theoretical grounding in communication theories applied in practice to the areas of research, planning, design, management, and analysis of communications in the new media environment.

Students may pursue a major in Communication and New Media Studies and earn a bachelor of arts or an associate of arts degree. They may also pursue a minor in Communication and New Media Studies.

Licensure for Teachers

Students choosing a major in communication studies who also want to pursue Ohio teacher licensure must satisfy the same requirements as the major and additional requirements in humanities and in education. The pertinent Adolescent to Young Adult License (grades 7-12) is integrated language arts. A concentration in language arts is available in the Middle Childhood Licensure (grades 4-9) program. See Education.

Department of Undergraduate Business

Lisa Crews, Ph.D., Chair, Undergraduate Business

The Bachelor of Science degrees in the Department of Undergraduate Business allow students to obtain a comprehensive business education with a specialization in accounting, financial economics, management and leadership, marketing, and sport management. Employment options include private sector careers in business as well as careers in the public sector and non-profit organizations. Students who graduate with a degree from the Department of Undergraduate Business may choose to complete graduate studies in such fields as accounting, economics, finance, business administration, organizational leadership, marketing, and law.

The Department of Undergraduate Business also offers a minor in Business Administration

Students graduating with a major or minor from the Department of Undergraduate Business must achieve a cumulative 2.0 grade point average or higher in their major or minor courses.

Credits awarded at other institutions seven (7) years prior to enrollment in a the Undergraduate Business program at Mount St. Joseph University, are subject to review by the program prior to acceptance as business credits. A minimum of 21 credit hours (200 level courses and above) must be completed in the program prior to the awarding of a baccalaureate degree to a student transferring into the school from another institution. Nine (9) of these hours must be completed in the student's chosen discipline.

Major in Accounting - Bachelor of Science Degree

Program Requirements

Hours: 66-67

Business Core - 42-43 Hours

ACC 213 Principles of Accounting I - Financial (3)

ACC 214 Principles of Accounting II - Managerial (3)

- Develop leadership competencies needed for organizational growth and change.
- Apply knowledge of leadership and management to increase efficiency and effectiveness in accomplishing organizational goals.

Minor in Sport Management

A minor in sport management provides foundational knowledge and skills needed to work in the sport industry. Coursework in the minor also affords students the opportunity to choose two content areas of interest in sport. These options include Athletic Administration, Media & Public Relations, Sport Facilities and Event Management, Sport Law, and International Sport Management.

Program Requirements

Hours: 18

The minor in sport management is for non-business majors only.

SPM 150 Introduction to Sport Management (3)
SPM 185 Historical & Socio-Cultural Dimensions in Sport (3)
SPM 240 Governance & Policy in Sport (3)
SPM 330 Sport Marketing, Promotion and Sales (3)

Choose two:

SPM 225 Principles of Athletic Administration (3)
SPM 355 New Media & Public Relations (3)
SPM 375 Sport Facilities and Event Management (3)
SPM 380 Sport Law (3)
SPM 386 International Sport Management (3)

Residency requirement: 12 hours

Minimum 2.0 cumulative GPA in those 12 hours

Program Outcomes

- Demonstrate knowledge of fundamental concepts, functions, and governance related to the sport industry.
- Demonstrate understanding of the sport industry through a sociological lens.

Major in Marketing - Bachelor of Science Degree

Program Requirements

Hours: 60-61

Business Core - 42-43 Hours

ACC 213 Principles of Accounting I - Financial (3)
ACC 214 Principles of Accounting II - Managerial (3)
BUS 210 Business Law I (3)

MKT 300 Principles of Marketing (3)
MTH 174 Statistics I (3) CMA

MTH 180 Math for Business (3) CMA
or
MTH 193 Calculus I (4) CMA

Major Requirements - 33 hours

SPM 150 Introduction to Sport Management (3)
SPM 185 Historical & Socio-Cultural Dimensions in Sport (3)
SPM 240 Governance & Policy in Sport (3)
SPM 330 Sport Marketing, Promotion and Sales (3)
SPM 380 Sport Law (3)
SPM 395 Sport Finance & Development (3)
SPM 396 Sport Management Internship (3) EXP
SPM 440 Current Issues Business of Sport (3)

Choose three of the following - (9 hours)

SPM 225 Principles of Athletic Administration (3)
SPM 355 New Media & Public Relations (3)
SPM 375 Sport Facilities and Event Management (3)
SPM 386 International Sport Management (3)
SPM 390 Contemporary Sport Leadership (3)

SPM 394 Sport Management Internship (0) may be substituted for SPM 396 Sport Management Internship (3) during the S4 academic term only. If this option is selected, students must complete an additional SPM elective (3) to satisfy SPM degree requirements.

Residency requirement: 12 credits of upper division major courses (300 and 400 level courses that are not part of the Business Core)

Program Outcomes

Graduates with a major in sport management will:

- Demonstrate knowledge of fundamental concepts, functions, and governance related to the sport industry.
- Demonstrate understanding of the sport industry through a sociological lens.
- Integrate concepts and knowledge of the sport and business disciplines to make decisions about complex sport management problems and dilemmas.
- Perform day-to-day activities and procedures required to fulfill the goals and objectives of a sport organization.

Minor in Nonprofit Management

Program Requirements

A minor in nonprofit management provides foundational knowledge and skills needed to manage and lead in the nonprofit business sector. The minor combines coursework in business, communication and new media

studies, and social work to teach students about leadership, management, public relations, grant writing, and evaluation which are necessary skills to work in nonprofit organizations.

Program Outcomes

1. Explain key management concepts and functions as they relate to nonprofit business.
2. Describe leadership theories, styles, and strategies most useful in nonprofit organizations.
3. Apply basic financial accounting skills utilized in business organizations.
4. Integrate public relations, persuasion, and media for use in a nonprofit organization.
5. Demonstrate program evaluation knowledge and grant-writing skills.

Minor Program Requirements - Non-Business Majors

Hours: 24-25* credits

Minimum 2.0 GPA in those 6 hours

School of Education

Laura Saylor, PhD., Dean, School of Education

Department of Undergraduate Education, Licensure Programs

The programs offered in the Department of Undergraduate Education prepare individuals for initial entry into the teaching profession. The programs provide learning environments in which pre-service teacher candidates can acquire the knowledge, skills, attitudes, dispositions, and values required to meet the needs of students in a dynamic and diverse society.

Only government entities have the legitimacy to grant a teaching certificate (license, qualification) directly. **In Ohio, only the Ohio State Board of Education grants licensure for teaching.** Every state reviews its own certification applications, according to its own requirements and Mount St. Joseph cannot guarantee a candidate teaching certification in other states.

Mount St. Joseph University School of Education's initial licensure programs are state-approved by the Ohio Department of Higher Education and have national certification by the Council for the Accreditation of Educator Preparation (CAEP). Mount St. Joseph University, as an institution, is accredited regionally by the Higher Learning Commission (HLC). As such, candidates who successfully complete our program are qualified to apply for an initial teaching license from Ohio, provided they meet the applicable requirements of the state board of education. Additionally, through reciprocity agreements, they may be eligible to obtain teaching certification or licensure from most other states, provided they meet the applicable licensing requirements of those states.

For clarity's sake: In the United States, whoever desires a teaching credential (license, certificate, qualification) must first successfully **complete an approved teacher preparation program in a given state, then apply directly to that state's department of education and meet all its requirements** (normally including examinations), in order to be awarded the legitimate, recognized teaching credential.

School of Education Vision Statement

The School of Education through innovative programs that are rooted in quality and rigorous research, will:

- Nurture educators who are knowledgeable, collaborative, ethical, and committed to diverse and inclusive practices
- Prepare educators to make an impact on P-12 student learning and improve the schools in which they will serve.

School of Education Mission Statement

The School of Education, aligned with the mission of Mount St. Joseph University, prepares highly qualified, collaborative, caring and reflective educators who uphold the tradition of social responsibility, academic excellence, and ethical leadership.

Core Values of the School

- We promote critical thinking and reflective practices
- We utilize the research in both education and cognitive science in preparing teachers and in supporting their advancement
- We teach students to have respect for themselves and others
- We encourage students to participate in professional development and scholarship
- We value and model ethical conduct
- We advance our collective and individual roles in understanding the importance of diversity, equity and inclusive practices

Undergraduate Student Handbook

The Department of Undergraduate Education Student Handbook is a publication that outlines specific and detailed information that all education majors and licensure candidates are responsible for knowing. The department's Student Handbook is updated each year.

Admission to the Teacher Education Programs

Admission to the University does not guarantee admission to the teacher education programs. Candidates must be officially admitted to the licensure program in the Undergraduate Department. Refer to the Student Handbook for details on the admission process and requirements.

Most students apply for admission to the teacher education programs during their sophomore year. Application packets are available in the School of Education (CL 217) and https://mymount.msj.edu/ICS/Mount_Community/Mount_Groups/Education_Licensure_Students_and_Majors/Public_Page.jnz online. It is important to complete the admission process in a timely manner. Since many of the required courses within the major require program admission, gaining official program admission will ensure that you are able to move along and make progress in your program without interruption or delay.

State Licensure Requirements

Whenever changes in Ohio Standards for the Teaching Profession and Licensure are recommended by the State Board of Education and the Ohio Department of Higher Education and passed into law by the Ohio State Legislature, requirements will necessarily be altered to comply with current standards and regulations. The programs listed in this catalog meet the most current Ohio State Board of Education standards, at the time of publication. Students should work closely with their Undergraduate Education Department advisor to stay abreast of current requirements.

The programs offered in the Department of Undergraduate Education prepare individuals for initial entry into the teaching profession. The programs provide learning environments in which pre-service teacher candidates can acquire the knowledge, skills, attitudes, dispositions, and values required to meet the needs of students in a dynamic and diverse society.

Only government entities have the legitimacy to grant a teaching certificate (license, qualification) directly. **In Ohio, only the Ohio State Board of Education grants licensure for teaching.** Every state reviews its own certification applications, according to its own requirements and Mount St. Joseph cannot guarantee a candidate teaching certification in other states.

The majors available at the Mount that offer licensure are:

- Middle Childhood Education
- Secondary Education (Adolescent to Young Adult Education) in Math or Science (working with students in grades 7-12)
- Special Education (K-12) and Primary (P-5) Major Dual License

These licensure programs are also available:

- Secondary Education (Adolescent to Young Adult Education) in Social Studies or English (working with students in grades 7-12)

Student Teaching Requirements

Student Teaching is a major component in every licensure program. To be eligible for student teaching, the candidate must:

1. Earn a grade of "C" or higher in all courses required for licensure and a grade of "B" or higher for methods courses.
2. Courses offered through the Department of Undergraduate Education must be successfully completed at the university with no more than two graded attempts.
3. Apply by the posted deadline.
4. Maintain a 2.8 cumulative GPA on a 4.0 scale.
5. Verify AED/CPR, First Aid, and SafeParish (for Catholic placements) certifications.
6. Complete all required field clinical experience hours.
7. Obtain advisor's and clinical placement director's approval.
8. Meet finger-printing/background check requirements.
9. Obtain and hold a Pre-Service Teacher Permit from the State Board of Education.
10. Follow the School of Education's Ohio Assessments for Educators (OAE) Testing Policy approved in August 2022. Copies of the current OAE Testing Policy can be found in the School of Education offices. It is the student's responsibility to read, understand, and follow this policy, and adhere to the testing schedule for their particular program. Check the Ohio State Board of Education web site for current information on required tests and qualifying scores.

11. Meet Professional Performance Standards as defined by the School of Education in the following areas: rapport, reliability, and responsibility.

Middle Childhood Education

The Middle Childhood Education program at Mount St. Joseph University is both a major and a license which prepares individuals to meet the needs of students in grades four through nine. The student receives a liberal arts and sciences education in support of specific course work and field experiences at the middle grades level. The teacher education program is developmentally based and offers the preprofessional in-depth study in two concentration areas (selected from language arts, mathematics, science and social studies).

The program is accredited by the Council for the Accreditation of Educator Preparation (CAEP)) and approved by the Ohio Department of Higher Education (ODHE). Licensure is granted by the Ohio State Board of Education (SBOE).

Preprofessional teachers who complete the middle childhood course work and field work are uniquely qualified to teach at the middle school level in two content areas.

Middle Childhood Major & Licensure (grades 4-9) - Bachelor of Arts Degree

PHY 105 Physical Science L/L (4) CN

Choose one course from the following:

BIO 131 Basic Human Anatomy and Physiology (4) CN
PHY 130 Astronomy Lecture & LAB (4) CN

Mathematics - 17 hours

MTH 172 Mathematics for Early Childhood and Special Educators (3) CMA
MTH 174 Statistics I (3) CMA
MTH 180 Math for Business (3) CMA
MTH 187 Precalculus, Algebra, and Trigonometry (4) CMA
MTH 193 Calculus I (4) CMA

In order to declare Math as an MCE content area, students placed in MTH 098 must earn an "A" and/or an "A" or "B" in MTH 099; students must first pass MTH 187 with a grade of "C" or better.

Program Outcomes

Teacher Competencies

The School of Education has developed the following five teacher competencies describing the knowledge, skills, and dispositions that each teacher candidate will have upon completion of any licensure program.

1. **Content knowledge** - The candidate articulates accurate subject matter and applies that knowledge in planning and presenting lessons aligned with content standards.
2. **Learner characteristics** - The candidate incorporates knowledge of how students learn and how diverse experiences affect learning when planning and presenting lessons aligned with content standards.
3. **Instructional strategies** - The candidate applies a variety of scientifically-based, data-driven instructional strategies based on learning goals, assesses student's progress toward these goals, and differentiates instruction based on students' needs and assessment results.
4. **Learning Environment** - The candidate creates and manages a learning environment that encourages active, engaged learning and respect for others.
5. **Professional responsibilities** - The candidate engages in reflective practice, promotes collaboration among peers, families, and communities, and takes on opportunities for professional development.

Major in Education Studies, Non-Licensure Program, Concentration in Curriculum and Instruction (BA)

The Department of Undergraduate Education at Mount St. Joseph University offers a major in Educational Studies with a Concentration in Curriculum and Instruction for students who have an interest in eventually

earning a teaching license, but not as a part of their bachelor's degree. The program involves a solid foundation of liberal arts and education courses, with flexibility for completing the degree in a timely and convenient fashion. Graduates with this degree may progress into careers such as: disability services, family and children services, program development for corporations and nonprofits, adult education, and community outreach. This degree program can be built as a pathway towards eventual teacher licensure.

Program Outcomes

Students who successfully complete the educational studies major with a Concentration in Curriculum and Instruction will:

- Utilize professional communication and collaboration to address problems.
- Use social, cultural, political, and historical perspectives to critically analyze educational policies, structures and practices.
- Reflect on experience in relation to principles of effective teaching and learning to address a selected issue.
- Evaluate educational policies, structures and practices in terms of making learning accessible to diverse learners.
- Make ethically responsible decisions based on discerning the needs of others and using relevant information

Secondary Education Licensure (grades 7-12), English or Social Studies

The Department of Undergraduate Education at Mount St. Joseph University offers Adolescent to Young Adult Education Licensure programs to those who are interested in using their arts or sciences degree to teach at the 7th through 12th grade. The Adolescent to Young Adult Education licensure programs at the Mount are accredited by the Council for the Accreditation of Educator Preparation (CAEP), use approved specialized professional association curriculum guidelines, and are approved by the Ohio Department of Higher Education (ODHE). Licensure is granted by the Ohio State Board of Education (SBOE).

At Mount St. Joseph University, teacher candidates must meet the Core Curriculum requirements of the University while completing prescribed course work in their major area of study. They also take a block of professional education courses that provide a strong framework in the philosophy, theory and practice of teaching. Teacher candidates are instructed in best practice according to the guidelines of the learned society for each discipline. The Adolescent to Young Adult Education Licensure programs offered at Mount St. Joseph University are:

- Integrated Language Arts
- Integrated Social Studies

Program Outcomes

Teacher Competencies

The School of Education has developed the following five teacher competencies describing the knowledge, skills, and dispositions that each teacher candidate will have upon completion of any licensure program.

1. **Content knowledge** - The candidate articulates accurate subject matter and applies that knowledge in planning and presenting lessons aligned with content standards.
2. **Learner characteristics** - The candidate incorporates knowledge of how students learn and how diverse experiences affect learning when planning and presenting lessons aligned with content standards.
3. **Instructional strategies** - The candidate applies a variety of scientifically-based, data-driven in-

structional strategies based on learning goals, assesses student's progress toward these goals, and differentiates instruction based on students' needs and assessment results.

4. **Learning Environment** - The candidate creates and manages a learning environment that encourages active, engaged learning and respect for others.
5. **Professional responsibilities** - The candidate engages in reflective practice, promotes collaboration among peers, families, and communities, and takes on opportunities for professional development.

Special Education (K-12)/Primary (P-5) Dual Major (BA) & Licensure

The Special Education (K-12) and Primary (P-5) Dual Licensure program is based on preparing candidates to teach in general education early childhood classrooms (P-5) and as Intervention Specialists to work in a variety of settings in order to meet the needs of students with learning or behavioral needs (grades K-12). The University offers special education licensure in the areas of Mild/Moderate and Moderate/Intense Intervention Specialist.

The Intervention Specialist is critical in supporting students in inclusive settings. This program ensures that the teacher candidate is prepared to work in collaborative and consulting roles in general education settings, as well as in cross categorical special education settings. The Primary (P-5) Educator will prepare candidates to work with all children between the ages of 3 through 10 (Prekindergarten to grade 5), and with their families, other professionals, and representatives from community agencies.

The program of study for Special Education (K-12) and Primary (P-5) Dual Licensure prepares the teacher candidate to assess the needs and to provide a high quality education for general education students and for students with exceptionalities. The program is accredited by the Council for the Accreditation of Educator Preparation (CAEP), approved by the Ohio Department of Higher Education (ODHE) and follows the science of reading guidelines set forth by the State of Ohio. Licensure is granted by the Ohio State Board of Education (SBOE). It also incorporates adaptive and instructional technology training throughout the course work.

Students will major in Special Education/Primary and select one of the five concentrations below:

Concentration 1 leads to Ohio licensure in these three areas:

- Primary (P-5)
- Intervention Specialist Mild to Moderate (K-12)
- Intervention Specialist Moderate to Intense (K-12)

Concentration 2 leads to Ohio licensure in these two areas:

- Primary (P-5)
- Intervention Specialist Mild to Moderate (K-12)

Concentration 3 leads to Ohio licensure in one area:

- Primary (P-5)

Concentration 4 leads to Ohio licensure in these two areas:

- Intervention Specialist Mild to Moderate (K-12)
- Intervention Specialist Moderate to Intense (K-12)

Concentration 5 leads to Ohio licensure in one area:

- Intervention Specialist Mild to Moderate (K-12)

Spec Ed (K-12) and Primary (P-5) Major Dual License - BA Degree - Concentration 1

Major in Education Studies, Non-Licensure Program, Concentration in Community Education and Engage- ment (BA)

The Department of Undergraduate Education at Mount St. Joseph University offers a major in Educational Studies with a Concentration in Community Education and Engagement for students who are interested in education, but not formal classroom teaching. The program involves a solid foundation of liberal arts and education courses, with flexibility for pursuing electives, a minor or even a dual major in an area of interest. Graduates with this degree may progress into careers such as: disability services, family and children's services, program development for corporations and nonprofits, adult education, and community outreach. This degree program does not lead to teacher licensure.

Program Outcomes

Students who successfully complete the educational studies major with a Concentration in Community Education and Engagement will:

- Utilize professional communication and collaboration to address problems.
- Use social, cultural, political, and historical perspectives to critically analyze educational policies, structures and practices.
- Reflect on experience in relation to principles of effective teaching and learning to address a selected issue.
- Evaluate educational policies, structures and practices in terms of making learning accessible to diverse learners.
- Make ethically responsible decisions based on discerning the needs of others and using relevant information

School of Health Sciences

Darla Vale, Ph.D., RN, Dean of Health Sciences

The School of Health Sciences offers baccalaureate degrees with majors in health and exercise science, nursing and speech, language, and hearing sciences.

- Department of Exercise Science and Integrative Health
- Department of Nursing

- Department of Speech, Language, and Hearing Sciences
- Department of Social Work

Department of Exercise Science and Integrative Health

Darla Vale, PhD, RN, Dean of Health Sciences
Robert Charles-Liscombe, Ed.D., ATC, Chairperson

The mission of the Department of Exercise Science and Integrative Health at Mount St. Joseph University is to educate compassionate and culturally competent exercise science and fitness professionals dedicated to providing high-quality, person-centered care that optimizes health, wellness, and human performance.

Graduates will be recognized for their expert clinical skills, professionalism, commitment to life-long learning, and compassion for the well-being of all persons and the communities they serve.

The department offers the Bachelor of Science degree in Health and Exercise Science and a minor in Exercise Science and Fitness. The department also offers elective physical activity classes recognizing the impact that exercise and lifelong fitness will have on each student's academic success, overall health, and well-being.

Students interested in pursuing a career in Athletic Training are encouraged to pursue the combined Bachelor of Science in Health and Exercise Science - Master of Athletic Training 3+2 Concentration. Articulation agreements with CAATE accredited graduate athletic training programs at other institutions have been developed for this concentration.

Description of the Major

The Health and Exercise Science major provides foundational scientific knowledge and clinical applications to enhance wellness, quality of life, and physical activity across the lifespan. The curriculum encompasses a biopsychosocial model of health with an expanded emphasis on analyzing physical activity and prescribing exercise to improve health and optimize human performance. Our program prepares students to enter careers in the health, fitness or sports performance industries. With the selection of prerequisite coursework, graduates may pursue admission to a variety of graduate programs. These include, but are not limited to athletic training, behavioral and mental health, chiropractic medicine, kinesiology, nursing, occupational therapy, physical therapy, physician assistant studies, and public health programs.

The program has three concentrations:

1. Clinical Exercise Science: focusing on exercise prescription for moderate to high risk patients and special populations and preparation for graduate studies in a health-related field.
2. Sport Performance and Active Aging: focusing on exercise prescription and performance enhancement across the lifespan.
3. Master of Athletic Training 3+2: combines the Health and Exercise Science degree (BS) with the Master of Athletic Training degree to complete both degrees in 5 years.

Clinical Exercise Science Concentration

This concentration prepares students for entry-level careers in clinical exercise settings. In addition, students have the opportunity to prepare for graduate programs in a health-related field. Common careers include: cardiac rehabilitation specialist, clinical exercise physiologist, or an exercise specialist in a medical fitness facility. Graduates are prepared for nationally recognized credentials in personal training and weight management.

Common graduate programs: Athletic training, chiropractic medicine, nursing, occupational therapy, physical therapy, or physician assistant studies.

Sport Performance and Active Aging Concentration

This concentration focuses on the development of knowledge and skills to design and implement exercise programs across the lifespan. Common career industries: Community and corporate fitness, group exercise instruction, personal training, strength and conditioning, sport coaching, or wellness coaching. Graduates are prepared for nationally recognized credentials in strength and conditioning, sports performance, personal training, group exercise and fitness instruction, and weight management.

Common graduate programs: Athletic training, exercise science, exercise physiology, kinesiology, and public health.

Master of Athletic Training 3+2 Concentration

This concentration combines sports, medicine, health, disease and injury prevention, health behavior change, and exercise prescription allowing students to earn both degrees in 5 years. Students complete the university core curriculum, health and exercise science core requirements, and athletic training specific graduate prerequisites. Students may apply to one of three local programs for early admission with 93 credit hours. Successful completion of the first year at the CAATE accredited AT program fulfills the remaining graduation requirements for the BS degree.

Common career industries: Athletic programs, student wellness centers, outpatient rehabilitation clinics, military and tactical medical services, performing arts, worksite wellness and occupational health settings, family medicine and orthopedic physician practices, and the fitness industry.

Program Outcomes

Upon completion of the Health and Exercise Science major, the graduate will be able to:

1. Identify how physical activity and exercise impact health and well-being across the lifespan.
2. Collect, interpret, and summarize health and exercise science research topics and data.
3. Assess individual and community factors affecting physical activity, health, well-being, and quality of life.
4. Design and implement physical activity, fitness, performance enhancement, and/or health promotion strategies, interventions, and programs.

Minor in Exercise Science & Fitness

The Exercise Science and Fitness (ESF) Minor provides students with scientific and applied knowledge in the areas of prevention, physical activity, physical fitness, and human performance across the lifespan.

The program emphasizes:

- anatomic, biomechanical, and physiological principles of kinesiology and human performance,
- identification and assessment of individual differences and specialized needs for health and fitness,
- selection and implementation of scientifically validated and population appropriate fitness interventions, and
- interprofessional roles and responsibilities in developing and administering physical fitness and performance enhancement programs.

Students integrate laboratory experiences with service to the community to promote physical activity as an essential component of health, well-being, and quality of life. Program graduates have the knowledge, skills, and abilities to successfully challenge the National Strength and Conditioning Association (NSCA) certifying examinations in strength and conditioning (CSCS) and personal training (NSCA-CPT).

Department of Nursing

Darla Vale, Ph.D., RN; Dean of Health Sciences

Kristin Clephane, DNP, RN, CPN; Assistant Dean of Nursing, Chair of Nursing

Sandy Matthias, MSN, RN; Program Director

The outstanding reputation of the Mount's baccalaureate degree in nursing is built upon a century of experience in preparing students as professional practitioners of nursing. Graduates of our Nursing program assume prominent roles in all areas of nursing and health care delivery systems across the United States and throughout the world.

The mission of the BSN programs is to prepare students as professional nurses who integrate the liberal arts and sciences with the knowledge and skills essential for patient centered nursing practice. Graduates are caring, ethical health care providers who support the dignity of others and promote holistic, evidence-based practice in a variety of settings. The Nursing programs are fully accredited by the Commission on Collegiate Nursing Education, 655 K. Street, NW, Suite 750, Washington, D.C. 20001, Phone (202) 887-6791, Fax (202)887-8476 The programs provide the learning environment for students' development of competencies in assessment, communication, critical thinking, decision-making, problem solving, and therapeutic nursing interventions across the lifespan. These concepts and principles are integrated throughout the students' educational program and form the basis for a value centered approach to caring for individuals, families, aggregates, populations-at-risk, and communities.

Program of Studies

The pre-licensure BSN has as its major focus the preparation of students for initial entry into the professional practice of nursing.

For admission into this competitive program, students must first be accepted by the University and meet the admission requirements for the Nursing Program. Since a strong background in science is important for nursing students, high school courses in general science, biology, and anatomy and physiology are recommended. All individuals seeking admission to the Nursing Program must have completed a course in high school chemistry or its equivalent as well as algebra I and II and receive a grade of "C" or higher.

Bachelor of Science in Nursing Degree/Pre-licensure Program

Admission & Progression Requirements for the Bachelor of Science in Nursing Program

TRADITIONAL STUDENTS: (out of high school less than four years) the nursing department evaluates applicants from a holistic perspective and considers a strong applicant one who meets the following criteria for the Nursing Program:

- ACT score of 21 or higher/SAT score of 1070 or higher (recommended).
- High school cumulative GPA of 3.0 or higher.
- Successfully completed high school chemistry, algebra I and algebra II with a "C" or higher.
- Taken a rigorous high school college prep course load that may include honors, advanced placement, or dual-credit options.
- Placed above Intermediate Algebra (MTH 098)

Students must submit their official high school transcript and application to the University in order to be considered for the Nursing Program.

TRADITIONAL TRANSFER STUDENTS (out of high school less than four years) must have:

- Submitted official transcripts from all high school and previous colleges/universities attended
- College cumulative GPA of 2.8 or higher
- Passed chemistry with a "C" or higher in high school and/or college
- Placed above Intermediate Algebra (MTH 098)

ADULT, FIRST-TIME COLLEGE STUDENTS

- Submit "official" transcripts from all high schools attended.
- Submit a 1-page type-written essay describing rationale and goals for entering the BSN Program
- Place above Intermediate Algebra (MTH 098)

*ADULT students with no prior college work will be evaluated based on high school credentials.

ADULT TRANSFER STUDENTS

- Submit official college transcripts for all previous college/university course work
- Possess a cumulative college GPA of 2.75 or higher
- Place above Intermediate Algebra (MTH 098)
- Submit a 1-page type-written essay describing rationale and goals for entering the BSN Program.

Change of Major Students

Currently enrolled non-nursing MSJU students may apply to the Clinical Nursing Program. Students who meet the admission criteria for the Clinical Nursing Program detailed below, will be considered based on space availability.

All previous college/university coursework will be considered for failures and withdraws in Category I, Category II and Category III nursing courses for acceptance to the Nursing program.

**In order to enroll in CHE 104/104A, the student must have passed high school chemistry or its equivalent with a "C" or higher and score a "C" on the placement test.

Requirements for Progression into the Clinical Nursing Program:

In order to progress into clinical nursing coursework, students will need to meet the criteria described below:

- Completed 28 credit hours
- Cumulative GPA of 2.80 or higher (all previous college/university coursework is included in calculating GPA)
- Completed the required Category I or Pre Clinical Courses with a "C" or higher in (listed below):

1. PSY 103: Introduction to Psychology
 2. SOC 103: Our Social World
 3. BIO 197/197A: Human Anatomy & Physiology for the Health Sciences 1
 4. BIO 198/198A: Human Anatomy & Physiology for the Health Sciences 2
 5. CHE 104/104A**: General, Organic and Biochemistry
 6. NUR 100: Health Promotion
- CHEM 104/104A/104R -Recommended Chemistry course for nursing students
 - CHEM 111/111A/111R accepted if on transcript upon admission
 - Currently enrolled nursing students will take CHEM 104/104A/104R if they do not have a CHEM 104/104A/CHEM 104R or CHEM 111/111A /111R equivalent course with a '‘C' or higher grade on the transcript.

Students who have not met the above stated requirements for progression by the end of the summer semester preceding the following fall semester will be considered for fall admission, pending clinical spot availability. Priority will be given to students directly admitted to the program and those who have completed requirements by the spring semester preceding the following fall semester.

Note: If a student (Mount and/or non-Mount transfer students) earns less than a "C" in any Category I (pre-clinical) course or has a GPA of less than 2.8, the student will need to reapply the following year. The Category I course must be repeated. If a grade of less than a "C" is earned a second time, or if the student earns less than a "C" in another Category I course, the student is not eligible for progression into the clinical nursing program.

Students who withdraw from more than one Category I or equivalent course will be denied admission to the Clinical Nursing Program

***To enroll in clinical courses, students must have successfully completed both a Criminal Background check performed by a service designated by the Department of Nursing and a drug screening with negative results.

Requirements for Continuing Enrollment in the Clinical Nursing Program

To continue enrollment in the Clinical Nursing Program, the admitted student must complete each Category II Support course and Category III nursing course with a grade of "C" or higher and maintain a cumulative GPA of 2.8/4.0.

Students accepted into the Clinical Nursing Program are permitted one (1) course withdrawal while completing the nursing curriculum (i.e., Category II/III). If more than one-course withdrawal occurs in the same semester, this will count as a single course withdrawal.

Currently enrolled students, please see the BSN Student Handbook for more details.

or
ETH:PHI 250 Health Care Ethics (3) CE

PSY 204 Lifespan Development (3)
MTH 174 Statistics I (3) CMA

Program Outcomes

The graduate of the baccalaureate nursing program is able to:

- implement effective, culturally sensitive therapeutic interventions based upon assessment data
- communicate effectively with individuals, families, groups and populations

- employ critical thinking to make competent decisions
- develop caring relationships with clients from diverse populations
- apply principles of leadership and management while working in interdisciplinary teams
- exercise professional, legal, ethical, social and political responsibilities
- use information literacy to provide evidence-based care

Department of Speech, Language, and Hearing Sciences

Erin Redle Sizemore, Ph.D., CCC-SLP, Chairperson

The Bachelor of Science degree with a major in speech, language, and hearing sciences is blended with the Mount's broad liberal arts foundation to prepare students for a variety of careers. The curriculum integrates a sequence of interdisciplinary courses designed to provide a thorough understanding of normal human communication processes in children and adults, in addition to various disorders associated with these processes.

A master's degree is the entry-level degree for professional clinical practice in speech-language pathology, and a clinical doctorate is the entry level degree for audiology. Thus, for many students, an undergraduate major in speech, language, and hearing sciences is a pre-professional degree. The program incorporates guided clinical opportunities where students can gain the skills and experiences needed for admission and success in graduate studies.

Students pursuing an undergraduate degree in Speech, Language, and Hearing Sciences program may be eligible for the Combined 3+2 program here at the Mount. For those students who meet the eligibility requirements the 3+2 program provides a clear pathway to graduate studies and reduces the time/semesters to completion of the master's degree. Eligible students apply to the MSLP program in their junior year and begin the program prior to completing their bachelor's degree. Thirteen credits (13) from the MSLP coursework are used to meet the requirements of the bachelor's program in Speech, Language, and Hearing Sciences and the bachelor's degree is typically granted after the first summer of the graduate program.

Major of Speech, Language, and Hearing Sciences - Bachelor of Science Degree

Program Requirements

Hours - 63

Major Courses - 34 hours

SLH 101 Intro to Speech, Language, and Hearing Sciences (3)
 SLH 207 Anatomy and Physiology of Speech and Hearing with Lab (4)
 SLH 207A Anatomy and Physiology of Speech and Hearing (LAB) (0)
 SLH 210 Neuroscience and Communication Behavior with Lab (4)
 SLH 210A Neuroscience and Communication Behavior (LAB) (0)
 SLH 220 Speech and Language Development (3)
 SLH 221 Seminar in Speech Language Pathology and Audiology I (1)
 SLH 233 Phonetics (3)
 SLH 310 Introduction to Audiology (3)

SLH 320 Science of Speech and Hearing (3)
SLH 321 Seminar in Speech Language Pathology and Audiology II (1)
SLH 410 Research in Speech, Language, and Hearing Sciences (3)
SLH 411 Senior Seminar in Speech, Language, and Hearing Sciences (3)
SLH 420 Evaluation and Treatment of Speech and Language Disorders (3)

Required Related (cognate) Courses - 29 hours

ASL 101 Beginning American Sign Lang. I (3) LAS
ASL 102 Beginning American Sign Lang.II (3) LAS
BIO 197 Human Anatomy and Physiology for the Health Sciences I (4) CN
BIO 197A Human Anatomy and Physiology for the Health Sciences I (LAB) (0) CN

CHE 105 Chem for Everyday Living (4) CN
or
PHY 201/201A General Physics I with Lab (4) CN

MTH 174 Statistics I (3) CMA
PSY 103 Introduction to Psychology (3) CEP
PSY 204 Lifespan Development (3)
RDI 215 Theoretical Perspectives and Foundations in Literacy (3)
RDI 330 Phonics and Linguistics (3)

Program Outcomes

Upon completion of the program the graduate will:

1. Apply the knowledge of basic neurologic, physiological and communicative development across the life span.
2. Identify key anatomical, physiological and neuroscience alterations that occur in human communication disorders.
3. Describe the social, emotional and cultural impacts of communication differences and disorders on individuals and families.
4. Demonstrate emerging clinical skills related to speech, language, and hearing sciences.
5. Engage in reflective practice from experiential learning related to speech, language, and hearing sciences.

MSLP 3+2 Program

The Master of Speech-Language Pathology (MSLP) education program in speech-language pathology (residential) at Mount St. Joseph University is a Candidate for Accreditation by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association, 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071 or 301-296-5700. Candidacy is a "preaccreditation" status with the CAA, awarded to developing or emerging programs for a maximum period of 5 years.

Admission Criteria

The specific requirements for the MSLP program through the 3+2 pathway include:

- 3.3 cumulative GPA

- B (3.0) or better in all SLH courses
- C (2.0) or better in required/related major courses
- No instances of academic misconduct or academic probation
- Meet the technical standards of the profession
- Completed a minimum of 107 credit hours prior to beginning graduate-level coursework
- Complete CSDCAS application for the MSLP program

Additional MSLP 3+2 Information:

- Students must have completed 107 undergraduate credit hours to begin the MSLP graduate coursework, including all other general requirements required by the University (e.g. Core Curriculum requirements, Experiential Learning, Capstone, etc.)
- Students are classified as undergraduate students while they complete the required courses (including graduate level courses) of the Bachelor of Science in Speech, Language, and Hearing degree
- Students completing the 3+2 program will transfer the specified 13 hours of MSLP coursework completed in the fourth year into the graduate program (9 completed Fall Semester, 4 completed Summer Semester).
- The grades for MSLP coursework do contribute to the undergraduate cumulative or major grade point average and are transferred as part of the graduate record.
- Students will complete their Bachelor of Science in Speech, Language, and Hearing requirements the summer after beginning the MSLP program. Should a student desire, he or she would be eligible to participate in the Spring graduation ceremony. To receive the undergraduate degree, students must follow all University procedures for graduation.

The following courses must be completed with at least a C grade to meet the credit hour and curriculum requirements for the Bachelor's in Speech, Language, and Hearing Sciences.

- SLP 510 Research Methods and Application (3 credit hours; meets the requirement for SLH 410)
- SLP 531 Simulation & Integration I (3 credit hours; meets the requirement for SLH 420)
- SLP 533 Simulation & Integration III (2 credit hours; combined with SLP 544 meets the requirement for SLH 411)
- SLP 542 Speech Sound Disorders (3 credit hours, transfers as an elective course)
- SLP 544 Fluency & Counseling (2 credit hours; combined with SLP 533 meets the requirement for SLH 411)

Department of Social Work

Jennifer Withrow, Ed.D., Chairperson

The Social Work program prepares students to become a part of the large body of Licensed Social Work professionals nationwide. The core values of the Social Work profession, service, social justice, dignity/worth of the person, importance of human relationships, integrity, and competence are embedded in courses of this

major. Social Work focuses on prevention, intervention, and advocacy at the individual, local/state, and governmental level to advance the social work principals for all people.

The Department offers a major in social work; minors in social work and addictions studies.

Social Work

Students majoring in social work learn to appreciate the cultural and human diversity in society through classroom experience and field work. Faculty in the social work department maintain active ties to community agencies that address a variety of issues including health, aging, substance abuse, and mental health services.

The Social Work program provides preparation for entry-level professional, generalist social work practice. The baccalaureate program is designed to develop practitioners who have the knowledge, values and skills to work with a wide variety of people in a range of organizational settings. This professional program is built upon a liberal arts foundation.

The program has been accredited by the National Council on Social Work Education, 1725 Duke St., Alexandria, Virginia 22314, (703) 683-8080, since 1991. A chapter of Phi Alpha, a national social work academic honor society, was established on campus in 1996. Graduates of the program are eligible for Social Work Licensure in Ohio and other states with similar license requirements.

Social work is a challenging and exciting profession which provides the opportunity for individuals to contribute to the amelioration of social problems. Social work faculty are committed to preparing competent and dedicated generalist social work practitioners.

The curriculum includes two fieldwork courses during the senior year in which students spend sixteen hours per week in a social agency under the supervision of a professional practitioner. Students are placed in social service agencies such as, but not limited to: mental health organizations, nursing homes, hospitals, and domestic violence/crisis settings, community service agencies, and in foster care/youth programs in the Greater Cincinnati, Northern Kentucky, Southern Indiana regions.

Acceptance into the program is based upon:

- the completion of the prerequisite courses plus SWK 220 with a grade of "C" or better and a minimum cumulative GPA of 2.3.
- the completion of 100 hours of community service through either a prior volunteer, co-op, internship, or paid position in a social/health agency within the past five years or enrollment in two Service Learning courses (explained below in italics) taken concurrently with either social work or related courses, or a combination of the two. If the student has completed a total of 100 hours of volunteer, co-op, internship, or paid work in a social/health agency, then the student should submit a signed letter from that agency. The letter should state the time period in which the student served the agency and the overall quality of the student's work. The letter should be on agency letterhead.

Service Learning is a Program that is attached to your Social Work and Liberal Arts courses that enable you to earn up to three free credits. This experience will help to give evidence of your readiness to enter a professional program. Since professional social workers must follow the NASW Code of Ethics, a person considering social work as a field must be sure that his/her own personal values are consonant with the professional value system.

- the completion of a personal essay submitted to the program director which demonstrates potential for the social work profession. Guidelines for the personal essay admission requirement are distributed in the Introduction to Social Work course and in the "Review of Application for Admission Requirements" section of the Social Work Student Handbook. Students should complete the essay by the end of the

semester in which they are enrolled in the course. The instructor of the introductory course and the Program Director will read the essay.

Major in Social Work - Bachelor of Arts Degree (Optional Child Life Specialist Concentration)

Program Requirements

Hours: 69

Major courses - 50 hours

SWK 220 Introduction to Social Work (3)
SWK 223 Social Policies and Issues (3)
SWK 233 Ethics and Social Welfare (3)
SWK 317 Interdisciplinary Approach to Diversity and Social Justice (3)
SWK 322 Human Behavior and the Social Environment I (3) *
SWK 323 Human Behavior and the Social Environment II (3) *
SWK 327 Interviewing and Assessment (3)
SWK 328 Group Approach/Problem Solving (3)
SWK 329 Organizational/Community Development (3)
SWK 330 Fieldwork I & Seminar (5) EXP
SWK 360 Case Management in the Helping Professions (3)
SWK 375 Social Research I (4) *
SWK 377 Evaluation, Research and Grantsmanship (3)
SWK 400 Senior Thesis (3)
SWK 432 Fieldwork II & Seminar (5) EXP

Cognate Courses - 19 hours

BIO 131 Basic Human Anatomy and Physiology (4) CN *
MTH 174 Statistics I (3) CMA

PSY 103 Introduction to Psychology (3) CEP

or

PSY 103H HON:Intro Psychology (3) CEP

Residency Requirement: 36 Hours

Cumulative GPA of 2.0 or higher

Social Work Major Child Life Specialist Concentration (optional)

Required Courses in addition to above Social Work major courses (*) noted

CHL 230 Introduction to Child Life (3)

CHL 240 Therapeutic Play (3)

BIO 130 Medical Terminology (2)
PSY 205 Child/Adolescent Development (3)

Core Course Requirements

ETH:PHI 240 Ethics (3) CE
REL 215 Life Through Death (3) REL

Co-op/ CCHMC practicum recommended (3)

Program Outcomes

Students who successfully complete the social work major will be able to:

- work with client systems of all sizes, to work in varied social contexts of social work practice and to recognize changing practice of these contexts.
- appreciate and work with diverse groups, especially minorities who are present in the Cincinnati area.
- promote social work knowledge development.
- practice this learned social work knowledge and provide leadership for social work agencies.

Minor in Addictions Studies

Program Requirements

Hours: 18

Minor Required Courses - 18 hours

SWK 313 Addiction: The Foundation I (3)
SWK 314 Addiction: The Foundation II (3)
SWK 315 Addiction: Stopping Before It Starts (3)
SWK 316 Addiction: Brain, Body, and Relationships (3)
SWK 327 Interviewing and Assessment (3)
SWK 328 Group Approach/Prob Solving (3)

Residency requirement: 6 hours

Minor in Social Work

Total Hours - 18 hours

Required - 9 hours

SWK 220 Introduction to Social Work (3)
SWK 223 Social Policies and Issues (3)
SWK 317 Interdisciplinary Approach to Diversity and Social Justice (3)

Elective - 9 hours

9 hours of Social Work courses.

Cooperative Education

Amanda Meeker, Director

Cooperative Education (Co-op) is a unique educational program open to all baccalaureate degree students in every major. It complements academic programs by integrating theory with practice. Qualified students are eligible to work in positions related to their academic majors, majors or desired career paths. Co-op positions are typically paid, though unpaid experiences are considered on a case-by-case basis. These work experiences are coordinated by the cooperative education staff and departmental faculty coordinators who counsel and monitor student learning. Students earning credit establish written goals for their work experience and set specific learning objectives each semester. The student's work performance is evaluated each semester by the faculty coordinator and the employer. Evaluation of work performed is on a pass/fail basis. Students can apply up to 9 co-op hours towards their degree; individual programs may further restrict the number of co-op hours that can apply towards a major.

Cooperative education at the Mount is a year-round program, with co-op credit offered in fall, spring, and summer. Work assignments are typically the full semester, or at least 12 weeks in length.

Students work with the Career & Experiential Education Center staff to secure co-op positions that are based on expressed career interests, academic performance and available positions. Employers make hiring decisions through a competitive interview process and establish a rate of pay and work schedule. Compensation for work performed is paid directly to the student.

Requirements for Cooperative Education

Prerequisites:

CED 220 Foundations of Professionalism (1)

Corequisite enrollment permission will be granted on a case-by-case basis

- Enrollment in a baccalaureate degree program.
- Approval of department
- Adequate time to dedicate to work experience (see table below).

Course	Credit Hours	Minimum Total Required Work Hours	Recommended Hours Per Week
CED 394/494	0	60	5
CED 396/496	1	60	5
CED 396/496	2	120	10
CED 396/496	3	180	15

Honors Program

The Honors Program at Mount St. Joseph University is a close-knit community of inquisitive, highly-motivated students and experienced faculty representing the full spectrum of liberal arts and professional curricula. Together they tailor a variety of personalized learning experiences designed to deepen intellectual

inquiry and further sharpen the habits of mind foundational to the University's mission, emphasizing excellence in academic endeavors, integration of life and learning, diversity of cultures, and service to others. Members of the community challenge one another to see connections among these perspectives and to apply them to the individual and common good.

How to Apply

To join the Honors Program, all eligible students should enroll in CORE 115H, the Honors section of Common Ground. At the midterm point of the course, students are invited to complete the application process, which includes a faculty recommendation and submission of a writing sample.

If all sections of CORE 115H are filled, eligible students or their advisor should contact the Director of the Honors Program so that the student can be registered in another appropriate first-year Honors course.

Honors students can major in any offered undergraduate program. If an Honors course does not exist in a given program or major, faculty will collaborate with the student to design extra work in a standard class to earn Honors credit. With the Mount's small class sizes, students receive the personal attention necessary to achieve academic and personal success.

Eligibility Criteria

The Honors Program welcomes traditional undergraduate students who meet the following criteria:

- ACT-SAT scores at the 75th percentile level.
- Upper 25 percent class rank is preferred, but not required, as class rank numbers vary by high school.
- A 3.2 GPA or higher.
- High school course selections that indicate a desire and an ability to undertake vigorous academic challenges.

Honors Program Completion Requirements

Hours - 19

The requirements for graduating from the Honors Program are:

- Completion of fifteen credit hours of Honors coursework (five 3-credit courses, for example).
- Completion of at least nine credit hours of Honors courses at the 200-level or above.
- Completion of at least one Honors course (3 credit hours) per academic year.
- Grade of B or above in all courses taken for Honors credit.
- Completion of Honors experiential sequence (HON 201 (1 hour) during the sophomore year and HON 301 (1 hour) during the junior year).

- Completion of one service learning experience (1 hour).
- Completion of Honors Capstone (HON 400) (1 hour) during the final semester of the senior year.
- Maintenance of a 3.2 cumulative GPA.
- Payment of a one-time program fee upon initial acceptance into the program.

Service Learning

Service learning is a teaching and learning strategy that integrates meaningful unpaid community service with instruction and reflection to enrich the learning experience, teach civic responsibility, and strengthen communities.

Credit-Bearing Service Learning Program

The Credit-Bearing Service Learning Program is the main model of service learning at the Mount. The model allows students to add a free, one-hour credit addition to any course in which it is offered with faculty permission. The program allows students to integrate a community service project with the selected course, and engages them in reflection on the responsibilities of service and leadership. Students complete a learning contract that documents the learning outcomes, student expectations, and evaluation criteria. Students are expected to complete a minimum of 30 hours onsite with identified community organizations. The credit is Pass/Fail, is classified as general elective credit, and will be documented as service learning on the student transcript.

Policy Guidelines for the Credit-Bearing Service Learning Program

- Registration for the service learning credit attached to a course in which it is offered.
- Students may only register for one service credit in an approved course per semester.
- No more than three documented service learning credits may be accumulated during pursuit of a degree.
- Service learning credits cannot be added as a 12th credit hour to create full-time status.

Other Opportunities for Service

In addition to Credit-Bearing Service Learning Program, students may be engaged in courses which include service as part of their syllabi or individual service experiences. Service experiences occur on a local neighborhood level, in other regions of the country, and in other countries. Examples include the following:

- Cultural immersion courses
- One-time volunteer experiences
- Project-based service learning
- Academic student philanthropy

SPORT MANAGEMENT
Bachelor of Science
(Department of Undergraduate Business)

Listed are majors and areas of concentration or licensure with the associated degrees awarded through designated academic departments.

A major is a primary academic field of study. A major consists of a block of courses selected by an academic department which enables the student to specialize in a field of study and earn a degree. A concentration is a collection of courses designated by an academic department to supplement and strengthen the specialization within a major's field of study. A concentration can only be earned with a bachelor's degree.

Minors

Listed are minors available with the baccalaureate degree programs offered from the academic departments.

A minor is a second field of study taken along with a major. The selection of courses an academic department offers as a minor may be taken to provide specialization in an academic area different from the major. A minor requires fewer hours than a major. Minors can only be earned with a bachelor's degree (not an associate degree).

COMMUNICATION AND NEW MEDIA STUDIES

Associate in Arts

(Department of Communication and New Media Studies)

Admission and Requirements

Certificate-seeking students apply for acceptance through the Admission Office.

Official transcripts must be sent directly from any previously attended regionally accredited college to the Admission Office. Transfer credit policies and procedures followed by Mount St. Joseph University for degree-seeking students apply to certificate-seeking students.

Certificate-seeking students follow the certificate program requirements published in the University Catalog in effect for the first semester of enrollment after acceptance. Certificate students are eligible for financial aid. Students pursuing a certificate have a university residency requirement equivalent to at least one-half of the total credit hours required to complete the selected certificate program. Specific departments may have a more rigorous residency requirement.

Students apply for a certificate following the same application process and deadline dates as students applying to graduate with a degree. Certificate applications are submitted to the Registrar's Office, Conlan Center, by degree application dates published in each semester's or term's Schedule of Classes or posted on the Mount's website. Certificates are mailed to students from the Registrar's Office, Conlan Center.

Licensure Programs in Education

Education Licensure Programs Offered

Primary Education Licensure (Grades Pre-K-5)

Middle Childhood Education Licensure (Grades 4-9)

Multi-Age Licensure (Grades K-12)

- Art Education
- Music Education

Secondary Education (Adolescent to Young Adult Licensure, grades 7-12)

- Biology/Life Science
- Chemistry
- Integrated Language Arts
- Integrated Math
- Integrated Science
- Integrated Social Studies

Special Education Intervention Specialist Licensure (grades K-12)

- Mild to Moderate
- Moderate to Intense

See the School of Education for details on each licensure program.

Additional Undergraduate Degrees

Students with an earned baccalaureate degree from an accredited college or university will have the core curriculum requirements waived if pursuing a second baccalaureate degree.

If a student earns an associate degree and continues Mount course work to pursue one or more additional undergraduate degrees (associate or baccalaureate), the student's acceptance status and core curriculum requirements remain unchanged. If a student changes his or her major, minor, concentration or certificate program, although the core curriculum requirements remain unchanged, the catalog in effect at the time of the change determines the requirements for the new major, minor, concentration or certificate. If a student does not continue enrollment in courses at the Mount for a period of two years, the student must reapply for admission.

Students wishing to earn an additional degree after an absence of two years or more must reapply for admission, fulfill all major requirements, plus all requirements for the degree as established by the catalog in effect when they return to pursue the additional degree. Students who reapply for admission and begin classes during the summer sessions will be bound by the University catalog in effect for the following fall semester/term.

For a second and different baccalaureate degree, students must complete a minimum of 30 credit hours in residency beyond the first degree, at least 15 of these hours must be in upper-level courses. For a second and different associate degree, students must complete a minimum of 21 credit hours in residency beyond the first degree, at least 9 of these additional hours must be in upper-level courses, plus the current core curriculum requirements.

Students wishing to earn a second major (not a second degree) to add to their existing Mount degree, would be non-degree seeking, and must complete the major requirements stated by the catalog in effect at the time they resume course work for the second major.

Multiple Majors/Degrees

A student who wishes to have a double major earning one degree must satisfy all requirements for each major simultaneously. If the majors are in two different degree areas (e.g., B.A./B.S.), the single degree conferred and noted on academic records will be based upon the student's choice of a first major. No extra semester hours beyond the minimum of 120 are required. For example, a student may pursue a single degree of bachelor of science with the first major being accounting and the second major being communication studies. In this example, a minimum of 120 semester hours would be required.

If a student pursues two majors in different degree areas and elects to earn two separate degrees (e.g., B.A./B.S.), the student must earn a minimum of 30 hours in residency beyond the total hours required for one baccalaureate degree. At least 15 of these 30 additional hours must be in upper-level courses. For example, a student may earn a bachelor of science degree with an accounting major and a bachelor of arts degree with a communication studies major. For the two degrees, the students would earn a minimum of 150 semester hours.

The same principle is followed for the student simultaneously seeking an associate in arts and an associate in science. The student would complete 15 extra semester hours beyond the 60 semester hours required for the first associate degree, totaling 75 earned hours. The additional hours may be taken concurrently with requirements for the first baccalaureate or associate degree. Both degrees will be noted on the student's transcript, and two diplomas will be awarded.

Posthumous Degree Policy

1. A request for the awarding of a posthumous degree may be initiated by the deceased student's family, OR by the student's advisor/program chair. The request is made to the Provost.
2. The Registrar will review the student's record to determine whether the student has met the following criteria:
 - a. Student is in good academic standing.
 - b. Student is in good social standing.
 - c. Student's cause of death was not due to any unlawful activity by the student.
 - d. Student has completed more than 90 semester hours to earn an undergraduate degree, 30 of which must be MSJ hours, or has 6 to 9 semester hours remaining to earn a graduate degree. (Other criteria may be considered at the discretion of the Registrar and the Provost.)
3. The Provost will have final approval of the awarding of a posthumous degree once the above criteria has been confirmed.
4. The Registrar will note if the student was enrolled at the time of death or was an active-duty member of the U.S. Armed Forces, federal military reserve forces, or National Guard.
5. A notation that the degree is presented posthumously is indicated on the student record. It will appear on the transcript, commencement program, and diploma. The student's name in the commencement program will be listed parenthetically noted as "Posthumous". The diploma will say, "Awarded Posthumously". The transcript will be noted that it is a posthumous degree.
6. The diploma may be presented to a family member during a Commencement ceremony or Baccalaureate service at the families' request.
7. A deceased student who does not meet the semester hour requirement for a degree may be awarded a posthumous certificate of recognition, if appropriate. The certificate is posted on the transcript and is presented privately. A lower posthumous degree (AS instead of BS) may also be considered.

Core Curriculum

At the heart of a Mount education is the liberal arts and sciences core curriculum, grounded in the Mount's Mission. The core curriculum provides a strong and practical foundation that enables students to lead meaningful personal, professional, and civic lives. It empowers students to become critical thinkers, creative problem solvers, effective communicators, and ethical decision-makers. It cultivates intellectual curiosity and concern for the common good as habits of mind and promotes broader perspectives and lifelong learning.

Learning Outcomes & Performance Indicators

All students take 46 to 49 credit hours in courses in the core curriculum. The Common Good Thread requires students to complete 12 to 15 credits in the following areas: CORE 115 Common Ground (3 credits), Justice

and the Common Good (3 credits), ethics (3 credits), one of several experiential learning offerings (0-3 credits), and a liberal arts and sciences capstone course (3 credits).

In CORE 115 Common Ground, which is taken the first semester at the Mount, students examine their own role as citizens, and explore historical and current ideas about the common good. Emphasis is placed on the importance of self-knowledge, understanding others and their cultures, and discernment of one's voice in promoting the common good.*

Thirty-four credits of the core curriculum are distributed among courses in the sciences and the humanities. Students fulfill these credits by choosing 13 credits from courses in the sciences—sociology (3 credits), psychology or microeconomics (3 credits), a natural science with a lab (4 credits), mathematics (3 credits), and 21 credits in the humanities—Written Word (3 credits), Spoken Word (3 credits), literature (3 credits), art or music (3 credits), history (3 credits), religious studies (3 credits) and philosophy (3 credits).

In the liberal arts and sciences capstone course, taken toward the end of a Mount education, students have the opportunity to integrate learning from the liberal arts and sciences core curriculum and from their experiential education to address open-ended real world questions. Students bring together their acquired communication and critical thinking skills and the curricular focus on the common good to address ethical, social and cultural dimensions of a problem.

*If a student fails to complete CORE 115 Common Ground in the first semester, the student must register for it again in the next semester. Transfer and non-traditional students follow similar but varied guidelines for meeting the Core Curriculum requirements.

Core Curriculum Requirements

CORE 115 Requirement

If a student fails to complete the Foundations Seminar Course (CORE 115) in the first semester, the student must register for the CORE 115 course in the next semester.

Core Requirements

All students pursuing baccalaureate and associate degrees must fulfill the requirements of the Core Curriculum. A student must complete a minimum of 120 credit hours for a baccalaureate degree. Please note that while a course may be listed in more than one of the component areas, the credits only count once toward the 120 credit hours needed to graduate.

All of the listed degree requirements must be satisfied before a diploma or transcript with the degree noted will be released.

Students who transfer to the Mount need to consult with their academic advisor regarding transfer Core requirements, which allow for flexible use of transfer courses into the Mount's core curriculum.

The information provided in the following web pages

- Baccalaureate Degree Specific Requirements
- Associate Degree Specific Requirements

lists the specific breakdown of Core Curriculum credits for students seeking baccalaureate and associate degrees. Courses coded to satisfy the Core Curriculum are listed in each semester Course Schedule.

Baccalaureate Degree Specific Requirements

Core Curriculum Requirements

46-49 Total Credit Hours

Common Good (12-15 credit hours)

1. CORE 115: Common Ground (3 credit hours)
(Core 115 Add/Drop Policies)

- Incoming traditional and adult transfer students with between 1 and 27 credits who do not have an approved foundation seminar course from an accredited institution, will be required to take the foundation seminar course (CORE 115).
- All first-time first-year students must take CORE 115 regardless of dual enrollment credit and/or AP credit.
- Incoming traditional and adult transfer students with between 1 and 27 credits who have transferred an approved foundation seminar course from an accredited institution, will not be required to take the foundation seminar course (CORE 115).
- Incoming traditional and adult transfer students with more than 27 credits will not be required to take the foundation seminar course but end with fewer than the required number of credit hours will make up the deficiency by taking courses approved for the core until they accumulate a minimum of 46 credit hours in the core.

2. Justice and the Common Good (3 credit hours)

3. Ethics (3 credit hours)

4. Experiential Learning (0-3 credit hours)

Experiential Learning (EXP code) can be fulfilled by service learning, cooperative education, internship, clinical, fieldwork, student teaching, study abroad, courses that have travel as a component of the course, and prior learning assessment that is coded EXP.

5. Core Capstone (3 credit hours)

Discipline-Specific Core (34 credit hours; required for all students)

Humanities - Core Codes C, CL, CAM, CH, CR, CP - 21 credit hours	
Speech (COM 100) (3 credit hours)	Code C
Writing (ENG 101) (3 credit hours) (Must be taken within first 42 credit hours)	Code C
Literature (ENG) (3 credit hours)	Code CL
Art or Music (3 credit hours)	Code CAM
History (3 credit hours)	Code CH
Religious Studies (3 credit hours)	Code CR
Philosophy (3 credit hours)	Code CP
Sciences - Core Codes CN, CMA, CS, CEP - 13 credit hours	
Biology + lab or Geology + lab or Chemistry + lab or Physics + lab (4 credit hours)	Code CN
Mathematics (3 credit hours) (Must be taken within the first 64 hours)	Code CMA
SOC 103 Our Social World (3 credit hours)	Code CS
Choose One Discipline (3 credit hours total)	
ECO 212 Microeconomics (3 credit hours)	
PSY 103 Psychology (3 credit hours)	Code CEP

Associate Degree Specific Requirements

Core Curriculum Requirements

24-25 Total Credit Hours

Common Good (9 credit hours)

1. CORE 115: Common Ground (3 credit hours)
(Core 115 Add/Drop Policies)

- Incoming traditional and adult transfer students with between 1 and 27 credits who do not have an approved foundation seminar course from an accredited institution, will be required to take the foundation seminar course (CORE 115).
- Incoming traditional and adult transfer students with between 1 and 27 credits who have transferred an approved foundation seminar course from an accredited institution, will not be required to take the foundation seminar course (CORE 115).
- Incoming traditional and adult transfer students with more than 27 credits will not be required to take the foundation seminar course but end with fewer than the required number of credit hours will make up the deficiency by taking courses approved for the core until they accumulate a minimum of 24 credit hours in the core.

2. Justice and the Common Good (3 credit hours)

3. Ethics (3 credit hours)

Discipline-Specific Core (15-16 credit hours; required for all students)

Humanities - Core Codes C, CL, CAM, CH, CR, CP - 9 credit hours		
Writing (ENG 101) (3 credit hours) (Must be taken within first 42 credit hours)		Code C
Choose One:		
	Speech (COM 100) (3 credit hours)	Code C
	Literature (ENG) (3 credit hours)	Code CL
	Art or Music (3 credit hours)	Code CAM
	History (3 credit hours)	Code CH
Religious Studies (3 credit hours)		Code CR
Sciences - Core Codes CN, CMA, CS - 6-7 credit hours		
SOC 103 Our Social World (3 credit hours)		Code CS
Choose a science or mathematics:		
	Biology + lab or Geology + lab or	
Chemistry + lab or Physics + lab (4 credit hours)	Code CN	
	OR	
	Mathematics (3 credit hours)	Code CMA

Core Curriculum Course Codes

Courses that fulfill the Core Curriculum requirements are coded within each department's program, in each course description under Course Descriptions and in each semester/term Class Schedule and on the Web.

Discipline Specific Core Course Coding

COR = Core 115
JCG = Justice and the Common Good
CCP = Core Capstone
EXP = Experiential Learning
C = COM 100 & ENG 101
CL = Literature
CAM = Art OR Music
CN = Natural Sciences with lab
CMA = Mathematics
CS = SOC 103
CH = History
CR = Religious Studies
CP = Philosophy
CE = Ethics
CEP = ECO 212 or PSY 103

Traditional Liberal Arts & Sciences Fields (Disciplines) Which Offer Courses to Satisfy Core Curriculum Requirements

*Any current student wishing to take a course at another institution to fulfill the core will require prior approval from the Assistant Registrar for Transfer Credit in the Registrar's Office

Learning Outcomes and Performance Indicators

The purpose of an undergraduate education at the Mount is to provide students with a broad range of learning experiences in order to create a habit of mind conducive to a lifetime of learning in a diverse society. Mount St. Joseph University has developed baccalaureate learning outcomes and performance indicators (LOPIs) to assist in the evaluation of student learning. These LOPIs are not intended to capture all of the personal and professional development students should achieve over four years of a collegiate experience, nor should a student expect to realize these outcomes solely through core curriculum or discipline-specific courses. Rather, students should be able to demonstrate through their collective experiences (e.g., coursework, research, cooperative education, service learning, travel abroad, work study, campus activities, volunteer work, etc.) how they have achieved these outcomes.

Baccalaureate Degree

Communication - Effectively express ideas in oral and written formats

- Oral presentation - Deliver an effective oral presentation designed to enlighten or persuade.
- Effective language and style - Write using language that is clear, fluent, and consistent with conventions of Standard English.
- Use of sources - Use and document sources appropriately.
- Content development - Develop compelling content to fulfill the assignment.

Critical Thinking - Support claims and conclusions

- Problem definition - Describe the complexities, factors, and scope of a problem.
- Information literacy - Use appropriate scholarly evidence to support a position.
- Quantitative literacy - Apply mathematical evidence or models to support a position.
- Scientific literacy - Apply scientific evidence or models to support a position.
- Synthesis - Formulate an opinion or draw a conclusion based on a questioning of assumptions, an analysis of relevant evidence, and a synthesis of scholarly perspectives.

Ethics - Reason about right and wrong

- Ethical Self-Awareness - Discuss one's core beliefs and their origins.
- Catholic Social Teaching - Describe fundamental principles of Catholic Social Teaching.
- Ethical Analysis - Recognize ethical issues within a complex context.
- Application of Ethical Perspectives - Propose and defend a solution to an ethical dilemma.

Social Responsibility - Understand how civic engagement can promote the common good

- Charity heritage - Describe the Sisters of Charity legacy of service.
- Social change - Explain how social injustice is perpetuated and overcome.
- Civic Engagement - Describe how individual actions can be personally and collectively beneficial.
- Global interdependence - Examine your individual and communal responsibility for the global community.

Cultural Competence - Analyze the diversity of human cultures

- Cultural self-awareness - Articulate the norms and biases of one's own culture.
- Awareness of other cultures - Demonstrate understanding of the values, beliefs, biases, and practices important to members of another culture.
- Global diversity - Contrast the diversity of history, values, politics, and economic conditions in developing and developed nations.

Integrative Learning - Integrate life and learning to create meaning and value

- Blending experience and knowledge - Connect experiences inside and outside the classroom.
- Connections across disciplines - Apply knowledge from more than one discipline to address a complex issue.
- Self-reflection - Reflect on how a liberal arts education has enriched your understanding of life's big questions.

Associate Degree

Communication - Effectively express ideas in oral and written formats

- Oral presentation - Deliver an effective oral presentation designed to enlighten or persuade.
- Effective language and style - Write using language that is clear, fluent, and consistent with conventions of Standard English.
- Use of sources - Use and document sources appropriately.
- Content development - Develop compelling content to fulfill the assignment.

Military Courses Taught at Other Institutions

Air Force ROTC: Aerospace Studies at the University of Cincinnati

Air Force ROTC produces leaders for the Air Force by training the whole person concept of leadership (communication, motivation, team building and public speaking).

Qualified Mount St. Joseph University students train to become a leader in America's aerospace force through a cooperative agreement with the University of Cincinnati.

Qualified students may also compete for scholarship opportunities with Air Force ROTC.

You and Air Force ROTC

Air Force ROTC will prepare you to assume your position as a commissioned officer in the United States Air Force. Along the way you will develop into a leader through a combination of classroom and practical leadership experiences as well as esprit de corps activities with others in the cadet wing.

Scholarships are also available for those students interested in the program.

Once you graduate, you'll be commissioned as a second lieutenant and be ready to take on a career as a pilot, navigator, engineer, program manager, scientist, space and missile operator, air battle manager, nurse, security forces or maintenance officer as well as any of the over 150 officer career fields offered.

Aerospace Studies Overview

Any one from an incoming first year student to an established student may qualify for the program.

The Air Force ROTC program begins with the General Military Course. As a freshman or sophomore you'll split your time between classroom work, a one semester-hour aerospace studies course, and hands on leadership skills development, the leadership laboratory.

As a junior and senior your classroom instruction increases to 3 semester-hour courses and you assume cadet wing leadership positions in the leadership laboratory.

You'll earn 12 semester-hours while completing courses in your academic major and the aerospace studies classes count towards your degree requirements. Please see your advisor for specifics for your academic major.

Once all of your degree requirements and aerospace studies requirements are complete you'll be commissioned as an officer in your United States Air Force.

If you are interested in additional information, just give us a call at 513-556-2237, visit the website at <https://www.afrotc.com/> or our local website at <https://www.uc.edu/afrotc.html>.

Military Science at Xavier University

The Department of Military Science at Xavier University, in cooperation with Mount St. Joseph University, provides the opportunity for any qualified student to enroll in the Army Reserve Officers' Training Corps (ROTC).

Once a student has completed all requirements, he/she is commissioned as a Second Lieutenant officer in the United States Army.

Two programs are available: a) the traditional four year program which consists of lower division and upper division courses, or b) the two year program which consists of a four week Leader's Training Course, and upper division courses.

There is no military obligation incurred by enrolling in the lower division courses (freshmen and sophomore years unless you are a scholarship winner), or by attending the Leader's Training Course.

Cadets are eligible to receive a monthly stipend during the school year. Freshmen \$300, Sophomores \$350, Juniors \$450 and Seniors receive \$500 a month. Credit for military science course is granted through an agreement between Xavier University and Mount St. Joseph University, and may be used to satisfy general electives.

ROTC Scholarships

Army ROTC

Army ROTC scholarships cover full college tuition and educational fees, a \$1,200 yearly book allowance and a monthly stipend starting at \$300/month during the academic school year. Additional financial incentives may be offered by the Mount to assist with costs not covered by the Army ROTC scholarship including room and or board.

High school students may apply online for an Army ROTC Scholarship at <https://www.goarmy.com/rotc.html>. For additional information about the ROTC program go to <https://www.xavier.edu/military-science> or contact the Xavier Army ROTC Recruiting Team at 513-745-1066 or by e-mail at rotc@xavier.edu.

Air Force ROTC

University of Cincinnati accepts Air Force ROTC scholarships and students pursuing an Air Force ROTC scholarship. High school students pursuing a scholarship please visit <https://www.afrotc.com/> University freshman and sophomores pursuing an in-college Air Force ROTC scholarship should visit <https://www.afrotc.com/> or call the Detachment 665 Unit Admission Officer at 513-556-2237.

Institutional Review Board

Mount St. Joseph University maintains a process for the protection of human subjects involved in research conducted by students, faculty and staff of the University. A copy of this policy is available in the Office of the Provost.

Assessment

On an annual basis, Mount St. Joseph University assesses the effect of its major academic programs and Core Curriculum on student learning. The results of this assessment are used to maintain and improve the quality of its academic programs.

Guidelines for Credit Hour Determination

Following the Federal guidelines, a credit hour is defined as:

- One lecture (taught) or seminar (discussion) credit hour represents 1 hour per week of scheduled class/seminar time and 2 hours of student preparation time. Most lecture and seminar courses are awarded 3 credit hours. Over an entire semester, this formula represents at least 45 hours of class time and 90 hours of student preparation.
- One laboratory credit hour represents 1 hour per week of lecture or discussion time plus 1-2 hours per week of scheduled supervised or independent laboratory work, and 2 hours of student preparation time. The laboratory component of most courses is counted as 1 credit hour. This calculation represents at least 45 hours of class time, between 45 and 90 hours of laboratory time, and 90 hours of student preparation per semester.
- One practice credit hour (supervised clinical rounds, visual or performing art studio, supervised student teaching, field work, etc.) represents 3-4 hours per week of supervised and /or independent practice. This in turn represents between 45 and 60 hours of work per semester. Blocks of 3 practice credit hours, which equate to a studio or practice course, represent between 135 and 180 total hours of academic work per semester.
- One independent study (thesis or dissertation research) hour is calculated similarly to practice credit hours.
- Internship or apprenticeship credit hours are determined by negotiation between the supervising faculty and the work supervisor at the cooperating site, both of whom must judge and certify different aspects of the student's work. The credit formula is similar to that for practice credit.

The most common course formats at Mount St. Joseph University are as follows:

Traditional format courses: Courses that meet face-to-face on campus following the above guidelines. For example, a 3-credit-hour course typically meets for 50 minutes at a time on three days of a week; 75 minutes at a time on two days of a week; or 170 minutes at a time on one day of a week for 15 weeks plus one, 2-hour exam period.

Accelerated format courses: Courses that meet face-to-face on campus, and supplemented with out of class work meeting the above guidelines. The most common accelerated formats meet for 5, 6, 7, or 8 170-minute sessions, with a required pre-assignment, and a substantial amount of student work between sessions. These courses typically also have a substantial post-assignment following the last class session. These courses are reviewed by CCEP for a workload that meets the above Federal guidelines when they are submitted for approval.

Mixed FTF/Blended format courses: Courses where instructors interact with students in the same physical space (used for face-to-face courses) for less than 75% of the instructional time with the remainder of the instructional time provided through distance or correspondence education. These courses are reviewed by CCEP for a workload that meets the equivalent of the above Federal guidelines when they are submitted for approval.

Distance/Online format courses: Course work is entirely delivered through online means. Instructors interact with students through one or more forms of distance delivery. These courses are reviewed by CCEP for a workload that meets the equivalent of the above Federal guidelines when they are submitted for approval.

Academic Advising and Mission Statement

In fulfilling its mission to foster success by assisting students in the development of educational plans and career goals, Mount St. Joseph University, as a Catholic academic community, strengthens the learning environment by providing the opportunities for ongoing academic support services focusing on the development of students. The advisor assumes the responsibility to serve as the primary resource and guide to assist students in achieving their academic and career related goals.

The role of the student in the advising process:

- The student needs to establish academic goals and formulate a plan to achieve those goals.
- The student should become informed of the requirements for the academic program as well as for the core curriculum.
- The student should be aware of important dates, policies, and procedures as outlined in the University catalog and Student Handbook.
- The student should initiate appointments with the advisor prior to registration and be prepared with a tentative schedule to support academic goals.
- The student has the responsibility to inform the advisor of any changes to the schedule that deviate from the schedule agreed upon at the time of registration clearance.

- The student must complete the graduation application and final audit to be signed by an advisor.

The role of the advisor in the advising process:

- To guide the student in development of a degree completion plan and to monitor the academic progress toward completion of the degree.
- To assist the student in making a realistic self-appraisal of academic potential in choosing an academic program of study.
- To be a source of information to help the student choose courses that make progress toward established goals.
- To be a source of referral to services provided for students.
- To remain current and knowledgeable with all University curriculum, academic policies and procedures.
- To confer with the student prior to each registration period to discuss course options and to update the student file.

Registration

Registration Policies

The final responsibility for meeting all program/degree requirements and being informed of University regulations and procedures rests with the student.

Before registering, students must meet with their advisor to plan their class schedule and receive clearance for registration. Once registered, students must obtain an advisor's approval before making any changes to their approved class schedule.

- Students with a financial hold on their account will be unable to register.
- Full semester course adds are not allowed after the ninth calendar day of the semester.
- Students must be registered for a course before attending class or participating in any clinical/rotation, student teaching, or other off-site component of a course.
- Students who are not registered for classes after the ninth calendar day of the semester will not be permitted to reside in the residence halls. Students may face financial responsibility of residing in residence halls without being registered.
- If an undergraduate student wishes to register for more than 20 credit hours, authorization from the Provost or designee is required. Depending on the course added, there may be an additional per credit hour tuition charge for every credit over 18 credit hours. Students should consult with Student Administrative Services with any questions about this.
- Independent Learning Contracts are required for Independent Studies, Internships, Advanced Studio, Directed Research, and Honor courses. Students must contact the instructor to discuss and complete the learning contract prior to registration of these courses.

Study at Other Institutions: Consortiums

Mount St. Joseph University is a member with two consortiums: SOCHE (Strategic Ohio Council for Higher Education) and Acadeum. The purpose of a Consortium is to provide students with a means of taking courses not offered at their own institution.

Full-and part-time degree-seeking students, both undergraduate and graduate, are eligible to enroll in the SOCHE cross-registration program and/or request approval to enroll in Acadeum Online Consortium courses. Enrollment in Consortium courses occurs concurrently with enrollment at the Mount.

- Degree-seeking Mount students may enroll in a maximum of two courses or six semester hours in Consortium courses each academic year.
- Courses taken through the Consortiums may not exceed a total of eight courses or 24 semester hours in a student's total baccalaureate program.
- In an associate degree program, Consortium courses may not exceed four courses or 12 semester hours.
- A maximum of only two courses or six semester hours may be taken through the Consortiums during the student's final 24 hours of Mount residency for students entering 2022 or later; 30 hours of Mount residency prior to 2022.
- Exceptions to the above policies for baccalaureate programs may be granted with Dean and Provost approval.
- Graduate students cannot earn more than 25 percent of the credits required for the Master of Arts degree in off-campus courses taken either through the Consortium or in transfer from another institution.

Mount students are charged Mount tuition and \$10 per consortium credit hour processing fee when registering through the Consortiums. Credit hours earned by courses taken through a Consortium are treated as Mount residency hours. Consortium grades are calculated in the student's Mount grade point average. It is the student's responsibility to verify that all pre-requisites have been met before enrolling in a Consortium course.

Students registering for a Consortium course follow the academic calendar of the provider school. Tuition refund schedules do not follow the standard MSJ format. Students may be subject to an additional fee depending on the actual withdrawal date. If a change in enrollment status (add/drop) is made, the procedure **must be completed at both schools by the student.**

Extenuating circumstances may require an exception to the Consortium cross-registration policy. Appeals for exceptions are submitted in writing to the Provost, or designee. Approved University Study Abroad Programs are exempt from Consortium policies.

SOCHE Consortium Cross-Registration

SOCHE Cross-registration procedures are as follows:

1. Email Mount St. Joseph University's Acadeum Administrator (<[a href="mailto:advising@msj.edu">a href="mailto:advising@msj.edu"](mailto:advising@msj.edu)>advising@msj.edu) to secure course and Consortium procedure information.

2. Developmental courses taken through the Consortium that are similar in content to those offered at Mount St. Joseph University will be accepted as general electives; however, those courses that are not applied toward a degree at a host institution will not be accepted.
3. Obtain a signature of approval from an academic advisor on a Mount registration or add form.
4. Complete the cross-registration form and Memorandum of Understanding for Mount St. Joseph University's Advising Resource Center (ARC). The Mount's Consortium representative's signature on the Consortium form is required. The student may wish to call the host school's registration office to determine the availability of space.
5. Information about how to submit the cross-registration form to the institution where the course will be taken can be found on the SOCHE website or from the Consortium representative in the ARC.
6. If a change in enrollment status (add/drop) is made, the add/drop procedure must be completed at both schools by the student prior to the published registration/drop/withdrawal dates.
7. A per credit hour NON-REFUNDABLE fee is assessed for each course taken through SOCHE in addition to the current tuition. The student is responsible for the non-refundable fee even if the student drops or withdraws from the SOCHE course.

View the full list of SOCHE member institutions here: <https://www.soche.org/cross-registration/>

Academy Consortium Registration

Academy registration processes are as follows:

1. Email Mount St. Joseph University's Academy Administrator (advising@msj.edu) to review a request to take an Academy course.
2. If the Administrator approves, the student is emailed a checklist and the Memorandum of Understanding (MOU) of Financial Responsibility and Confirmation page that must be signed and returned to the Administrator.
3. If the student has returned the confirmation to the Administrator, the Administrator sends information to the student about how to request the course in the Academy system. After the Administrator approves the request in the Academy system, the provider/host institution is alerted. The student and Administrator will receive information via email from the provider/host institution to confirm or deny enrollment for the course.
4. Student begins the course on its scheduled day. Part time Mount students who withdraw after the academic drop date listed in the MOU will receive NO refund for tuition per course. Full time students who withdraw from the Academy consortium course after the withdrawal date stated on the MOU, will be charged an enrollment fee per Academy course as stated on the MOU.
5. A student who enrolls in Academy coursework and has two attempts resulting in withdrawal or failure will no longer be eligible to participate in Academy consortium course offerings. Any appeal would be directed to the Provost or designee.

Students seeking accommodations for disabilities and who are interested in taking an Academy course should first contact the Director of the Learning Commons & Success+ in the Learning Commons 513-244-4623 to facilitate the process for obtaining services from the school offering the Academy course. Requests for accommodations should be received at least 2 weeks prior to the term start although 30 days is preferable as some services may take longer to provide. If the disabilities services provider schools are not notified in

time to make the necessary arrangements, students may not have their accommodations in place for the course. In this case, students may want to take the course in a later term so that their accommodations are available.

Add/Drop/Withdraw Policies

All course add/drop/withdraws are done through the Mount's Add/Drop form after the web registration period has closed.

Adding courses: Students must be aware that adding courses may impact financial aid, student billing, athletic eligibility, and progress toward graduation. The responsibility for meeting program and degree requirements, as well as being informed of University regulations and procedures, rests with the student.

- Any student who does not officially add a class will not receive credit or a grade for the coursework.
- Students are expected to have met the specific course prerequisites (or the equivalent transfer credit) before adding a class with prerequisites located in the course notes.
- Students wishing to register for courses that require approval from the instructor or program director (e.g., Co-op, Honors, or Service Learning courses), must obtain the necessary authorization from the instructor or program director before registering.
- The University reserves the right to monitor the waitlist and register students in the order necessary to fulfill graduation requirements.
- To add a course after classes have begun, students must complete an add form which must include the instructor's signature. The completed form must be received by the Registrar's Office, and will be added based on the date the student submitted the form. Late adds may require a signature from the Provost Office.

Dropping courses: Students must be aware that dropping courses may impact financial aid, student billing, athletic eligibility, and progress towards graduation. The responsibility for meeting program and degree requirements, as well as understanding University regulations and procedures, rests with the student.

- Last day to Web drop a full semester and/or first half of the semester course is the Friday after classes start. After this date, a drop form is required. An advisor's signature is needed to drop a course.
- It is recommended that students verify their course schedule after any changes to ensure the accuracy of their schedule and transcript.
- Students who fail to complete a drop or withdrawal process through the appropriate form will receive a grade of FA (failure due to absence).
- Dropping a course will remove it from the student's record and transcript.

It is important to note that tuition refund dates and course drop dates are different. Students should consult with Financial Aid to understand how dropping a course may impact financial aid and billing.

Withdrawing from Courses: Students must be aware that withdrawing from courses may impact financial aid, student billing, athletic eligibility, and progress towards graduation. The responsibility for meeting program and degree requirements, as well as understanding University regulations and procedures, rests with the student.

It is important to note that tuition refund dates and course withdrawal dates are different. Students should consult with Financial Aid to understand how withdrawing from a course may impact financial aid and billing.

- To withdraw from a course, a course withdraw form must be submitted, signed by both the student and the advisor. Withdrawals are not permitted after the withdrawal window has closed. Instructors will assign grades for courses not dropped or withdrawn. If a change in the effective date of withdrawal is needed, the Provost's Office signature is required on the form.
- Withdrawing from a course results in a "W" being recorded on the student's transcript. Withdrawn course hours count in "attempted" hours in both semester and overall total, but do not count as "earned" hours, and therefore do not contribute to the degree. Withdrawn grades do not affect the semester or overall GPA.

Note: A week is defined as Monday through Sunday, 11:59pm. Add/drops/withdraws will be processed based on the date student initiates the request.

Course withdrawal policies:

- Full semester courses:
 - Drop period is week 1 through the end of week 5.
 - Drop with a W period begins week 6 and ends the last day of week 14.
 - No withdraw week 15 to last day of finals.
- 6-10 week courses:
 - Drop period is week 1 to end of week 2.
 - Drop with a W period begins week 3 and ends the last day of the week before the final week of the subsession (i.e., 6 week course = W ends the last day of week 5; 7 week course = W ends the last day of week 6, etc.).
 - No withdraw final week of the subsession.
- 5 or fewer week courses:
 - Drop period is week 1.
 - Drop with a W begins week 2 and ends the last day of the week before the final week of the subsession (i.e., 5 week course = W ends the last day of week 4).
 - No withdraw final week of the subsession.

Variable Credit Hour Courses

Students registered in a full semester course with variable credit option (e.g., Co-ops, independent studies, athletic team courses), have until the end of the fifth week of the course to adjust the credit hours. Before making any changes, students should consult both the Career & Experiential Education Center and their academic advisor to ensure the adjustment does not negatively affect their progress towards graduation.

Additionally, it is strongly recommended that students consult with Financial Aid, as changes in credit hours may impact financial aid and student billing.

After the fifth-week deadline, no further credit hour changes are permitted.

For courses lasting fewer than 15 weeks, students can adjust credit hours only until the end of the first week of the course.

Course Audit Policy

Courses taken for audit do not earn credit or quality points. Audited courses are assigned a grade of "AU" and cannot be used to fulfill major or core requirements. Not all courses are available for audit. Students may audit eligible courses on a space-available basis, as determined by the instructor and the department offering the course. There is no limit to the number of courses a student may audit.

Auditing a course requires the instructor's signature on the Add form. The conditions and requirements of the audit are set by the instructor or department.

Students registered for 12 or more credit hours in a fall or spring term and paying flat-rate tuition may audit undergraduate courses free of charge, in addition to any applicable fees. This policy does not apply to the summer term. Students wishing to audit part-time in any term will be charged half the per-credit-hour rate, plus any applicable fees. Additional fees for books and materials apply to all course audits.

To change from audit to graded status (or vice versa) for a full semester course, students must submit the request to the Registrar's Office by the end of the fifth week of class. For courses less than a full semester, changes must be made before the third face-to-face class meeting or prior to the end of the second week of an online course.

Senior Citizens Registering for Classes

Senior citizens (persons 65 years of age or older) may register for most undergraduate classes tuition free on a space-available basis. Senior citizens may audit undergraduate classes or register for credit providing appropriate prerequisites have been fulfilled. Both options are available at no cost. Independent studies and online courses are exceptions to this policy. Senior citizens are required to pay any and all fees associated with the application process and any other fees & materials at the regular rate.

Attendance Verification

Course attendance is verified by instructors during the first week of the course.

- If a student fails to attend the first in-person or In*Sync class, the instructor will report them as a "not attending."
- For online or blended courses, students must log in within the first five days of the class; otherwise, they will be reported as a "not attending" by the instructor. If a student is reported as a "not attending," they will be dropped from the course.
 - Logging in to an online or blended course is considered attendance, even if the student has not submitted any assignments or participated in other aspects of the course.

If a course is dropped in error, the student should contact both the instructor and the Registrar's Office immediately.

Students must meet the stated requirements for attendance or participation expected with the class delivery format. If class participation policies are not followed, the student may receive a grade reduction in accordance with the instructor's policy.

Registration Procedures

Registration days and times are determined by a student's class standing, which is based on the total credit hours earned by the end of the most recently completed semester. Specific registration dates for each semester can be found in the Dates to Know.

Typically, advising season begins in the 10th week of the semester where students confirm their upcoming schedule with their advisor.

Registration for the upcoming term generally begins during the 12th week of the current semester. Students will receive notification with their assigned registration day and time.

Undergraduate and Graduate Non-Degree Students

Non-Degree students are those taking classes who have not been accepted to the University and are not enrolled in a degree program. Non-degree seeking students do NOT apply through Admission. However, such students must apply and be accepted through the Registrar's Office by completing the non-degree student pre-registration form available through the Registrar's Office. Required course prerequisites must be met prior to registration.

Non-degree seeking undergraduate students may take up to 13 hours before obtaining formal admission to the University, and are limited to two courses (six or seven credit hours) per semester or during the entire summer session until reaching the 13 credit hour limit. Non-degree seeking transfer students in good standing from an accredited college or university may take their 13 credit hours in one semester or an entire summer session.

Non-degree seeking graduate students may earn a maximum of nine semester credit hours under a non-degree seeking status. This policy is implemented at the discretion of the Provost or designee.

Alumni Auditing of Courses

Baccalaureate or graduate program alumni of the University may audit courses on a space-available basis for a special discounted tuition rate, plus fees, cost of books and materials, provided appropriate academic prerequisites have been completed. Alumni will register using the non-degree registration process. For more information on registration, please contact the Registrar's Office. For more information regarding tuition and fees, please reach out to Student Administrative Services.

Academic Major Field and Academic Exploration Program

Mount St. Joseph University, in the spirit of the liberal arts education upon which the university was founded, is committed to promoting an environment that fosters intellectual curiosity and healthy exploration. We believe that the process through which decisions and discoveries are made is of equal importance to the end result. Some students, upon admission, decide to declare their preferred academic major area of study, and some students need additional time to explore possibilities or meet prerequisite requirements. In accordance

with the Academic Advising Mission Statement, any undergraduate student who has not yet declared a major will be designated as **University Exploratory Studies (UES)**. University Exploratory Studies students will receive advising services through the Academic Exploration Program (AEP) Advisor located in the Advising Resource Center. Students with a declared major will receive academic advising services by a faculty member in their chosen area of study. Declaring a major can be a difficult and sometimes frightening experience. But it does not have to be. We believe that taking the time to explore the right major can be a rewarding journey that makes our students better equipped to make ethical and informed decisions in a global market place. A major or undeclared preference is used in planning a course schedule. It is assumed that in many instances an initial declaration is tentative. Before the beginning of the junior year, students normally make a firm decision on a major.

Assessment and Placement Testing

The Mount provides students with an opportunity to confirm their basic skill competencies in writing, mathematics and computing. The appropriate academic departments, in conjunction with The Learning Center, will make recommendations, course placements and monitor students' progress.

Proficiency for traditional students includes:

- **Writing Assessment:** During the registration process, students complete a self-assessment of their writing needs. Based on the results, appropriate course work will be recommended.
- **Math Assessment:** High School Algebra II is required except for those who demonstrate competency in basic algebraic skills through a combination of high school mathematics programs and SAT or ACT mathematics scores. During the registration process, traditional students complete a self-assessment of their math skills. Based on the results, appropriate course work will be recommended.

Proficiency for non-traditional students may be demonstrated through our Prior Learning Assessment (PLA) process(es)

- a. successful completion of previous college course work (e.g. Credit by Credential or Direct Award of Credit);
- b. relevant life or work experience (e.g. Credit by Validation, Validation for Work Experience, Validation for Service Learning, Credit by Portfolio Process); and/or
- c. successful completion of the placement tests (e.g. Credit by Examination).

Detailed information on the various PLA options is available at: <https://www.msj.edu/academics/academic-opportunities/prior-learning-assessment/index.html>.

Non-traditional students may be required to take the placement test if one or more of the following apply:

1. Completed high school, but have no previous college credits.
2. Previously completed college course work is fewer than 12 semester hours (18 quarter hours).
3. Cumulative GPA for prior college course work is less than 2.0.
4. Prior college course work was taken six or more years ago.
5. Patterns in academic record indicate a need to assess skill levels.

Change of Major, Minor, Degree, or Program

Change of Major/Degree forms are available on myMount. Students are responsible for satisfying any departmental admission requirement for the major. A change of major necessitates a review of the Mount courses and transfer courses to determine placement of credits within the new major and/or department.

Students are to complete the current catalog's major, minor, concentration, or certificate program requirements in effect on the date that a change of major/degree form is submitted to the Registrar's Office. The student's admission status and core curriculum requirements remain unchanged.

Course Numbering System

Course Numbering System

Courses #001-099 are preparatory to college-level work, may carry credit hours applied to total hours earned for graduation and fulfill only general elective credit.

Courses #100-199 are introductory courses or sequences of courses, with no departmental prerequisites, that introduce basic skills, techniques, concepts, or questions of the field.

Courses #200-299 continue the introduction to the field beyond the 100-level or introduce the field by focusing on a major area in the field. Such courses may not have departmental prerequisites but are designed for students with some college experience.

Courses #300-399 are advanced courses that depend on previously learned knowledge and skills in the discipline or a maturity of skills in critical thinking. In such courses, students are asked increasingly to employ the tools of the discipline in response to basic questions. Ordinarily these courses have prerequisites or require junior standing.

Courses #400-499 require students to do more independent work, often involving the creation or synthesis of knowledge using previously learned skills, and these courses usually are designed for the major.

Courses #500 and above are graduate level/credit courses. A student must be in a graduate program to earn graduate credit for these courses.

Developmental Course Policy

The Mount offers developmental courses in mathematics and writing.

Students who are required to take one or more developmental courses:

- should enroll in a minimum of one developmental course in their first semester or as soon as the course is offered.
- should repeat any developmental course which they fail to complete with a grade of "C" or higher the next semester the course is offered.

- should seek approval from their academic advisor before dropping a developmental course.

Graduate Courses for Undergraduates

Undergraduate seniors at Mount St. Joseph University may enroll, with written approval of their academic advisor and a graduate program advisor, in graduate courses (courses #500+), subject to the following conditions. (Note: 4+1 MBA and 3+2 SLH/MSLP students are exceptions to this policy; please see the 4+1 MBA and the 3+2 MSLP programs for more details.)

1. Graduate courses may be cross-listed with an undergraduate course number (#100-499) to meet undergraduate academic credit/degree requirements. Graduate level courses with numbers 500 and above will not fulfill undergraduate degree requirements.
2. Undergraduate seniors at the University may take graduate courses for graduate credit applied to a graduate academic record with the permission of the chairperson of the department offering graduate studies.
3. Undergraduate seniors may not register for more than a combined total of eighteen (18) hours of undergraduate and graduate courses.
4. The maximum amount of graduate credit may not exceed nine (9) hours while simultaneously pursuing an undergraduate degree.
5. Seniors who wish to take graduate level courses under the above guidelines are advised to check with Financial Aid prior to registering.
6. Students enrolling in graduate level courses under the above guidelines will be charged graduate level tuition.

Undergraduate seniors in their final semester of study at another regionally accredited college or university may not enroll for more than six (6) hours of graduate credit as a non-matriculated student, subject to the above restrictions.

Veterans' Education

Mount St. Joseph University is approved for the education and training of veterans and their dependents under all existing public laws. Veterans qualified for V.A. educational benefits must contact the University's certifying official each semester or term to verify eligibility. Requests for information should be referred to the University's certifying official for VA Educational Benefits, located in Student Administrative Services.

Mount St. Joseph University complies with all regulations set forth by the Veterans Administration including, but not limited to, the Veterans Benefits and Transition Act of 2018 for Chapter 31 and Chapter 33 eligible veterans.

Mount St Joseph University will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution due to the delayed disbursement of funding from the Department of Veterans Affairs under chapter 31 or 33.

Veterans and students receiving VA educational benefits have priority registration each semester.

Academic Grade Appeal Policy

Consistent with the University's mission, course instructors have both the right and responsibility to render constructive and critical judgment regarding the quality of the academic work performed by students according to the grading criteria stated in the respective course syllabus. While a University student may appeal a final course grade consistent with this policy, a student must prove that the University's course instructor issued the final grade in an "inaccurate or unfair" manner in order to be successful. Consequently, a final course grade appeal is a significant assertion by a student against a course instructor that is taken seriously by the University.

A student may appeal a final grade received in any University course (the "Grade") within ten (10) business days (excluding University holidays) of a final course grade being posted to the University's electronic grade posting system(s) (the "Appeal Deadline").

Standard on Appeal

A student may appeal a Grade only when the student believes that the Grade is inaccurate or unfair based on the grading criteria stated in the course syllabus. In all Grade appeals, the student has the burden of proof. All of the student's test results, work-product, and/or other grade criteria set forth in the course syllabus may be considered in the Grade appeal process.

Grade Appeal Procedure

The following procedure must be followed by a student when making a Grade appeal:

1. **Written Notice of Appeal:** On or before the Appeal Deadline, the student must provide written notice to the course instructor and dean of the school in which the course is taught (the "Dean") that the student is appealing the Grade. The written notice of appeal must include:
 - a. Confirmation of the date, time, and location when the student discussed the student's concerns about the Grade with the course instructor prior to submitting the written notice of appeal;
 - b. Details supporting the student's position that the Grade is inaccurate or unfair based on the grading criteria stated in the course syllabus; and,
 - c. A request by the student for a conference with the course instructor and school dean to discuss the Grade appeal.

(collectively, the "Notice of Appeal"). In the event that the course instructor is also the Dean, another full-time faculty member in the school in which the course is taught shall be appointed by the Office of the Provost to preside over this Grade appeal process instead of the Dean (the "Appeal Faculty") to permit the Dean to serve in the course instructor role during the appeal.

2. **Appeal Conference:** Following receipt of the Notice of Appeal, the Dean or Appeal Faculty shall schedule an appeal conference with the course instructor and student, which conference shall occur within ten (10) business days (excluding University holidays) of receipt of the Notice of Appeal (the "Appeal Conference"). Prior to the Appeal Conference, the course instructor shall provide documentation to the Dean or Appeal Faculty supporting the Grade. The Dean or Appeal Faculty presides over the Appeal Conference. The student may be accompanied to the Appeal Conference only by (a) the student's assigned University academic advisor, or (b) another full-time member of the University faculty. Any individual who accompanies a student to an Appeal Conference shall not advocate for the student, and may only provide support to the student.
3. **Grade Appeal Decision:** The Dean or Appeal Faculty shall render a written decision granting or denying the Grade appeal to the student and course instructor within five (5) business days (excluding University holidays) of the Appeal Conference (the "Grade Appeal Decision").
4. **Provost Review of Grade Appeal Decision:** In the event that the Grade Appeal Decision is unsatisfactory to either the student or course instructor, both the student and the course instructor shall have five (5) business days (excluding University holidays) from the receipt of the Grade Appeal Decision to request that the Office of the Provost review the Grade Appeal Decision (the "Provost Review Notice"). A Provost Review Notice shall be in writing and must include:
 - a. All documents comprising the Notice of Appeal;
 - b. A copy of the Grade Appeal Decision;
 - c. A cover letter detailing the specific reasons that the student or course instructor believes that the Grade Appeal Decision is incorrect.

In its sole discretion, the Office of the Provost may request additional documentation from the Dean or Appeal Faculty who presided over the Appeal Conference. The Office of the Provost shall review the collective documentation related to the Grade and render a final decision regarding the Grade appeal (the "Provost Final Decision") within ten (10) business days (excluding University holidays) of receiving the Provost Review Notice. The Provost Final Decision is binding and is not subject to further appeal.

5. If the course for which the Grade is being appealed is a prerequisite to another course, the student appealing the Grade may seek written permission from the Office of the Provost to enroll in the next course in the sequence while the appeal is pending, which permission shall be granted or denied in the sole discretion of the Office of the Provost.
6. No legal counsel for the student or course instructor may be involved in any step of the Grade appeal process.
7. A student may withdraw a Grade appeal at any juncture by making a written request to the Dean or Appeal Faculty, who will notify the Office of the Provost.

Academic Honesty Violation Policy

It is imperative that we, as a University community, value intellectual and moral integrity and promote honesty in work and school as a way to succeed. We must, therefore, identify and penalize all violations of our shared trust as violations of the principles that inspire our institution and bind us together. Faculty and students have a responsibility to behave honestly in whatever ways and by whatever means they use to share information. Academic honesty violations can include, but are not limited to:

- Using or receiving unauthorized material during a quiz, test, or exam
- Providing work or materials for another student to copy and submit as their own
- Using another's work or materials to submit as one's own
- Failing to document and cite all sources used on written and oral communications

Students have a responsibility to comprehend and practice the honest academic behaviors that are stated and implied in this policy without exception and to consult an appropriate University instructor or representative in any situation in which they are uncertain or unclear.

Students have rights when their instructor questions the integrity of a project, assignment, and/or work-product submitted in any course in any form (collectively, the "Work"). Included are the students' rights to:

- Receive a written explanation of the alleged dishonesty when an instructor questions the honesty of any Work,
- Defend an allegation of academic dishonesty in any Work before a final determination is made by an instructor; and,
- Challenge any decision finding academic dishonesty in the student's Work through the University's Academic Honesty Violation Appeal Policy.

When an instructor has reason to believe that this policy has been violated by a student, the following procedures shall be followed. The instructor may consult with the Dean of their School at any time during this process.

1. **NOTICE:** The instructor will notify the student through the student's University email account that there is an allegation of academic dishonesty concerning a Work and the basis for the allegation.
2. **OPPORTUNITY TO RESPOND:** The student shall have an opportunity to respond, in writing, to an allegation of academic dishonesty and may request to meet with the instructor in person. The student shall deliver the response to the instructor within five (5) calendar days (excluding University holidays) of the student having received notice. After receiving the student's response, if one is provided, the instructor shall schedule a meeting with the student within five (5) calendar days (excluding University holidays) if requested by the student in the written response.
3. **REPORT:** If the instructor determines that the student violated this policy, the instructor shall complete an Academic Dishonesty Occurrence Report within fifteen (15) calendar days from the date the instructor gave the student notice of the allegation of academic dishonesty. The Academic Dishonesty Occurrence Report shall explain the rationale leading to the instructor's determination that the student violated this policy and detail the consequences of the violation. Possible consequences include, but are not limited to: requiring the Work to be redone, assigning a failing grade for the Work, or assigning a failing grade for the course in which the student submitted the Work. The Academic Dishonesty Occurrence Report shall be submitted to the Provost or designee and the student via an email to come through myMount by auto-generation.
4. **APPEAL OF INSTRUCTOR DETERMINATION:** An instructor is required to post the letter grade earned in the class, factoring in any consequences of the academic dishonesty that may negatively impact the grade, even if the finding of a violation of the academic honesty policy is being appealed by the student. If the student wishes to appeal the determination of the instructor, the student must do so, in writing, to the School Dean, or designee. The Dean, or designee, must receive the appeal within three (3) calendar days (excluding University holidays) of the issuance of the Academic

Dishonesty Occurrence Report. The Dean, or designee, will convene a conference with the instructor and the student in an effort to resolve the issues within seven (7) business days of the Dean, or designee, having received the written appeal. The Dean, designee, shall tender a written decision on the appeal to the instructor and student, via email, within five (5) business days of the conference. If the instructor is a School Dean, a senior faculty member in the department - appointed by the Provost or an administrator designated by the Provost - will serve in place of the Dean. Should the decision of the Dean, or designee, be unsatisfactory to the student or the instructor, either party may submit a letter of appeal to the Office of the Provost asking for a review of the decision. The letter of appeal must be received within three (3) calendar days (excluding University holidays) of the issuance of the Dean's, or designee's, decision. The letter of appeal must include a description of prior attempts to resolve the issue and the reasons for continuing the appeal. The Provost or designee will collect relevant information and correspond with the instructor and student together or separately before making a final decision. The written decision of the Provost or designee will be provided to all parties within five (5) business days of having received the appeal. This concludes the appeals process as it relates to the instructor's determination. There is no further appeal. No legal counsel will be present during any part of the appeal process. The student may withdraw an appeal at any juncture by providing a written request to do so to the person with whom the appeal is pending. If a student is successful in his or her appeal, the Provost or designee will notify the instructor and the procedures for a grade change will be initiated.

5. **PROVOST REVIEW:** Upon receipt of the Academic Dishonesty Occurrence Report and the expiration of the appeals process described in paragraph 4, the Provost or designee may, based on previous violations of this policy by the student and/or the severity of the violation detailed in the Academic Dishonesty Occurrence Report, determine that additional consequences for the student are necessary beyond those imposed by the instructor. These additional consequences for the student may include, but are not limited to, imposition of Academic Action, which could include suspension or dismissal from the University. In cases where the student may be subject to Academic Action, the respective program chair or dean will be consulted by the Provost or designee. Students will receive notice of any additional consequences to be imposed via email to their official University email account within five (5) business days of the date the Provost or designee received the Academic Dishonesty Occurrence Report.
6. **APPEAL OF ADDITIONAL CONSEQUENCES:** A student may appeal any additional consequences imposed by the Provost or designee. The appeal must be in writing and will be considered by the Associate Provost for Academic Affairs. The Associate Provost for Academic Affairs must receive the appeal within three (3) calendar days (excluding University holidays) of the date that the Provost or designee emailed notification of additional consequences to the student. The appeal can be emailed to Provost@msj.edu or hand delivered to Office 208 in the Administrative Building of the Mount St. Joseph University campus. The appeal must contain the following:
 - The name, address, and phone number of the student;
 - A clear statement of the reason for the appeal; and,
 - The names of any witness(es) or individual(s) who the student believes has knowledge or information that supports the appeal

The Associate Provost for Academic Affairs may choose to uphold the additional consequences imposed by the Provost or designee, modify the additional consequences imposed by the Provost or designee, or eliminate the additional consequences altogether. The Associate Provost for Academic Affairs will notify the student and the Provost or designee, in writing, of her findings on the appeal within five (5) business days. The decision of the Associate Provost for Academic Affairs is final; there is no further appeal.

Academic Standing & Reinstatement Policies

Good Academic Standing

University students are expected to maintain a cumulative grade point average at or above the Good Academic Standing requirements set forth in this Catalog (collectively referred to as "Good Academic Standing").

Academic Levels	Cumulative GPA Required for Good Academic Standing
0.0-27.5 semester hours	1.75
28.0 semester hours and above	2.00

Notice of a student's failure to remain in Good Academic Standing shall be sent to the student's University email account and may subject the student to any of the following academic actions as set forth herein: Semester Academic Concern, Academic Notice, Academic Suspension, or Academic Dismissal (collectively, "Academic Action").

Determination of Academic Action is made by the Office of the Provost or designee in fall and spring semester/term only. Academic Action is noted on the student's transcript, except when Semester Academic Concern is earned.

Semester Academic Concern

Any student whose semester grade point average falls below a 2.0 will receive a Semester Academic Concern, if the student's cumulative grade point average is in good standing. Notification is sent to the student's University email account. A student may receive multiple Semester Academic Concerns, which serve as notice to the student that if the student's academic performance and grade point average do not improve, the student may be subject to a different form of Academic Action. Semester Academic Concern does not appear on the student's transcript.

Academic Notice

A student who fails to maintain the following required minimum cumulative grade point average shall be placed on Academic Notice:

- Students who have earned fewer than 27.5 credit hours and have failed to achieve a cumulative grade point average of 1.75
- Students who have earned 28.0 credit hours and above, and have failed to achieve a cumulative grade point average of 2.0

Students on Academic Notice who fail to meet the minimum cumulative grade point requirements for two (2) consecutive semesters will be subject to Academic Suspension.

Students on Academic Notice after Reinstatement from Academic Suspension who fail to meet the minimum cumulative grade point requirements for two (2) consecutive semesters will be subject to Academic Dismissal.

It is strongly recommended that students on Academic Notice do not carry an academic course overload of more than 18 hours and that they meet with a member of the Intervention Team or appointee, for coaching and advising, to determine how to concentrate their efforts on their studies so that they can improve their academic performance and cumulative grade point average.

Academic Suspension

A student on Academic Notice may be subject to Academic Suspension if the student fails to achieve the required minimum cumulative grade point average after two (2) consecutive semesters/terms.

Unless requesting an immediate appeal and receiving reinstatement as described below, a student shall remain on Academic Suspension for at least one semester. The student must meet certain conditions established by the Office of the Provost before the student may be evaluated for possible return to the University.

A student who is placed in Academic Suspension is not permitted to take courses or participate in any University activities or programs, including but not limited to living in the University's Residence Hall, and may be prohibited from the University's facilities and other on- and off-campus University activities. Students may appeal Academic Suspension through the "Suspension Appeal for Reinstatement" set forth in this Catalog.

Suspension Appeal for Reinstatement

Appeals of Academic Suspension requesting immediate reinstatement must be submitted within two weeks of the date of notice of Academic Suspension. Alternatively, appeals for reinstatement following Academic Suspension shall be submitted at least 30 days before the desired date of re-entry at the University. Appeals must be in writing, addressed to the Office of the Provost. The individual seeking reinstatement has the sole responsibility of submitting the following required Appeal Documentation for an appeal to be considered:

- A self-assessment of factors that contributed to poor academic performance;
- A narrative description of what will be or has been done differently to improve the poor academic performance;
- A minimum of one (1) recommendation letter from a member of the Mount community who can speak to the student's academic readiness to return
- Evidence of accomplishment, if seeking reinstatement after the required one term/semester suspension period. This could include an official transcript of academic work completed since the suspension, proof of satisfactory military service, and letters reporting gainful employment with supervisor(s) attesting to the student's performance, initiative and acceptance of responsibility, or any other documentation that would support the petition.

In addition to Appeal Documentation, the Office of the Provost or designee may consider the student's academic and personal/disciplinary record at the in determining whether to grant reinstatement.

A successful appeal reinstates the student but also immediately places the student on Academic Notice after Reinstatement as set forth in this Catalog under the Academic Notice heading above.

Academic Dismissal

A student may be academically dismissed from the University with no right to appeal for two years due to failure to meet the minimum cumulative grade point requirements for two (2) consecutive semesters after Academic Notice after Reinstatement from Academic Suspension.

A student who is subject to Academic Dismissal is not permitted to take courses or participate in any University activities or programs, including but not limited to living in the University's Residence Hall, and may be prohibited from the University's facilities and other on- and off-campus University activities.

See below for Reinstatement from Academic Dismissal for more information.

Reinstatement after Academic Dismissal

A student who wishes to be reinstated after Academic Dismissal must:

- Wait two calendar years after the date of earning Academic Dismissal
- Apply for Fresh Start through the Office of the Provost or designee at least 30 days before the desired semester start date at the University
- Simultaneously reapply for admission through the University's Office of Admission.

The decision of the Provost or designee is final. If the decision is to not offer reinstatement, the applicant must wait another three years before appealing again.

Reinstated students must matriculate within one semester of readmission to the University; otherwise, the reinstatement is considered void and applicants must reinitiate the reinstatement after academic dismissal process.

Active Duty Policy: Policy/Procedures for Military/Veterans Called to Active Duty

Mount St. Joseph University is very supportive when our military/veterans are called to active duty. Available options for a student served with orders will vary depending on the week in the semester (or the course) when the orders are received. A student **must** show a copy of the official order for active duty to the VA School Certifying Official in the Financial Aid Office, who will assist the student in completing the required paperwork.

Available Options

- a. If the student has completed at least 80% of the coursework for a standard or accelerated course(s) and a grade can be determined by the course instructor, a written approval from the instructor will need to be submitted with a grade for the course.
- b. If the student has completed a sufficient amount of coursework for a standard or accelerated course(s) and the instructor feels the coursework can be finished, a learning contract can be made in writing between the student and the instructor for how the coursework will be completed via distance learning. If the coursework is not completed by the end of the term, a grade of Satisfactory in Progress (SP) will be assigned for a period of up to one year until the work is fulfilled.

NOTE: A copy of the written agreement between the student and all instructors presented in options a. and b. must be on file in the Registrar's Office and with the School Certifying Official.

- c. If the student **has not** completed a sufficient or majority amount of coursework, all classes for the current semester (and next semester, if appropriate) will be completely dropped. A 100% refund for tuition and fees will be initiated for the appropriate semester.

NOTE: **This option is not available for students who enlist in military service and withdraw from the University.** A withdrawal from courses due to voluntary enlistment will receive a refund according to the regular refund policy in effect at the time of withdrawal. The voluntary enlistment will entitle the student to a credit statement issued from the Office of the Provost which will permit the student to repeat either part or the whole semester in which the student was enrolled at the time of the student's withdrawal.

Military/Veterans Student Responsibilities and Actions

1. The senior degree candidate student qualifying in his/her last semester will graduate with his/her class provided:
 - A sufficient/majority amount of coursework has been completed on which to base a grade (options a. and b.)
 - The credits for courses taken in the final semester complete the regular requirements for the degree for which he/she is a candidate.
2. The student receiving VA Educational Benefits must show a copy of official orders for active duty and the drop/add receipt to the V.A. School Certifying Official in Financial Aid. This is essential to complete documents to interrupt V.A. benefits and prevent overpayment.
3. Those students who have elected student health insurance coverage must contact Financial Aid as they may be eligible for a 100% reimbursement of the paid premium.
4. The dorm student must contact Resident Life regarding a pro-rated refund for room and board charges.
5. Financial Aid funds can be refunded from the date of withdrawal; however, the student is responsible for any expense monies received.

A student called to active military duty may choose to remain under requirements of his/her college catalog or may elect to change to the catalog in effect upon returning to the Mount to resume coursework toward degree completion.

Catalog Requirements for New Students

Students are required to comply with the policies, degree and major requirements stated in the catalog in effect for the first semester/term of enrollment following acceptance. Students enrolled for the first time in summer sessions will follow the requirements of the University catalog in effect for the following fall semester.

Course Timeframe & Delivery Formats

Course Timeframe Formats

Standard Format - Daytime courses meet two or three times per week for a 16-week semester. Evening courses meet for the same number of hours per week, but in one extended evening session during the 16-week semester.

Accelerated Format - Accelerated study at the Mount is an intense learning experience that offers the opportunity to complete a course in the evening and on weekends in a shorter timeframe than the standard format. Instructors follow a different teaching methodology with fewer class contact hours and more independent study. Accelerated courses are offered over several terms including the summer. Each course requires attendance at five to eight class sessions. Each course requires a preassignment that must be completed before the first class meeting. The completed preassignment and extensive independent studies between each class meeting are integral to this format.

Course Delivery Formats

Face-to-Face Format - Face-to-Face (F2F) courses meet in a classroom in regularly scheduled sessions throughout the semester.

In*Sync - In*Sync courses include a combination of asynchronous and synchronous learning. With this format, a student will not only work on their own schedule to meet deadlines for assignments but also will attend scheduled virtual class sessions. Delivered through Blackboard, the content for this delivery format is highly structured.

Blended Format - Blended courses integrate best practices of face-to-face and online course formats in a planned, pedagogically sound manner. Participation, course content, and student engagement will occur both online and in the scheduled in-person class sessions. This course format is recommended for students who are independent learners and comfortable using online tools.

Online Format - Online courses have no face-to-face component. Some courses may require proctored exams. This course format is recommended for students who are independent learners and comfortable using online tools.

Study Abroad* - Mount St. Joseph University encourages students to study abroad. Arrangements may be made for students to spend a year, a semester, a summer or several weeks in study abroad for which academic credit will be granted. Credit hours are treated as Mount residency hours when course registration for travel abroad takes place through the Mount. Other study abroad grades are generally treated as transfer credit. In some cases, work experience abroad may also be arranged. Full-time students who are in good academic standing and who are of junior or senior standing are eligible to participate. Upon the recommendation of their advisor and department chairperson, sophomores who are in very good academic standing may also be eligible to participate. Federal and state financial aid may be used for overseas study. Additional grant opportunities are available for overseas travel. Information and application procedures are available from the Provost Office.

*This registration at MSJ is a technical requirement, and does not conflict with the usual and customary AIFS online registration.

Learning Contracts/Independent Learning Options

All independent learning courses (Independent Studies, Internships, Service Learning courses, Advanced Studio Projects - Art, and Directed Research) require the completion of a learning contract. An independent learning course provides the opportunity for student-initiated, student-driven, in-depth study complementing the student's overall academic program under the supervision of a faculty member and should not be taken merely to fulfill minimum credit requirements.

An independent study opportunity can be established as a special topic or neonatal course (which might include lab research), or a specialty area. The independent study credits will be included in the normal course load. The instructor's approval in Web registration is required before a student may enroll.

Any student seeking credit through an independent learning opportunity must contact the instructor to discuss and complete a learning contract. Through contractual learning, the student is to understand the instructor's expectations and criteria for evaluation. A completion date is established between the student and instructor. There is no re-contracting after an established completion date. The contract must be signed by the chair of the department in which it's offered. A copy of the signed learning contract must be on file in the Registrar's Office.

Course Terminology and Classification

Clarification of Course Terminology in the Curriculum

Curricular Component Areas

Core Requirements

- Common Good
- Discipline Specific Core

Program Requirements

- Major Courses
- Cognate Courses
- Prerequisite Courses

General Electives

- Additional Courses Taken to Reach 120 Credit Hours

Glossary of Terms

Note: Associate Degrees require a total of 60 credit hours and 24 - 25 credit hours of core requirements. The glossary terms otherwise applies to Associate Degrees as they do to Baccalaureate Degrees.

core requirements: courses taken to fulfill the Common Good and Discipline-Specific Core categories of the baccalaureate core curriculum, the total of which equals 46-49 credit hours

program requirements: all major courses, cognate courses, and prerequisite courses that must be completed to earn a degree in the program of study

general electives: courses taken that are not applied to the core requirements or to the program requirements a student must complete; these courses apply to the total of 120 credit hours a student must complete to graduate

major courses: courses required for the major program of study that have the **same** prefix as the major; students who double major will use the prefix of their first major only as their major prefix; students who complete dual-major programs will, for the purposes of course classification, treat the first discipline of the dual major as their major prefix (e.g., a Mathematics/Financial Economics dual major would use Mathematics as their major prefix, and Business Financial Economics requirements for the dual major would be treated as cognate courses.)

cognate courses: courses that are required for the major program of study but have a **different** prefix than the major.

prerequisite courses: courses a student must complete **prior** to registration in the next level course or for admission prior to taking selected courses.

recommended courses: courses that are not required for the major, however the department recommends that students take these courses.

Clarification of Course Classifications

Note: Associate Degrees require a total of 60 credit hours and 24 - 25 credit hours of core requirements. The course classifications otherwise apply to Associate Degrees as they do to Baccalaureate Degrees

Every student at the Mount typically must complete three component areas of study in order to graduate. These component areas are core requirements, program requirements, and general electives. In addition, a student must complete a total of 120 credit hours for a baccalaureate degree. Please note that while a course may be listed in more than one of the component areas, the credits only count once toward the 120 credit hours needed to graduate. The following guidelines are designed to help advisors assign courses within the three component areas.

Liberal Arts and Sciences Electives outside the Student's Major for Transfer Students Only:

- Courses for the Liberal Arts and Sciences Electives may include courses coded A, C, E, H, IDS, L, LAS, MA, MU, N, P, R, S, or transfer equivalents. Cognate courses with these codes may be counted as Liberal Arts and Sciences electives. Liberal Arts and Sciences electives in the Mount's curriculum CANNOT be taken for a Pass/Fail grade.
- Courses with a core code, which are being applied toward a second major or a minor, may be used as Liberal Arts and Sciences Electives, even if the courses are from the student's major department.
- Transfer students with more than 27 transfer credit hours are required to take additional credit hours of Liberal Arts and Sciences Electives, if needed to reach the minimum of 46 to fulfill the Core.

Each academic program lists its program requirements according to one of the following three general categories. These categories, and their application to the core requirements, are as follows:

1. Major courses: discipline-specific courses in this category may be applied to the Discipline-Specific portion of the core requirements only (note that students who double major will use the prefix of their first major as their major prefix).
2. Cognate courses: coded courses in this category may be applied to the Discipline-Specific core requirements.
3. Prerequisite courses: coded courses from this category may be applied to the Discipline-Specific core requirements.

Recommended courses are not part of students' program requirements, and coded courses from this category may be applied to the Discipline-Specific core requirements.

FERPA

Annual Notification of Students Rights Under the Family Education Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their education records. An eligible student under FERPA is defined as a student who is 18 years of age

or older, OR who attends the University. Attending students become eligible the first day of the semester in which they are enrolled.

1. Students have the right to inspect and review their education records within 45 days of the day Mount St. Joseph University receives a request for access. Students should submit to the Registrar's Office written requests that identify the record(s) they wish to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Registrar's Office, the student shall be advised of the correct official to whom the request should be addressed. If the student does not live within reasonable commuting distance from the University and wishes to inspect their records, the student must provide this information with the request, and the University official will make arrangements to provide copies of the education record(s) by mail. The student may be charged a fee for producing copies of the education record(s).

In general, an education record is any record which contains information that is personally identifiable to a student, and is maintained by the University or by a party or organization acting on behalf of the school. Education records may include: written and printed documents; electronic media; magnetic tape (microfilm and microfiche); film, diskette or CD's; video or audio tapes. This includes transcripts or other records obtained from a school in which a student was previously enrolled. The following exemptions are **not** part of the education record or subject to this Act:

- i. Personal records maintained by University staff/faculty if kept in the sole possessions of that individual, and the information is not accessible or revealed to any other person, e.g. faculty grade book, advising file.
 - ii. Employment records not contingent on the student's enrollment. (Therefore, student worker records, evaluations and files are part of a student's education record.)
 - iii. Law enforcement records that are created by a law enforcement agency for that purpose.
 - iv. Medical and psychological records used solely for treatment and made or maintained by a physician, psychologist, psychiatrist, or other recognized professional or paraprofessional acting in their professional capacity or assisting in a paraprofessional capacity.
 - v. Alumni records containing information relating to a person after that person is no longer a student at the University.
2. Students have the right to request the University amend an education record that the student believes to be ., misleading, or otherwise in violation of the student's privacy rights under FERPA. A student who wishes to ask the school to amend a record should write the school official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested by the student, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
 3. Students have the right to provide written consent before the University discloses personally identifiable information (PII) from the student's record, except to the extent that FERPA authorizes disclosure of directory information without consent. The University discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with a legitimate educational interest:
 - A school official is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including law enforcement personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, collection agent, degree conferral agent, document managing agent, and placement sites for internship, clinical, or similar student work/study opportunities); a person serving on the Board of Trustees; a student serving on an official committee, such as a disciplinary or grievance committee, and

volunteers or other outside parties to whom the University has outsourced institutional services or functions that it would otherwise use employees to perform. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the University.

- As allowed within FERPA guidelines, the University may disclose education records without consent to officials of another school, upon request, in which a student seeks or intends to enroll.
 - The University may disclose without a student's prior written consent under FERPA exceptions for judicial orders and subpoenas; information in accordance with the Patriot Act, Clery Act and the Campus Sex Crimes Prevention Act; and to appropriate parties in connection with an emergency or if the information is necessary to protect the health or safety of the student or other individuals.
4. The student has the right to file a complaint with the U.S. Department of Education concerning alleged failures by Mount St. Joseph University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW., Washington, DC 20202-4605.
 5. At its discretion, the University may provide Directory Information in accordance with the provisions of the Family Education Rights and Privacy Act. Directory Information is defined as that information which would not generally be considered harmful or invasive of privacy if disclosed. Designed Directory Information for the University includes the following:
 - Student Name
 - Address(es) (local, home, and email)
 - Telephone (local and home)
 - Date and place of birth
 - Photograph
 - Student classification (year in school)
 - Program of study
 - Major(s) and minor(s)
 - Academic advisor
 - Inclusive dates of enrollment
 - Enrollment status (undergraduate or graduate programs, full-time or part-time)
 - Degrees earned
 - Awards received including academic honors
 - Most recent previous educational agency or institution attended
 - Participation in officially recognized activities and sports
 - Weight and height of athletic team members

Students may withhold Directory Information by notifying the Registrar in writing within the first two weeks of the academic semester the request is to become effective. A request form to withhold Directory Information is available in the Registrar's Office. The University assumes no liability for honoring a student's withholding of information.

6. As of January 3, 2012, the U.S. Department of Education's FERPA regulations expand the circumstances under which your education records and personally identifiable information (PII) contained in such records - including your Social Security Number, grades, or other private information - may be accessed without your consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities ("Federal and State Authorities") may allow access to your records and PII without your consent to any third party designated by a

Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is "principally engaged in the provision of education," such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records and PII without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

Mount St. Joseph University
Registrar Office
5701 Delhi Road
Cincinnati, OH 45233-1670
Registrar@msj.edu

Grades

Final Examinations

Final examinations are given at the end of each semester on a day and hours specified on the Exam Schedule available from the Registrar's Office.

Students may not be excused from examinations or make any changes (time or day) in the schedule **without** the approval of the instructor. A change in the examination schedule may be made for serious reasons **ONLY** (e.g. serious illness of a student, serious illness or death in a student's family, when more than two exams are scheduled on the same day, etc.). The make-up examination day and time is scheduled between the instructor and the student.

Grade Point Average (GPA)

To determine a student's grade-point average, the total number of points earned is divided by the total number of graded hours attempted, which are also known as GPA hours. Thus, a student taking 30 hours of work and earning 90 points would have a grade-point average of 3.00.

Grades of W, P, NC, I, IP, AU, SP, and NR are not included in this computation.

The grade point average of a student is computed on courses taken at the Mount and for courses taken through approved Consortiums and Study Abroad arrangements.

Grading System

The grading system, with quality points assigned each grade, is as follows:

Grade Quality Points		
A	Excellent achievement of course objectives	4.00
AU	Audit (not calculated in GPA)	0.00
B	High achievement of course objectives	3.00
C	Satisfactory achievement of course objectives	2.00
D	Minimal achievement of course objectives	1.00
F	Failure	0.00
FA	Failure due to absence	0.00
I	Grade option for the mid-term grade if student stops attending class prior to the mid-semester. The grade would remain FA for the final grade if the student does not withdraw from the class or improve performance. Incomplete (Incomplete grades are initiated by the student with a course work completion plan. Incomplete grades, if not changed by the instructor, convert to an "F" the following semester.)	0.00
IP	Current term in progress	0.00
NC	No credit	0.00
NR	Grade not reported	0.00
P	Grade not reported by instructor, through Consortium, or external institution as of deadline for reporting grades for each semester/academic term as established by the Registrar's Office (the "Grade Deadline"). NR grades do not calculate into Grade Point Average, do not count for academic credit towards graduation, and cannot be changed more than one (1) calendar year after the Grade Deadline.	0.00
SP	Pass (not calculated in GPA)	0.00
W	Satisfactory Progress Grade option for thesis, research, clinical, and internship courses that may exceed one semester in length to complete with no credit towards graduation awarded until completion of the course requirements. SP grades must be changed to a letter grade within one (1) calendar year of the deadline for reporting grades as established by the Registrar's Office the first semester the student was registered for the course or the SP grade converts to an "F" grade. Withdrawn (not calculated in GPA)	0.00

Students who receive a grade of "F" or "FA" must repeat the course to obtain credit.

Pass/Fail Grade Option

Degree seeking students who have earned 48 semester hours and are in good academic standing may opt to register for one course per semester as Pass/Fail instead of letter graded. The course must be an elective; that is, it must not be taken to satisfy core curriculum requirements or requirements in the student's major or minor field. Non-degree seeking students may register for courses offered on a Pass/Fail basis without 48 semester hours previously earned.

Students must complete all course requirements satisfactorily (i.e., earn a D or higher in the course). A grade of "P" for Pass or "F" for Fail will be assigned by the instructor. A Pass "P" grade does not affect the student's grade point average. However, a grade of Fail "F" does calculate into the grade point average. Pass/Fail credits are counted in the maximum credits allowed for a semester.

If a student wishes to change from letter grade to Pass/Fail or vice versa, the changes must be made via an Add/Drop form during the first five weeks of class for a traditional semester course. For accelerated and summer sessions, students must declare the "PF" grading option the first quarter of the course.

Credit hours earned using the Pass/Fail grade option are counted toward the residency hours and total hours earned required for graduation. However, credit hours earned under the Pass/Fail grade option do not count toward the minimum 42 residency hours required for graduation with Latin honors.

Incomplete Grades

Students may request an Incomplete "I" grade ONLY if they have made significant academic progress in a course of at **least 75% of work must be completed** and plan to complete work before an agreed upon deadline. Incomplete grades do not contribute to the semester or cumulative grade point average, and are not calculated in academic standing until replaced by a grade.

Requesting an incomplete requires the student to do the following:

1. Discuss the possibility of an Incomplete grade with the instructor. It may be in the best interest of the student to withdraw from the course and repeat in a future term.
2. Student must have completed 75% of the course requirements, and for a serious reason are unable to complete the remaining requirements by the end of the course.
3. Student must be able to complete the work without "sitting in" on the same course in the upcoming semester.
4. If instructor is agreeable, student completes the Incomplete Contract with the instructor, and obtains instructor's signature by the last week of the classes for a traditional semester course OR before the last scheduled date of an accelerated course.
5. A completion date must be included prior to the "I" to "F" grade conversion chart below. The specified student course work must be completed and submitted to the instructor no later than the completion date agreed upon by the student and instructor. If an "I" grade is not changed by the time specified in the grade conversion schedule, the "I" grade will automatically convert to an "F" (failing) grade.
6. Student submits the completed Incomplete Grade contract to the Registrar's Office prior to exam week or the final scheduled accelerated class meeting. Late submission requires approval from the Provost Office or designee.

Upon receipt, the Registrar's Office will enter the Incomplete grade and will maintain the Incomplete Grade Contract in the student record.

"I" grades convert to "F" grades on the following schedule:

Fall semester "I" grades change to "F": Last day of spring semester.

Spring semester "I" grades change to "F": Last day of the 3rd week of fall semester.

Summer session "I" grades change to "F": Last day of fall semester.

Incomplete Extension

An extension for an incomplete requires approval from the instructor, program director/chair, and Provost Office, can only be granted once, and only for one additional semester. An extension must be requested prior to the catalog deadline for the Incomplete grade conversion. The extension decision must be communicated to the Registrar's Office.

Change of Grade

If for a serious reason an instructor must change a student's grade, the instructor must submit a Change of Grade to the registrar and give a rationale for the change. Only instructors are authorized to change grades.

Grades may be changed by an instructor after the end of a semester only if:

1. an error is discovered in the determination of the original grade assignment; or,
2. the automatic "I" (incomplete) to "F" (failure) conversion needs to be corrected.

Grade changes cannot be made which exceed a time limit of one [1] calendar year after the original grade assignment. This includes the grade of "SP" (satisfactory progress) which must be changed to a letter grade within one [1] calendar year after the original grade assignment. Grades cannot be changed in courses that are part of a student's earned degree once or after the degree is officially noted on the academic record. Grade changes become official when received and recorded by the Registrar's Office.

Repeated Courses

Undergraduate students may repeat a course in which they have received a grade below an "A", took as an audit, or earned a "W" for withdrawal. There is no limit on the number of attempts a student can repeat a course, or attempt to transfer in an equivalent. When a course is repeated, the credit hours and highest grade earned will be the one counted in the student's cumulative grade point average (GPA) and toward graduation requirements. Credit hours are only counted once in earned hours regardless of attempted repeats. The student's academic record, however, will show every attempt at a course and a grade for each attempt.

Some programs have additional requirements that limit the number of a times a student can repeat a course and remain in the program.

When repeating courses, students should consult with the Student Administrative Services office for how financial aid may be affected.

This policy does not apply to courses that are considered repeatable. See below.

Repeatable Courses

Repeatable courses are those courses, like special topics, sport courses, music lessons, which are repeatable for credit and grade. See course descriptions for more information on number of times courses are repeatable for credit.

Course Age Limits

Each academic department regulates the acceptable age limits of courses required in their discipline. Refer to departmental policies in this catalog.

Progress and Mid-Term Grades

Progress Reports are electronically submitted by instructors to identify those students who are not doing satisfactory work. Advisors and students receive notification of all Progress Reports

Mid-Term Grades are mandatory for all undergraduate students and can be viewed in myMount after the mid-term grade period is complete.

Transcripts

Transcripts of a student's complete academic record at the University are obtained only upon written request from the student. An official transcript (one bearing the University seal and the authorized signature of the Registrar) is sent directly to a third party and/or institution specified by the student. An official transcript issued to the student is labeled "Student Copy." The university is not permitted by law to issue copies of documents from other institutions. Only official transcripts are released to a student or a third party.

Transcripts can be ordered and sent electronically. Complete information regarding a transcript request can be found at <https://www.msj.edu/academics/registrar/transcript-requests/index.html>.

Graduation

Degrees Awarded

The University offers the following undergraduate degrees:

Bachelor of Arts
Bachelor of Fine Arts
Bachelor of Science
Bachelor of Science in Nursing
Associate in Arts

Requirements for the Baccalaureate Degree

1. Official acceptance by the Admission Office.
2. A minimum of 120 earned semester hours.
3. Fulfillment of the residency requirement.
4. A minimum cumulative grade point average of 2.00.
5. Completion of the core curriculum requirements. (Refer to the specific core curriculum requirements.)
6. A major satisfying the requirements of the department and minimum grade point average of 2.00 in courses required for the major. Refer to departmental requirements for majors.
7. Integration of the specificity of the major field into the broader focus of the core curriculum.
8. Completion of assessment courses and/or projects.
9. A formal application for the degree must be on file in the Registrar's Office by the application deadline specified in each semester's or term's Semester Policies and Procedures.

10. Students can apply up to 9 co-op hours towards their degree; individual programs may further restrict the number of co-op hours that can apply towards a major.
11. No more than three documented Plus One Credits may be accumulated during pursuit of a degree.
12. Students can apply a maximum of 4 credits total of combined ACT 175 intercollegiate sport credits to their MSJ degree.

All of the listed degree requirements must be satisfied before a degree can be posted.

Requirements for the Associate Degree

1. Official acceptance by the Admission Office.
2. A minimum of 60 semester hours.
3. Fulfillment of the residency requirement.
4. A minimum cumulative grade point average of 2.00.
5. Completion of the core curriculum requirements. (Refer to the specific core curriculum requirements.)
6. A major satisfying the requirements of the department and a minimum grade point average of 2.00 in courses required for the major. Refer to departmental requirements for majors.
7. A formal application for the degree must be on file in the Registrar's Office by the application deadline specified in each semester's or term's Semester Policies and Procedures.

All of the listed degree requirements must be satisfied before a degree can be posted.

Graduation with Honors

The baccalaureate and associate degrees are conferred with special honors on students who have fulfilled the university residency requirement and whose final academic cumulative grade point average is 3.50 or above. In addition to the GPA criteria, students must have completed a minimum of 42 semester hours in Mount coursework earning letter grades by the end of the final semester or term of courses/credits required for the degree. Courses earning a Pass/Fail grade or credits earned through experiential learning options do not apply toward the 42 hour minimum. Official graduation honors are noted on the student's diploma and academic record.

The student's cumulative grade point average and fulfillment of the residency requirements for honors (refer to preceding paragraph) determine the following distinctions:

Baccalaureate Degree

Cum Laude: 3.50-3.69
Magna Cum Laude: 3.70-3.89
Summa Cum Laude: 3.90-4.00

Associate Degree

With Distinction: 3.50 or above

Tentative Graduation Honors at Commencement

The May commencement ceremony is held before final grades are reported by instructors. Therefore, tentative (unofficial) graduation honors are noted in the commencement program and announced at the commencement ceremony. Tentative graduation honors for purposes of the commencement ceremony are based on: 1) the applied graduation candidate's previous semester/term earned cumulative grade point average; and 2) the Mount's residency requirement and 3) the required minimum of 42 semester hours in Mount course work with a letter grade (excluding P/F grades or experiential learning credits) earned by the end of the previous semester.

Commencement & Graduation Application Information

Commencement Ceremony

All graduation candidates will be eligible to participate in the University's May commencement ceremony as below:

- August graduation candidates with 12 or fewer credit hours to complete their degree may participate in the May ceremony prior to the summer session in which they complete their requirements.
- December graduates may participate in the following May commencement ceremony.
- May graduation candidates may participate in May commencement ceremony.

Applying for Graduation

Graduation candidates are required to complete a graduation application which is submitted for approval to their advisor and program director and/or department chair. The approved application for graduation is submitted to the Registrar's Office. The graduation application must be on file in the Registrar's Office by the posted deadline dates.

Application deadline dates for all graduation candidates completing their degree requirements are:

- August completion - graduation application due November 15 of previous year
- December completion - graduation application due April 15
- May completion - graduation application due September 15 of previous year

A one-time \$75.00 non-refundable graduation application fee is assessed to all graduation candidates for each degree application. Students who apply after posted application deadlines are at risk for not receiving important communications regarding participation in commencement and graduation-related activities, may not have their name listed in the commencement program, and may not be eligible to participate in commencement.

If graduation requirements are not completed by the date (month/year) specified on the student's graduation application, the application will be moved to the next graduation cycle. If the requirements are not completed by the next official graduation date, i.e. December, May or August, the application will be canceled. If a student completes their graduation requirements after being notified their application has been canceled, the student will be required to submit a Petition to Review of completed graduation requirements for degree posting on the next official graduation date. If a student applies for one degree during one academic year and another degree during a future academic year, the graduation application fee is charged twice. A student applying for an undergraduate and a graduate degree during the same academic year will be charged the full graduation application fee twice.

Bachelor Degree Posting

The final posting of all academic degrees is not done until all final grades have been submitted and a final review of the degree audit is completed by the Registrar's Office to ensure all graduation requirements have been met. The University has four weeks after the semester's final grade due date to post, move, or cancel a graduation applicant's degree. The University posts degrees three times a year following the end of the fall, spring, and summer semesters.

Official diplomas for all graduates are mailed approximately four weeks after final grades have been submitted and all financial obligations to the University have been met.

December, May and August degrees are conferred by Mount St. Joseph University at the annual May commencement ceremony.

Diplomas

Official paper and digital diplomas are sent to graduates approximately four weeks after final grades have been submitted. All financial obligations to the University must be met before graduates can receive their paper and digital diplomas.

Finalizing the Academic Record

The University posts degrees to student records during Fall, Spring, and Summer terms. All final grades and official transcripts for applicable transfer work must be received in order for degree posting to occur.

Once the degree is posted to the record, the academic record is considered complete and final. No further changes will be made unless there is a documented clerical error or unless the student successfully appeals a grade under the [Academic Grade Appeal Policy](site://cataloglive/undergraduate-catalog/student-rights-university-policies/academic-policies/academic-grade-appeal-policy) or [Formal Complaint Policy](site://cataloglive/graduate-catalog/student-rights-policies/formal-complaints). It is the responsibility of the student to notify the Office of the Registrar of a clerical error within 30 days of the posting date.

Course repeats for the purposes of bolstering the final degree GPA are not permitted after a degree is posted. No transfer work will be accepted after the degree is posted.

Students may not retroactively seek to have additional majors or concentrations added to a degree after it has been posted. See Additional Undergraduate Degree for more information about adding additional degrees, majors, minors, or concentrations after degree posting.

Degree Revocation

Mount St. Joseph University reserves the right to revoke any degree previously awarded. A degree awarded may be revoked if the university becomes aware that the degree should not have been granted, such as a degree that was obtained by violating the Code of Student Conduct or by deception, misrepresentation, falsification of records, academic misconduct, research misconduct, or if the work submitted in fulfillment of - and indispensable to - the requirements for the degree are determined to fail to meet the academic standards that were in effect at the time the degree was awarded.

The university also reserves the right to withdraw a degree to correct an administrative error, such as an incorrectly listed degree, or in a situation where it was found that a student had not actually fulfilled all graduation requirements.

The Provost reviews all recommendations for revocation of degrees and forwards to the President any recommendations deemed to be warranted. The University President will consider all recommendations forwarded by the Provost and effectuate those determined to be warranted. Notification of the date of revocation will appear on the student's transcript, and the student will be asked to return the diploma.

Procedures governing degree revocations may be obtained from the Offices of the Registrar, Provost, or President.

Honors

Academic Honors & Awards

Mount St. Joseph University offers a number of prestigious awards and honors to students to recognize outstanding achievement in academics, leadership, athletics, and service to the University, community and church. Student award recipients are recognized at the annual honors convocation and at the commencement ceremony.

Dean's List: Any undergraduate student carrying 6 hours or more of course work for a letter grade (excluding "P/F" courses) and whose grade point average for a semester is 3.50 or above is placed on the Dean's List. Recognition is based on completion of all courses by the end of a given semester. An incomplete (I) or satisfactory progress (SP) grade preclude such recognition. Dean's List is noted on the student's academic record after fall and spring semester only.

Graduation Honors

For information regarding graduation honors, see academic policies for graduation.

Honor Societies

Membership in Kappa Gamma Pi, the National Honor Society of Catholic Colleges, is available to students who have graduation honors (based on the grade point average and residency requirement for honors), have been outstanding in service and leadership, and have met current qualifications as specified by Kappa Gamma Pi.

Chi Alpha Sigma, is the first national scholar-athlete society to honor those collegiate student-athletes who have excelled in both the classroom and in athletic completion. Chi Alpha Sigma recognizes college students who receive a varsity letter in their sport while earning the required cumulative grade point average and residency requirement.

Kappa Gamma Pi and Chi Alpha Sigma honors are noted in the commencement program.

Refer to the individual academic departments for discipline specific honor societies.

Prior Learning Assessment

Mount St. Joseph University is committed to respond to the need for lifelong learning by providing a full range of educational services adapted to the needs of adult students. As part of this commitment, the Mount recognizes and gives credit for college-level learning, which takes place outside a college or university setting.

Learning acquired through the following kinds of activity may qualify:

- Structured educational programs in the armed forces, business, or industry recognized by the American Council on Education for college-level credit.
- Structured education in a non-accredited institution (e.g., business college, art school, professional school, nursing school).
- Learning acquired through activities such as: non-credit courses, workshops, seminars, self-taught knowledge or skills, career/work experiences, volunteer work, community services, travel, avocation (e.g., art, music, dramatics), leadership roles in associations and organizations, and personal life experiences.

Learning acquired must meet the criteria for college level learning as defined by the Council for Adult Education & Learning (CAEL) which states that college level learning must:

- Be measurable
- Be at a level of achievement defined by faculty as college equivalent
- Be applicable outside the context in which it was learned
- Have a knowledge base and be reasonably current
- Include both a theoretical and practical understanding of a subject area
- Show some relationship to your degree goals
- Not repeat learning for which credit has already been awarded

General Policies

- Any PLA credit received must fit the student's degree requirements.
- No more than half of the total number of credit hours required for graduation can be awarded through prior learning assessment.
- Students pursuing a graduate degree must check with the appropriate institution regarding its policies on the transfer of prior learning assessment credit.
- Duplication of credit is not permitted. A student's prior learning may not duplicate any course credit already received or possible future coursework.
- Credits earned through PLA neither fulfill nor interrupt the residency requirements.
- Only matriculated students seeking a degree or pursuing a certificate at Mount St. Joseph University are eligible to apply for a possible award of prior learning assessment credit.
- Credits cannot be counted toward the 42 semester hours of coursework needed for graduation with honors (See the Honors section of the catalog for information).

PLA Options

Students may use one or a combination of the processes described here to gain prior learning assessment credit. It is important to recognize that PLA credit is granted only in the context of a student's degree program. Students must meet with their advisor and completely understand their degree profile sheet requirements before starting any PLA process. It is also recommended that exploring PLA options start early in the student's academic career.

Credential Evaluation

- The American Council on Education's (ACE) ⁷ National Guide to College Credit is the standard reference work for recognizing learning acquired outside of the college setting. The Mount awards credit for learning based on evaluations and credit recommendations as set forth in the ACE Guide. Students who have completed structured education programs in the armed forces, nursing, business, or industry may present transcripts, certificates, or official credentials to the Prior Learning Assessment Coordinator for review as possible direct award of credit.
- Credit for veterans presenting official ACE registry transcripts will be granted in accordance with recommendations in the American Council on Education's (ACE) Guide to the Evaluation of Educational Experiences in the Armed Services ⁸. This credit may include up to 9 hours of credit for internships and/or field experience. All credit will be awarded through Prior Learning Assessment.

Validation Process

- Students who have attended extensive, informal trainings such as hospital-sponsored trainings or a comprehensive series of workshops have the potential for receiving credit via the validation process. Students should contact the PLA coordinator to determine if their particular training fits the necessary criteria. Fees for this type of validation evaluation are \$80 for the first credit hour awarded and \$20 for each additional hour.
- Non traditional (adult undergraduate) students who have current work experience related to their degree may also have the potential to earn credit through the validation process. The validation would grant general elective credit, up to 9 credits of co-op credit equivalent to CED 396 or CED 496. Students should contact the PLA coordinator to determine if their particular work experience fits the necessary criteria. Fees for this type of validation evaluation are \$80 for the first credit hour awarded and \$20 for each additional hour.

Portfolio Process

- In the portfolio process students must equate their knowledge and learning to specific courses offered by the university. By using the syllabi from university courses to organize one's knowledge, the student develops a portfolio to describe and document prior learning. The portfolio stresses learning outcomes rather than attendance or participation in events. It is prepared under the direction of the University's professional staff and is evaluated by the faculty for award of credit. Fees for portfolio evaluation are \$90 for the evaluation fee (which also includes the first credit hour awarded) and \$90 for each additional credit hour awarded.

Credit by Examination College Level Examination Program (CLEP)

⁷<http://www2.acenet.edu/credit/?fuseaction=browse.main>

⁸<https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/military-guide-online.aspx>

- The College Level Examination Program (CLEP) is a national program offering a variety of standardized tests to earn college credit. CLEP exams are taken pass/fail.
- Students must meet with their academic advisor or the Advising Center and completely understand their degree profile sheet requirements before registering for the exam.
- Students are encouraged to take CLEP examinations during the first 90 credit hours (freshmen-junior standing) at Mount St. Joseph University.
- CLEP's policy requires that students who fail an exam wait a minimum of three months before repeating the exam.
- More information on CLEP testing, along with the CLEP tests accepted by the Mount, can be found at <https://clep.collegeboard.org/org> or <https://www.msj.edu/academics/academic-opportunities/prior-learning-assessment/college-level-examination-program/index.html>

Departmental Examination

- On a limited basis departmental exams are prepared and monitored by Mount faculty or consultants designated by the faculty. Exams are given at the discretion of the academic department and may be oral, written, or by performance. Fees are \$80 per exam (includes the first credit hour awarded) and \$20 for each additional credit hour. Not all departments accept this method as a process for awarding credit for prior learning.

Residency Requirements

The term "residency" is used to describe the length of time a student should maintain continuous enrollment at their degree granting institution in order to qualify for the rights, privileges and representation of earning that institution's degree.

The residency requirements for associate degrees are:

- Twenty one (21) of the final thirty (30) semester hours must be completed at Mount St. Joseph University in order to fulfill the residency requirement for the associate degree.
- During the period of residency, students may enroll in a maximum of two courses through the approved consortiums without interrupting residency.
- Credit hours earned through Prior Learning Assessment (PLA) neither fulfill nor interrupt the residency requirement.

The residency requirements for baccalaureate degrees are:

- Students must complete at least 30 hours at Mount St. Joseph University.
- Students entering after 2021-2022 (UG22) catalog year:
 - Twenty-four (24) of the last thirty-one (31) hours must be completed as continuous enrollment at Mount St. Joseph University in order to fulfill the residency requirement of the baccalaureate degree.
- Students entering prior to the 2021-2022 (UG22) catalog year:

- Thirty (30) of the last thirty-seven (37) hours must be completed as continuous enrollment at Mount St. Joseph University in order to fulfill the residency requirement of the baccalaureate degree.
- During the period of residency, students may enroll in a maximum of two courses through approved consortiums without interrupting residency.
- Credit hours earned through Prior Learning Assessment (PLA) neither fulfill nor interrupt the residency requirement.

Residency for Certificate Programs:

Students pursuing a certificate have a university residency requirement equivalent to at least one-half of the total credit hours required to complete the program. Specific academic departments may have a more rigorous residency requirement.

Solomon Amendment

The Solomon Amendment is a federal law that allows military recruiters to access some address, biographical and academic program information on students age 17 and older.

The Department of Education has determined that Solomon Amendment supersedes most elements of FERPA. An institution is therefore obligated to release data included in the list of "student recruiting information," which may or may not match Mount St. Joseph University's FERPA directory information list. However, if the student has submitted a request to restrict the release of their Directory Information, then no information from that student's education record will be released under the Solomon Amendment.

Definition - "Student Recruitment Information" or "Solomon Information"

- Name
- Address
- Telephone number
- Birth date
- Major
- Class Level (e.g., Sophomore, Senior)
- Degree awarded
- Expected Graduation Date

Procedure for releasing information to a military recruiter:

1. Under the Solomon amendment, information will be released for military recruitment purposes only. Military recruiters may request student recruitment information once each term or semester for each of the 13 eligible units within the six branches of the service:
 - a. **Army:** Army, Army Reserve, Army National Guard
 - b. **Navy:** Navy, Navy Reserve

- c. **Marine Corps:** Marine Corps, Marine Corps Reserve
 - d. **Air Force:** Air Force, Air Force Reserve, Air Force National Guard
 - e. **Coast Guard:** Coast Guard, Coast Guard Reserve
 - f. **Space Force:** Space Force
2. The request should be submitted in writing on letterhead clearly identifying the unit of service requesting the student recruitment information.
 3. The request should specify whether the information needed is for the current or previous semester.
 4. Requests should be emailed to the attention of the Registrar at Registrar@msj.edu.

Student Classification and Enrollment Standing

Student Classifications

Mount St. Joseph University enrolls undergraduate students of varying ages, backgrounds, experiences, and academic pursuits. Given the special academic and personal needs of students, the Mount classifies students as:

Traditional Students are students out of high school fewer than four years; **Adult Students** are students out of high school for four or more years; **Off-Site Students** are students pursuing a Mount degree in one of the University's off-site degree programs.

Traditional, adult or off-site students are further classified according to the following distinctions:

1. Degree-seeking (matriculated) students are those students who:
 - a. Have been officially accepted for admission by the Office of Admission;
 - b. Are degree-seeking in academic pursuit of an associate or a baccalaureate degree.
 - c. Students who choose not to enroll in courses at the Mount for a period of two years from the date of their last attendance must reapply for admission.

All degree-seeking undergraduate students will follow the University's degree and major requirements and the core curriculum stated in the catalog in effect for the first semester of enrollment following acceptance. Students enrolling for the first time in the summer session will be bound by the University catalog in effect for the following fall semester/term.

2. Certificate-seeking (matriculated) students are those who:
 - a. Have been officially accepted for admission into a certificate program by the Office of Admission;
 - b. Are not pursuing a degree but a certificate with University program requirements and residency requirements to be fulfilled in order to receive a certificate from Mount St. Joseph University.
3. Non-Degree students (non-matriculated) are those students who:
 - a. Have not been accepted to the University and are not enrolled in a degree program. Non-degree seeking students do NOT apply through Admission. However, such students must apply and be accepted through the Registrar's Office by completing the non-degree student pre-registration form available through the Registrar's Office. Required course prerequisites must be met prior to registration.

- b. Non-degree seeking undergraduate students may take up to 13 hours before obtaining formal admission to the University, and are limited to two courses (six or seven credit hours) per semester or during the entire summer session until reaching the 13 credit hour limit.
- c. Non-degree seeking transfer students in good standing from an accredited college or university may take their 13 credit hours in one semester or an entire summer session.
- d. Non-degree seeking graduate students may earn a maximum of nine semester credit hours under a non-degree seeking status.
- e. This policy is implemented at the discretion of the Provost or designee.

Class Levels

The number of semester hours used in determining a student's academic level is based on the cumulative semester hours earned at the end of the semester.

A student's class status based on cumulative hours earned (total transfer hours plus Mount hours) is determined as follows:

Freshman:	0-27 semester hours
Sophomore:	28-59 semester hours
Junior:	60-89 semester hours
Senior:	90+ semester hours

Enrollment Standing

For undergraduate students, enrollment standing as reported to the National Student Clearinghouse is as follows::

- Full-time: 12 semester hours or more
- Less than full time: 11.5 semester hours or less

Transfer Policies

1. Students applying to Mount St. Joseph University must follow the admission procedures. Official college transcripts from all schools attended must be sent directly from the previously attended college(s) to the Office of Admission. Hand delivered transcripts will not be accepted.
2. For college credits earned while in high school, students must request their official college transcript from where the credit/course was earned. College credit will not be transferred from a high school transcript. Dual credit transcripts must be sent directly from the institution to the Registrar's Office. Hand delivered transcripts will not be accepted.
3. Current Mount students considering taking coursework at other institutions should consult with their academic advisor and the Associate Registrar before enrolling in courses elsewhere. Upon completion, an official transcript must be sent directly from the institution to the Registrar's Office. Hand delivered transcripts will not be accepted.
4. Credits earned for college-level academic courses at an institution with accreditation from one of the following accrediting agencies will be reviewed for acceptance:

- Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges
 - Higher Learning Commission (HLC)
 - Middle States Commission on Higher Education (MSCHE)
 - New England Commission of Higher Education (NECHE)
 - Northwest Commission on Colleges and Universities (NWCCU)
 - Southern Association of Colleges and Schools Commission on Colleges (SACSCOC)
 - WASC Senior College and University Commission (WSCUC)
5. Credit earned at institutions with accreditation from other agencies will be evaluated on a case-by-case basis. To be considered for transfer purposes, the accrediting agency must be recognized by the Council for Higher Education Accreditation (CHEA) or the US Department of Education (USDE) .
 6. Credits will be accepted in courses with a grade of C- or better .
 7. Only credit hours are transferred to the Mount transcript.
 8. Grades for transfer credits are not counted in the student's cumulative grade point average at the Mount .
 9. Courses that do not earn credit hours and/or quality points at the transferring institution will not be accepted.
 10. Only undergraduate course credit will be accepted toward an undergraduate degree.
 11. A maximum of 90 semester hours will be transferred to the University . This includes any type of credit earned outside of coursework taken at the Mount.
 12. Transfer credit from quarter-system institutions will be converted to semester hours. A 3-quarter-hour class equates to 2 semester hours and may satisfy a Mount core requirement. A 4- or 5-quarter-hour science class with a lab component equates to 2.5 or 3 semester hours and may fulfill the Mount core science requirement.
 13. Duplicate transfer credit will not be accepted. Previously awarded transfer credit will be removed if course work is later repeated at the Mount.
 14. Transfer courses are evaluated for acceptance toward core curriculum requirements and general elective credit. The Academic Departments determine the applicability of transfer courses to program requirements.
 15. All active articulation and transfer agreements between Mount St. Joseph University and other educational institutions will be honored when evaluating transfer credit.
 16. Transfer students with an earned baccalaureate degree from an institution with accreditation recognized by MSJ will usually have the core curriculum requirements waived. Degrees from other institutions will be evaluated on a case-by-case basis.
 17. Official scores for Advanced Placement (AP) and the College Level Examination Program (CLEP) must be sent directly from College Board to the Registrar's Office. Credit will not be awarded from a high school transcript.
 18. C-TAG (Career Technical Assurance Guide) credit from Ohio technical high schools may be eligible for credit upon review of appropriate documentation.
 19. Experiential courses with earned hours will be applied accordingly:
 - Cooperative education (co-op) credit satisfies the core experiential learning requirement (EXP).

- Internship and practicum credit will transfer as general elective credit. Students may pursue major applicability and experiential learning (EXP) through the Director of Career and Experiential Education in collaboration with the appropriate academic department chairperson
 - Health Science Clinical credit satisfies the core experiential learning requirement (EXP).
 - Service Learning and Travel courses may earn EXP credit.
20. Military Credit:a) Honorably discharged Military Veterans with appropriate documentation will automatically satisfy the core experiential learning requirement (EXP).
- Additional credit may be awarded per ACE recommendations as documented on a Joint Services Transcript.
 - Military transcripts should be sent to the Registrar's Office.
 - Credit for experience not reflected on the military transcript may be pursued through the Director of Career and Experiential Education.
21. International Baccalaureate (IB) transcripts will be evaluated for transfer credit.
22. International transfer credits may be accepted but are subject to evaluation based on standardized guidelines from AACRAO, WES, NAFSA or other approved organizations. An official evaluation from an approved agency must be sent to the Registrar's Office.

Additional notes:

- Previous credit awarded for PLA or "life experience" must be re-evaluated by the Career and Experiential Education Center.
- Recognized agencies/institutions are determined by review from the Office of the Provost and the Registrar's Office.
- Students who earned a "P" or "S" grade from a recognized accredited institution during the Spring and Summer 2020 semesters will be awarded credit for the course. These semesters are categorized as times of COVID-19 disruption which require no further proof of a "C-" grade or better.
- Grades and GPA from previous institutions may factor into acceptance decisions for specific academic programs.

Transfer Credit Appeal Process

Students who disagree with how their transfer credits are accepted from previous institutions should contact the Assistant Registrar for Transfer to discuss the appeal process. Per the above transfer credit policy, program or department chairs determine the acceptability of transfer coursework. The transfer credit appeal process is as follows:

1. Upon submission of course syllabus or other pertinent course information, a review may be requested from the program or department evaluator.
2. If the student is not satisfied after the above review, they may appeal to the Dean of the appropriate School. The Dean's decision is final.
3. If appropriate, students may also contact the Career Center to begin the process of earning credit through the Prior Learning Assessment (PLA) process. Students may not earn additional PLA credit for course work they have already received credit through the traditional transfer process.

Intercollegiate Athletic Policies

Eligibility for Financial Aid

Members of varsity sports programs and students receiving financial aid must be aware of special eligibility requirements for these programs. Requests for reinstatement of financial aid awards will be considered on an individual basis. Such requests should be submitted in writing to the director of student administrative services.

Eligibility to Participate in Intercollegiate Athletics

All entering freshmen are eligible to participate in intercollegiate athletics. However, students who are classified as Admit Conditional will be subject to monitoring of academic progress by the Athletic Committee for purposes of determining continued eligibility.

Satisfactory Progress Requirements for Intercollegiate Athletes A student participating in intercollegiate athletics must be enrolled as a full-time student and be in good academic standing (as defined for all students) during the semester in which they are participating. Furthermore, to be eligible for competition, a returning intercollegiate athlete must have earned a cumulative total of 24 hours during the previous twelve months. For intercollegiate athletes participating in the Fall Term, the cumulative hours shall be counted from the immediately previous Summer, Spring and Fall Terms. For intercollegiate athletes participating in the Spring Term, the cumulative hours shall be counted from the immediately previous Fall, Summer and Spring Terms. An intercollegiate athlete who has been enrolled for less than one academic year must have earned 12 hours during the previous academic term. These requirements shall not apply to students during their first semester of full-time enrollment at Mount St. Joseph University. The earned hours requirement may not apply to students who are in their first season of athletics. These requirements apply to students participating in any intercollegiate sport regardless of the sport's affiliation with the NCAA.

Emergency Medical Leave of Absence

Emergency Medical Leave of Absence

If a medical condition prohibits a student from attending class for an extended period, the documentation and circumstances must be reviewed on a case-by-case basis by the Provost or designee. The Provost or designee may approve an Emergency Medical Leave of Absence in order to maintain the student's academic standing with Mount St. Joseph University. Depending on the point in the semester when the student requests a medical leave, the student may receive course withdrawal (W) notation(s) on their transcript which can impact financial aid and student billing. Therefore, prior to taking a medical leave, the student is strongly advised to consult with Financial Aid as the student will remain responsible for any balance due. A student who is awarded a medical leave remains an active student for a period of time deemed appropriate by the Provost or designee. The student must petition to the Provost or designee to be reinstated when ready to return to classes.

Temporary Medical Condition Policy

Temporary Medical Condition Policy

If a serious, but temporary, medical condition, or pregnancy (or related condition) results in a student anticipating missing more than one week of class (consecutive class sessions), the student may request temporary modifications of the requirements listed within the class syllabi during the period of illness, injury, pregnancy or related condition. This policy does not guarantee that modifications will be granted unless mandated by Title IX in the case of pregnancy or related conditions; granting of recommended modifications is the decision of the course instructor.

Students should begin the "Temporary Illness, Injury, Pregnancy or Related Condition Modification Policy" process as soon as possible after the onset of the serious illness, injury, pregnancy or related condition. The specific policy details can be located at : https://mymount.msj.edu/ICS/MSJAcademics/Learning_Center/Disability_Services.jnz?portlet=Handouts Temporary Illness, Injury, Pregnancy or Related Condition Modification Policy

Disciplinary Procedures

Disciplinary Suspension

A student who earns Disciplinary Suspension from the University pursuant to any University process, policy, or procedure shall be excluded from the University campus, classes and other on- and off-campus University activities for a specific period of time as determined in the sole discretion of the University. The student may additionally be asked to seek and/or complete counseling as a condition or term of suspension. A student who earns Disciplinary Suspension is immediately excluded from all courses with no right to take tests or make up work missed during the period of Disciplinary Suspension. Any reinstatement following Disciplinary Suspension may be conditioned on the continuation of certain sanctions or restrictions and/or the issuance of new or additional sanctions or restrictions. Disciplinary Suspension is noted on the official University transcript of the student and includes the specific period of time the sanction is/were in place.

If reinstatement is approved, Condition Removed will be noted on student's transcript, with the effective term, immediately following the Disciplinary Suspension notation. The student will be returned to the Academic Status earned at the time of the Disciplinary Suspension.

Disciplinary Dismissal Disciplinary Dismissal from the University results in the permanent termination of a student's status with the University. The dismissed student is not allowed on the University's campus, permitted to attend classes, or to participate in University activities on or off campus. Disciplinary Dismissal is permanent and is noted on the official University transcript of the student.

Student Accessibility & Disability Services

The mission of Mount St. Joseph University (the "University") Division of Student Accessibility Services is to recognize and address the unique accommodation requirements of the University community. The University offers accommodations to qualified students with documented disabilities to allow full access to and participation at the University. We strive to foster an inclusive atmosphere that embraces everyone. Our office actively encourages individuals with learning differences to fully engage in campus life. Through

collaborative efforts, we empower students to advocate for themselves and take ownership of their academic achievements and personal aspirations.

This commitment is consistent with Section 504 of the Rehabilitation Act of 1973, as amended, and the Americans with Disabilities Act of 1990 as amended in 2008, and embodies the University's long-standing mission to ensure the inclusion of all members of its community.

For information about accommodations available under this policy, please call 513-244-4623 to speak with the Student Accessibility Services Specialist (the "Specialist") or email studentaccessibilityservices@msj.edu. Additional information can be found at <https://www.msj.edu/academics/student-accessibility-services/index.html>.

Academic Renewal and Fresh Start

Academic Renewal

Baccalaureate degree-seeking students may file a written petition to the Provost, or designee requesting Academic Renewal. Students whose academic performance in one specific semester or term has been severely affected are eligible to petition. The petition is to include a brief explanation of factors that may have caused poor academic performance, how conditions have changed, a plan of action that will result in satisfactory academic performance, and a recommendation from the department chairperson or an academic advisor of the declared/intended major. If granted by the Provost, or designee, all failing grades for a particular semester/term will be eliminated from calculations of the semester term and the cumulative grade point average. The official transcript will report such action while retaining a record of all courses taken. Academic renewal will be granted only once. It is the student's responsibility to contact any agency providing financial assistance to determine the effects of the academic renewal on past or future benefits.

A student permitted to continue a degree program as a result of this action will be required to meet the degree and major requirements in effect the date that academic renewal is granted; however, the student will be ineligible for graduation honors: summa cum laude, magna cum laude or cum laude.

Fresh Start

Fresh Start is intended to assist a student who was unsuccessful in his or her previous academic attempt at Mount St. Joseph University. A degree seeking student returning to the Mount after an absence of at least two calendar years, who earned poor (D), or failing (F) or (FA) grades, may file a written petition to the Provost, or designee requesting a Fresh Start. The petition is to include a brief explanation of factors that caused unsatisfactory academic performance during the previous tenure at the University. If Fresh Start is granted, students fall under the current Academic Action policies.

Only grades of "D", "F", or "FA" may be excluded from the student's GPA. The grades to be excluded must have been earned prior to the minimum two calendar year non-attendance. Removal of the grade of "D" from the transcript will also result in the deletion of the credit earned for the course. Courses with the grades removed must be retaken if needed to meet graduation requirements.

Upon approval, the action taken is non-reversible, and may only be used one time. The courses approved under the Fresh Start policy will be disregarded in computing the student's cumulative grade point average; however, all courses and grades remain on the students' transcript. A "Z" grade will mark that the grade has been removed from the GPA calculation as a result of the Fresh Start program.

Once Fresh Start is in effect for a student and the updated GPA is calculated, a student is eligible for any honors, awards, or recognitions related to the specific GPA standards.

Students Withdrawal from University

Traditional students who choose to completely withdraw from the University should meet with their advisor or contact the Academic Advising Resource Center to complete the withdrawal process.

Returning to the Mount after Withdrawal

If you're returning to MSJ after withdrawing from the University, you must complete one of the following before registering for courses: 1. Apply for admission⁹ if:

1. It has been more than two calendar years since you've last taken an MSJ class, OR
2. If you enrolled in another college or university for any length of time since last attending, regardless of whether you plan to transfer credit back to MSJ.¹⁰ 2. Complete a Returning to the Mount after Withdrawal form if:

1. It has been less than two calendar years since your last MSJ class, AND
2. You have not enrolled in another college or university since last attending.

Student Rights and Responsibilities

Additional rights and responsibilities can be found under Academic Policies.

The University expects its students to act responsibly. University community regulations are designed to facilitate growth and development of individual responsibility, not to restrict freedom of behavior.

Continued membership in the Mount student body is contingent upon responsible behavior. A detailed description of students' rights and responsibilities is outlined in the Student Handbook <https://www.msj.edu/student-handbook>.

Formal Complaints

Enrolled and prospective students, face to face and online, may register concerns in a variety of ways ranging from informal conversations, formal appeals, to feedback on evaluation surveys. If a student wants to register a formal complaint it must be submitted in writing or by email (the official communication medium at the Mount). Written/emailed formal complaints should describe the issue or concern and must include the student's name, signature (electronic signature acceptable), and date. Formal complaints should be submitted to the Office of the Provost provost@msj.edu who will determine if further action is necessary.

Before filing a general complaint through this process, students may wish to consider if alternate complaint or grievance procedures are more appropriate. These include, but may not be limited to, Academic Grade Appeal, Academic Dishonesty Appeal Process, Appeals/Petitions for Reinstatement, Disability Related Grievance Procedures, Informal Resolution and Formal Investigation and Resolution of concerns related to discrimination, harassment, sexual harassment, misconduct, and retaliation, and student disciplinary procedure appeal process. Information on these procedures can be found in the Student Handbook and/or

⁹<https://www.msj.edu/admission/>

¹⁰<https://www.msj.edu/academics/registrar/forms/index.html>

the Graduate and Undergraduate Catalogs. Students may also contact Paige Ellerman, VP of Compliance Risk and Legal Affairs Officer/Title IX Coordinator at paige.ellerman@msj.edu for additional information regarding complaint procedures.

Higher Learning Commission

Mount St. Joseph University is accredited through the Higher Learning Commission (HLC). Students, faculty, staff and members of the public may submit a complaint about MSJ as an accredited institution through HLC. Learn more about the HLC complaint process <https://www.hlcommission.org/Student-Resources/complaints.html>.

Ohio Department of Higher Education

The Ohio Department of Higher Education (ODHE) is responsible for responding to formal complaints against public, independent non-profit and proprietary institutions of higher education in Ohio. While the ODHE has limited authority over colleges and universities, and cannot offer legal advice or initiate civil court cases, the Chancellor's staff will review submitted complaints and work with student complainants and institutions. [Learn more about the ODHE complaint process](https://highered.ohio.gov/home).

When a student complaint regarding an online program rises to the state level for resolution, it is ultimately resolved by the SARA state portal entity in the state in which the institution is located. SARA consumer protection provisions require the Ohio Department of Higher Education to investigate and resolve allegations of dishonest or fraudulent activity by an Ohio provider such as Mount St. Joseph University, including the provision of false or misleading information. Learn more about the ODHE complaint process <https://highered.ohio.gov/home>.

While the final resolution of a complaint rests with the SARA portal entity in the home state of the institution, the portal entity in the complainant's location state may assist as needed.

Kentucky Council on Postsecondary Education

Mount St. Joseph University has an offsite location in Kentucky. The Kentucky Council on Postsecondary Education may assist in responding to formal complaints against public, independent non-profit and proprietary institutions of higher education in Kentucky. While the Kentucky Council cannot offer legal advice or take legal action, the Council's staff will review submitted complaints and work with student complainants and institutions. Learn more about the Kentucky complaint process http://cpe.ky.gov/campuses/consumer_complaint.html.

Legal Penalty for Tampering with Education Records

No person shall knowingly tamper with records (files, documents, etc.) held at Mount St. Joseph University, or tamper with computer software or data, or knowingly gain unauthorized access to any University computer systems for any reason. Violations may result in criminal and civil penalties. See Ohio Revised Code 2913.04 and 2913.42. Additionally, violations by students and employees of the University will be subject to discipline under the Student Code of Conduct or Employee Handbook, respectively, which could result in sanctions up to and including dismissal from the University or termination of employment, as applicable.

Non-Discrimination Policy

View the Equal Opportunity and Non-Discrimination Policy for Mount St. Joseph University¹¹.

¹¹<https://www.msj.edu/non-discrimination-policy/Equal-Opportunity-and-Non-Discrimination-Policy.pdf>

Finance and Mission

- Financial Information
- Financing the University
- University Mission and Catholic Identity Statement

Financial Information

Mount St. Joseph University receives no annual allocation of money from the Catholic Church, state or federal governments. Students attending the University are paying approximately two-thirds of the actual cost of education. The balance is provided primarily by federal and/or state direct financial aid to the student, charitable gifts of alumni, other individuals, corporations, foundations, and surpluses from auxiliary activities of the University

Information regarding current tuition, fees, other charges, and the withdrawal reduction schedule is published each semester by Student Administrative Services. The University does reserve the right to make changes in charges for each academic year. Any adjustment will be announced three months prior to the upcoming academic year.

Tuition rates each semester/term are based on:

Part-time (fewer than 12 semester hours).....per credit hour tuition

Full-time (12-18 semester hours).....full-time tuition

Additional hours over 18 semester hours.....per credit hour tuition

Some courses may have additional fees.

Payment of Charges

All tuition and related fees are payable in full by the published confirmation date, which can be found at <https://www.msj.edu/pay>

Students with delinquent accounts may not enter subsequent classes until outstanding balances have been paid in full. Unpaid balances, for any reason, are subject to monthly service fees.

Withdrawals and Reduced Charges

Tuition/financial appeals are separate and different from academic appeals.

For information regarding Tuition Reduction, please visit <https://www.msj.edu/pay>.

Tuition and Fees

Tuition is charged on the basis of a cost per credit hour. Current tuition and fee information can be found at <https://www.msj.edu/tuition-aid/tuition-costs/index.html>.

The University reserves the right to modify tuition and the amount or number of fees at the beginning of any academic year subsequent to the student's initial registration.

Financing the University

Mount St. Joseph primarily sustains itself through private funding sources rather than direct church or government subsidies. Tuition and fees cover approximately 80 percent of the cost of operations. The remaining amount comes from private donations, endowments, and fundraising efforts. Generous donors, including alumni, parents, friends, corporations, and foundations, can invest in the University in several ways.

Gifts to the Mount Annual Fund

Gifts to the Mount Annual Fund enable the University to meet its current expenses. The Annual Fund helps support student scholarships, academic programs, student services and programs, faculty development, and campus maintenance.

Gifts to Endow Scholarships

A gift of \$50,000 will establish a fully endowed scholarship. These gifts may be funded on an outright basis with cash or securities, or on a deferred basis through bequests, insurance, trusts, and annuities. Based on the endowment spending rate approved annually by the Board of Trustees, a portion of the investment earnings on these endowments is used to fund scholarship aid to qualifying students.

Gifts to Capital Projects

The continued maintenance and improvement of its facilities is paramount to the success of the University. Donors may make outright or planned gifts to help maintain or improve the Mount's classrooms, library, science labs, computer labs, and recreational facilities, ensuring they support students in their academic pursuits. To recognize the generosity of donors, the University has developed several naming opportunities for buildings, laboratories, and classrooms.

Information about making an outright or planned gift, or about special giving opportunities, is available from the Office of Institutional Advancement at (513) 244-4611. Or write to the Office of Institutional Advancement, Mount St. Joseph University, 5701 Delhi Road, Cincinnati, OH 45233-1670.

University Mission and Catholic Identity Statement

Appendices

Appendix A: Course Descriptions

ACC

ACC 213 Principles of Accounting I - Financial (3)

This course introduces the student to the characteristics and basic concepts of accounting, the recording process, adjusting the accounts, completion of the accounting cycle, accounting for merchandising operations, internal control and cash, accounting for receivables, inventories, plant assets: acquisition, depreciation, disposals, natural resources, intangible assets, current liabilities, payroll accounting and basic accounting principles.

ACC 214 Principles of Accounting II - Managerial (3)

Prerequisite(s): ACC 213

This course is a continuation of ACC 213 and introduces the student to management's use of accounting information for decision making and planning. Introduction to management accounting terms and concepts: various costing systems such as actual, normal, and standard costing, and variable versus absorption costing. Various topics such as outsourcing decisions, maximizing constraints, cost-volume-profit analysis, cost function estimation, activity-based costing, and management's preparation and use of budgets and analysis of variances.

ACC 301 Intermediate Accounting I (3)

Prerequisite(s): ACC 214 or equivalent

This course provides the student with an in-depth study of financial accounting standards, conceptual framework underlying financial accounting, a review of the accounting process, statement of income and retained earnings, balance sheet and statement of cash flows, accounting and the time value of money, receivables, valuation of inventories, acquisition and disposition of property, plant and equipment, depreciation, depletion, and intangible assets.

ACC 302 Intermediate Accounting II (3)

Prerequisite(s): ACC 301

This course is a continuation of ACC 301 and covers current liabilities and contingencies, long-term liabilities, stockholders' equity: contributed capital and retained earnings, dilutive securities and earnings per share calculations; investment, revenue recognition, accounting for income taxes, pensions and post-retirement benefits, leases, accounting changes and error analysis, and statement of cash flows.

ACC 304 Cost Accounting (3)

Prerequisite(s): ACC 214 or equivalent

Basic concepts and techniques of product and service costing, including process and job order costing,

standard costs, budgeting and management use of cost accounting information.

ACC 304H HON:Cost Accounting (0)

Concurrent requisite(s): ACC 304

Course description as stated in ACC 304 (Honors Course)

ACC 330 Accounting for Non-Profit and Government Entities (3)

Prerequisite(s): ACC 214 or equivalent

This course will give the student an overview of financial reporting for governmental and not-for-profit entities general, special revenues, capital projects, debt service, internal service, enterprise, and fiduciary funds, long-term debt and fixed asset accounting groups, and planning and control of cash and temporary investments.

ACC 340 Taxation I (3)

Prerequisite(s): ACC 214 or equivalent

Fundamentals of tax law application with emphasis on federal tax laws applicable to individual taxpayers.

ACC 341 Taxation II (3)

Prerequisite(s): ACC 340 or equivalent

Fundamentals of tax law application with emphasis on federal tax laws applicable to corporate taxpayers.

ACC 396 Cooperative Education Work Experience: Parallel (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

ACC 403 Auditing (3)

Prerequisite(s): ACC 214

This course examines auditing theory and practice, emphasizing basic auditing concepts and principles, professional standards of auditing, audit procedures, preparation of auditing working papers, preparation of internal and external audit reports, and professional ethics in auditing.

ACC 440 Theoretical Topics in Accounting (3)

Prerequisite(s): ACC 302 or equivalent

This course will provide the student with an in-depth understanding of the development of accounting theory, income concepts, financial statements: the income statement, balance sheet and statement of cash flows; working capital, long-term assets: property, plant and equipment; investments, intangibles, long-term liabilities, accounting for income taxes, leases, pensions and other post-retirement benefits and equity.

ACC 445 Accounting Information Systems (3)

Prerequisite(s): ACC 301 and either CIS 135 or CIS 203

This course focuses on understanding how technology can enable key financial accounting activities. The student will be introduced to processing and reporting of accounting requirements using various types of accounting information systems (AISs). Students will apply risk assessment tools and evaluation techniques related to defining, implementing, and managing accounting information systems. Topics include data modeling, documenting systems, and developing and implementing effective AISs.

ACC 445H HON:Accounting Information Sys (0)

Concurrent requisite(s): ACC 445

Course description as stated in ACC 445 (Honors Course)

ACC 481 Advanced Accounting (3)

Prerequisite(s): ACC 302

This course will expand the student's understanding of corporate expansion and accounting for business combinations, intercorporate investments in common stock, reporting entity and consolidated financial statements, branch operations, segment and interim reporting, and partnerships: formation, operation, changes in membership, and liquidation, analyze, and work with complicated accounting problems.

ACC 481S Serv Learn: Advanced Accounting (1) EXP

Concurrent requisite(s): ACC 481

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

ACC 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

ACC 499 Independent Study (1-3)

Independent Study Course

ACT

ACT 119 Begin Racquetball (1)

This course involves instruction on the rules, safety and etiquette of the sport of racquetball as well as acquainting student with the fundamental skills, techniques and strategies in racquetball.

ACT 121 Beginning Golf (1)

This course involves instruction on the rules, safety and etiquette of the sport of golf as well as acquainting students with the fundamental skills, techniques and strategies of golf.

This course can be repeated 4 times for credit.

ACT 130 Yoga (1)

This course is designed to meet the interest of students who desire to participate in and develop increased health, body awareness, and balance. This course will introduce and develop strength and flexibility through the practice of Hatha Yoga. Students will learn basic poses with appropriate modifications, if needed. The benefits of incorporating Yoga practice into their life will be discussed.

ACT 132 Meditative Practice (1)

Students will study the fundamental philosophy, form and practice of meditation. Each class session will consist of readings, out of class writing assignments, class discussion, and guided or silent meditation practice. Covering the basic principles of posture, breathing, attention, concentration and awareness, the intention of this course is to empower and inspire students to continue a lifelong, rewarding relationship with "silence". For those who are willing, the promise of this course and this art form is the cultivation of mind and heart.

ACT 132S Serv Lrng: Meditative Practice (1) EXP*New Course*

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

ACT 133 Advanced Yoga (2)*Prerequisite(s):* ACT 130

Intended to expand students' knowledge and experience of yoga, the course integrates mental focus and emotional wellness with the use of asana (yoga postures and movement), pranayama (breathing techniques), and meditations. Students will examine the history of yoga as a therapeutic intervention to bring about balance and healing.

ACT 150 Individualized Exercise (1)

Includes basic strength training workouts in the weight room, plus various types of aerobic conditioning routines. Emphasis is placed on improving muscular strength, cardiovascular endurance and flexibility.

ACT 151 Walking & Running Fitness Class (1)

Walking and running are lifetime fitness activities. Completing distances longer than 1-2 miles, however, often requires motivation and should include a progressive training plan to avoid injury. Students will develop the skills needed to create a personalized 8 week walking and running training plan and learn strategies to maintain motivation for improved health, physical fitness, and performance. Class sessions will include daily physical activity, walking/running terminology and training systems, flexibility, strengthening, and cross training strategies, and journaling. Students will participate in a walk/run at the end of the semester suitable to their training status.

ACT 160 Fundamentals of Personal Fitness (1)

This course is designed to introduce the fundamentals of exercise and guide students through a personal fitness program focused on lifelong activity. Students will be guided through the practice of proper performance and safety measures. Baseline measures will be assessed to establish goals, and track performance progress. Foundational concepts of nutrition, exercise physiology, and training components (frequency, intensity, type and time) will be incorporated into the program.

ACT 175A Intercol Women's Volleyball (0-1)*Prerequisite(s):* Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175B Intercol Women's B-Ball (0-1)*Prerequisite(s):* Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175C Intercol Softball (0-1)*Prerequisite(s):* Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175D Intercol Men's Tennis (0-1)*Prerequisite(s):* Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175E Intercol Football (0-1)*Prerequisite(s):* Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175F Intercol Baseball (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175G Intercol Wrestling (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175I Intercol Women's Soccer (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175J Intercol Men's Basketball (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175K Intercol Women's Cross Country (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175L Intercol Men's Cross Country (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175M Intercoll Women's Golf (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175N Dance Team (0-1)

Prerequisite(s): Dance Team members only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175O Cheerleading (0-1)

Prerequisite(s): Mount Cheerleaders only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175P Intercol Men's Golf (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175Q Intercoll Women's Track/Fld (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175R Intercoll Men's Track/Fld (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175T Intercoll Women's Tennis (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175U Intercoll Men's Soccer (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175V Intercol Men's Lacrosse (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175W Intercol Women's Lacrosse (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175X Intercol Men's Volleyball (0-1)

Prerequisite(s): Intercollegiate athletes only

Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 175Y Intercollegiate Esports (0-1)

Participation on the intercollegiate Esports team during its traditional season of competition for both practices and contests. Students can apply a maximum of 4 credits of any combination of ACT 175 courses towards their degree.

ACT 196 Advanced Strength Training (1)

Prerequisite(s): ACT 160

This course will review content introduced in ACT 160. Students will learn the essentials of program design and implementation as well as create a balanced individual training program based upon personal goals and needs. Advanced lifts will be introduced and students will expand upon learned skills in a fitness program designed for greater intensity and physiological demands. This course will reinforce the benefits of exercise and provide comprehensive information on training adaptations, function and structure of body systems, and nutritional factors in health and performance.

ACT 260 Group Exercise Instruction (2)

Prerequisite(s): ACT 160 & BIO 131 or BIO 197

This course will focus on the knowledge and skills to safely and effectively lead group exercise activities. More specifically, it will explore the fundamentals of group exercise leadership, primary components of group exercise, and group exercise programming for all age groups and fitness levels.

AED

AED 290 Comprehensive Art Ed I (3)

Prerequisite(s): AED Majors Only

Introduction to the theory and practice of teaching art in grades prekindergarten to six utilizing a discipline-based art education approach. Focus on the planning and teaching of art and on the uses, meaning and value of art in people's lives. Includes art media, techniques, processes, structures, functions; lesson planning, artistic development; personal expression; aesthetic and critical responses; motivational techniques; classroom management, community resources; field experiences in the pre-K to 6th grade level setting. Art majors only.

AED 390 Comprehensive Art Education II (4)

Prerequisite(s): AED 290

Continuation of the theory and practice of teaching art, with an emphasis on the secondary school level. Explores issues related to art education: art production, art history, art criticism, and aesthetics; Ohio's Model Competency-Based Program-performance and instructional standards, assessment strategies, intervention; National Visual Arts standards. Includes curriculum unit planning; resources and materials; evaluation and grading; adolescent/young adult artistic development-expression and response; teacher characteristics; space/facility planning; Internet research and retrieval; health and safety standards; advocacy; resume &

portfolio development; contemporary issues (including multicultural appreciation and gender awareness). Clinical/field experiences related to grades 7-12 setting. Art majors only.

AED 396 Co-Op:Parallel(PT) (1-3) EXP

Prerequisite(s): CED 220

A part-time work related experience supervised by a faculty coordinator in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation of predetermined learning agreement and evaluation of work performance. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nineteen credits.

ART

ART 101 Drawing I (3) CAM

Fundamental drawing approaches using various drawing media and techniques. Course work includes common projects focusing on teaching specific skills for ART and GRD majors. These include the study of perspective, color and drawing. Other studio work and sketchbooks involve all students in the creative expression possible through drawing. Research, writing assignments, and critiques develop students' abilities to think critically about their own work and the subject area.

ART 102 Drawing II (3)

Prerequisite(s): ART 101 or equivalent

This course is designed to provide students with continued exploration of the principles of drawing. Students will explore new media and techniques not covered in Drawing I as well as continue to improve on skills they have learned. Projects will involve the use of color and encourage expressive use of each medium. A variety of tools, techniques and materials will be used during the semester. Examples of master drawings as well as previous students' work will be presented to illustrate concepts discussed in class.

ART 103 2D Design (3) CAM

Prerequisite(s): High School Drawing Recommended

This course is an introduction to the fundamental elements and principles of design. Assignments deal with an understanding of color, line, positive and negative shape and space, and the ability to think of a variety of visual problems in terms of organized relationships using traditional and digital media.

ART 106 3D Design (3) CAM

Prerequisite(s): High School Drawing Recommended

This course is designed to provide students with an understanding of the principles of Three-Dimensional Design. Through a sequential analysis of form in space, students will develop projects that put into practice the most universal concepts of design. Projects will emphasize the importance of planning and craft. A variety of tools, techniques and materials will be used during the semester. Examples of master designers and sculptors as well as previous students' work will be presented to illustrate concepts discussed in class. Text readings along with individual and group discussions further understanding of the weekly assignments.

ART 121 World Art History (3) CAM

World Art is a general survey of visual arts around the world with concentration on key western and eastern cultures, periods and artists, from prehistory to present day.

ART 132 Artworld (3)

Prerequisite(s): GRD 110 or Instructor Approval

This course is a requirement for all freshman art and design students. It is designed to assist the growth and evolution of each student's individual art studio practice, work habits, career, and life strategies that will serve them at the university level and help prepare them for an active professional life after graduation.

Topics will include: developing ties in the art world (networking), exploring careers in the art and design fields, creating original work, documenting work, building on concepts and skills taught in Digital Literacy to maintain an online identity through a website and portfolio presence, preparing and exhibiting work, addressing financial and legal concerns, and developing skills in reading, writing and discussing art and design. Students will be guided in the preparation and presentation of both a digital and professional portfolio of their best foundation artwork for review by the art and design faculty at the end of the semester.

ART 133 The Art Guild (0-1)

The Art Guild is a hands-on art making experience. Members of the class will be completing public art projects both on and off campus. The Art Guild provides students with the opportunity to work on individual and group projects in areas of their expertise and interest. Enrollment in the group is open to all MSJ students by instructor approval.

This course can be repeated 2 times for credit and then taken again for 0 credit after that.

ART 140 Ceramics (3) CAM

Explores principles of working in clay using handbuilding methods: coil, slab, pinch, and drape. Includes study of clay traditions both historical and contemporary in vessel forms, sculpture, figure, narrative, decoration, surface texture, and glazing. May be taken more than once for the development of individual skills in any of the above categories.

This course can be repeated 2 times for credit.

ART 181 Basic Camera Techniques (3) CAM

This course is an introduction to the technological and aesthetic skills needed for photography. The course focus is on learning how to use digital cameras, or film equivalents, to produce color images. There is not a darkroom component to this course.

ART 201 Art Special Topics (3) CAM

Courses offered on an occasional basis to explore subject matter of special interest or timely relevance, often utilizing local exhibitions or themes.

This course can be repeated 5 times for credit.

ART 216 Watercolor (3) CAM

Prerequisite(s): High School Drawing Recommended

The course is an exploration of the special characteristics of watercolor as a painting medium for illustration and fine art. It is designed to provide students with a working knowledge of the principles of watercolor painting including: color mixing, brush handling, composition, control of the medium and technique.

ART 217 Painting (3)

Prerequisite(s): ART 101/Equiv

An introduction to fundamental painting concepts, tools, materials, and practices. Intensive exercises introduce students to both oil and acrylic paints: students choose one of the two to use for the second half of the semester. Projects are grounded in traditional methods while developing each student's individual approach to painting. Visits to exhibitions, readings and writing supplement studio practice.

ART 218 Figure Painting (3) CAM

Prerequisite(s): ART 101

Basic painting practice and methods are applied to the human form. Students work from male and female models. Emphasis is placed on the development of painting skills on all levels. Projects range from gesture studies to full-color compositions of the human figure in space.

ART 230 History of Design:Hand Made to Apple (3) CAM

A survey of visual communication from pre-history through the present. Emphasis is placed on the contemporary period focusing on graphic, industrial and environmental design. Lecture.

ART 231 Modern Art:Subconscious Lure (3) CAM

Over the course of this semester, we will examine a survey of European and American art from Neo-Classicism through Contemporary movements. Emphasis is placed on painting and sculpture, as well as photography, performance and video art, and some architecture. We will achieve this examination through classroom lecture and discussion, written assignments, exams, and a field trip.

ART 232 Art History:Women Artists (3) CAM

This course will investigate the position and contributions of women artists throughout the history of art. Lecture.

ART 234 Art History: Photography (3) CAM

Photographs have become an integral part of our world. It is hard to imagine a time without photographs. This course will take the learner to a time when photography was just a dream and bring them back to the present. Along the way, we will explore how photography came to become such an important part of our lives.

ART 239 American Art:Plucky Originality (3) CAM

Over the course of this semester, we will examine a survey of European and American art from Neo-Classicism through Contemporary movements. Emphasis is placed on painting and sculpture, as well as photography, performance and video art, and some architecture. We will achieve this examination through classroom lecture and discussion, written assignments, exams, and a field trip.

ART 244 Art History:Non-Western Survey (3)

This course is a survey of Non-Western cultures: Africa, India and Southeast Asia, China, Japan, Korea, Oceania, and Native America. We will study their artistic achievements from pre-historic through contemporary times as expressed in painting, sculpture, prints, and calligraphy as well as architecture, gardens, decorative arts, graphic arts and photography. Lecture.

ART 276 Introduction to Hot Glass (3)

This course teaches the students the basic hand skills and mental processes necessary to manipulate molten glass into a pre-conceived form, as well as safety and health concerns. Slides, videos, discussions and independent research will introduce the students to the history of glass, the Studio glass Movement, and current glass art.

This course can be repeated 2 times for credit.

ART 278 Matisse & Picasso (3) CAM

This course will involve the study of the rich oeuvres of Henri Matisse and Pablo Picasso. We will specifically focus on the artistic rivalry and mutual influence of their respective works, as well as discuss their place in the formulation of Modern Art in the 20th century. We will evaluate each artist's place in historical and societal context, how each artist engages subject matter, formalism, and Style. We will achieve this examination through classroom lecture, writing, and discussion, a museum paper with gallery talk, and exhibition project.

ART 280 Time Studio (3)

This course serves as an introduction to using video, sound, performance, and Adobe Photoshop generated moving images in conceptual projects and creative problem solving. We will also explore the increasing and expanding critical role of time-based artworks in contemporary art and society. Students will create artwork that explores linear and non-linear narrative, context, and historical/cultural significance. Emphasis will be placed on intellectual, aesthetic solutions to the problems presented, and on developing skills with a variety of processes. Aesthetic, technical, historical, and conceptual issues within the context of contemporary art theory will be addressed through lectures, demonstrations, exercises, projects, screenings, research, and readings.

ART 281 Digital Photography I (3) CAM

Photography 1 is an introduction to the technological and aesthetic skills needed for photography. Students

will learn to use digital cameras to produce both color and black and white images. Photography is defined as writing with light. It has its own language. Through the creation and viewing of photographs students will learn how a photograph can impact themselves and the world in which they live.

ART 282 Alternative Film and Darkroom Processing (3)

This is an advanced darkroom course that emphasizes traditional and digital methods for producing photographic fine art. Traditional and experimental methods include, but are not limited to: cyanotype, hand coloring, liquid light, multiple image montage, tinting and toning, and digital printing.

ART 301 Figure Drawing (3)

Prerequisite(s): ART 101

Basic drawing practice is applied to drawing the human form. Students work from male and female models. Emphasis is placed on advancement of drawing skills on all levels. Basic anatomy is covered, as is an advanced exploration of compositional and content issues involved in depicting the human figure in space.

This course can be repeated 2 times for credit.

ART 302 Advanced Drawing (3)

Prerequisite(s): ART 101 and ART 102

Skills in drawing realistically and imaginatively are assumed. Exploration of advanced concepts, issues and strategies in drawing. Emphasis is on individual theme/statement development: class meetings are primarily critiques of outside work. Discussion and research of contemporary issues in drawing is ongoing throughout the semester.

ART 304 Sculpt Wkshp:Figure Modeling (3)

Prerequisite(s): ART 101

This course focuses on the human form. Students will work in a traditional approach to figure sculpture: study drawings and maquettes - in both wet and oil clay - will be done directly from observation; casts will then be made from relief or three dimensional molds; surface finishing will complete the process. Projects will cover four areas: hands/feet, the face, the head, the figure. Emphasis will be on a dynamic gestural response to each and to the clay material. Basic anatomy and proportion will be covered. Students will study historic and contemporary figurative sculptors.

This course can be repeated 2 times for credit.

ART 317 Painting Workshop (3)

Prerequisite(s): ART 216 or ART 217 or Instructor Approval

Advanced development of painting concepts, paint handling, color knowledge, and composition. Critical emphasis is placed on the development of content and intention in the work of each individual. Class meetings are primarily critiques of outside work. Discussion, assigned reading and research of contemporary painting issues are ongoing throughout the semester. This course requires a mature level of painting discipline, self-motivation and commitment to painting.

This course can be repeated 2 times for credit.

ART 328D Fiber and Fabric (3) CAM

Textile art structures that incorporate both fiber and fabric manipulation in contemporary ways. Techniques may include (but are not limited to): collage, stitchery, applique, reverse applique ("mola"), quilting, and trapunto stuffing. Examination of work from the leading global practitioners and artists in textiles, while building on design ideas and creative processes will be the focus.

This course can be repeated 2 times for credit.

ART 330 Art Criticism (3) CAM

Art Criticism promotes critical thinking about aesthetics. Reading and writing art criticism are integral activities. The course explores the role of art in our culture. Field trips to area art galleries and museums

are included. We will achieve these goals through classroom lecture and discussion, guest speakers, readings on the history of aesthetics and manners of discussing art, gallery visits and discussions, and writing progressively in-depth reviews and critiques of art.

ART 336 Sculpture Wkshp:Sustainable Mixed Media (3) CAM

This CORE course is designed for art and non-art majors. It is an elective course for the Sustainable Studies Minor. It blends sculptural methods and current technologies with traditions of the past. Participants will explore sustainable processes and materials. Beyond the making of art, emphasis will be placed on the conceptual; consideration of the effect of creation of this work on the planet's resources. ART 336/536 will meet together.

This course can be repeated 2 times for credit.

ART 341 Ceramics Workshop:Using The Wheel (3) CAM

A multilevel course that accommodates beginning work on the potters wheel, as well as advanced throwing and handbuilding, surface decorating, use of multiple clay bodies, glazemaking, loading and firing kilns. Emphasis on developing personal style and expression in claywork in addition to control and participation in production from start to finish. May be taken more than once for development of individual skills in any of the above categories.

This course can be repeated 3 times for credit.

ART 349 Professional Prep for Artist (3)

This course for art majors and minors shifts the focus to an emphasis on professional practices to prepare the student artist for an active art life after graduation. Utilizing texts such as Art, Inc. along with fieldtrips, hands-on learning experiences, and a variety of professional mentors, student artists will engage in topics including photographing work, portfolios, artist CVs and resumes, writing about and for art, exhibiting and selling work, and various educational and career opportunities. Overall, Art 349 N1's goal is to support, mentor, and critique fine arts/art majors and minors in an informative, creative, and developmental process. Through an introduction to many of the aspects that play a role in the life of a professional working artist, this course seeks to assist the growth and evolution of each student's individual art practice from the studio to work habits and life strategies that will serve their calling.

ART 350 Independent Study (1-3)

Independent Study Course. Learning Contract and Approval of Art Department Chair Required.

This course can be repeated 6 times for credit.

ART 362 Printmaking Workshop:Methods Survey (3) CAM

Prerequisite(s): High School Drawing Recommended

The purpose of this course is to provide students with a working knowledge of relief, intaglio and planographic printmaking processes. These processes involve the use of various tools and materials to print images from vinyl, wood and linoleum blocks, metal and stone. Through hands-on experience, students will put into action printmaking techniques that are demonstrated in class and outlined in handouts. The relationship between drawing, design and printmaking is also a focus of the course.

This course can be repeated 2 times for credit.

ART 365 Internship in Gallery Management (1-3) EXP

Prerequisite(s): Gallery Director's Signature

Practical problems in gallery work: contacting artists, handling contracts, sales; practice in management of an art gallery. Limited to selected students.

This course can be repeated 4 times for credit.

ART 367 Fabric Printing (3) CAM

Prerequisite(s): One college art studio course or web approval by instructor

Images are transformed from printing plates to cloth. Processes may include (but are not limited to) relief, stencil, monoprinting, cyanotype, photo transfer, marbling, screenprinting (film-cut, photographic emulsion).

ART 369 Pre-Thesis (3)

Prerequisite(s): Art Majors Only

Art 369 begins the Thesis project process in the senior year of the Art, Fine Arts, or Art Education major. It is a required course for majors. It fuses research, writing, and critiques of the studio work each individual student will be making in their independent, upper-level "Pre-Thesis," project in their own media area. In Art 369, each week brings presentation and deadlines for research writing, concept development, and the production of that independent work for critiques.

ART 380 Digital Photography II:Advanced Photoshop and Lightroom Techniques (3)

Prerequisite(s): ART 281 or instructor Approval

The fundamentals of digital photography are explored using Adobe PhotoShop. Topics include, but are not limited to: cameras, scanners, printers, software, and copyright concerns. Individual students do not need a digital camera.

ART 381 Advanced Photography Workshop (3)

Prerequisite(s): ART 281 or Instructor Approval

Advanced photographic skills are explored with a focus on lighting, portfolio development, professional development, and studio use. This course may be taken more than once.

This course can be repeated 2 times for credit.

ART 395E Pre-Thesis Independent Study (3)

Pre-Thesis Independent Study. Learning Contract and Approval of Art Department Chair Required.

ART 396 Cooperative Education Work Experience: Parallel (1-3) EXP

Prerequisite(s): CED 220

An art-related work experience supervised by an art faculty coordinator in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation and evaluation. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nineteen credits.

ART 495 Thesis (3)

Prerequisite(s): Art majors only; Previous experience and/or advanced work in thesis area

In-depth independent study, research and application in a specific field of visual art, chosen by the student, approved by the art faculty resulting in a culminating exhibit in the senior year. This course requires evidence of the student's ability to synthesize knowledge and skills acquired at the college level. Learning Contract and Approval of Art Department Chair Required.

ART 496 Co-Op:Alternating(FT) (1-3) EXP

Prerequisite(s): CED 220

An art-related work experience supervised by an art faculty coordinator in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation and evaluation. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nineteen credits.

ASL

ASL 101 Beginning American Sign Lang. I (3) LAS

An introduction to American Sign Language communication skills, basic ASL grammar, Deaf Culture and the Deaf Community.

ASL 102 Beginning American Sign Lang.II (3) LAS

New Course

Prerequisite(s): ASL 101

This course builds on skills and knowledge introduced in ASL 101 related to communication skills, basic ASL grammar, Deaf Culture and Deaf Community.

AYA

AYA 333 Adolescent/Young Adult Practicum I (1) EXP

Prerequisite(s): Admission to School of Education and EDU 207

The 50 hour field introductory field experience is the central component of this one credit hour course. The student will be assigned to a specific school in grades 7-12 where he/she will participate in classroom observations for 10 weeks, with seminars back on campus. Students will teach a minimum of four lessons in the classroom, with scheduled mentor teacher and Mount supervisor evaluations. Teaching activities as designated by the instructor will be assigned in order to address educational theory, lesson plan formats, and classroom management plans. The overall goal of the course is to prepare students for the AYA 334 practicum and student teaching.

AYA 334 Adolescent/Young Adult Practicum II (2) EXP

Prerequisite(s): Admission to School of Education and AYA 333, EDU 207

The 70 hour field experience is the central component of this two credit hour course, a follow-up to AYA 333. The student will be assigned to a specific school in grades 7-12 where he/she will participate in flexible field hours Monday through Friday for 10 weeks, with seminars back on campus. Students will teach a minimum of four lessons in the classroom, with scheduled mentor teacher and Mount supervisor evaluations. Teaching activities as designated by the instructor and/or content areas methods specialist will be assigned in order to apply theory learned in prior course work. The overall goal of the course is to prepare students for student teaching.

AYA 345 Introduction to Secondary Education (3)

Prerequisite(s): EDU 190 and EDU 217

This course is focused on best teaching practices to complement the development, needs and learning processes of students in grades 7 through 12. The course provides teaching theory and practices designed to elicit personalized, active student learning complimentary to adolescents' physical, cognitive, affective, emotional/psychological, moral /ethical, and social development. The focus is on pedagogical conditions that affect adolescents' development and learning processes. The course includes a component where participants review the research literature for best practices used within their content area. The course will include applying theory to practice through the planning of instruction, selection of teaching strategies, ethics, classroom management, multiculturalism, inclusion, diversity and motivation.

AYA 345H HON:Intro to Secondary Education (0)

Concurrent requisite(s): AYA 345

Course description as stated in AYA 345 (Honors Course)

AYA 444 AYA Student Teaching (10) EXP

Prerequisite(s): Admission to the Undergraduate Education Department and permission from Clinical Ex-

perience Director

An intensive full-day experience in teaching and related professional development. Student teaching allows the student to synthesize the theory and practice under the guidance of an experienced master teacher. This is an all-day experience lasting 12 weeks in the AYA (grades 7-12) program.

BIO

BIO 101 Introduction to Biology (4) CN

Basic concepts of cell biology, genetics, evolution, diversity of life, and ecology. This course is intended for non-science majors. Lecture, lab.

BIO 111 Principles of Biology I (4) CN

Concurrent requisite(s): BIO 111A and BIO 111R

A study of cell structure and functions, cellular energetics, genetics, and evolution and population biology. Lecture, lab.

BIO 111A Principles of Biology I (LAB) (0) CN

Concurrent requisite(s): BIO 111 & BIO 111R

Course description as stated in BIO 111

BIO 111R Principles of Biology I (Recitation) (0) CN

Concurrent requisite(s): BIO 111 and BIO 111A

General Biology Recitation

BIO 111S Serv Lrng:Principles of Biology I (1) EXP

Concurrent requisite(s): BIO 111

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

BIO 112 Principles of Biology II (4)

Prerequisite(s): BIO 111

Concurrent requisite(s): BIO 112A

Basic concepts of classification, a survey of the diversity of life, ecology, population biology, development, and behavior. Lecture, lab. Animal dissections required.

BIO 112A Principles of Biology II (LAB) (0)

Concurrent requisite(s): BIO 112

Course description as stated in BIO 112

BIO 130 Medical Terminology (2) LAS

This course is a basic coverage of medical terminology, including the roots, prefixes, and suffixes that comprise much of medical language. The course is suitable for all interests and majors, and will enable the student to more readily understand the human body in health and disease.

BIO 130S Serv Lrng: Medical Terminology (1) EXP

Concurrent requisite(s): BIO 130

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students

will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

BIO 131 Basic Human Anatomy and Physiology (4) CN

Concurrent requisite(s): BIO 131A

An overview of human structure and function with emphasis on basic concepts. A systematic approach along with integration of the following systems: skin integrity; skeletomuscular; metabolic homeostasis (cardiovascular, respiratory, immunity, digestive, urinary); neuro-endocrine regulation; reproduction and development. Lecture, lab. Animal dissections required.

BIO 131A Basic Human Anatomy and Physiology (LAB) (0) CN

Concurrent requisite(s): BIO 131

Course description as stated in BIO 131

BIO 140 Environmental Science (4) CN

Concurrent requisite(s): BIO 140A

Crosslisted GEO 140. An introduction to the basic principles and issues in Environmental Science. Topics include: physical and biological environments, and their intra-dependencies and inter-dependencies, resources and resource management, pollution, world-view, social justice, population and development — global and local perspectives included. Scientific concepts necessary to understand these issues and to make informed decisions on environmental matters will be included. Fieldtrips required, during class/lab time.

BIO 140A Environmental Science (LAB) (0) CN

Concurrent requisite(s): BIO 140

Course description as stated in BIO 140

BIO 150 Dinosaur Biology (4) CN

An introduction to the study of dinosaurs, including their origin, anatomy, physiology, evolution, classification, behavior, ecology, and their impact on human culture.

BIO 197 Human Anatomy and Physiology for the Health Sciences I (4) CN

Concurrent requisite(s): BIO 197A

A study of the structure and function of the human body, including the integumentary, skeletal, muscular, and nervous-sensory systems. Discusses biological concepts and principles as a foundation for understanding normal developmental changes as well as pathological alterations. Includes clinical correlations in health practice. Lecture, lab. Animal dissections required.

BIO 197A Human Anatomy and Physiology for the Health Sciences I (LAB) (0) CN

Concurrent requisite(s): BIO 197

Course description as stated in BIO 197

BIO 197H HON:Human Anatomy and Physiology for the Health Sciences I (0) CN

Concurrent requisite(s): BIO 197

Course description as stated in BIO 197 (Honors Course)

BIO 197S Serv Lrng:Human Anatomy and Physiology for the Health Sciences I (1) EXP

Concurrent requisite(s): BIO 197

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will

develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

BIO 198 Human Anatomy and Physiology for the Health Sciences II (4)

Prerequisite(s): BIO 197 with a grade of "C" or better

Concurrent requisite(s): BIO 198A

A study of the structure and function of the human body, including the endocrine, cardiovascular, respiratory, digestive, lymphatic, urinary, and reproductive systems. Discusses biological concepts and principles as a foundation for understanding normal developmental changes as well as pathological alterations. Includes clinical correlations in health practice. Lecture, Lab. Animal dissections required.

BIO 198A Human Anatomy and Physiology for the Health Sciences II (LAB) (0)

Concurrent requisite(s): BIO 198

Course description as stated in BIO 198

BIO 201 Anatomy & Physiology I (4)

Prerequisite(s): C or better in BIO 111 and C or better in both CHE 111 and CHE 112

Concurrent requisite(s): BIO 201A

A study of the structure and functions of vertebrate organ systems from an evolutionary perspective, with particular emphasis on the human body. This semester specifically introduces basic principles of anatomy and physiology, tissues, and the integumentary skeletal, muscular, nervous and sensory systems. Designed for biology and chemistry departmental majors. Lecture, lab. Animal dissections required.

BIO 201A Human Anatomy & Physiology (LAB) (0)

Concurrent requisite(s): BIO 201

Course description as stated in BIO 201

BIO 202 Anatomy & Physiology II (4)

Prerequisite(s): C or better in BIO 201

Concurrent requisite(s): BIO 202A

A study of the structure and functions of vertebrate organ systems from an evolutionary perspective, with particular emphasis on the human body. This semester specifically covers the circulatory, respiratory, endocrine, reproductive, urinary, and digestive systems. Designed for biology and chemistry departmental majors. Lecture, lab. Animal dissections required.

BIO 202A Human Anatomy & Physiology II (LAB) (0)

Concurrent requisite(s): BIO 202

Course description as stated in BIO 202

BIO 203 Developmental Biology (4)

Prerequisite(s): BIO 101 or BIO 111 or BIO 131 or BIO 197 and BIO 198

Concurrent requisite(s): BIO 203A

A study of the molecular and cellular events involved in differentiation and development of organisms, as well as that of the morphogenesis of animal organ systems. Lecture, lab. Animal dissections required.

BIO 203A Developmental Biology(LAB) (0)

Concurrent requisite(s): BIO 203

Course description as stated in BIO 203

BIO 204 Biology Seminar (2)

Prerequisite(s): BIO 111

This course will focus on scientific communication, including how to find and read scientific literature in order to enhance student research, data analysis, critical thinking, and presentation skills. Students will investigate careers and topics of interest in the biological and biomedical sciences. Limited to Biology or Biomedical Sciences majors.

BIO 207 Plagues and Parasites (4)

Prerequisite(s): BIO 111 or BIO 197 or BIO 131

Concurrent requisite(s): BIO 207A

This course will explore the biology, epidemiology, and societal impacts of notable plagues that have significantly impacted human civilization. Students will learn about various epidemics such as the plagues of Ancient Greece, the Black Death, flu pandemics, and HIV/AIDS. Lab will focus on parasites of medical and veterinary importance including identification of parasites and parasite-host interactions.

BIO 207A Plagues and Parasites (LAB) (0)

Concurrent requisite(s): BIO 207

Course description as stated in BIO 207.

BIO 208 Experimental Design with LAB (4)

New Course

Prerequisite(s): Grade of 'C' or better in MTH 098 or MTH099/Equivalent or Placement

Testing hypotheses by experimentation and analyzing data is central to informed decision making. Without this most important component of the scientific method, we may be releasing harmful pharmaceuticals, incorrectly linking certain genes to cancer, or freeing dangerous criminals. In this basic course, students will learn to plan and design experiments, and analyze "realworld" data to make statistically-informed decisions. Lecture will combine theory and history of experimental design as well as explanations of statistical tests and their use in modern day science. In lab, students will use the statistical programming software R to gain practical experience interpreting and analyzing experimental results.

BIO 212 Musculoskeletal Anatomy Review (2)

Prerequisite(s): BIO 197 or BIO 201

This course is an in-depth exploration of the human musculoskeletal and peripheral nervous systems. Both gross and surface anatomical features will be covered, including development of palpation skills to locate bony landmarks, muscles, tendons, joints, and ligaments on the living human body.

BIO 212S Serv Lrng:Musculoskeletal Anatomy Review (1) EXP

Concurrent requisite(s): BIO 212

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

BIO 215 Introductory Microbiology (4)

Prerequisite(s): CHE 104, BIO 197, 198

Concurrent requisite(s): BIO 215A

Basic principles of microorganisms presented with emphasis on diseases of bacterial and viral etiology and the body's defenses against such diseases. Primarily for nursing majors. Lecture, lab.

BIO 215A Introductory Microbiology (LAB) (0)

Concurrent requisite(s): BIO 215

Course description as stated in BIO 215

BIO 215H HON:Introductory Microbiology (0)

Concurrent requisite(s): BIO 215

Course description as stated in BIO 215 (Honors Course)

BIO 218 Animal Behavior (4)

Prerequisite(s): BIO 101 or BIO 111 or BIO 131

Concurrent requisite(s): BIO 218A

An introduction to the basic principles of animal behavior with an emphasis on the evolutionary responses of species to their environment. Human and non-human animals will be studied. Lecture, lab, and field trips.

BIO 218A Animal Behavior (LAB) (0)

Concurrent requisite(s): BIO 218

Course description as stated in BIO 218

BIO 255 Advanced Human Anatomy with Lab (4)

Prerequisite(s): BIO 197 and BIO 198 with This course is a detailed survey of human gross anatomy, using both systemic and regional approaches. In this blended lecture and lab experience, students will work with cadavers, preserved organs, and Anatomage virtual anatomy software.

BIO 255H Honors:Advanced Human Anatomy with Lab (0)

Course description as stated in BIO 255 (Honors Course)

BIO 264 Biological Forensics (4)

Prerequisite(s): One of the following core sciences: BIO 101, BIO 110, BIO 111, BIO 131, BIO 197, CHE 104, CHE 105, or PHY 105; plus MTH 098 (or equivalent), and COM 100.

This course explores some of the biological applications within forensic science, such as hair, fingerprints, anthropology, odontology, pathology, decomposition, serology, DNA, entomology, and detection dogs. Students will research appropriate topics, obtain, analyze, and interpret data, and present their results in oral and written formats. Lecture and Laboratory.

BIO 301 Pathophysiology (4)

Prerequisite(s): BIO 197-198, or BIO 201-202

Discussion of alterations in biological processes which affect the body's dynamic equilibrium (homeostasis). A conceptual approach presented by body systems, designed to integrate knowledge from both basic and clinical sciences. Discussion of causes of pathogenesis and compensatory mechanisms for disease states.

BIO 305 Microbiology (4)

Prerequisite(s): BIO 111, CHE 111-112

Concurrent requisite(s): BIO 305A

A study of microorganisms, their structures, functions, genetics, and evolutionary relationships, theories of infection and immunity. Primarily for biology and chemistry majors. Lecture, lab.

BIO 305A Micro (LAB) (0)

Concurrent requisite(s): BIO 305

Course description as stated in BIO 305

BIO 305H HON:Microbiology (0)

Concurrent requisite(s): BIO 305

Course description as stated in BIO 305 (Honors Course)

BIO 305S Serv Lrng:Microbiology (1) EXP

Concurrent requisite(s): BIO 305

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

BIO 306 Immunology (3)

Prerequisite(s): BIO 215 or BIO 305

A study of the vertebrate immune response, including the nature and structure of antigens and antibodies, the cellular basis of the immune response, immunogenetics and diseases related to immune functions. Lecture.

BIO 307 Extreme Physiology (3)

New Course

Prerequisite(s): BIO 111 and BIO 112 or Instructor Approval

This course will survey the mechanisms of animal survival under extreme conditions and explore how animal (including human) responses to these extreme situations have contributed to the advancement of medicine and our understanding of physiology. Topics covered will include adaptations that allow survival to high altitude, high pressure, extreme temperatures, low gravity, and other challenges like starvation and exposure to weapons of mass destruction.

BIO 307H HON:Extreme Physiology (0)

New Course

Concurrent requisite(s): BIO 307

Course description as stated in BIO 307 (Honors Course)

BIO 309 Biotechnology (4)

New Course

Prerequisite(s): BIO 111 and BIO 112

Concurrent requisite(s): BIO 309A

This course explores the ways in which molecular and cellular processes can be harnessed to develop products for medicine, agriculture, and engineering. Historical and modern aspects of biotechnology will be explored from a technical and ethical perspective. Topics to be covered will include human cloning, genetically modified organisms (GMOs), genome editing, and biological warfare. Laboratory includes development of industry-relevant technical research skills. Lecture, lab.

BIO 309A Biotechnology (LAB) (0)

Prerequisite(s): BIO 111 and BIO 112

Concurrent requisite(s): BIO 309

Course Description as stated in BIO 309

BIO 309S Serv Lrng: Biotechnology (1)

Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

BIO 310 Cell Biology (4)

Prerequisite(s): BIO 111 & CHE 111-112

Concurrent requisite(s): BIO 310A

A study of the fine structure and function of eucaryotic and procaryotic cells and their organelles, the chemical composition and organization of cells, cell metabolism and bioenergetics, genetic regulation and cellular differentiation. Lecture.

BIO 310A Cell Biology (LAB) (0)

Concurrent requisite(s): BIO 310

Course description as stated in BIO 310

BIO 314 Psychopharmacology (3)

Prerequisite(s): BIO 131 or BIO 197

Crosslisted PSY 314. Psychopharmacology is a survey of the major classes of psychoactive drugs. In addition to behavioral and psychological effects, emphasis is placed on sites and mechanisms of drug action.

BIO 315 Ecology (4)

Prerequisite(s): BIO 111-112

Concurrent requisite(s): BIO 315A

A study of the interactions that determine the distribution and abundance of organisms. Emphasis on local species. Lecture, lab, field trips.

BIO 315A Ecology (LAB) (0)

Concurrent requisite(s): BIO 315

Course description as stated in BIO 315

BIO 316 Aquatic Biology (4)

New Course

Prerequisite(s): BIO 111, BIO 112, CHE 111

Concurrent requisite(s): BIO 316A

An exploration of aquatic ecosystems, ranging from freshwater to oceans, and the adaptations of organisms living in these water environments. Lab includes field sampling of local freshwater habitats.

BIO 316A Aquatic Biology (LAB) (0)

New Course

Concurrent requisite(s): BIO 316

Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

BIO 317 Toxicology (4)

New Course

Prerequisite(s): BIO 111, BIO 112, and CHE 111

Concurrent requisite(s): BIO 317A

An introduction to the basic principles of toxicology including absorption, distribution, metabolism, and excretion of toxins from the body. Students will also gain knowledge of the effects of chemical exposure to the body at the tissue and cellular level, and explore effects of toxins on the environment.

BIO 317A Toxicology (LAB) (0)

Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

BIO 319 Vertebrate Developmental Biology with Lab (4)

New Course

Prerequisite(s): BIO 111 and BIO 112

A study of the development of vertebrates, focusing on human development. Students will be introduced to the developmental processes that are shared by all vertebrate embryos. This course incorporates concepts linking developmental biology, molecular biology and cell signaling pathways. Following this course, students will be able to identify processes required for normal vertebrate development and understand how the embryo forms from fertilization until birth. Animal dissection included in the laboratory exercises for this course.

BIO 320 Genetics (4)

Prerequisite(s): BIO 111, CHE 111-112 and CHE 211 or Instructor Permission

Concurrent requisite(s): BIO 320A

A study of molecular, classical and population genetics. Topics include (as time permits) inheritance, recombination, bacterial and viral genetics, genetic biochemistry, regulation of gene expression, and genomics. Lecture, lab.

BIO 320A Genetics (LAB) (0)

Concurrent requisite(s): BIO 320

Course description as stated in BIO 320

BIO 328 Neurobiology (4)

Prerequisite(s): BIO 197 or BIO 131

Concurrent requisite(s): BIO 328A

A study of the morphology and function of the nervous system. An overview of human and other animal systems will be studied from the cellular to the organismal level. Lecture, lab. Animal dissections required.

BIO 328A Neurobiology (LAB) (0)

Prerequisite(s): BIO 197 or BIO 131

Concurrent requisite(s): BIO 328A

Course description as stated in BIO 328

BIO 330 Evolution (4)

Prerequisite(s): BIO 111-112

Concurrent requisite(s): BIO 330A

A study of the evolutionary process with emphasis on the history of diversity, mechanisms and speciation. Lecture, lab.

BIO 330A Evolution (LAB) (0)

BIO 335 Entomology (4)*Prerequisite(s)*: BIO 111-112*Concurrent requisite(s)*: BIO 335A

The study of insects with emphasis on their morphology, physiology, ecology, behavior, evolution, and classification. Consideration will be given to integrated pest-management decision-making and the role insects have played in human culture. Lecture, lab. Animal dissections required.

BIO 335A Entomology (LAB) (0)*Concurrent requisite(s)*: BIO 335

Course description as stated in BIO 335

BIO 335H HON: Entomology (0)*Concurrent requisite(s)*: BIO 335

Course description as stated in BIO 335 (Honors Course)

BIO 340 Research in Biology (1-4)*Prerequisite(s)*: BIO 111-112, sophomore standing or beyond, minimum GPA of 3.5, and departmental permission.

In this course, the student will design and conduct a program of laboratory or field observations, experiments, or both, under the direction of a faculty member in the Department of Biology or a designee of the Department. The student will collect and interpret the data gathered in the course of these observations, experiments, or both, and will present the results of the work as agreed upon by the student and his or her research advisor. Normally this will include a presentation at the University's annual Celebration of Teaching and Learning and at a regional conference or authoring a written paper. Students completing the course with a grade of A or B will earn the departmental award "Graduation with Research Distinction".

This course can be repeated for a maximum total of four credits.

BIO 341 Directed Study in Biology (1-4)*Prerequisite(s)*: Biology major and departmental permission

In this course, the student will pursue the focused study of a biological problem under the direction of a faculty member in the Department of Biology or a designee of the Department. The student will present an account of the work as agreed upon by the student and his or her research advisor. Normally this will include an oral presentation open to the public and a written paper.

BIO 342 Internship in Biology (1-4) EXP*Prerequisite(s)*: Biology major and departmental permission

In this course, the student will participate in a practical experience at a business, hospital, laboratory, or other institution, under the direction of a faculty member in the Department of Biology or a designee of the Department. The internship is individually designed to provide the student with knowledge, skills, and practice, in a biologically or related profession or field of study. The student will present an account of the work as agreed upon by the student and the instructor-of-record of the course. Normally this will include an oral presentation open to the public, and a written paper.

This course can be repeated for a maximum total of four credits.

BIO 342H HON: Internship in Biology (0)*Prerequisite(s)*: BIO 342

Course description as stated in BIO 342 (Honors Course)

BIO 360 Biological Psychology (4)*Prerequisite(s)*: PSY 103 or PSY 103H and BIO 131 or BIO 197 or BIO 201*Concurrent requisite(s)*: BIO 360A

The physiological basis of behavior and mental processes. Includes neurophysiology, sense organs, neurotransmitters, and pathological maladies.

BIO 360A Biological Psychology (LAB) (0)

Concurrent requisite(s): BIO 360

LAB to Accompany BIO 360 (Biological) Animal dissections required

BIO 362 Cancer Biology (3)

New Course

Prerequisite(s): BIO 111

This course will survey the molecular and cellular basis of cancer, including mechanisms driving carcinogenesis, tumor progression, and metastasis. Additionally, the course will cover topics such as the tumor microenvironment, immune evasion mechanisms, and current approaches to the treatment of cancer.

BIO 396 Co-Op:Parallel (PT) (1-3) EXP

Prerequisite(s): CED 220 and departmental permission

A work experience approved and evaluated by a faculty member in the Biology Department, in collaboration with the cooperative education staff. Credit is awarded as a general elective or may count as a Core experiential learning credit upon completion of the work experience and documentation of compliance with a pre-approved learning contract.

This course can be repeated for a maximum total of four credits.

BIO 397 Research Project Co-op:Parallel (1-3)

Prerequisite(s): CED 220 and departmental permission

Corequisite(s): CED 394

A research project within a co-op experience that must be pre-approved by the co-op employer, the Biology Department and cooperative education staff. A faculty member of the Department of Biology will oversee the research project co-op experience. Credit and a letter grade are awarded upon completion of the work experience and documentation of compliance with a pre-determined learning contract. This course may not count toward the experiential requirement of the Core Curriculum.

BIO 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): BIO 100 or BIO 398 or BIO 399, and departmental permission

A work experience supervised by a faculty member in the Department of Biology, in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of compliance with a pre-determined learning contract.

This course can be repeated for a maximum total of nine credits.

BRW

BRW 101 Beer Brewing and Appreciation (3)

Introduction to the science of brewing and beer appreciation. Topics include basics of the brewing process, proper sanitation, yeast management, recipe design, styles of beer, identification and controls of off-flavors, and packaging/storing of beer. Activities include brewing beer, touring a local brewery, and tasting common beer styles.

BUS

BUS 100 First Year Seminar in Business (1)

New Course

First Year Seminar in Business is a one credit hour course that introduces first year students to the School of

Business, useful resources at the university and important academic strategies to be successful in the school, at the university, and in life after graduation.

BUS 101 Introduction to Business (3)

Introduction to Business is a survey course of the business field including accounting, economics, finance, management, marketing, and sport management. The course is designed to create an understanding of basic principles of modern business.

BUS 210 Business Law I (3)

The study of the nature of law and the legal system, and its application to business and the marketplace.

BUS 240 Research Methods for Business Decision Making (3)

Introduction to applied research for business. Emphasizes the importance of seeking, obtaining and utilizing information in a business context. Overview of data analytics for business decision making and the use of Excel in formatting, organizing, and analyzing data.

BUS 352 Business Communications I (3)

Prerequisite(s): COM 100 and ENG 101

Enhances the student's written and oral communication skills through emphasis on writing and evaluating business letters, memos and reports. Develops student's abilities to present ideas in an effective manner.

BUS 396 Cooperative Education Work Experience: Parallel (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

BUS 465 International Business (3)

Prerequisite(s): MGT 300

This course provides an understanding of the factors affecting business in a global arena. Specifically, this course analyzes the opportunities and problems associated with operating businesses in multiple countries, e.g., differences in the economic, social and cultural environment. In addition, students examine the need of the firm to modify values, systems, and techniques, when venturing into foreign markets. Students analyze the feasibility of the firm to enter foreign markets through the use of cases and a research feasibility project.

BUS 466 Global Commerce (3)

Prerequisite(s): MGT 300

This introductory course in global commerce will introduce students to all areas of international business activities and the environment within which business transactions take place. The main topics covered in this course will provide students with an understanding and appreciation of the following: Makeup of global business, its importance, theories of international business, trade, and investments and the U.S. position in the global market and its impacts on U.S. society. Other aspects will include the measurement of global business activities, exchange rates, national trade and investment policies as well as include the study of the legal, political and cultural environment of global business. Contemporary issues and their implications also will be addressed

BUS 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

BUS 498 Entrepreneurship and New Venture Creation (3)

A comprehensive and integrating experience in which students in the School of business demonstrate the capacity to synthesize and apply knowledge from an organizational perspective. Students will utilize knowledge, skills, and abilities from accounting, economics, finance, management, marketing, information systems, quantitative methods, legal and social environment, and international business to analyze business situations. This is a capstone experience for business majors, to be taken during the senior year. course is open to senior business majors who have completed at least 84 credits at the time of registration.

CED

CED 150 Career Exploration for Undeclared Majors (1)

Designed for freshmen and sophomores who have not yet chosen a major. Students will gain an understanding of the process of career decision making. They will learn how interests, skills and values relate to career choices, and acquire information about educational and career options. Emphasis is placed on self-evaluation, decision making and goal setting.

CED 150S Serv Lrng: Career Exp/Undeclared Majors (1) EXP

Concurrent requisite(s): CED 150

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CED 220 Foundations of Professionalism (1)

Prerequisite(s): Open to all full-time students at a sophomore level or above who have declared a major Required for participation in the Cooperative Education program and is designed to prepare students for the cooperative education process. Students begin with self- assessment and skills analysis; then move on to career exploration, resume development, interviewing, job search strategies, and issues related to successful co-op work experiences.

CED 220S Serv Lrng: Foundations of Professionalism (1) EXP

Concurrent requisite(s): CED 220

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CED 301 GRE Prep: Quantitative (1)

Prerequisite(s): This course is designed for students who are sophomore standing or above. All students must have declared a major with the Registrar's Office. The course instructor must approve exceptions. This course is designed to organize studying for the Quantitative sections of the GRE General Test. The two main areas of emphasis are reviewing mathematical concepts up through Algebra II and learning test-taking strategies. Practice tests will be taken throughout the course to aid in preparation for the actual exam.

CED 302 GRE Prep: Written and Verbal (1)

Prerequisite(s): This course is designed for students who are sophomore standing or above. All students must have declared a major with the Registrar's Office. The course instructor must approve exceptions. This course prepares students for the written and verbal portions of the GRE General Test. ScoreItNow is included in this course to provide automated essay scoring for two writing samples.

CED 303 Charting Your Path to Graduate School (1)

Prerequisite(s): This course is designed for students who are sophomore standing or above. All students must have declared a major with the Registrar's Office. The course instructor must approve exceptions. This course is for students interested in applying to graduate/professional school. The purpose of this course is to prepare students for the graduate school search and application processes. Course topics include: graduate program selection, personal statement development and financing your graduate education.

CED 305 Study Abroad (0) EXP

Prerequisite(s): Completion and approval of Study Abroad Verification Agreement, Proof of enrollment at host institution, Maintain a minimum 2.5 GPA and Full-time student status. Completion of CED 220 Recommended.

This course allows students who are choosing to participate in a study abroad program the opportunity to qualify that experience for the required EXP core graduation credit. Study abroad allows Mount students to experience the world, lending a global perspective and providing valuable opportunities for personal and professional growth. MSJ offers various options for study abroad through the AIFS program: long-term, traditional study abroad and short term study abroad.

CED 320S Serv Lrng: Building Your Professional Edge (1) EXP

Concurrent requisite(s): CED 320

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CED 370 Creating Your Career: How to Map Your Professional Journey (2)

New Course

Prerequisite(s): CED 220 (with a grade of C or above)

This course develops the career readiness competencies necessary for success upon graduation. Students will gain self-awareness around their strengths, interests, values, personality preferences, etc. Students will also gain understanding of the world of work and will develop an action plan to navigate "what's next." This interactive and experiential course will provide students with critical tools, techniques and action plans that will position them for a successful launch of their careers.

CED 370S Ser Lrng:Creating Your Career: How to Map Your Professional Journey (1) EXP

Corequisite(s): CED 370

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CED 394 Cooperative Education (0) EXP

Prerequisite(s): CED 220

For students placed in part-time work assignments through the Cooperative Education program. Successful

completion of the work experience, validation of a learning agreement and evaluation of work performance is required. Evaluation of work performed is on a pass/fail basis.

This course can be repeated 3 times.

CED 394A Co-Op:Parallel(PT) (0) EXP

Prerequisite(s): CED 220

For students placed in part-time work assignments through the Cooperative Education program. Successful completion of the work experience, validation of a learning agreement and evaluation of work performance is required. Evaluation of work performed is on a pass/fail basis.

CED 396 Cooperative Education (1-3) EXP

Prerequisite(s): CED 220

For students placed in part-time work assignments through the Cooperative Education program. Credit is awarded upon successful completion of the work experience, validation of a learning agreement and evaluation of work performance. Evaluation of work performed is on a pass/fail basis. A total of nine credits cumulative may be earned through co-op work experience.

This course can be repeated for a maximum total of nine credits.

CED 494 Cooperative Education (0) EXP

Prerequisite(s): CED 220

For students placed in full-time work assignments through the Cooperative Education program. Successful completion of the work experience, validation of a learning agreement and evaluation of work performance is required. Evaluation of work performed is on a pass/fail basis.

CED 496 Cooperative Education (1-3) EXP

Prerequisite(s): CED 220

For students placed in full-time work assignments through the Cooperative Education program. Credit is awarded upon successful completion of the work experience, validation of a learning agreement and evaluation of work performance. Evaluation of work performed is on a pass/fail basis. A total of nine credits cumulative may be earned through co-op work experience. Students may choose 1-3 credits per semester with advisor's approval.

CHE

CHE 104 General, Organic and Biochemistry (3) CN

Prerequisite(s): High school chemistry or equivalent; Math placement 3 or higher or Grade of "C" or better in MTH 098 or MTH 097

Concurrent requisite(s): CHE 104A, CHE 104R

An overview of general, organic, and biochemistry. Emphasis will be on structure, bonding, and reactions of inorganic and organic compounds important in living systems.

CHE 104A General & Organic Chemistry LAB (1) CN

Concurrent requisite(s): CHE 104, CHE 104A

Laboratory applications of the concepts introduced in CHE 104.

CHE 104R Gen & Organic Chem (Recitation) (0) CN

General & Organic Chem (Recitation)

CHE 105 Chem for Everyday Living (4) CN

Prerequisite(s): Math placement 3 or higher

The basic principles of chemistry will be introduced in the context of things that affect everyday living. The

course is intended for non-science majors. Lecture, lab.

CHE 111 General Chemistry I (3) CN

Concurrent requisite(s): CHE 111A, CHE 111R

Fundamental principles of chemistry including dimensional analysis, atomic theory, stoichiometry, solution chemistry, thermodynamics, electronic structure, periodic trends, chemical bonding, and molecular geometry. For majors in chemistry, biochemistry, biology, and several pre-health majors.

CHE 111A General Chemistry I (LAB) (1) CN

Concurrent requisite(s): CHE 111, CHE 111R

Laboratory applications of the concepts introduced in Chemistry 111.

CHE 111R General Chem I (Recitation) (0) CN

Concurrent requisite(s): CHE 111, CHE 111A

General Chemistry I (Recitation)

CHE 112 General Chemistry II (3)

Prerequisite(s): CHE 111A and a grade of "C" or better in CHE 111

Concurrent requisite(s): CHE 112A, CHE 112R

A continuation of CHE 111. Topics include gases, intermolecular forces, solution properties, kinetics, equilibrium, acid-base chemistry, and electrochemistry. For majors in chemistry, biochemistry, biology, and several pre-health majors.

CHE 112A General Chemistry II (LAB) (1)

Concurrent requisite(s): CHE 112, CHE 112R

Laboratory applications of the concepts introduced in CHE 112.

CHE 112R General Chemistry II-Recitation (0)

Concurrent requisite(s): CHE 112, CHE 112A

General Chemistry II - Recitation

CHE 200 Chemistry Sophomore Seminar (1)

Prerequisite(s): CHE 112

An introduction to scientific communication skills. Students will learn to search the scientific literature, properly cite references, write and present scientific information. The course includes chemistry seminars and a discussion of scientific ethics.

CHE 211 Organic Chemistry I (3)

Prerequisite(s): CHE 112 with a Grade of "C" or Better

Concurrent requisite(s): CHE 211A

Principles of organic chemistry; theories of bonding and mechanisms; typical carbon compounds, their preparation, properties and reactions.

CHE 211A Organic Chem I (LAB) (1)

Concurrent requisite(s): CHE 211

Laboratory practice in the classical and instrumental techniques of organic chemistry; techniques for the safe preparation, purification and analysis of typical organic compounds.

CHE 212 Organic Chemistry II (3)

Prerequisite(s): CHE 211A and a grade of "C" or better in CHE 211

Concurrent requisite(s): CHE 212A

Principles of organic chemistry; theories of bonding and mechanisms; typical carbon compounds, their preparation, properties and reactions.

CHE 212A Organic Chemistry II (LAB) (1)

Concurrent requisite(s): CHE 212

Laboratory practice in the classical and instrumental techniques of organic chemistry; application of techniques for the preparation, purification and characterization of organic compounds.

CHE 212H HON: Organic Chemistry II (0)

Concurrent requisite(s): CHE 212 and CHE 212A

Course description as stated in CHE 212 (Honors Course)

CHE 300 Chemistry Junior Seminar (1)

Prepares students to begin their independent research projects. Course will help student focus their research questions, and conceptualize their research problems on many levels from layman to specialist.

CHE 310 Biophysical Chemistry (3)

New Course

Prerequisite(s): CHE 112 with a grade of 'C' or better

Corequisite(s): CHE 310A

Principles of physical chemistry with an emphasis on biological systems

CHE 310A Biophysical Chemistry Lab (1)

New Course

Corequisite(s): CHE 310

Laboratory applications of the concepts introduced in CHE 310

CHE 310H HON: Biophysical Chemistry (0)

New Course

Concurrent requisite(s): CHE 310

Course description as stated in CHE 310 (Honors Course)

CHE 314 Intermediate Analytical Chem (3)

Prerequisite(s): CHE 112 or equivalent

Concurrent requisite(s): CHE 314A

Theory and calculations involved in data treatment, equilibrium, volumetric analysis, and electroanalytical techniques. Introduction to instrumental analysis.

CHE 314A Intermediate Analy Chem (LAB) (1)

Concurrent requisite(s): CHE 314

Laboratory applications of the concepts introduced in CHE 314

CHE 315 Instrumental Analysis (3)

Prerequisite(s): CHE 112/112A

Concurrent requisite(s): CHE 315A

Theories on which modern instrumental techniques are based, including chromatography and separations; optical, atomic and nuclear magnetic resonance spectroscopy, and radiochemical methods.

CHE 315A Instru Analysis (LAB) (1)

Prerequisite(s): CHE 112/112A

Concurrent requisite(s): CHE 315

Laboratory applications of the concepts introduced in CHE 315.

CHE 325 Biochemistry I (3)

Prerequisite(s): Grade of "C" or Better in CHE 212

Concurrent requisite(s): CHE 325A

A study of the physical and chemical aspects of biological activity. Topics include: the structure and chemistry of amino acids, proteins, enzymes, enzyme cofactors, carbohydrates, DNA, and lipids; biological acid-base equilibria; enzyme kinetics; bioenergetics and carbohydrate, protein, and lipid metabolism; oxidative phosphorylation; membranes and biosignalling.

CHE 325A Biochemistry I (LAB) (1)

Concurrent requisite(s): CHE 325

Experiments will be performed which illustrate some common techniques used in biochemistry such as UV-VIS, buffers, determination of protein concentrations, SDS-PAGE, chromatographic separations, and enzyme kinetics. The course focuses on the chemical theories and principles underlying the experiments, proper laboratory techniques, obtaining accurate results, and oral/written communication skills related to biochemistry research.

CHE 325H Honors: Biochemistry I (0)

Course description as stated in CHE 325 (Honors Course)

CHE 326 Biochemistry II (3)

Prerequisite(s): Grade of "C" or Better in CHE 325

Concurrent requisite(s): CHE 326A

A study of the physical and chemical aspects of biological activity. Topics include: nucleic acid structure/function; DNA packaging/organization, replication, recombination, and damage/repair; transcription and translation; regulation of gene expression in prokaryotes and eukaryotes; biosignalling; microRNA, fundamentals of recombinant DNA and modern biotechnology.

CHE 326A Biochemistry II (LAB) (1)

Concurrent requisite(s): CHE 326

Experiments will be performed which illustrate common techniques used in biochemistry such as UV-VIS, determination of nucleic acid concentrations, agarose gel electrophoresis, PCR, and bioinformatics. The course focuses on the chemical theories and principles underlying the experiments, proper laboratory techniques, obtaining accurate results, and oral/written communication skills related to biochemistry research.

CHE 350 Physical Chemistry I (3)

Prerequisite(s): A Grade of "C" or Better in CHE 112, a Grade of "C" or Better in MTH 194

Concurrent requisite(s): CHE 350A

A calculus based problem-solving approach to the theories and principles of chemistry. Emphasis is on thermodynamics and statistical mechanics.

CHE 350A Physical Chemistry I (LAB) (1)

Concurrent requisite(s): CHE 350

Laboratory applications of the concepts introduced in CHE 350

CHE 355 Physical Chemistry II (3)

Prerequisite(s): CHE 350

Concurrent requisite(s): CHE 355A

A calculus based problem-solving approach to the theories and principles of chemistry. Emphasis is on quantum mechanics and kinetics

CHE 355A Phys Chemistry II (LAB) (1)

Concurrent requisite(s): CHE 355

Laboratory applications of the concepts introduced in CHE 355.

CHE 360 Intermediate Inorganic Chem (3)

Prerequisite(s): CHE 212

Concurrent requisite(s): CHE 360A

Models and theory of inorganic chemistry beyond that covered in general chemistry. Chemical bonding theory and a study of representative members of the Periodic System.

CHE 360A Int Inorganic (LAB) (1)

Concurrent requisite(s): CHE 360

Laboratory practice in the classical and instrumental techniques of inorganic chemistry as well as laboratory

application of the concepts introduced in CHE 360.

CHE 390 Research Problems in Chemistry (1-4)

Prerequisite(s): Permission of instructor

Problems in chemistry for selected students, pursued under the supervision of a faculty member. Variable credit, four credit maximum permitted toward degree.

This course can be repeated for a maximum total of four credits.

CHE 396 Cooperative Education Work Experience: Parallel (1-3) EXP

Prerequisite(s): CED 220

A chemistry related work experience supervised by a Chemistry Department faculty coordinator in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation of a predetermined Learning Agreement and evaluation of work performance. The course may be repeated for a maximum total of six credits.

This course can be repeated for a maximum total of six credits.

CHE 400 Chemistry Senior Seminar (1)

Prerequisite(s): CHE 300

Students will attend scientific presentations with guest speakers. They will also prepare written and oral presentations for either an original research project or an extensive literature review.

CHE 400S Serv Lrng: Chemistry Senior Seminar (1) EXP

Concurrent requisite(s): CHE 400

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CHE 401 Natural Science Seminar (1)

This course is designed to have students in the Natural Sciences program demonstrate their background and mastery in the areas of chemistry, biology and physics. Students will apply their knowledge in these areas to current and historical issues that face the scientific community and general population as a whole.

CHE 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): CED 220

A chemistry related work experience supervised by a Chemistry Department faculty coordinator in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation of a predetermined Learning Agreement and evaluation of work performance.

This course can be repeated for a maximum total of six credits.

CHL

CHL 230 Child Life (3)

Through their work in this course, students will examine the official documents of the Association of Child Life Professionals, the scope of practice of a Child Life Specialist, the impact of illness, the practice of family centered care and therapeutic play, and preparation. This course will prepare students for their Child Life coursework and for certification as a Child Life Specialist.

CHL 240 Play Therapy (3)

During this course, students will observe, assess, and use play to make judgments about children's learning. They will learn how to use play as the primary vehicle and indicator of physical, intellectual, social, and emotional development of children. They will examine the basic principles and values of play, creativity and play, and guidance of play. They will learn how to structure therapeutic play sessions, and they will practice planning play curriculum and program development.

CIS**CIS 135 Spreadsheets (3)**

Progress from basic spreadsheet operations on microcomputers to more intermediate applications. Learn to efficiently produce worksheets. After mastering the basic features of creating, editing and formatting a spreadsheet, work with more advanced formulas and functions, perform what-if analysis, create graphs and databases, and work with macros. Lab.

CIS 396 Co-Op:Parallel(PT) (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

CIS 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

COM**COM 100 Spoken Word (3) C**

Spoken Word develops students' understanding of interpersonal, small group, and public communication principles, processes, and practices, and focuses on enhancing students' overall communication competency. Emphasis is placed on developing effective and ethical listening and speaking strategies needed in personal, academic, civic, and professional life.

COM 100S Serv Lrng:Spoken Word (1) EXP

Concurrent requisite(s): COM 100

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

COM 151 Peak Productions (1)

Peak Productions is a hands-on video production experience. Members of the class will participate in video production services both on and off campus. Peak Productions provides students the opportunity to practice and improve upon their video production skills and work together on video production projects throughout the term. Enrollment in the group is open to all MSJ students by instructor approval.

COM 201 New Media, Culture & Society (3) LAS

Prerequisite(s): COM 100, ENG 101

New Media, Culture & Society develops students' knowledge, understanding, and critical analysis of mass and new media (including books, newspapers, magazines, film, radio, television, and the Internet) and their relationship to contemporary culture. The course deals with the history of mass media, including economic, technological and cultural aspects; the political, psychological, and sociological impacts of mass media; and related ethical implications. The course extends beyond mass media into the new media environment which includes converged media, participatory media and social media.

COM 201S Serv Lrng:New Media, Culture & Society (1) EXP

Concurrent requisite(s): COM 201

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

COM 203 Interpersonal Communication (3) LAS

New Course

Prerequisite(s): COM 100 and ENG 101

Interpersonal communication refers to the climate of communication between two or more individuals. Students will gain an understanding of concepts and theories as they relate to verbal and nonverbal communication, perceptions, listening and relationships. Students will explore their own communication habits and relationships to identify strengths, weaknesses, and areas for improved communication effectiveness.

COM 220 Visual Communication (3)

Prerequisite(s): COM 100, ENG 101

This course develops students' visual literacy and understanding of visual communication theories and their application. Students learn how to engage in critical analysis of the visual world around them.

COM 250 Digital Video Production (3)

Digital Video Production: a practical hands-on beginning level production course that introduces students to the fundamental principles of shooting video for narrative and non narrative projects, both in the studio and in the field. Students will learn video, audio, lighting, and camera operation.

COM 250S Serv Lrng:Digital Video Production (1) EXP

Concurrent requisite(s): COM 250

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

COM 251 Digital Video Post-Production (3) LAS

Prerequisite(s): COM 100 and ENG 101

Non Linear Editing: a beginning level production course that engages students in digital editing theory and practice. Students, using Adobe Premiere, apply their consideration of editing styles and theories to the creation of edited projects.

COM 295 Writing for New Media Environments (3) LAS

Prerequisite(s): ENG 101

Concentrates on the theory and practice of interactive writing for new media channels. The course examines the fundamental principles of writing interactively for specific audiences. It will also help students cultivate skills in content development using the right technologies for the different media and editing for a world-wide digital audience.

COM 295S Serv Lerng: Writing for New Media Environments (1) EXP

Concurrent requisite(s): COM 295

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

COM 300 Advanced Composition (3) LAS

Prerequisite(s): COM/ENG 101/or Equiv

Crosslisted ENG 300. A course on writing nonfiction. While most of the work is practical, some theoretical considerations are made regarding style and methods of adapting discourse to meet the needs of a variety of audiences. Writing assignments involve descriptive, expository and persuasive writing.

COM 303 Communication & Media Theory (3)

Prerequisite(s): ENG 101 & COM 100

This course serves as a critical study of major communication and media theories and research findings. Emphasis is placed on application of theories to contexts as a way of illuminating possibilities for improving human communication practice. This course also critically examines key theoretical approaches to understanding and analyzing the role of media in contemporary society and culture. The theories and concepts provide ways to make meaning out of everyday interactions with media and in personal relationships and diverse cultures.

COM 311 New Media Law and Ethics (3)

Prerequisite(s): COM 100 and ENG 101

This course is designed as a series of case studies used to critically reflect on the legal and ethical issues in new media, the Internet, information systems, computers, and digital culture. Concepts such as privacy, intellectual property, free speech and Internet governance have evolved. This course will provide a unique opportunity to examine these areas of inquiry, while engaging with the new and emerging issues and debates from different legal and ethical approaches.

COM 320 Public Speaking and Advocacy (3) LAS

Prerequisite(s): COM 100 or equivalent; COM 200 recommended

An applied speech communication course that focuses on developing students' public speaking skills, particularly in professional, organizational, civic, and other structured contexts. Students study and apply principles of effective and ethical public speaking, and have opportunities to develop, deliver, and critique different types of oral presentations. They develop their skills in gathering and conveying information, persuading others, and preparing and delivering group presentations.

COM 320S Serv Learn: Oral Communication (1) EXP

Concurrent requisite(s): COM 320

Service Learning is an opportunity to engage in service to others while making academic connections to

course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

COM 321 Public Relations in the Digital Age (3) LAS

Prerequisite(s): COM 100, COM/ENG 101

Public Engagement in a Digital Age introduces students to the virtual public square networking sites. It examines the principles of framing, deliberation, and speechmaking, and public relations in a digital age as critical artifacts in the social media environment. It emphasizes the importance of social media tools in promoting persuasive speechmaking and public relations presentations through the art of framing in the virtual public for organizations especially non-profits. Topics covered include the definitions of public engagement, public relations and the significance of persuasion, message framing, media relations, planning special events, building community relations through social media, and the process of gaining top management support for public engagement programs.

COM 321S Serv Lrng:Public Relations in the Digital Age (1) EXP

Concurrent requisite(s): COM 321

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

COM 330 Rhetorical Foundations of Human Communication (3) LAS

Prerequisite(s): COM 100, COM/ENG101 or equivalents; COM 200 + 320 recommended

This course is an introduction to major theories and perspectives in the rhetorical tradition, from the classical era to the contemporary period, with emphasis on recurring philosophical and ethical controversies surrounding the nature and role of rhetoric. A central theme is the tension between the promise of rhetoric for constructing a rich, just, and meaningful civic life and the dangers of its use as a tool for manipulation, oppression, and demagoguery.

COM 330S Serv Lrng:Rhetorical Found of Human Communication (1) EXP

Concurrent requisite(s): COM 330

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

COM 340 Intercultural & World Comm (3) LAS

Prerequisite(s): COM 100 + COM/ENG101 or equivalents; COM 200 + 320 recommended

This course explores and examines communication within various cultures; the ways in which communication constructs cultures; and the role of communication in creating and/or reducing cultural biases. The course further helps students explore the relationship between communication and cultural identity, experience, and meaning within and across a variety of cultures, including national cultures, ethnic groups, racial groups, economic classes, genders, and others.

COM 350 Special Topics in Communication (3) LAS

Courses are offered under this number depending upon the need and interest. Independent study program, guided readings and individual projects may also be included under Specialized Topics.

COM 350S Serv Lrng:Special Topics in Communication (1) EXP

Concurrent requisite(s): COM 350

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

COM 353 Health Communication (3) LAS

Prerequisite(s): COM 100, COM/ENG 101

This course explores, from a humanistic, narrative perspective, the impact of communication on health and conceptions of health in various contexts. Emphasis is on exploring the relationship between narratives/stories/representations of health and personal and cultural conceptions and experiences of health. Topics include doctor-patient communication, differing cultural conceptions of health and illness, family communication surrounding health, issues related to managed care (e.g., HMOs), public health campaigns, the impact of media messages on health, ethical issues, patient empowerment, and communication surrounding pregnancy and birth, infertility, chronic illness, disability, sex education, risk-taking behaviors, mental illness, aging, and death and dying.

COM 353S Serv Lrng:Health Communication (1) EXP

Concurrent requisite(s): COM 353

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

COM 356 Social Media Marketing and Advocacy (3)

New Course

Prerequisite(s): COM 100, ENG 101

This course examines the methods, approaches, and strategies of marketing and advocacy through the use of social media; and explores the opportunities and limitations of social media for interactive marketing and advocacy. Students will utilize multiple forms of social media, including multi-channel (e.g., Twitter, Facebook, Instagram, Pinterest, YouTube, etc.) and multimodal forms of communication (video, graphics, audio, and text). The course prepares students to research, plan, create, implement, analyze, and evaluate social media communication strategies applied in multinational marketing, marketing research, consumer behavior, and retail sales promotion; and to support advocacy, activism, and democratic participation.

COM 359 American Film Authors (3) LAS

Prerequisite(s): COM 100 and COM/ENG 101/or Equiv

Crosslisted ENG 359. An in-depth study of major American feature film directors. The styles and major traits of directors will be stressed through close examination of representative films. The course also addresses filmmaking as a collaborative art, examining the role of stars, writers, producers, and studios. Films and filmmakers will be placed within historical, sociological, and cultural contexts.

COM 359S Serv Lrng:American Film Authors (1) EXP

Concurrent requisite(s): COM 359

Service Learning is an opportunity to engage in service to others while making academic connections to

course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

COM 380 Newswriting I (3) LAS

Prerequisite(s): COM/ENG 101

This course in newswriting introduces students to literary forms common in today's news media and to basic interviewing and reporting techniques, and to ethical issues in journalism.

COM 388 Feature Writing (3) LAS

Prerequisite(s): COM/ENG 101

This course stresses the craft of newspaper and magazine feature writing, with attention to leads, structure and polished prose, and ethics.

COM 396 Cooperative Education Work Experience (1-3) EXP

Prerequisite(s): CED 220

A communication-related work experience supervised by department faculty coordinators in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation of predetermined Learning Agreement and evaluation of work performance. Evaluation is on pass/fail basis. The course may be repeated up to six credit hours. COM 400, Internship may be substituted for the co-op work experience.

This course can be repeated for a maximum total of nine credits.

COM 400 Internship (1-3) EXP

Internships provide the student with the opportunity to gain practical experience in an appropriate segment of the communications industry. While there is some variation, typically the student will spend approximately 135 hours in a work environment. Enrollment is limited to majors in communication studies. Registration by permission of the department only. Co-op work experience may be substituted for the internship.

COM 410 Research Methods (3)

Prerequisite(s): COM 100, ENG 101

Research Methods will introduce students to qualitative, quantitative and critical research techniques as they have been applied to media and communication practice and theory. The course will introduce you to research foundational principles as well as methods of textual analysis, qualitative research methods, quantitative research methods, and audience analysis. The course will focus on specific approaches and issues with reading, conducting, and reporting research, the use of multiple data collection methods, and basic quantitative and qualitative data analysis.

COM 410S Serv Lrng:Research Methods (1) EXP

Concurrent requisite(s): COM 410

Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

COM 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): CED 220

A full-time communications related work experience supervised by department faculty coordinators in col-

laboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation of predetermined Learning Agreement and evaluation of work performance. Evaluation is on pass/fail basis. COM 400, Internship may be substituted for the co-op work experience.

This course can be repeated for a maximum total of nine credits.

COM 498 Senior Thesis:New Media Campaign and Blogfolio Design (3)

Prerequisite(s): Students must have at least 75 hours of completed course work

Digital Portfolio: In the first half of the semester, participants will take an in-depth look at the power of digital portfolios as a tool to document student learning through exploring various formats and uses of digital portfolios. Students will implement a digital portfolio as part of their Capstone Project (along with the New Media Campaign), and create individual digital portfolios using a blend of audio, video, text, and images to introduce themselves. In the second half of the semester students will research, plan, create, and present a social media campaign for social change. This campaign will involve working closely with a community partner utilizing several forms of media to launch, manage, and measure the impact of a multimedia, multimodal public service campaign. Students will present their campaigns to the Mount St. Joseph Community.

COM 498S Serv Lrng:Senior Thesis:New Media Campaign and Blogfolio Design (1) EXP

Concurrent requisite(s): COM 498

Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

COM 499 Communication Studies Capstone (1)

Prerequisite(s): 40 hours of Core curriculum completed

Individual application of communication theory and methods to a special problem in a manner that demonstrates integration of concepts and methods of the liberal arts and sciences and those of the major. Permission of department required.

CORE

CORE 115 Common Ground (3) COR

In this course students examine their own role as citizens, and explore historical and current ideas about the common good. Emphasis is placed on the importance of self-knowledge, understanding others and their cultures, and discernment of one's voice in promoting the common good.

CORE 115H HON:Common Ground (3) COR

Prerequisite(s): Admission to the Honors Program, Approval of the Honors Program director
Course description as stated in CORE 115 (Honors Course)

CORE 115S Serv Lrng:Common Ground (1) EXP

Concurrent requisite(s): CORE 115 or CORE 115H

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will

develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CORE 405 The Human Costs of Inequality (3) CCP

Prerequisite(s): 40 Hours in the Core and 90 Hours Total

Capstone is a culminating interdisciplinary course with a three-fold purpose: (1) to facilitate substantial new learning about a complex global problem; (2) to encourage integration of knowledge, skills, and values from the entire liberal arts and sciences Core Curriculum, including experiential learning, to address that problem; and (3) to strengthen concern and action for the common good as habits of mind. This course examines The Human Costs of Inequality, including economic and other forms of inequality in the US and across the globe, the impact of inequality on human health/well-being, productivity, mobility, and other measures, and how a focus on the Common Good can and should inspire us to minimize human suffering.

CORE 410 Core Capstone: International LGBTQ+ Rights (3) CCP

Prerequisite(s): 40 hrs. within the Core Curriculum; 90 hrs. total

The Capstone is a culminating interdisciplinary course with a three-fold purpose: (1) to facilitate substantial new learning about a complex global problem; (2) to encourage integration of knowledge, skills, and values from the entire liberal arts and sciences Core Curriculum, including experiential learning, to address that problem; and (3) to strengthen concern and action for the common good as habits of mind. Through their work in this course, students will discover some of the history of gay, lesbian, bisexual, and transgender rights in the United States and several other developed and developing nations. Students will examine and evaluate some of the legal, cultural, medical, and economic forces and perspectives that prohibit or restrict LGBTQ+ people's rights and will examine the tensions that still exist in many countries, including the US, over inclusion of LGBTQ+ people in civil society.

CORE 424 Deviance, and Discrimination in Sport: Examining the Role of Ethical Leadership (3) CCP

Prerequisite(s): 40 Hours in the CORE and 90 Hours Total

Core Capstone is a culminating interdisciplinary course with a three-fold purpose: (1) to facilitate substantial new learning about a complex global problem; (2) to encourage integration of knowledge, skills, and values from the entire liberal arts and sciences Core Curriculum, including experiential learning, to address that problem; and (3) to strengthen concern and action for the common good as habits of mind. This course examines global issues and problems in sport from historical, sociological, economic, psychological, political and legal perspectives. Students will explore their own ethics and moral reasoning, as well as the role of leadership in addressing these issues and problems.

CORE 425 Global Human Rights: The Case for Women & Child (3) CCP

Prerequisite(s): 40 Hours in the CORE 90 Hours Total

This capstone course will examine the idea of the individual human right and how this idea has evolved to address the different needs of women and children throughout the world.

CORE 425H Honors; Global Human Rights: The Case for Women & Child (0) CCP

Course description as stated in CORE 425 (Honors Course)

CORE 425S Serv Lrng:Global Human Rights: The Case for Women & Child (1) EXP

Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CORE 430 Agriculture, Agribusiness, and the Ecology of Food (3) CCP

Prerequisite(s): 40 Hours in the CORE and 90 Hours Total

Core Capstone is a culminating interdisciplinary course with a three-fold purpose: (1) to facilitate substantial new learning about a complex global problem; (2) to encourage integration of knowledge, skills, and values from the entire liberal arts and sciences Core Curriculum, including experiential learning, to address that problem; and (3) to strengthen concern and action for the common good as habits of mind. CORE 430 is an inquiry into the ecology, business and ethics of worldwide food production and distribution. The course will begin with an overview of agricultural history, beginning with the agricultural revolution, continuing through agricultural history up until the so-called "Green Revolution" of the 1950s and '60s. We will continue with the study of modern agribusiness and the ethics, economics and ecology of current industrial food production processes, including Concentrated Animal Feeding Operations (CAFOs), the issues surrounding pesticides, antibiotics, herbicides and other chemicals upon which industrial agriculture depends, issues surrounding crop diversity, the ecology of monocultures, and the promise and peril of genetically modified organisms (GMOs) in food production. We will end with a study of alternative approaches to food production including "locavore" movements, urban agriculture, and alternative or traditional approaches to the growing of food.

CORE 435 I Plead the 2nd! Examining the Role of Gun Violence in the 21st Century (3) CCP

Prerequisite(s): 40 hours in the Core, 90 hours total

Core Capstone is a culminating interdisciplinary course with a three-fold purpose: (1) to facilitate substantial new learning about a complex global problem; (2) to encourage integration of knowledge, skills, and values from the entire liberal arts and sciences Core Curriculum, including experiential learning, to address that problem; and (3) to strengthen concern and action for the common good as habits of mind. This course will examine gun violence from the perspectives of history, public health, public policy and discourse, economics, psychology, rhetorical analysis and crime prevention.

Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CORE 455 Human Rights in the Digital Age (3) CCP

Prerequisite(s): 40 hours in the CORE and 90 hours total

The Universal Declaration of Human Rights (UDHR), negotiated and affirmed by governments of the United Nations, stand as a firm commitment to uphold and protect fundamental human rights, the dignity and worth of each person, and the equal rights of men and women. Information and Communication Technologies (ICTs) present immeasurable opportunities to enable individuals, communities and peoples to achieve their full potential in promoting sustainable development and improving quality of life. This course explores relevant sections of the UDHR as applied to the Internet, to examine how the Internet can evolve in a way that further expands and supports these rights. Topics may include: issues of Internet access and use, Information and Computer Technology for Development (ICT4D), copyright and right to educational materials, privacy rights, online defamation, freedom of expression and censorship, right to assembly and right to liberty and security on the Internet.

CORE 460 What the F is Free Speech Anyway? (3) CCP

Prerequisite(s): 40 hours in the CORE and 90 hours total

This course is a culminating interdisciplinary course that is global in scope. Together, we will examine the concept of Free Speech as an ethical challenge. Why is Free Speech worth fighting for? What is the danger of silencing offensive speech? Are there/should there be limits to Free Speech? What does Free Speech look like throughout the world?

CORE 471 Going Places:Transportation, Oil and Cities (3) CCP

Prerequisite(s): 40 Hours in the Core and 90 Hours Total

Core Capstone is a culminating interdisciplinary course with a three-fold purpose: (1) to facilitate substantial new learning about a complex global problem; (2) to encourage integration of knowledge, skills, and values from the entire liberal arts and sciences Core Curriculum, including experiential learning, to address that problem; and (3) to strengthen concern and action for the common good as habits of mind. This course examines our current transportation habits and their consequences on the environment and the shapes of our communities using social, political, scientific, economic and environmental perspectives. These considerations are used to evaluate present and future solutions to transportation-related problems such as worldwide oil supply and demand, air and water quality, and patterns of land use.

CORE 472 Immigration:Achievements and Perils at the Core of our Nation (3) CCP

Prerequisite(s): 40 Hours in the CORE and 90 Hours Total

Core Capstone is a culminating interdisciplinary course with a three-fold purpose: (1) to facilitate substantial new learning about a complex global problem; (2) to encourage integration of knowledge, skills, and values from the entire liberal arts and sciences Core Curriculum, including experiential learning, to address that problem; and (3) to strengthen concern and action for the common good as habits of mind. This course will examine US immigration from a personal, historical, political, socio-economical, and psychological perspective.

CRM

CRM 103 Foundations of Criminal Justice (3) LAS

This course covers the spectrum of criminal justice in America. It offers an examination of the criminal justice system by addressing issues of law, deviance, and justice. Students will explore how justice is achieved through law, punishment, and criminal justice agencies and evaluate the nature, scope, sources, purposes, and practical limitations of the criminal justice system. Students will appreciate the complexities of criminal justice laws, policies, and programs and their impact on criminal justice practitioners and active citizens.

CRM 103H Honors: Foundations of Criminal Justice (0) LAS

Course description as stated in CRM 103 (Honors Course)

CRM 104 Introduction to Criminalistics (3) LAS

This course provides a foundational overview of criminalistics. Students will be exposed to the basic crime scene investigation (e.g., assessment, processing) and will explore a wide array of physical and trace evidence concepts (e.g., fingerprints, bloodstains, hairs and fibers, firearms, tool marks) and identification techniques. Students will also be introduced to a variety of disciplines within the criminalistics field.

CRM 105 Elements of Inquiry (3)

The overarching goal of this course is to help students learn to write in a manner consistent with the standards of the field. As such, this course is designed to assist students with criminal justice database technology and with writing and research skills specific to the field of criminal justice. For instance, students will learn how to: proficiently use library databases to locate empirical journal articles, critically evaluate information resources and content, and properly cite references. Toward the end of the course, students will gain practical skills to help locate a job in the criminal justice field.

CRM 204 Bullies & Bullets:Victimization in Schools (3)

Prerequisite(s): SOC 103 or CRM 103

This course explores different forms of crime and victimization in primary and secondary institutions as well as in institutions of higher education. Attention will be given to students' fear of crime, violent and sexual victimizations, drug and alcohol use, bullying and cyberbullying, and school shootings. Exploration of these topics will emphasize how to prevent and reduce these forms of crime and victimization.

CRM 206 Crime & Constitution (3) LAS

New Course

Crosslisted LGS 206. This course will examine various aspects of crime and criminal procedure that arise from the United States Constitution. Topics covered include search and seizure, due process, indictments, bail, punishments, double jeopardy, self-incrimination, treason, extradition, and the rights to speedy trial by jury, to confront witnesses, and to the effective assistance of counsel.

CRM 207 Animals and Criminal Justice (3) LAS

This course will examine topics such as animal rights animals as victims of violence, the use of service animals, K-9s and their officers, and animals used in corrections or for rehabilitative purposes.

CRM 207S Serv Lrng:Animals and Criminal Justice (1) EXP

Concurrent requisite(s): CRM 207

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CRM 208 Serial Murder (3) LAS

This course examines serial murder, a crime that has gained a considerable amount of mystery and fear in society, as well as with members of the criminal justice system. Attention is given to defining this type of crime as well as to the various types of offenders and patterns of offender behavior.

CRM 210 Drugs and Crime (3) LAS

New Course

This course is set to examine the nexus between drugs and crime. Students in this course will learn about a wide variety of drugs of abuse and their effects. Students will also examine the theoretical aspects of the drug-crime connection and review many of the correlates of this relationship. Students will also learn to evaluate both the practical and policy implications of the drug-crime problem.

CRM 215 Cults & Their Victims (3)

Prerequisite(s): CRM 103 or SOC 103; CRM Majors Must Get a C or Better for Credit

Throughout history, cults, sects, and new religious movements have developed at the edges of civilization. This course examines such groups in the context of modern movements. Students will explore common typologies of cults, the dynamics of charismatic leadership, models of conversion including "brainwashing," the sociology of small-group behavior, violence, and the experiences of members. Particular focus will be placed on the victimization of cult members and the consequences of their trauma.

CRM 215S Serv Lrng:Cults & Their Victims (1) EXP

Corequisite(s): CRM 215

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities,

and an increased awareness of their own faith and values.

CRM 217 Cops, Bobbies & Thief-Takers (3) LAS

Prerequisite(s): CRM 103 or SOC 103

This course discusses and surveys: the role of police as formal social control agents in a stratified society; the history of policing; policing as an occupation; the impact of social change on police work; social characteristics of police; styles of policing; police misconduct; and explanations of police behavior.

CRM 218 Victimology (3) LAS

Prerequisite(s): CRM 103 or SOC 103

This course provides an overview of the emerging field of victimology. The course will focus on the following topics: the scope of victimization, theories of victimology, societal response to victims, role of victims in the criminal justice system, resources available to victims, and the various effects that victimization can have on the victim and on his/her relationships with others.

CRM 218S Serv Lrng:Victimology (1) EXP

Concurrent requisite(s): CRM 218

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CRM 220 Courts in America (3) LAS

Prerequisite(s): CRM 103 or SOC 103

The focus of this course is on the American courts system. More specifically, this course will examine the law and its social and political origins, as well as the function, structure, and process of the courts. A thorough examination of the main actors of the courtroom workgroup (i.e., prosecutor, defense attorney, and judge) and jury will be covered. This course will also provide a comprehensive examination of the pretrial and trial processes and procedures, beginning with the arrest and booking of offenders and culminating with their sentencing and appeals. In addition, students will examine juvenile, drug, and diversion courts, as well as critically assess issues related to the media and courts.

CRM 221 Criminal Law and Procedure (3)

New Course

Prerequisite(s): CRM 103

This course seeks to help students in criminal justice (and other majors) understand how the law governs police-citizen encounters. As such, this course reviews a number of important concepts foundational to the understanding of criminal procedure and covers key aspects of procedural criminal law: stop and frisk, search and seizures, lineups and other means of pretrial identification, and confessions and admissions. Throughout the course, students will reflect on the major constitutional rights of the accused and review the leading Supreme Court cases guiding these steps in the criminal justice process. The course also examines legal liabilities of public officers.

CRM 221S Serv Lrng: Criminal Law and Procedure (1) EXP

New Course

Concurrent requisite(s): CRM 221

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities,

and an increased awareness of their own faith and values.

CRM 223 Guns, Crime and American Society (3)

This course intends to help students understand the current debate on gun rights vs. gun control that animates our society. The main purpose of this course is to explore the role guns play in contemporary America from a scholarly perspective (i.e., objectively, based on actual research). This course is set to cover all aspects of guns in society, and as such will explore this topic from a sociological perspective. Tentative subjects of discussion will include, among others, historical and technological aspects of firearms; the 2nd Amendment (history, origins, interpretations); guns by the numbers (prevalence, distribution); gun ownership (attitudes, opinions); gun use (lawful possession, concealed carry, personal defense); gun markets (legal and illegal); gun crimes and injuries (prevalence, responses); and guns in an international perspective.

CRM 225 Sex Crimes (3) LAS

Prerequisite(s): CRM 103 or SOC 103

This course examines deviant and criminal sexual behaviors and practices, as well as the social and criminal justice responses. Students will develop informed analysis of sexual offenses, sexual offenders, and public perceptions of and criminal justice responses to sexually deviant behavior.

CRM 230 Crime Prevention (3) LAS

Prerequisite(s): CRM 103 or SOC 103

This course is designed to provide an exploration of various methods of community crime prevention (prevention outside the traditional confines of the criminal justice system). Relevant theory and research related to neighborhood crime prevention efforts, community policing, school crime prevention, and other situational and environmental prevention measures will be explored critically. As such, this course aims to provide a foundation for a better understanding of the objectives of various crime prevention efforts, as well as the proven effectiveness of these various strategies.

CRM 230S Serv Lrng:Crime Prevention (1) EXP

Concurrent requisite(s): CRM 230

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CRM 235 Crimes of Technology (3) LAS

Prerequisite(s): CRM 103 or SOC 103

This course examines the intersection of technology and crime. Students will explore the manner in which technology has changed the nature of crime and the ways in which technology has affected efforts to control such crimes.

CRM 240 Crime & Media (3) LAS

Prerequisite(s): CRM 103 or SOC 103

This course examines the connections between crime and various types of popular media. Students will explore the manner in which forms of media influence criminality, as well as the effects of media portrayals of crime and crime control on the criminal justice system and society. Attention will also be given to the social construction of crimes and criminal justice events, the effect that violent media has on social aggression, and media portraits of criminal justice professionals.

CRM 245 Terrorism (3)

New Course

Prerequisite(s): CRM 103 or SOC 103

This course will examine the phenomenon of terrorism. Topics to be discussed include: defining terrorism,

causes and motivations behind terrorism, various typologies of terrorism, and the response to terrorism.

CRM 292 Forensic Psychology (3) LAS

Prerequisite(s): PSY 103

Crosslisted PSY 292. Persons with mental illness often come in contact with the legal system, and this course addresses major areas of that confluence from the perspective of a forensic psychologist. Topics include competency, sanity at the time of the offense, involuntary hospitalization, civil litigation, child custody psychological evaluations, psychopathy as it relates to criminal behavior, and the challenges associated with being an expert witness.

CRM 293 Juvenile Delinquency (3) LAS

Prerequisite(s): CRM 103 or SOC 103

The purpose of this course is to help students understand the nature, extent, and course of juvenile delinquency and methods devised by society for controlling anti-social behavior committed by young people.

CRM 293S Serv Lrng:Juvenile Delinquency (1) EXP

Concurrent requisite(s): CRM 293

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CRM 298 Community Justice (3) LAS

Prerequisite(s): CRM 103 or SOC 103

This course examines the community justice movement and how it impacts the criminal justice system. Students will examine case studies of efforts to involve the community in the criminal justice system.

CRM 300 Critical Issues in Criminology (3) LAS

Prerequisite(s): CRM 103, additional 6 CRM hours at 200 level or Instructor/Advisor Approval

This course approaches crime and criminality through a survey of issues. Attention is given to key critical issues and policies in the three parts of the criminal justice system. Criminological theory, contemporary research, and current events will inform discussion and debate of these issues throughout the course.

CRM 300S Serv Lrng:Critical Issues in Criminology (1) EXP

Concurrent requisite(s): CRM 300

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CRM 306 White Collar Crime (3)

Prerequisite(s): CRM 103

This course provides comprehensive overview of white-collar and occupational crimes, as well as the long-term effects such activities have on our society. A variety of white-collar offenses will be covered in this course, including but not limited to: unsafe products; environmental crimes; institutional corruption; securities, corporate and fiduciary fraud; corruption of public officials; medical crime; and computer crime. At the same time, students will engage in a discussion of their causes, the legislation aimed at curtailing such crimes, and possible forms of intervention and enforcement. High-profile cases, as well as the latest trends in white-collar criminal activity will also be discussed.

CRM 307 Fraud Examination (3)

Prerequisite(s): CRM 103

This course will cover the major methods employees use to commit occupational fraud. Students will learn how and why occupational fraud is committed, how to assess where an organization is at the greatest risk for fraud, how fraudulent conduct can be deterred, and how allegations of fraud should be investigated and resolved.

CRM 311 Gender, Crime and Justice (3) LAS

New Course

Prerequisite(s): CRM 103 or SOC 103

This course is designed to provide students with an understanding of the experience of women in the criminal justice system. Students will be introduced to the concepts of sex and gender, especially their place in the development of criminal justice. Particular focus will be placed on the three main ways in which women interact with the criminal justice system-as victims, as offenders, and as criminal justice employees.

CRM 330 Victim Treatment and Services (3)

Prerequisite(s): CRM 103

This course introduces students to the support, treatment, and services available for victims of crime, ranging from protective services to therapeutic treatment of victims and survivors. To that end, the dynamic and often controversial, processes currently utilized by criminal justice and social service agencies to engage, investigate, and provide support services for victims and their families will be examined. Further, aspects of both the criminal justice and juvenile justice systems' ability to prevent and help victims recover from serious violent crime will be addressed.

CRM 330S Serv Lrng: Victim Treatment and Services (1) EXP

Concurrent requisite(s): CRM 330

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CRM 335 Victimization in the Digital Age (3)

Prerequisite(s): CRM 103

This course focuses on life in the digital age, with particular focus on cybervictimization. Technology, and specifically the Internet, has forever changed the way people interact, behave, and conceive the world around us. Nowhere is this more evident than with the experience of victimization. With this course, students will examine how communication and interaction has changed online, review and analyze the key concepts and typologies of cybervictimization, and study the impact and consequences of cybercrime on victims. This is not a computer science course. As such, a high technical knowledge of computer programming and functions is not necessary.

CRM 350T Crim Law & Procedure for LGS (3)

New Course

Prerequisite(s): LGS 151

Crosslisted LGS 350T. This course will address the basics of criminal law and criminal procedure as it relate to paralegal practice.

CRM 361 Professionalism and Decisionmaking in Criminal Justice (3) LAS

Prerequisite(s): CRM 103, Additional 6 CRM hours at 200 Level.

This course focuses on the examination of selected principles and ethical issues related to law enforcement, courts, and corrections. This course is specifically designed to provide students with an overview of ethical dilemmas relevant to the criminal justice professions and offer suggestions on how these ethical dilemmas might be resolved. Throughout this course, students will have opportunities to cultivate a greater understanding of their own philosophical perspectives that should serve as a foundation for making more informed ethical decisions as they further their criminal justice education and become criminal justice professionals.

CRM 370 Criminological Theory (3) LAS

Prerequisite(s): CRM 103, CRM 105, additional 9 CRM hours at 200 level or Advisor Approval

This course reviews the basic concepts and principles of criminological theories and evaluates the adequacy of criminological theories as explanations of crime and deviant behavior. Students will also explore the connection between criminological theory and social policy.

CRM 372 Comparative Criminal Justice/Criminology (3) LAS

Prerequisite(s): CRM 103, additional 6 CRM hours at 200 level or Instructor/Advisor Approval

This course focuses on the examination of crime and justice issues from a cross-national vantage point. It is specifically designed to provide students with a better understanding of comparative and international issues relevant to the criminology and criminal justice professions. Throughout this course, students will have opportunities to cultivate a greater knowledge and understanding of the American criminal justice system, and examine how its various components compare to those of other countries around the world. Global issues, such as terrorism, transnational organized crime, and human trafficking will also be reviewed and analyzed. This course will give students the knowledge needed to interact with justice system agents in other countries, and suggest ways to improve our own domestic system of justice.

CRM 372S Serv Lrng: Comparative Criminal Justice/Criminology (1) EXP

Concurrent requisite(s): CRM 372

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CRM 375 Criminology Research (3)

Prerequisite(s): CRM 103, CRM 105, additional 9 CRM hours at 200 level, additional 3 CRM hours at 300 level

The purpose of this course is to introduce students to the logic of social research methods and the scientific method of inquiry. In doing so, this course will cover topics such as experimental design, survey research,

methods of evaluation research, sampling, and the contrast between quantitative and qualitative research.

CRM 375S Serv Lrng:Criminology Research (1) EXP

Concurrent requisite(s): CRM 375

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

CRM 380 Independent Study (1-3)

Student-initiated project intended to add a new dimension of education and encourage intellectual activity, initiative and sustained effort. Topics to be chosen in consultation with an instructor who has special competence in the subject involved. Open to junior and senior majors. Approval of instructor required.

CRM 392 Managing Criminal Justice Organizations (3) LAS

Prerequisite(s): CRM 103, additional 6 CRM hours at 200 level or Instructor/Advisor Approval

This course focuses on the administration and management of criminal justice professionals (i.e., individuals in law enforcement, courts, and corrections). In doing so, we will explore issues facing employees, interpersonal relations, and group dynamics. Students will also examine the operations of entire criminal justice organizations, current management principles, and various administrative processes. These concepts will be assessed through relevant organizational theory, empirical research, and famous case studies.

CRM 396 Cooperative Education Work Experience:Parallel (1-3) EXP

Prerequisite(s): CED 220

A work-related experience supervised by a faculty coordinator in collaboration with the cooperative education staff. Credit is awarded on successful completion of the work experience, documentation of predetermined Learning Agreement and evaluation of work performance. Course may be repeated up to six credit hours. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

CRM 397 Social Deviance (3) LAS

Prerequisite(s): CRM 103, additional 6 CRM hours at 200 level or Instructor/Advisor Approval

This course examines the concept of social deviance and the manner in which society defines and responds to deviance. Also discussed are the various forms of social control used to control deviant behavior, beliefs, and conditions of persons in society.

CRM 400 Senior Thesis (3)

Prerequisite(s): CRM 217, CRM 218, CRM 220, CRM 295, CRM 300, CRM 370, CRM 375 and Senior Standing

Criminology majors are required to complete a senior thesis research project. The thesis must be a substantive piece of scholarship involving primary or secondary research that serves to synthesize knowledge acquired over the course of the students' undergraduate career. Thesis projects are designed to demonstrate critical-thinking skills and students' knowledge of criminology and the criminal justice system. Students must apply concepts and theories, collect, analyze, and interpret data, and develop relevant policy implications.

CRM 407 Law & Society (3) LAS

Prerequisite(s): CRM 103, additional 6 CRM hours at 200 level 3 hours at 300 level or Instructor/Advisor Approval

Crosslisted SOC 407. This course studies the relationship between law and society through the lens of social identity. Through core law & society concepts, students will gain a cross-cultural understanding of how law produces a socially acceptable identity, how we mobilize law in a number of ways to either conform to or

resist law, and the implications law has for concepts of race, class, gender, and culture.

CRM 408 Biosocial Criminology (3) LAS

Prerequisite(s): CRM 103, additional 6 CRM hours at 200 level 3 hours at 300 level or Instructor/Advisor Approval

This course will introduce students to biosocial criminology, an emerging interdisciplinary subfield in the criminological discipline. This subfield strives to understand the association between genes, biology, the brain, the environment and antisocial behavior. Students will consider questions as to whether there are "natural-born killers", what makes a successful psychopath, and is it morally wrong for us to punish those who are biologically-wired for a life of crime. Students will explore new biosocial treatments for violence and analyze controversial theories of biosocial crime prevention.

CRM 496 Cooperative Education Work Experience:Alternating (1-3) EXP

Prerequisite(s): CED 220

A work-related experience supervised by a faculty coordinator in collaboration with the cooperative education staff. Credit is awarded on successful completion of the work experience, documentation of predetermined Learning Agreement and evaluation of work performance. Course may be repeated up to six credit hours. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

DANC

DANC 101 Dance 101 (3) LAS

This course will focus on the beginning to advanced level of technique in different styles while focusing more on the student's technical ability and movement quality. Throughout the course of the semester, students will develop an increase sense of technical ability/skill, choreography, movement, and different techniques that will be continuously taught throughout the course along with the history of styles.

This course can be repeated without any limit.

DEI

DEI 438 Race, Racism, Power, & Privilege (3)

New Course

This diversity, equity and inclusion course is designed to support professionals in understanding issues of race and the impact of systemic racism in our communities. Students will identify some of the realities of race and racism including identification of the hidden burden that people of color face at the intersection of race, power, and privilege. Critical race theory (CRT) and its theoretical relevance as a framework to examine and challenge disparate opportunities for people of color will be explored. The course will offer an examination of the policies, procedures, and structures that perpetuate disproportionality and overrepresentation. Students will learn about methods for dismantling systemic racism.

ECO

ECO 201 Economic Issues (3)

Introduction to current critical problems facing society and their economic interpretation and solution.

Topics include crime, government regulation, health care, poverty, population growth, energy, pollution, social security, and income maintenance. Recommended for non-business majors.

ECO 211 Principles of Macroeconomics (3)

This course concentrates on macroeconomics theory; a study of the economic system as a whole. Topics include employment, inflation, financial institutions, monetary, and budget policy.

ECO 212 Principles of Microeconomics (3) CEP

This course concentrates on microeconomic theory; a study of individual markets. Topics include the economics of the firm and the household, consumer behavior, labor, energy, and government regulation.

ECO 301 Financial Economics (3)

Prerequisite(s): FIN 300

This course provides a rigorous introduction to the fundamentals of financial economics and their applications in security analysis and investment management. Different from a corporate finance course, this course focuses more on financial instruments analysis and financial markets. Representative topics include financial institutions, measure of risk, capital asset pricing model (CAPM), arbitrage pricing theory (APT), efficient market hypothesis (EMH), discount cash flow model (DCF), term structure of interest rates, binomial valuation of options and the Black-Sholes formula.

ECO 311 Intermediate Macroeconomics (3)

Prerequisite(s): ECO 211, ECO 212

This course focuses on the behavior of the economy as a whole, such as booms and recessions, the economy's total output of goods and services and the growth of output, the rate of inflation and unemployment, the balance of payments, and exchange rates. It also focuses on the economic behavior and policies that affect consumption and investment, the dollar and the trade balance, the determinants of changes in wages and prices, monetary and fiscal policy, interest rates, and the national debt.

ECO 312 Intermediate Microeconomics (3)

Prerequisite(s): ECO 211, ECO 212

Microeconomics focuses on the motivations and decisions of economic entities in a market context. In this course, learners will develop and use economic tools to analyze economic decision making of individuals, households and firms.

ECO 350 International Economics (3)

Prerequisite(s): ECO 211, ECO 212

Discusses issues in the areas of free trade vs. protectionism, balance of payments and international trade and finance.

ECO 360 Money and Banking (3)

Prerequisite(s): ECO 211, ECO 212

Crosslisted FIN 360. Money, financial markets, and financial institutions are described and analyzed with economic tools such as supply and demand. The role of a central bank will be discussed along with the international financial system. Different monetary and fiscal policies will also be analyzed.

ECO 396 Cooperative Education Work Experience: Parallel (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

ECO 450 International Economics and Finance (3)

Prerequisite(s): ECO 211, FIN 300

A study of the macroeconomic and monetary aspects of international economics, with attention to basis for trade between nations, balance of payments, exchange rate determination, international monetary systems and macroeconomic adjustment, and monetary, fiscal, and exchange rate policies in an open economy.

ECO 453 Current Topics in Economics (3)

Prerequisite(s): ECO 211 and ECO 212

Covers selected topics in business. May be repeated more than once based on the specific contents of the course with advisor's permission.

ECO 490 Seminar in Economics (1-3)

Prerequisite(s): ECO 211 and ECO 212 and permission of instructor

This course covers selected economic topics in-depth. This may be repeated more than once based on the specific contents of the course with advisor's permission.

ECO 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

ECO 499 Independent Study (3)

EDU

EDU 143 Problem Solving & Number Systems (3)

Prerequisite(s): MTH 097 or MTH 098/Equiv or Placement

This course prepares pre-service MCE/Mathematics Concentration educators according to the Ohio New Learning Standards (ONLS) which are aligned to the Common Core State Standards for Mathematics. The course will challenge students to develop a deep understanding of the material they will eventually be teaching through mathematical investigations and discussion. The wide range of mathematical concepts covered in this course are centrally focused around developing a deeper understanding of number sense, proportional relationships, and algebraic reasoning. Topics include: Number Systems, Rational and Irrational Numbers, Addition and Subtraction, Multiplication and Division, Properties, Fractions and Decimals, Time and Money, Place Value, Ratio and Proportion, Probability, Statistics, Organizing Data, Expressions, Equations, and Inequalities, Patterns and Functions, and Counting Sequences, with a focus on how these topics would be applied in a classroom. There will be an emphasis on understanding and using the NCTM mathematical processes of problem-solving, reasoning and proof, communication, representation, and connection.

EDU 153 Geometry and Measurement (3)

This course prepares pre-service MCE/Mathematics Concentration educators according to the Ohio New Learning Standards (ONLS) which are aligned to the Common Core State Standards for Mathematics. The course will challenge students to develop a deep understanding of the material they will eventually be teaching through mathematical investigations and discussion. The wide range of mathematical concepts covered in this course are centrally focused around developing a deeper understanding of spatial sense, graphical representations, geometric relationships, and measurement. The mathematical concepts covered in this course will be: Graphing, Patterns and Functions, Lines and Angles, Shapes and their Properties, Measurement, Perimeter, Area, Surface Area and Volume with a focus on how these topics would be applied in a classroom. There will be an emphasis on understanding and using the NCTM mathematical processes

of problem-solving, reasoning and proof, communication, representation, and connection.

EDU 190 Introduction to the Educational Profession (1)

Concurrent requisite(s): If you plan to take EDU 217, it is recommended that you take them in the same semester

This exploratory course encourages potential teachers to think about education from the viewpoint of the teacher, both as a profession and as a process. Participants will explore their own educational experiences, observe teaching from a professional point of view, and interact with current teaching professionals. They will also have an overview of the organizational structure and school governance as it pertains to the licensure options in Ohio.

EDU 190S Srv Lrng:Introduction to the Educational Profession (1) EXP

Concurrent requisite(s): EDU 190

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

EDU 207 Educational Psychology (3)

Educators must design learning experiences based on sound research and theory. This course provides an overview of major educational theories and the associated research for understanding student factors, environments, instructional strategies and interactions that promote learning. A focus is on the development of reflective practice which draws upon this knowledge to make and justify effective teaching decisions.

EDU 207H HON: Educational Psychology (0)

Concurrent requisite(s): EDU 207

Course description as stated in EDU 207 (Honors Course)

EDU 217 Technology in the Instructional Process (2)

Corequisite(s): EDU 190 - It is highly recommended that EDU 190 and EDU 217 be taken during the same semester

This is an introductory course on the use of technology in K-12 classrooms. Using a combination of lecture and hands-on instruction, it will address issues surrounding the use of instructional technology, including, but not limited to: instructional software; the Internet; PowerPoint and other presentations program; hypermedia; SmartBoards; and technology in the instructional process. One main emphasis of the course will be the development of technology-based projects to be used in the classroom. The course will also address assistive technology and the ethical and responsible use of technology in the classroom. The theoretical underpinnings of instructional technology will also be covered.

EDU 333A Art Education Practicum (3) EXP

Prerequisite(s): AED 290, AED 390 and Admission to ART Department and Education Department

This course, designed specifically for advanced pre-service art educators, serves as a bridge between the art theory and methodology courses (AED 290/390) with their initial field experiences and Art Student Teaching. Therefore, this course's two practicum placements - one at the elementary level (K-5), one at the secondary level (6-12) - of 50 hours each (total 100 hours) are core components. Students are required to observe and assist their mentor teachers and then to plan and implement a mini-unit plan (3 lessons) at the elementary level and a mini-unit plan (3 lessons) at the secondary level. The course's on-campus seminar meetings provide opportunities for assignments and instructions, distributions of materials, discussion of theory, research and practicum issues, analyses of case studies, consideration of video performances, and preparation of the student's professional portfolio.

EDU 333M Music Education Practicum (3) EXP

Prerequisite(s): MUS 343, MUS 344

The field experience is the central component of this course. The student will be assigned to two placements in grades K-12 where he/she will participate in two class periods daily Monday through Friday for 12 weeks with monthly seminars. Teaching activities as designated by the content area methods specialist will be assigned in order to apply theory learned in prior course work.

EDU 355 Methods of Teaching Mathematics (3)

Prerequisite(s): AYA 345 or MCE 300 Plus 15 Hours in MTH Concentration Area

Corequisite(s): AYA 333 or AYA 334 or MCE 333

Problem solving strategies, instructional strategies, model curricula, mathematics assessment, use of manipulatives and technology in the classroom, mathematical communication (oral and written), integration with other disciplines, lesson-planning for diverse groups of adolescents and young adults.

EDU 356 Classroom Management (3)

Prerequisite(s): Admission to School of Education

This course will provide a theoretical framework for understanding student behavior within the context of a systems model for academic and behavioral support. The focus will be on introducing theoretically-driven concepts and best practices of positive behavior support and classroom organization which facilitate student achievement. Strategies to help a beginning teacher create a safe and secure learning environment will be emphasized.

EDU 383 Methods of Teaching Science (3)

Prerequisite(s): AYA 345 or MCE 300 Plus 15 Hours in Science Content Area

Corequisite(s): AYA 333 or AYA 334 or MCE 333

An exploration of methods used in teaching biology/science, chemistry/physical sciences, and earth/space/environmental sciences. Students will plan instruction for a wide range of learner abilities, backgrounds and goals based on learners/prior knowledge and conceptualizations. Laboratory and field based experiences require use of current resources in the field. Students will use appropriate electronic technologies which have application in the learning environment. Safety issues and the ethical use of living materials are emphasized.

EDU 384 Methods of Teaching Social Studies (3)

Prerequisite(s): AYA 345 or MCE 300 Plus a minimum of 15 hours in Social Studies Concentration area

Corequisite(s): AYA 333 or 334 or MCE 333

This course is designed to prepare the teacher candidate to teach Social Studies and the Social Sciences to children in the middle and secondary grades. Students will become familiar with the curriculum framework as well as the philosophies behind various teaching approaches as outlined by the NCSS Standards and the Ohio K-12 Content Standards for the Social Studies. The teacher candidate will investigate and practice using various teaching techniques and materials.

EDU 386 Methods of Teaching Language Arts (3)

Prerequisite(s): AYA 345 or MCE 300 Plus 15 hours in Language Arts Concentration area

Corequisite(s): AYA 333 or 334 or MCE 333

This course is designed to introduce the teacher candidate to the principles, practices, and guidelines necessary to teach Language Arts to a diverse population of middle level students and secondary level students. The teacher candidate will prepare language arts lessons that ensure success for all learners enabling them to construct a meaningful understanding of language arts concepts. Lessons and language arts curricula projects will be aligned to the ODE content standards and to the learning outcomes for the Ohio Reading and Writing Proficiency Tests. Integration in other content areas will be explored and encouraged.

EDU 396 Cooperative Education Work Experience: Parallel (1-3) EXP

Prerequisite(s): CED 220

An education related work experience supervised by School of Education faculty in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation of a predetermined learning assignment and evaluation of work performance.

This course can be repeated for a maximum total of nine credits.

EDU 444A Art Education Student Teaching (12) EXP

Prerequisite(s): Admission to School and permission from the Clinical Experience Director and EDU 207
Intensive full day experience in teaching and related professional development. Student teaching allows the student to synthesize the theory and practice under the guidance of an experienced master teacher. This all day experience lasts for 15 weeks in two different placements.

EDU 444M Music Education Student Teaching (12) EXP

Prerequisite(s): Admission to School and permission from Clinical Experience Director and EDU 207
Intensive full day experience in teaching and related professional development. Student teaching allows the student to synthesize the theory and practice under the guidance of an experienced master teacher. This all day experience lasts for 15 weeks in two different placements.

EDU 495 Independent Study (1-3)

Prerequisite(s): Permission of Education Division Dean
Independent study under the guidance of a faculty member to meet stated objectives.

This course can be repeated 3 times for credit.

EDU 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): CED 220
An education related work experience supervised by Education Department faculty in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation of a predetermined learning assignment and evaluation of work performance.

This course can be repeated for a maximum total of nine credits.

EDU 499 Workshops (1-3)

The workshop's content will be announced when the course is offered.

ENG

ENG 096 Foundations of Writing (3)

Foundations of Writing prepares new students to make the transition from high school to college writing with intensive writing practice and feedback. It helps them to write more confidently and purposefully and to develop ways to clarify and edit their writing for a college-level audience.

ENG 101 Written Word (3) C

Written Word introduces new college students to academic writing with intensive writing practice and feedback. It guides them in developing strategies for communicating clearly, effectively, ethically, and creatively in a college setting. It emphasizes critical reading, writing, and thinking. It teaches students to discover and create knowledge by generating questions, investigating issues, and forming their own opinions.

ENG 101H HON:Written Word (3) C

Course description as stated in ENG 101 (Honors Course)

ENG 110 Intro to Creative Writing (3)

New Course

This course introduces students to three major genres in creative writing: fiction, nonfiction, and poetry. The readings and assignments are designed for students of any major who enjoy writing creatively and who want to practice their creative writing skills in a fun, entry-level environment. Creative Writing minors taking this course will develop fundamental genre skills that will help them excel in advanced creative writing

workshops.

ENG 132 In the Beginning: World Myths of Creation & Origins (3) CL

A survey of early old and new world creation narratives and myths contrasted with current viewpoints.

ENG 140 Survey of Women Writers (3) CL

A chronological study of women writers of the English-speaking world from the 15th century to the present day with emphasis upon their historical and literary significance.

ENG 142 King Arthur: The Medieval Quest (3) CL

This course focuses on the great adventures of medieval heroes with particular emphasis on whether they represent every individual's search for the holy grail, the meaning of life.

ENG 160 Apes, Angels & Victorians: A Survey of the Victorian Period (3) CL

The nineteenth century in Britain was one of rapid technological, intellectual, social, and cultural change. This course will examine Victorian literature – fiction, poetry, and essays, along with the visual arts – and will discuss the trends and movements over the period.

ENG 162 Murder Most Foul: Detectives in 19th Cent British Literature (3) CL

Prerequisite(s): COM/ENG 101

This course will examine the figure of the detective and the changing nature of crime and detection in nineteenth century literature, with ample historical, sociological, and psychological background.

ENG 162H HON: Murder Most Foul: Detectives 19th Cent. British Literature (0) CL

Concurrent requisite(s): ENG 162

Course description as stated in ENG 162 (Honors Course)

ENG 165 Literature, Nature & Environ (3)

New Course

In this course students will examine works of fiction, poetry, and non-fiction that demonstrate ways literary artists envision and critique the relationship of humankind with the natural world. The emphasis will be on contemporary work influenced by the rise of the environmentalist movement begun in the 1960s, but the context of this recent work will be established through an introductory study of selected essays and poems by the British Romantics and the American Transcendentalists. Topics to be discussed will include ecology, political and social responses to ecological crisis, and ecofeminism.

ENG 171 Sports in Literature (3) CL

Prerequisite(s): COM/ENG 101

A course that explores the significance of sports and athletes as depicted in novels, poems, short stories, essays, and film, as well as their relationship to culture and society.

ENG 173 20 Voices, 20 Countries: World Poetry (3) CL

Prerequisite(s): COM/ENG 101

A course that examines the work of 20 poets internationally and its impact on the world.

ENG 174 Meet Me at the Theatre: Mod & Contemp American Drama (3) CL

This course introduces students to classics of the American stage, beginning with O'Neill, Williams and Miller, and ending with contemporary theater. Students will read plays, view movie adaptations, and attend local productions.

ENG 174H HON: Meet Me at the Theatre: Mod & Contemp American Drama (3) CL

This course introduces students to classics of the American stage, beginning with O'Neill, Williams and Miller, and ending with contemporary theater. Students will read plays, view movie adaptations, and attend local productions.

ENG 175 Modern Short Fiction (3) CL

A study of short stories in world literature.

ENG 175S Serv Lrng: Modern Short Fiction (1) EXP

Concurrent requisite(s): ENG 175

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

ENG 176 Modern Novel (3) CL

Readings in modern fiction emphasizing leading writers of world literature who express the concerns of modern society.

ENG 206 State of the Unions:20th Century British and American Drama (3) CL

Prerequisite(s): ENG 101

The course will explore a variety of plays, dramatic monologues, and performance art that encompasses an international perspective. The course will examine ways in which these dramas and artistic visions have shaped or influenced their respective cultures and society.

ENG 206H HON:State of the Unions:20th Century British and American Drama (0) CL

Concurrent requisite(s): ENG 206

Course description as stated in ENG 206 (Honors Course)

ENG 207 Teenage Wasteland:The Literature of Adolescence (3) CL

Prerequisite(s): ENG 101

This course examines the adolescent character in contemporary fiction as a reflection of the critically important period of personal development it has come to be in American culture, but also as a rich metaphor in literature, that helps readers examine a state of contradictions and a search for balance.

ENG 208 The Stars Our Destination: Masterworks of Science Fiction (3) CL

Prerequisite(s): ENG 101

This course will examine some of the masterworks of the science-fiction genre, from roughly the end of the Victorian era to the present, discussing the ways in which science fiction can both have a predictive quality and show us where we are in our present historical moment.

ENG 226 Multicultural Women Writers (3)

Prerequisite(s): COM/ENG 101 or equivalent

This course examines the variety of ways multicultural women writers express their evolving identities and their culture.

ENG 245 African-American Writers (3) CL

Prerequisite(s): COM/ENG 101/or Equiv.

This course surveys significant works by African-American writers, beginning with slave narratives and ending with contemporary novels.

ENG 245H Honors: African-American Writers (3) CL

Prerequisite(s): COM/ENG 101 or equivalent, IDS 100H Honors Seminar I and approval of the Honors Program Director

This course surveys significant works by African-American writers, beginning with slave narratives and ending with contemporary novels.

ENG 251 Of Dragons, Wizards, Goblins, and Elves: Fantasy Literature from Tolkien to the Present (3) CL

Prerequisite(s): ENG 101

Fantasy is one of the oldest literary genres and it remains one of the most popular, boasting high sales, academic attention, and a wide fanbase. The goal of this course is to introduce you to fantasy literature from the second half of the twentieth century, beginning with the work of one of the foundational figures in the genre, J. R. R. Tolkien. We will focus on multiple elements of fantasy literature: worldbuilding, the development of languages and cultures and customs, the use of non-human characters and the roots of these characters in mythology and past literary works, the intersections between the secondary, created world and our primary world, and speculation as to the reasons for the genre's popularity.

ENG 251H HON: Of Dragons, Wizards, Goblins, and Elves: Fantasy Literature from Tolkien to the Present (0)

Concurrent requisite(s): ENG 251

Course description as stated in ENG 251 (Honors Course)

ENG 260 19th Century American Thought in Prose (3) CL/CH

Prerequisite(s): COM/ENG 101

This course examines significant historical documents and literature of the late 18th century and the first half of the 19th century in America, with special emphasis on how issues and ideas they present are interpreted through genres such as speeches, letters, political documents, essays, poetry, and fiction.

ENG 260H HON:19th-Century American Thought in Prose (0) CL/CH

Course description as stated in ENG 260 (Honors Course)

ENG 262 I Was Crazy Once: Impaired Mind in Lit (3) CL

Prerequisite(s): COM/ENG 101

In this course we will examine 19th century literary depictions of madness and impairment and discuss how they illuminate 19th-century advances in science and medicine as well as 19th century assumptions about class. We will look at fiction, poetry and nonfiction.

ENG 262H HON:I Was Crazy Once: Impaired Mind in Lit (0) CL

Concurrent requisite(s): ENG 262

Course description as stated in ENG 262 (Honors Course)

ENG 273 The Classical World (3) LAS

Prerequisite(s): COM/ENG 101

Crosslisted HIS 273. This course introduces the student to the Greco-Roman views of the world through a study of the history, philosophy, art, and literature of classical antiquity.

ENG 275 A History of Violence: Survey of 20th-Cent British Literature (3) CL

Prerequisite(s): ENG 101

This course will examine broad movements in twentieth century British literature—fiction, poetry, essays, and drama—that reflect the violent political and social upheavals of that era. We will discuss the historical, social, and cultural backdrop to these works.

ENG 276 The 20th-Century Graphic Novel (3) CL

Since the term "Graphic Novel" was first introduced as a label to describe a "new" genre of fiction, what that term really means and whether or not "books" that are written in such a format are really works of literature has been hotly contested. In this course we will look at graphic novels and a few film adaptations to reach the truth about the form and to understand the freedoms and advantages of the artistic medium as well as its significance to the canon of contemporary fiction.

ENG 276H HON:The 20th-Century Graphic Novel (0) CL

Concurrent requisite(s): ENG 276

Course description as stated in ENG 276 (Honors Course)

ENG 276S Serv Lrng:The 20th-Century Graphic Novel (1) EXP

Concurrent requisite(s): ENG 276

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

ENG 277 Dollars & Sense: Materialism in 20th-Century American Fiction (3) CL

This course will examine how the literature of the twentieth century examines materialism from the notion of the American dream to the realities of corporate greed.

ENG 277H HON:Dollars & Sense: Materialism in 20th Century American Fiction (0)

Concurrent requisite(s): ENG 277

Course description as stated in ENG 277 (Honors Course)

ENG 278 The End of the World as We Know It: Fiction After 9/11 (3) CL

This course will look at literature that examines the relationship that the United States has with the rest of the world, look at literature that recognizes life's dangers, and examine what such literature reflects about the times in which we currently live.

ENG 279 Killing the Angel in the House: 20th-Cent Brit Women Novelists (3) CL

Prerequisite(s): ENG 101

This course will examine British women writers from the twentieth century, and discuss the ways in which they broke literary molds and led often daring, even scandalous, personal lives—"killing the angel in the house" or getting beyond the need to please a male audience.

ENG 280 In Their Own Voices: American Autobiography, Letters, & Memoirs (3) CL

Prerequisite(s): COM/ENG 101

This course examines first-person writing of Americans from the 18th-century to the present. Students will explore issues in American life and thought through autobiographies, letters and memoirs.

ENG 280H HON:In Their Own Voices:American Autobiography,Letters, & Memoirs (3) CL

Prerequisite(s): COM/ENG 101

This course examines first-person writing of Americans from the 18th-century to the present. Students will explore issues in American life and thought through autobiographies, letters and memoirs.

ENG 285 Speak Its Name: LGBTQ+ Literature (3) CL

Prerequisite(s): ENG 101

The course will explore a variety of novels, plays, and memoirs that illuminate the experiences of the LGBTQ+ community, situating the works in their historical context, with the goal of illustrating the development of queer voices over the twentieth and twenty-first centuries and the broadening of terminologies and identities.

ENG 290 The Story of Your Life: Writing Diaries, Memoirs & Autobiographies (3) LAS

Prerequisite(s): COM/ENG 101, 100-level literature course

This course will examine multiple techniques for writing about your own life. Students will produce substantial diary writing, and will shape a final manuscript of either a diary, memoir, or autobiography.

ENG 300 Advanced Composition (3) LAS

Prerequisite(s): COM/ENG 101 or equivalent

Crosslisted COM 300. A course in writing nonfiction. While most of the work is practical, some theoretical considerations are made regarding style and methods of adapting discourse to meet the needs of a variety of audiences. Writing assignments involve descriptive, expository and persuasive writing.

ENG 301 The Past in Stages: A History of Theatre in Society (3) CL

Prerequisite(s): ENG 101 or equivalent plus any one Drama Elective except ENG 350W, ENG 374, or ENG 374

From its origins in ancient tribal cultures, theatre has thrilled, chilled, angered, tickled, taught, moved, mocked, entertained, and otherwise performed the shared experience of being human. This upper-level course is a study of the history of the theatre as a social institution, tracing the ways that audiences, actors, and other producers have shaped the theatrical event to meet changing times and needs. Theatre history from the Greeks to the present is considered, with an emphasis on the eighteenth, nineteenth, and twentieth centuries.

ENG 314 Independent Study (3)

New Course

Independent Study

ENG 316 The School for Scandal: Restoration Comedy (3) CL

Prerequisite(s): ENG 101

This course will examine the comedies written and performed largely during the period in England known as the Restoration, when Charles II, who had fled England after the execution of his father Charles I during the English Civil War (after which England was headed by Oliver Cromwell), was restored to the throne. Drama thrived during this period, and the new king preferred his plays bawdy, raunchy, and explicit. We will examine many key Restoration plays (including two plays by Richard Brinsley Sheridan nearly 100 years later which borrow heavily from Restoration tropes) and discuss what these plays have to teach us about the values and mores of the time, and what they might have to say to us today, particularly on the topics of relations between men and women and the individual's relationship to power and authority.

ENG 350 Topics in Literature (1-3)

Special seminars, guided readings, minicourses of five or 10-week duration.

This course can be repeated 3 times for credit.

ENG 353 Topics: Literary Monsters Past & Present (3) CL

Prerequisite(s): ENG/COM 101

This course will examine literary texts and films dealing with monsters both literal and figurative, and discuss the ways in which monsters in literature tell us both what we ourselves are, and what we are not.

ENG 354 Literary London (3) EXP

Prerequisite(s): ENG 101

This course will survey British literature and will culminate in a trip to London. The focus of the course will be around the national character of British thought and the unique contributions that England has made to Western thought in the nineteenth and twentieth centuries.

ENG 354S Serv Lrng: Literary London (1) EXP

Concurrent requisite(s): ENG 354

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

ENG 359 American Film Authors (3) LAS

Prerequisite(s): COM 100, COM/ENG 101/or Equiv

Crosslisted COM 359. An in-depth study of major American film directors. The styles and major traits of these directors will be stressed through close examination of representative films. The course also addresses

filmmaking as a collaborative art, examining the role of stars, writers, producers, and studios. Films and filmmakers will be placed within historical, sociological, and cultural contexts.

ENG 360 The Play's the Thing: Shakespeare's Major Works (3) CL

Prerequisite(s): COM/ENG 101

This course will examine selected comedies, tragedies and histories from Shakespeare's body of work, and will include significant discussion of Shakespeare's life and times, situating him and his work in historical context.

ENG 370 Creative Writing: Poetry (3) LAS

Prerequisite(s): COM/ENG 101 or equivalent

This course examines methods, models and practice in poetry writing.

ENG 371 Seminar in Creative Writing: Poetry (3) LAS

Prerequisite(s): ENG 370 or equivalent

This course provides advanced study of methods, models and practice in poetry writing.

ENG 372 Creative Writing: Fiction (3) LAS

Prerequisite(s): ENG 101 or equivalent

This course examines methods, models and practice in fiction writing.

ENG 373 Sem Creative Writing:Fiction (3) LAS

Prerequisite(s): ENG 372 or equivalent

This course provides an advanced study of methods, models and practice in fiction writing.

ENG 374 Screenwriting Workshop (3) LAS

Prerequisite(s): COM/ENG 101

A course focusing on the craft of writing a full-length feature script (screenplay) and on the basic fundamentals of casting, filming, and editing scenes using digital editing equipment.

ENG 376 Novels Without Borders (3) CL

Prerequisite(s): COM/ENG 101

In this class we will read fiction from former colonies such as the Caribbean, India, Africa, or elsewhere and examine where cultures clash, refuse each other, contaminate each other, uplift each other and control one another.

ENG 388 Feature Writing (3) LAS

Prerequisite(s): ENG 101

This course stresses the craft of newspaper and magazine feature writing, with attention to leads, structure and polished prose, and ethics.

ENG 388S Serv Lrng: Feature Writing (1) EXP

Concurrent requisite(s): ENG 388

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

ENG 397 Theater Production (1-3)

Students may earn up to 3 credits toward their English major with a concentration in drama over the course of their studies at the College by participating in student drama productions housed in the Department of English and Modern Languages. Variable credit: 1-3 credits. Learning contract required.

ENG 461 Writing for Publication (3) LAS*Prerequisite(s)*: COM 101; COM 388 recommended

This course gives student advanced practice in feature writing, with emphasis on skills for placing their work in publications.

ENG 496 Co-Op:Alternating(FT) (1-3) EXP*Prerequisite(s)*: CED 220

A work-related experience supervised by a faculty coordinator in collaboration with the cooperative education staff. Credit is awarded on successful completion of the work experience, documentation of predetermined Learning Agreement and evaluation of work performance. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

ESC

ESC 201 Functional Kinesiology and Clinical Assessment (2)*New Course**Prerequisite(s)*: BIO 131 or BIO 197 with a grade of 'C' or better*Corequisite(s)*: ESC 201 and ESC 201A

This course provides students skills to identify and assess functional aspects of anatomical human movement. Students will develop advanced knowledge of musculoskeletal kinematics and practice skills to perform clinical assessments of strength, range of motion including goniometry, and function.

ESC 201A Functional Kinesiology and Clinical Assessment (LAB) (0)*New Course**Prerequisite(s)*: BIO 131 or BIO 197 with a grade of 'C' or better*Corequisite(s)*: ESC 201

Course description as stated in ESC 201

ESC 202 Lifespan Motor Development and Control (3)*Prerequisite(s)*: HES 150 & BIO 131 or BIO 197

Students will explore motor development and control theories and principles as they relate to human movement. Anatomical, physiological, and psychological factors that facilitate motor skill acquisition will be addressed. Emphasis will be placed on the neural and mechanical mechanisms and processes that facilitate or underlie motor behavior changes across the lifespan.

ESC 303 Exercise Physiology (4)*Prerequisite(s)*: BIO 131 or BIO 198*Concurrent requisite(s)*: ESC 303A

This course examines human anatomy and physiology and its response to training. Study of the musculoskeletal, cardiovascular, and pulmonary systems as well as bioenergetics, body composition, aging and health-related benefits will be integrated through a class and laboratory format.

ESC 303A Exercise Physiology (LAB) (0)*Concurrent requisite(s)*: ESC 303

Course description as stated in ESC 303

ESC 311 Biomechanical Analysis of Human Movement (3)*Prerequisite(s)*: BIO 131 or BIO 197 or BIO 201

Fundamentals of human motion as they relate to physical activities and skill performance. A study of the relationship of anatomical, physiological and mechanical principles to the muscular movement of the human form.

ESC 323 Principles of Health Assessment and Exercise Prescription (4)

Prerequisite(s): ESC 303/303A

Concurrent requisite(s): ESC 323A

The course provides students with theoretical principles and practical experiences in exercise prescription and assessment in low-risk health populations. Health-related fitness, and exercise as medicine, rather than athletic-performance based fitness is emphasized. The course content is based upon guidelines published by the National Strength and Conditioning Association (NSCA), and American College of Sports Medicine (ACSM), and provides a foundation for future NSCA and/or ACSM certification as a Certified Personal Trainer, and ACSM credentialing in Exercise is Medicine.

ESC 323A Principles of Health Assessment and Exercise Prescription (LAB) (0)

Concurrent requisite(s): ESC 323

Course description as stated in ESC 323

ESC 336 Sports Nutrition (3)

Prerequisite(s): HES 226 and BIO 131 or BIO 198

This course will discuss exercise bioenergetics to understand how energy is produced and utilized for optimal performance. Principles of nutrition will also be explored related to improving exercise performance, timing of nutrient intake, managing weight, and eating disorders. Topics will address the impact of sport-specific nutrient needs, dietary ergogenic aids, nutritional supplements, deficiencies on an athlete's health status.

ESC 422 Athletic Conditioning and Performance (4)

Prerequisite(s): ESC 311, ESC 303/ESC 303A

Concurrent requisite(s): ESC 422A

This course addresses the knowledge and skills necessary to effectively assess, plan, and implement conditioning and performance enhancing strategies for athletes and physically active individuals. The course will prepare students for the National Strength and Condition Association (NSCA) Certified Strength and Conditioning Specialist (CSCS) examination and other fitness credentials. Extensive study of proper execution of flexibility, strengthening, plyometric, and functional activities will be emphasized. Students taking this course may not also earn credit for ATR 320.

ESC 422A Athletic Conditioning and Performance(LAB) (0)

Concurrent requisite(s): ESC 422

Course description as stated in ESC 422

ESC 422H Honors: Athletic Conditioning and Performance (0)

Course description as stated in ESC 422 (Honors Course)

ESC 475 Exercise Programming for Special Populations (3)

Prerequisite(s): ESC 323/323A

This course will emphasize information regarding exercise for special populations related to cardiac conditioning, physical disabilities, diabetes, sensory impairment, pediatrics, seniors, mentally impaired, pregnancy, and infectious diseases throughout the lifespan. Interactions between medication and response to exercise as well as modifications to exercise prescription will also be covered. The course content is based upon guidelines published by the American College of Sports Medicine (ACSM).

ETH:PHI

ETH:PHI 203 Environmental Ethics (3) CE

This course is an introduction to the ethical features of the human relationship with the natural environment. In addition to the deontological, utilitarian, and virtue ethical perspectives on this environmental relation, this course will consider various approaches to environmental value, e.g., anthropocentrism, biocentrism,

and ecocentrism, in an effort to identify and clarify potential obligations that moral agents have toward the natural environment. These theoretical considerations will be raised through an exposure to contemporary environmental problems, e.g., climate change, animal treatment, pollution, food production, and waste management.

ETH:PHI 204 Contemporary Moral Debate (3) CE

This course takes an interdisciplinary, case-study approach to practical contemporary ethical issues in education, engineering, law, medicine, personal relationships, politics, etc. It focuses on the process of articulating one's own moral judgments on a variety of case studies and cultivating the necessary skills to defend those judgments.

This course can be repeated 4 times for credit.

ETH:PHI 240 Ethics (3) CE

This course is a study of the major ethical theories of the Western tradition. The action-based approach and the virtue-based approach will be covered.

ETH:PHI 250 Health Care Ethics (3) CE

This course is a study of major ethical principles and their application to health care issues. Emphasis is on the method of decision-making and health care policy. Fulfills Ethics requirement.

ETH:PHI 250H Hon:Health Care Ethics (0)

Concurrent requisite(s): ETH:PHI 250

Course description as stated in ETH:PHI 250 (Honors Course)

ETH:PHI 250S Serv Lrng:Health Care Ethics (1) EXP

Concurrent requisite(s): ETH:PHI 250

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

ETH:PHI 397 Ethical Conduct of Business (3) CE

This course examines the moral dilemmas raised by the conduct of business. Topics to be discussed include product safety, truth in advertising, fair pricing, pollution, sexual harassment, and affirmative action.

ETH:PHI 397H Honors: Ethical Conduct of Business (0) CE

Course description as stated in ETH:PHI 397 (Honors Course)

ETH:REL

ETH:REL 250 Christian Ethics (3) CE

This course introduces students to the study of Christian ethics from the Catholic theological perspective. We begin by exploring the foundations of Christian ethics: the nature of the good, the relationship between faith and reason, and the importance of both free will and rightly formed conscience. We then focus on specific topics, chosen by students, in the areas of social, medical, and sexual ethics. For each of the chosen topics, we discuss the underlying moral principles and seek to articulate an appropriate Christian response to them.

ETH:REL 251 Business Ethics (3) CE

This course is designed to offer students an introduction to the study of business ethics from both a philosophical and theological perspective. We begin by examining 1) foundational philosophical theories and 2) the principles of Catholic Social Teaching and demonstrate how each is related to ethical business activity. We then focus on specific challenges concerning— but not limited to—corporate governance, socially responsible investing, product safety, truth in advertising, and doing business in an international context. For each of these challenges, we discuss the underlying moral principles and seek to articulate appropriate philosophical and theological responses to them.

ETH:REL 252 Theological Health Care Ethics (3) CE

This course offers students an introduction to the study of health care ethics from the Catholic theological perspective. We begin by exploring foundational topics such as the relationship between faith and reason and the moral principles that govern the patient-professional relationship. We then focus on ethical challenges concerning particular health care topics. These topics include—but are not limited to—determining when human life begins (and its associated implications for medicine), treatment for critically ill newborns, genetic screening/testing, and the duties of health care professionals with regard to end of life care. The course seeks to help students, and in turn the patients for whom they will care, formulate appropriate responses to the many ethical challenges they will face in the health care field.

ETH:REL 252H Honors;Theological Health Care Ethics (0) CE

Corequisite(s): ETH:REL 252

Course description as stated in ETH:REL 252 (Honors Course)

ETH:REL 252S Serv Lrng:Theol Healthcare (1)

Concurrent requisite(s): ETH:REL 252

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

ETH:REL 256 Sexual and Reproductive Ethics (3) CE

Prerequisite(s): Sophomore Standing or Above

Human sexuality and reproduction are two controversial and often misunderstood topics. This course offers students an opportunity to reflect upon issues concerning sexuality and reproduction in light of the Catholic moral tradition, and it encourages students to critically evaluate the teachings of the Catholic tradition from their own philosophical and theological perspectives.

ETH:REL 269 Environmental Ethics:A Call to Conscience in a Time of Climate Change (3) CE

In a time when the adverse effects of anthropogenic climate change are beginning to be felt, this course will examine how to respond to a call to conscience from a Catholic theological perspective. We will explore the principles of faith and reason and the resources of the Catholic tradition regarding stewardship, the common good, and the option for the poor and vulnerable as they relate to climate change. In analyzing contemporary environmental problems, we will engage in dialogue in order to seek personal and social courses of action to care for creation.

ETH:REL 269S Serv Lrng:Environmental Ethics:A Call to Conscience in a Time of Climate Change (1) EXP

Concurrent requisite(s): ETH:REL 269

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such

as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

FIN

FIN 101 Personal Financial Planning (3)

The Personal Financial Planning course will introduce students to fundamental principles of sound financial management. Students will acquire knowledge, skills and abilities in financial planning that will enable them to manage their own finances as well as to analyze the financial situations of others. Topics will include personal financial statements, taxes, investment in stocks, bonds and real estate, debt management, educational planning, risk management with insurance, and retirement planning.

FIN 300 Corporate Finance (3)

Prerequisite(s): ACC 213

Fundamental concepts of managerial finance. Topics include financial analysis and control, capital market theories, long-term financial decision analysis.

FIN 360 Money and Banking (3)

Prerequisite(s): ECO 211, 212

Crosslisted ECO 360. Money, financial markets, and financial institutions are described and analyzed with economic tools such as supply and demand. The role of a central bank will be discussed along with the international financial system. Different monetary and fiscal policies will also be analyzed.

FIN 396 Cooperative Education Work Experience: Parallel (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

FIN 410 Fundamentals of Investing (3)

Prerequisite(s): FIN 300

Examines investment theory, capital market theory, the securities market, the investment environment, and valuation and analysis of stocks and bonds. The course focuses on funds, portfolio analysis, evaluation, and management.

FIN 453 Current Topics in Finance (3)

Prerequisite(s): FIN 300

Covers selected topics in finance. May be repeated more than once based on the specific contents of the course with advisor's permission.

FIN 490 Seminar in Finance (1-3)

Prerequisite(s): FIN 300

Examines selected finance topics in-depth through readings and group discussion. May be repeated more than once based on the specific contents of the course with advisor's permission.

FIN 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience

and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

FIN 499 Corporate Finance (1-3)

Independent Study Course

FYE

FYE 101 Mount 101 (1)

The transition to college is a transformative time for students and a period of great change and growth. MSJ's first-year programming is designed to equip students with the essential skills and knowledge needed to be successful during their college years and beyond. Through class workshops, hands-on activities, class discussions, and guidance from various campus professionals, students will work to develop stronger success habits in the areas of campus involvement, executive functioning skills, effective study strategies, financial literacy, health and wellness, and more.

FYE 102 First Year Experience 102 (1)

New Course

Prerequisite(s): FYE 101

This course is designed to continue to work of FYE 101 as well as cultivate essential leadership skills and styles, foster team-building capabilities, and enhance effective communication techniques in a collaborative setting. Additionally, the course will focus on the creation and implementation of a peer mentoring program aimed at supporting first-year college students.

GEG

GEG 202 World Regional Geography (3)

World geography is a study of major regions of the world, focusing on spatial patterns and processes. Some of the variables which produce patterns of world diversity are gender, race, politics, economics, climates, and demographics.

GEO

GEO 115 Earth Science (L/L) (4) CN

Components of physical and historical geology are considered, including the earth, its materials, processes and history. Students will be introduced to responsible use of earth resources, the basics of map interpretation, rock, mineral and fossil identification, and recognition and interpretation of landforms.

GEO 140 Environmental Science (4) CN

Crosslisted BIO 140. An introduction to the basic principles and issues in Environmental Science. Topics include: physical and biological environments, and their intra-dependencies and inter-dependencies, resources and resource management, pollution, world-view, social justice, population and development — global and local perspectives included. Scientific concepts necessary to understand these issues and to make informed decisions on environmental matters will be included. Fieldtrips required, during class/lab time.

GEO 140A Environmental Science(LAB) (0) N

Laboratory applications of the concepts introduced in GEO 140.

GRD

GRD 110 Digital Literacy (3)

Digital Literacy is designed to give you the foundation skills needed to use digital illustration tools and fundamental knowledge of open-source website navigation for portfolio development.

GRD 206 Digital Design (3)

Prerequisite(s): ART/GRD/IAD 103

This course focuses on the computer tools used in graphic design. The student will be introduced to layout, illustration, and image manipulation software, their individual strengths, and how they can be used together. There will be a review of the computing options at the Mount (software & hardware), as well as the output options on and off campus. The applications that will be covered are InDesign, Illustrator, and Photoshop. Throughout the semester, production procedures geared toward final output will be covered as well as the concerns and responsibilities of using the computer as a design tool. During the semester the student will do exercises covering the techniques discussed in class. After learning each program the student will do a project which will evaluate their proficiency in using it as both a production and a design tool. The final project will require the use of all three programs together.

GRD 207 Production Design (2)

The focus of this course is advanced InDesign user techniques including multi-page layout design and methodology, ebook development, print, web, PDF's and production. Students will move through the whole process from design to final production. This course is designed for students to problem solve, generate concept sketches, create multiple layouts, illustrate and design. Final production and tight deadlines will start to prepare students for a job in the design industry.

GRD 250 Typography I (3)

Prerequisite(s): GRD 110

This course will introduce students to traditional letterform design and typographic composition. Classical type styles will be identified and drawn by hand. An overview of the history typography and letterform design will be investigated.

GRD 253 Digital Illustration (3)

Prerequisite(s): ART 103/Equiv

This course is an introduction to the theory and practice of digital illustration. It includes exploration of creating imagery using Adobe Illustrator, starting with exercises to learn the software and advancing to varied illustration and graphic design projects.

GRD 255 Graphic Form (3)

Graphic Form covers symbolic communication through the generation of both pictorial and abstract visual symbols. Concepts covered in this course include graphic translation, media exploration, communication of content through abstract form, and designing symbol systems. Emphasis is placed on conceptual thinking and visual problem-solving skills. The primary objectives are for the student to develop a variety of solutions to visual communication problems, learn new design methodologies, understand the importance of each step of the design process, employ the design process and develop skills in critical assessment of their own work as well as others.

GRD 270 Web & Experience Design UIUX (3)

Prerequisite(s): GRD 110

Students will gain a fundamental understanding of human-computer interaction and user-centered design

thinking. Students will learn how to design and develop complex interactive projects by undertaking a comprehensive research process from brainstorming to the final solution. Throughout the course, emphasis will be placed on professional presentation practice using both oral and written competencies.

GRD 350 Hand to Pixel (3)

Prerequisite(s): GRD 110

This workshop explores traditional hand materials with bitmap and vector techniques through a variety of processes. We will look at how these materials can both shape and influence visual communication. Creative exploration is promoted and students must be willing to work beyond the constraints of the computer. Students will complete a series of assignments that investigate different approaches to synthesizing hand and pixel into design pieces of art. This class will cover the creation of elaborate imagery with digital tools (including Illustrator, InDesign, Photoshop), and with a variety of hand methods to explore the dynamic interaction between different medias to produce a new expression for communication.

GRD 353 Typography II (3)

Prerequisite(s): GRD 250/Equiv

This course advances students' understanding and application of the core concepts of typographic organization, including typographic hierarchy, grid systems, designing a series, pacing, flow, and sequential viewing. Emphasis is placed on exploring type and image interaction to give form and meaning to a variety of messages and ideas.

GRD 355 Infographics and Experiential Design (3)

Prerequisite(s): GRD 250

Information graphics are an integral component in the design field. Through research and discoveries, students explore the links between data visualization and experiential design and how they influence one another. The course examines the methodologies for presenting complex sets of information and constructing meaningful visual language. Teamwork is a vital element of this course. The emphasis is on integrative communication activity, including time, space, movement, color, graphics, 3-D forms, objects, instructions, text, and constructions.

GRD 356 Brand Identity Design (3)

Prerequisite(s): GRD 355

Brand Identity Design encompasses the symbolic and typographic development of an identity using informed design choices around what a brand should stand for in the hearts and minds of the intended audience. Included in project work for this course is symbol design, logotype design, and evolving the brand identity to print and/or online touchpoints.

GRD 356S Service Learning: Brand Identity Design (1)

Prerequisite(s): GRD 356

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

GRD 370 Advanced Web & Interactive Design (3)

Prerequisite(s): GRD 352/Equiv

Advanced Web and Interactive Design will focus on high-end web design and its interactive capabilities. This course is structure for upper level students (junior or above). A basic knowledge of HTML or Adobe Dreamweaver is necessary for this course to be successful for the student. The software program Adobe Flash will be investigated. The student will design and publish to the World Wide Web a sophisticated multi-level Web Site implementing the latest techniques in Motion Graphics.

GRD 375 Design Studio (3)*New Course*

The Advanced Design Studio course teaches students how to analyze and diagnose communication issues to conceive and create compelling and socially responsible solutions. The purpose of this course is the conceptualization, execution, realization, and documentation of a substantial design project. Students demonstrate their abilities in critical thinking, effective communication, knowledge integration, social responsibility, and information literacy. Working individually or in teams, students conduct a design process that includes research, analysis, concept generation, user testing, and prototype development.

GRD 396 Co-Op:Parallel (PT) (1-3) EXP*Prerequisite(s):* CED 220

An art-related work experience supervised by an art faculty coordinator in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation and evaluation. Evaluation of work performed is on a pass/fail basis. The course may be repeated up to nine credit hours.

This course can be repeated for a maximum total of nineteen credits.

GRD 400 Senior Design Seminar (1)*Prerequisite(s):* Senior Status in Graphic Design Program

This capstone seminar is designed to integrate the courses of the Graphic Design major with the core curriculum. Course content will be based upon the following spring's senior degree topic, including studying this theme from the multiple perspectives of the six baccalaureate learning outcomes that have been an integral part of students' college learning experience. Planned activities include reading, research, writing discourse, and presentation. Course learning will serve as the basis for each student's spring senior degree campaign and exhibit. Documented material from this course will also be used to assess program effectiveness.

GRD 455 Professional Portfolio (3)*Prerequisite(s):* GRD 356

The development of an identity, design system and collateral pieces for a client; includes emphasis on type & image theory, process work, file preparation and presentation techniques.

GRD 456 Senior Degree Project (3)*Prerequisite(s):* GRD 455

In-depth supervised research and design of a campaign developed by the students from their portfolio of college studies; culminates in these exhibit; includes LAS caption reflection paper.

GRD 470 Web & Interactive Design Seminar (3)*Prerequisite(s):* GRD 370 or instructor approval

Students will prepare final program summation. The students will present written and visual documentation of a significant interactive project. Projects and discussions, outside consultants to visit and give advice to the students.

GRD 496 Co-Op:Alternating (FT) (1-3) EXP*Prerequisite(s):* CED 220

An art-related work experience supervised by an art faculty coordinator in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation and evaluation. Evaluation of work performed is on a pass/fail basis. The course may be repeated up to nine credit hours.

This course can be repeated for a maximum total of nineteen credits.

GST

GST 261 Social and Psychological Aspects of Aging (3)

Prerequisite(s): SOC 103

Crosslisted SOC 261. An explanation of the basic sociological and psychological concepts and principles of aging individuals. Topics such as the social theories of aging, socialization, life course, social inequality, primary relationships, economy, the community, politics, and government will be covered.

GST 333 Elder Abuse (3) IDS

Prerequisite(s): PSY 103 or PSY 103H or SOC 103

Crosslisted SWK 333. This course will explore the topic of elder abuse from multiple perspectives including the spiritual, psychological, legal, ethical, and health impact of abuse. The global, cultural, social, economic and political factors contributing to elder abuse, victim assistance and methods to prevent abuse will be discussed.

HES

HES 121 First-Aid & Basic Life Support for Healthcare Providers (1)

The student will learn advanced first aid techniques applicable for the athletic trainer, coach, teacher or other person who is primarily responsible for the health care of others. Upon successful course completion the student will receive certification from the American Red Cross in CPR for Healthcare Providers.

HES 140 Foundations of Health and Science I (2)

This course introduces students to the Department of Exercise Science and Integrative Health and University resources. Students will explore various professions available in the field of health and exercise science, develop career goals, and create an academic plan which will guide them towards employment and/or admission to graduate school. Students will engage in discussions of academic expectations, identify strategies to effectively communicate with professors and peers, seek outside resources for assistance, utilize library resources, and develop health and wellness practices to prepare for and achieve academic success.

HES 140S Serv Lrng: Foundations of Health and Science I (1) EXP

Concurrent requisite(s): HES 140

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

HES 150 Foundations of Health and Exercise Science II (3)

The focus of this course is to introduce students to foundational knowledge of improving health through the promotion of physical activity. Students will explore the health effects of exercise and physical activity, personal and community factors influencing health, and strategies to measure physical activity. This course will emphasize physical activity and its impact on health across the lifespan.

HES 150S Serv Lrng: Foundations of Health and Exercise Science (1) EXP

Concurrent requisite(s): HES 150

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service

Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

HES 224 Principles of Human Performance (3)

Prerequisite(s): PSY 103 or PSY 103H

Students will explore human performance from a psychological perspective. They will identify how psychosocial factors influence physical activity, exercise, and human performance by applying various psychological theories and principles. Additionally, students will learn how participation in sport, physical activity, and exercise affects health, cognitive functioning, and psychological well-being across the lifespan.

HES 226 Human Nutrition (3)

Prerequisite(s): ENG 101

This course focuses on the relationship of human nutrition and maintenance of a healthy lifestyle. Students will examine the importance of health disparities in diet quality and health outcomes. The roles of macro- and micro-nutrients for facilitating and improving physical function will be addressed.

HES 327 Physiological Adaptations and Management of Stress (3)

Prerequisite(s): BIO 131 or BIO 198

Students will explore the body's physiological and psychological response to acute stressors as well as the body's adaptations to chronic stress. More specifically, the etiology of stress will be examined through its relationship to social, environmental, and health factors. The course will also include techniques and approaches to implementing a stress management program.

HES 332 Epidemiology of Physical Activity and Health (3)

Prerequisite(s): ENG 101 and MTH 174

This course provides an epidemiological foundation to physical activity research and its impact on health and well-being for individuals and communities, with special attention given to traditionally under-represented populations. Participants will examine the literature relative to the impact of regular physical activity and sedentary lifestyle on chronic diseases and quality of life. Individual and community-based barriers and culturally competent health-based strategies to promote physical activity will be discussed.

HES 332H Honors: Epidemiology of Physical Activity and Health (0)

Course description as stated in HES 332 (Honors Course)

HES 332S Serv Lrng: Epidemiology of Physi Activity and Health (1) EXP

Corequisite(s): HES 332

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

HES 394 Cooperative Education (0) EXP

Prerequisite(s): CED 220, Junior Status or Above, and Departmental Permission

For students placed in part-time work assignment through the Cooperative Education program. Successful completion of the work experience, validation of a learning agreement and evaluation of work performance is required. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

HES 396 Co-Op:Parallel (1-3) EXP

Prerequisite(s): CED 220, Junior Status or Above, and Departmental Permission

A work experience supervised by a faculty member in the School of Health Sciences, in collaboration with the cooperative extension staff. Credit is awarded as a general elective upon completion of the work experience and documentation of compliance with a pre-determined learning contract.

This course can be repeated for a maximum total of nine credits.

HES 404 Health, Physical Activity and Aging (3)

Prerequisite(s): HES 332

This course will explore aging through the examination of physiological, psychological, and socio-economical factors. Further, the course will discuss the benefits and promotion of physical activity and exercise as it relates to healthful aging. Methods used to assess health, physical fitness, and barriers to exercise will also be discussed.

HES 430 Research Design (3)

Prerequisite(s): HES 332 or ESC 303/303A, MTH 174, Junior Status or Permission of the Instructor

This course focuses on the interaction of the components of the research process with application to the theory and practice of healthcare. This course emphasizes the critical appraisal and utilization of health-related research including selected theories and ethical considerations. Critical and reflective thinking, as a health care clinician who provides evidence based practice, will be emphasized.

HES 430H HON: Research Design (0)

Concurrent requisite(s): HES 430

Course description as stated in HES 430 (Honors Course)

HES 452 Senior Seminar (1)

Prerequisite(s): CED 220, Senior Status or Permission of the Instructor

Corequisite(s): HES 394 or HES 396

This course is taken concurrently with a cooperative education course (HES 394 or HES 396). This course serves as the culminating experience in the Health and Exercise Science major. It will focus on current professional issues.

HES 496 Co-Op:Parallel (1-3) EXP

Prerequisite(s): CED 220, Junior Status or Above, and Departmental Permission

A work experience supervised by a faculty member in the School of Health Sciences, in collaboration with the cooperative extension staff. Credit is awarded as a general elective upon completion of the work experience and documentation of compliance with a pre-determined learning contract.

This course can be repeated for a maximum total of nine credits.

HIS

HIS 102 World Civilization 1200-1500 (3)

New Course

The course will cover the history of the world from roughly 1200 CE to roughly 1500 CE. This course is for dual enrolled high school students only in AP World History Modern.

HIS 105 World Civilization to 1500 (3) CH

A study of the development of the early cultures and civilizations of the world from their beginnings to approximately 1500 CE.

HIS 106 World Civilization Since 1500 (3) CH

A study of the development of the cultures and civilizations of the world from approximately 1500 CE to

the present

HIS 107 European Civilization to 1500 (3) CH

In order to better understand current issues facing the industrialized world, one must understand the ideas, values, events and persons critical to the development of European civilization. As we examine European history from the late Roman Empire to the early Renaissance, we will begin to understand the major concepts of humanity and society as defined in Europe and how these both unified and divided its inhabitants.

HIS 108 European Civilization Since 1500 (3) CH

A survey of European culture from the Renaissance to the present.

HIS 109 U.S. History to 1877 (3) CH

This course surveys the political, economic, and cultural forces that transformed North American British colonies into the United States of America through the first century of the nation's existence. Topics include colonial development, the Revolutionary War, issues of race, class, and gender facing the early Republic, sectional tensions culminating in the Civil War, and attempts at Reconstruction following war's end. An emphasis is placed on interpreting historical sources.

HIS 109H HON:U.S. Hist to 1877 (0)

Concurrent requisite(s): HIS 109

Course description as stated in HIS 109 (Honors Course)

HIS 109S Serv Lrng:U.S. Hist to 1877 (1) EXP

Concurrent requisite(s): HIS 109

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

HIS 110 U.S. History Since 1877 (3) CH

This course examines the political, economic, and social forces that have directed American development from Reconstruction to the present. An emphasis is placed upon interpreting historical sources.

HIS 110S Serv Lrng:U.S. Hist Since 1877 (1) EXP

Concurrent requisite(s): HIS 110

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

HIS 200 Local History (3) CH

This course explores the development of the Greater Cincinnati area, primarily from the late eighteenth century to the present, using the Cincinnati region as a model for discussing American urban growth in general. It considers the people, places, events, and issues that formed this small but hugely significant part of the country and discusses how they helped to shape and were shaped by the larger history of the United States of America.

HIS 200S Serv Lrng:Local History (1) EXP

Concurrent requisite(s): HIS 200

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

HIS 211 U.S. History Since 1945 (3) CH

This course is an examination of American society during the seven decades following World War II. Among the topics considered are the Cold War, the Civil Rights movement, the Vietnam War, the counterculture, feminism, and modern conservatism.

HIS 211S Serv Lrng:U.S.His Since 1945 (1) EXP

Concurrent requisite(s): HIS 211

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

HIS 212 "The Future Depends on What We Do in the Present": World History since 1945 (3) CH

This course examines global culture, technology, geopolitics, and economics since 1945.

HIS 215 The Second Rome:Byzantine Empire (3)

New Course

An examination of the Byzantine Empire and its relation to the Medieval Mediterranean, Islamic and Slavic worlds

HIS 230 Competing Identities:The Modern Middle East (3) CH

This course examines the conflicting ideas, people, and events that created the contemporary Middle East out of the former Ottoman Empire after World War I. Emphasis is placed on using primary documents as historical sources.

HIS 236 From Cortez to Costco: Impact of European Contact with the Americas on the Food We Eat (3) CH

This course examines the effects of European contact with the Americas on global biodiversity from the 15th century to the present.

HIS 260 19th Century American Thought in Prose (3) CL/CH

Corequisite(s): ENG 101 or equivalent

This course examines significant historical and documents and literature of the late 18th century and the first half of the 19th century in America, with special emphasis on how issues and ideas they present are interpreted through genres such as speeches, letters, political documents, essays, poetry, and fiction.

HIS 270 Nihilism, Nuremberg & Nukes Europe in the 20th Century (3) CH

Prerequisite(s): HIS 108 Recommended

This course examines the social and cultural history of Europe in the 20th century, paying particular attention to the ways in which the arts reflect responses to war, peace, and politics.

HIS 273 The Classical World (3) LAS

Crosslisted ENG 273. This course introduces the student to the Greco-Roman views of the world through a

study of the history, philosophy, art, and literature of classical antiquity.

HIS 281 Women in American History (3) CH

This course examines US women's experience from the 17th century to the present.

HIS 326 The Scientific Revolution and the Enlightenment (3) CH

An examination of the period between 1500 and 1789, focusing on the development of "science" and how it shaped ideas about humans and their world.

HIS 385 Sea, Sail & Song: Early American Maritime History (3) CH/EXP

Prerequisite(s): 15 or more credit hours earned and min 2.0 cum GPA

This course features early summer travel to the coast of Maine to explore the development of national identity through Americans' extensive reliance on the ocean. Together we will study how life on various frontiers—between past and future, land and sea, and between Native American and trans-Atlantic cultures—created new ideas concerning individualism, independence, and eventually, a new American character. Particular attention will be paid to how this process has been expressed through the music of the folk, and how the history of American seafaring life is communicated through museums of different sizes today. Activities will include music presentations, study at several historical sites, kayaking, a sail on a two-masted schooner, and several days' residence on Maine's historic Pemaquid Harbor. Only three credit hours will be earned upon successful completion of this course; however, this course is coded to satisfy two core curriculum requirements: History (CH) and Experiential Learning (EXP as a travel course).

HIS 385S Serv Lrng:Sea,Sail & Song:Early American Maritime History (1) EXP

Concurrent requisite(s): HIS 385

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

HIS 398 History Internship (1-3) EXP

The History Internship allows students to work in a variety of historic and archival settings to earn Experiential Learning credit.

HIS 480 Directed Independent Study (1-4)

This individualized course allows for reading, research, or creative work on a selected era or aspect of history.

This course can be repeated 2 times for credit.

HLT

HLT 100 Pathways to the Health Professions (2)

Designed to be taken early in the student's academic careers, this course gives students a basic understanding of the U.S. healthcare system, current issues in healthcare, and an overview of the various professions available within the healthcare system. The course encourages students to develop their career goals and the skills necessary for successful admission to graduate study in the health professions.

HLT 100S Serv Lrng:Pathways to the Health Professions (1) EXP

Concurrent requisite(s): HLT 100

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students

will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

HLT 230 Health Promotion and Health Systems (3)

Prerequisite(s): ENG 101

This course introduces students to the concepts of health behavior change theory and health systems, as well as how each impacts health initiatives and outcomes. Students will gain understanding of how public policy, health disparities, and evidence-based practice impact health promotion. Students will be asked to apply concepts of health promotion to a particular health disparity.

HLT 230S Serv Lrng:Health Promotion and Health Systems (1) EXP

Concurrent requisite(s): HLT 230

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

HLT 399 Independent Study in Health and Wellness (1-3)

Prerequisite(s): HLT 200, Junior Status or above, and Departmental Permission

Independent study under the guidance of a faculty member to meet stated learning objectives. Written learning contract agreed upon by the department chairperson and faculty member required.

This course can be repeated for a maximum total of six credits.

HLT 410 Health and Wellness Assessment and Programming (3)

Prerequisite(s): HLT 230, MTH 174, Junior Status or Permission of the Instructor

Concurrent requisite(s): HLT 410S

This course provides students with an in-depth exploration of Health Promotion Program Design, Implementation, and Evaluation. Special emphasis involves tailoring Health Promotion Programs to historically-underrepresented populations both in the U.S. and abroad, in areas of health disparities. In this course, students will deepen their understating of Health Promotion Programs by conducting a Needs Assessment, and developing a culturally-appropriate and evidence-based Promotion Program.

HLT 410S Serv Lrng:Health and Wellness Assessment and Programming (1) EXP

Concurrent requisite(s): HLT 410

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This course requires a co-requisite one-credit hour Service Learning course, with 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

HLT 451 Healthcare Administration (3)

Prerequisite(s): HLT 320 and Junior Level Standing

Students in this course will be exposed to the role of the healthcare administrator. They will discuss and learn personnel and organization management skills in relation to the healthcare setting and the global economy. Students will learn about employment practices, liability and ethical issues, budgeting, event planning and the ever-changing face of healthcare.

HLT 451H HON:Healthcare Administration (0)*Concurrent requisite(s):* HLT 451

Course description as stated in HLT 451 (Honors Course)

HLT 451S Serv Lrng:Healthcare Administration (1) EXP*Concurrent requisite(s):* HLT 451

HON

HON 200 Honors Current Topics (0-3)

Each semester, students will examine a current world issue that has implications for many academic disciplines and many different aspects of contemporary life. Topics will change with each offering. Course will be a seminar format and will include a set of public forums on the semester's topic.

HON 201 Honors Experience I (1)

Sophomore students in the Honors Program will engage with one another and interact with guest speakers through a semester-long series of talks and events focusing on service, leadership, innovation, and a wide variety of specific subject areas. Opportunities for attendance and participation are flexible to allow for busy schedules. Students will reflect on the value of these experiences through the maintenance of a journal, periodic group discussions, and active service to the Mount community.

HON 261 HON:United Nations Sustainable Development Goals:Global & Local (3) EXP*Prerequisite(s):* Sophomore status, e.g., 28 completed credit hours, minimum GPA 2.0, Honors Director approval

In this course, students will travel to New York for a three-day orientation to the Millennial Goals of the United Nations. While there, they will tour the United Nations, visit with a mission from another country to see how the goals affect that country, and have an opportunity for conversation with United States representatives to the UN. They will also learn about Elizabeth Ann Seton's life in New York by visiting significant locations from her life such as Ellis Island and Episcopal and Catholic churches. During the semester, students will research one of the Millennial Goals and its connection to local issues. Students will also serve a local organization with some connection to the UN Millennial Goals.

HON 261S Serv Lrng:United Nations Sustainable Development Goals:Global & Local (1) EXP*Concurrent requisite(s):* HON 261

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

HON 263 HON:Museums,Monuments & Meaning (3) EXP*Prerequisite(s):* CORE 115

In this course, students will travel to Washington, DC and experience the richness of their history by visiting

and reflecting on significant monuments and museums there. During the subsequent semester, they will explore together the stories of people who experienced events memorialized in the monuments and museums.

HON 301 Honors Experience II (1)

Third-year students in the Honors Program will engage with one another and interact with guest speakers through a semester-long series of talks, and events focusing on scholarship, service, and a wide variety of specific subject areas. Opportunities for attendance and participation are flexible to allow for busy schedules. Course activities will culminate with presenting at or attending Mid East Honors Association conference or equivalent conference in student

HON 400 Honors Capstone (1)

In this course, students will develop and give a presentation in which they describe one aspect of their undergraduate experience through the lens of the baccalaureate learning outcomes and performance indicators. Students and professor will meet at mutually agreeable times to report progress and/or confront challenges. Student presentations may be individual or in small groups, depending on the topic, but each student's portion of the presentation should be at least 10 minutes. Student presentations should include audio and/or visual materials, but do not need to use PowerPoint.

INF

INF 120 Principles of Programming I (3)

Prerequisite(s): Grade of "C" or better in MTH 187 /Equiv or placement

Gain an understanding of the basic concepts and considerations of structured and object-oriented programming methodologies and be able to apply these concepts appropriately to solve a variety of typical problems, programming in an event-driven graphical development environment including creating classes and objects.

INF 221 Principles of Programming II (3)

Prerequisite(s): INF 120 or equivalent

Develop programming techniques emphasizing reliability, maintainability, and reusability. This course includes an introduction to objects, classes, and object-oriented design, incorporating encapsulation, inheritance, polymorphism, and abstraction. Additional topics include systems development lifecycle (SDLC), multi-dimensional arrays, exception handling, addresses, pointers, and dynamic storage allocation.

INF 230 Database Design & Development (3)

Prerequisite(s): INF 120 or equivalent

This course provides an introduction to fundamental database concepts including current relational database modeling, file management, data definition, and standards. Learn to develop structured query language (SQL) statements to develop, retrieve, manipulate, and maintain data. Use complex and compound criteria from multiple tables to develop appropriate reports and perform data analysis. Also explore some contemporary non-relational databases.

INF 250 Web Fundamentals & Standards (3)

This course is designed to provide students with the fundamentals of current and proposed standards for HTML, XHTML and CSS. This course also explores web technologies, examining future directions that present opportunities for multimedia developers, examines various multimedia formats (images, audio, video, sound and animation), web standards and accessibility.

INF 255 Client-Side Scripting (3)

Prerequisite(s): INF 221 and INF 250

Introduction to the Document Object Model (DOM), fundamentals of Internet application design, development, and deployment using client-side scripting language(s) and the use of external libraries such as JQuery. Further examination of various multimedia formats (images, audio, video, sound and animation).

INF 256 Server-Side Scripting (3)

Prerequisite(s): INF 221 and INF 250

This course covers the configuration of web server software and the use of server-side programming. Topics include: Server-side scripting in languages such as PHP and Java Server Pages, SQL, database access and drivers, security issues, including access control and secured transmissions.

INF 270 Intro to Mobile Application Development (3)

Prerequisite(s): INF 221 or equivalent

In this course, students will be introduced to the foundations of mobile development and its unique requirements and constraints. Students will create a variety of mobile applications. Requirements and design decisions tied to mobile application development and how they relate to limited resources available on mobile devices are emphasized.

INF 324 Data Structures (3)

Prerequisite(s): INF 221

In-depth study of the abstract data type: its theory and implementation, study of complex data structures including trees, B-trees and graphs.

INF 325 Networks (3)

Prerequisite(s): INF 221

Introduction to networking and technologies for wireless protocols and multimedia messaging services.

INF 328 Object-Oriented Analysis and Design (3)

Prerequisite(s): INF 221

This course covers techniques of abstraction and object design, design patterns, and object modeling and how to apply these concepts to web and mobile applications.

INF 331 Applied Database (3)

Prerequisite(s): INF 230

This course builds on the Database Design & Development course and focuses on the creation, administration and use of databases utilizing a multi-tier application design methodology. This course assumes knowledge of database system concepts. The student will be introduced to application program development in a database environment with emphasis on setting up, modifying, and querying a database. Students will also do extensive project work writing and utilizing database stored procedures and triggers.

INF 355 Advanced Client-Side Scripting (3)

Prerequisite(s): INF 255

This course covers the more advanced Object-Oriented features of a client-side scripting language as well as AJAX with XML and JSON. Open source libraries such as jQuery, JQuery Mobile, and Prototype are covered with an emphasis on developing plugins for these libraries.

INF 356 Advanced Server-Side Scripting (3)

Prerequisite(s): INF 256

Advanced topics for scripting in a server-side programming language. Topics covered will include object-oriented web application frameworks, Model/View/Controller (MVC) design pattern, Content Management Systems (CMS), web services, XML Schemas, SOAP (Simple Object Access Model), WSDL (Web Services Description Language), authentication, authorization, session management, PDF generation and email communication.

INF 370 Algorithms (3)

Prerequisite(s): INF 324

Introduction to useful algorithms for searching, sorting and decision making; utilization of methods to quantify and classify efficiency of algorithms; probabilistic and randomized algorithms and dynamic programming. Course covers advanced algorithms on graphs, divide-and-conquer and dynamic programming, greedy methods, backtracking, branch-and-bound, computational complexity and parallel algorithms.

INF 377 Introduction to Automata (3)

Prerequisite(s): INF 221

Course presents a study of formal languages. Topics include: language classes, formal definitions of grammars and acceptors, deterministic/nondeterministic systems, finite state machines, push down automata and normal forms.

INF 378 Machine Learning and Data Mining (3)

Prerequisite(s): INF 221, INF 230, MTH 320

The course will focus on various data mining and machine learning techniques and their applications. Students will manage real data and implement applications for machine learning and data mining using Python and related libraries.

INF 380 Operating Systems (3)

Prerequisite(s): INF 324

Course offers an introduction to the theory and practice behind modern computer operating systems. Topics will include: computer and operating system structures, process and thread management, process synchronization and communication, memory management, virtual memory, file system, I/O subsystem and device management.

INF 391 Topics in Computing (3)

Prerequisite(s): INF 120 or equivalent and 2 other INF courses

Variable topic course with emphasis is on current trends in technology. Course may be taken up to four times (total of 12 credit hours).

INF 396 Co-Op:Parallel(PT) (0-3) EXP

Prerequisite(s): CED 220

A related work experience supervised by a faculty coordinator in collaboration with the cooperative education. Credit is awarded upon successful completion of the work experience, documentation and evaluation.

This course can be repeated for a maximum total of nine credits.

INF 400 Senior Research (1)

Prerequisite(s): Senior status or permission of instructor

Students work independently mentored by a faculty advisor on a project that demonstrates and integrates knowledge attained through previous coursework.

INF 496 Co-Op:Parallel(FT) (0-3) EXP

Prerequisite(s): CED 220

A related work experience supervised by a faculty coordinator in collaboration with the cooperative education. Credit is awarded upon successful completion of the work experience, documentation and evaluation.

This course can be repeated for a maximum total of nine credits.

JCG

JCG 200 Inclusive Justice: Disability and the Common Good (3) JCG

Prerequisite(s): Religion Course (Code CR)

Corequisite(s): SOC 103

Using a practical theological method that dialogues between theology and experience, this course explores the social injustice of ableism, as well as the search for the common good, in relationship to persons who are differently abled in body, mind, and/or psyche.

JCG 200S Serv Lrng:Disabling Theology (1) EXP

Concurrent requisite(s): JCG 200

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

JCG 250 The Holocaust (3) JCG

Prerequisite(s): Religion Course (Code CR)

Corequisite(s): SOC 103

This course is an exploration of the historical event called the Holocaust and its far-reaching consequences. During the course, students will become familiar with what happened, move on to the question of "why", and conclude with a deeper understanding of the implications of these events for the present and future. While the Holocaust can be approached from many angles and perspectives, this course will focus much of its attention on examining questions that emerge in light of the Holocaust about ethics, the meaningful pursuit of justice, and the human capacity for both good and evil.

JCG 250H HON:The Holocaust (0) JCG/IDS

Concurrent requisite(s): JCG 250

Course description as stated in JCG 250 (Honors Course)

JCG 255 Christian Social Justice (3) JCG

Prerequisite(s): Religion Course (Code CR)

Corequisite(s): SOC 103

This course will acquaint students with both concrete efforts by Christians in support of social justice and with the Christian premises that underlie these efforts. Topics include economic justice, religious liberty and church-state relations, rights of women and minorities, war and peace, pro-life issues, and environmental ethics.

JCG 255H HON: Christian Social Justice (0) JCG

JCG 256 Race and Justice (3) JCG

Prerequisite(s): Religion Course (Code CR)

Corequisite(s): SOC 103

This course examines the social injustices of racism and ethnocentrism from theological perspectives. Methods of practical theology are used to develop reflexive theological habits for critical analysis and social action.

JCG 256S Serv Lrng:Hands Up, Don't Shoot:Practical Theology for Racial Justice (1) EXP

Concurrent requisite(s): JCG 256

Service Learning is an opportunity to engage in service to others while making academic connections to

course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

JCG 266 A Land Where You Can Eat: Sustainable Foodways and Christian Spirituality (3) JCG

Prerequisite(s): Religion Course (Code CR)

Corequisite(s): SOC 103

This course examines food production, distribution, and consumption using a practical theological method. Students develop a spirituality of just food, paying special attention to social structures and individual choices that promote and/or inhibit sustainable foodways.

JCG 267 Healing and Loving Creation: An Ecological Spirituality for Our Time (3) JCG

Prerequisite(s): Religion Course (Code CR)

Corequisite(s): SOC 103

Discipleship in our modern world increasingly necessitates an ecological commitment to embrace a green lifestyle. God's fidelity to "renew the face of Earth" as a planet of peace and compassion inspires new ways of thinking about and responding to the dignity of all creation. We will consider the contemplative encounter with God in nature that compels us to embrace our potential as co-creators, loving and healing Earth.

JCG 267S Serv Lrng: Healing and Loving Creation: An Ecological Spirituality for Our Time (1) EXP

Concurrent requisite(s): JCG 267

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

JCG 268 Bringing about a Sustainable Reign of God (3) JCG

Prerequisite(s): Religion Course (Code CR)

Corequisite(s): SOC 103

This course explores why we are called to live more sustainably and gives practical ways to live that are more in keeping with Gospel teaching. We will look at the signs of times in which we are now living and apply Jesus' message of love and compassion towards all of God's creation. We will also look at ways in which we can spread this message to others.

JCG 390 Appalachian Culture & Spirit (3) JCG

Prerequisite(s): Religion Course (Code CR) and minimum 2.0 cum GPA

Corequisite(s): SOC 103

This justice and the common good course will focus on the Appalachian mountain region in an effort to understand land, culture, history, social issues and spirituality of this unique region. We will examine how culture, history, and social forces have created the richness and social issues that impact the lives, values, beliefs, and spirituality of the people of Appalachia, as well as their lifestyle, family, social, ecological, economic and political systems. Special attention will be focused on social analysis of the poverty in Appalachia, issues of social and environmental justice, and exploration of strategies for future sustainability in the region.

JCG 390E Appalachian Culture & Spirit Experience (3) JCG/EXP

Prerequisite(s): Religion Course (Code CR) and minimum 2.0 cum GPA

Corequisite(s): SOC 103

LIB 115 Foundations of the Liberal Arts (3)

A three-credit introduction to the history and concerns of the liberal arts, which arose in Greco-Roman antiquity when ideas about political engagement required persons educated in critical thinking and citizenship. Students will explore this history and will practice identifying and analyzing enduring complex questions that the liberal arts both shape and help to answer.

LIB 280 Conference Planning and Assistance (3)

New Course

Prerequisite(s): ENG 101

Students will assist faculty with planning an academic conference, hosted at the Mount including content development, logistics, promotion, etc.

This course can be repeated one time for credit.

LIB 290 Research and Bibliography (0-3)

New Course

Student will assist faculty member with an existing research project, including research, indexing, bibliographical work etc.

This course can be repeated 6 times for credit.

LIB 300 Seriously Funny:The Liberal Art of Humor (3)

Prerequisite(s): 21 Hours Completed in the Major

With humor so widespread in our social world, affecting our relationships, reflecting our attitudes, influencing our politics, and used to sell us everything from Acura's to Zumba classes, having only a "sense" of humor is not enough. This seminar closely examines the phenomenon of humor, explores various motives for creating, using, and abusing it, analyzes how it is transmitted and received by diverse groups, and considers its diverse effects on the common good. By studying humor from multiple perspectives, including history, the arts, literature, economics, philosophy, politics, the media, and more, we can become more critical consumers, compassionate neighbors, and empowered citizens.

LIB 301 The Loving Friends:The Bloomsbury Group (3)

Prerequisite(s): 21 hours complete in the major

This seminar will examine the lives and works of the members of the Bloomsbury Group, a collection of artists, writers, thinkers, politicians, critics, and journalists who came to prominence in the 1910s and 1920s in London, so named for the London neighborhood in which most of them lived and worked. The Group had a profound effect on British culture, and their influence is still felt today. We will examine works by Virginia Woolf, E. M. Forster, John Maynard Keynes, Vanessa Bell, Duncan Grant, Roger Fry, Clive Bell, Leonard Woolf, Desmond McCarthy, Katherine Mansfield, T. S. Eliot, Vita Sackville-West and Carrington, and will view the Group in light of its influences and predecessors, such as Matthew Arnold, Oscar Wilde, G. E. Moore, and Walter Pater. Students will be able to choose a specific Group member on whom to complete an in-depth final project.

LIB 302 Ree/al or Not Ree/al:The History of the Documentary as History (3)

Prerequisite(s): 21 Credit Hours toward Liberal Arts Major

Documentary films compel us to believe that they represent the real world as it really is. They arise from real-life events that occur in real time; yet, the films, as well as the film makers, are representing an historical phenomenon by choosing who or what is presented, how it is presented, and what sources are used to support their particular re-telling of the past-much like a traditional, written history. Yet the documentary film employs powerful visual and auditory components not present in traditional, written histories to convince viewers to accept its particular point of view. Students in this seminar course will, while examining documentary film from its beginnings in the early 20th century to the present, learn the techniques used by documentarians to tell their stories. They will then analyze a series of films from the 1910's through the 21st century in order to address the overall course question.

LIB 303 Oy Vey:Contemporary Jewish Literature (3)

Prerequisite(s): 21 Credit Hours toward the Liberal Arts Major

Many religious scholars have noted that a Jew can be many different things at once and those scholars often argue that to doubt one's faith is very Jewish thing. What does it mean to be Jewish at a time during which nearly 2/3 of Jews define themselves as more secular than religious as "Just Jewish"? In this course we will explore such a question as well as representations of cultural transformation and significant periods of Jewish experience through contemporary literature (mostly 20th and 21st century): fiction, poetry, drama, memoir, film and philosophy. This course is devoted to the cultural, the artistic, the secular and the spiritual, to the literature that reflects deeply held traditions and the literature that has been produced by those who identify as "just".

LIB 305 Aesthetics:The Philosophy of Beauty (3)

New Course

Prerequisite(s): 21 Hours toward the Liberal Arts Major

This course analyzes the concept of beauty through a philosophical lens. This analysis involves considering the definition of beauty from multiple perspectives including artistic, historical, and scientific views. Contrast concepts such as ugliness and the sublime will also be considered.

LIB 307 Anxious, Alienated, Confused: The Subject of Late Capitalism (3)

New Course

Prerequisite(s): 21 hours completed in the Liberal Arts major

The subject enmeshed in the networks of late capitalism is constantly inundated with information, tragedy, advertisements promising fulfillment, polarized political opinions, social media posts, etc. Are individuals even capable of adequately processing so much affect and information? What does such daily exposure do to our sense of self? This interdisciplinary course will explore the religious and political roots of our contemporary condition, while at the same time seeking religious and political solutions to this anxious, alienated, and confused condition.

LIB 307S Serv Lrng: Anxious, Alienated, Confused; The Subject of Late Capitalism (1) EXP

New Course

Concurrent requisite(s): LIB 307

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

LIB 308 Philosophical Life Hacks: Actually Achieving the Good Life (3)

New Course

Philosophy often offers advice on the good life: how to become happier, break irrational habits, and inspire oneself to do right by others. Our course discusses, and practices in real life, ideas which effectively improve our attitudes and lives. These practical techniques are called care of the self, meditations, or therapy of

desires and they reduce anxieties, increase courage, and help us remain content in rough times. Authors include Ancient Stoics, 17th-century humanists, and recent French philosophers. While this hectic world is often out of our control, these philosophies promise a degree of control over oneself in the pursuit of our highest goals.

LIB 309 Dare We Hope? Approaching Our Uncertain Future (3)

New Course

Prerequisite(s): 21 hours toward the Liberal Arts major

From climate change to rising political discord, many find it difficult to feel hopeful or optimistic about the future. But are hope and optimism really the same? This course will explore what hope has meant (and might continue to mean) within diverse theological, philosophical, and literary perspectives. Beyond exploring our past traditions, we will also ask how we can approach the future with confidence, while also being honest about the challenges we face.

LIB 310 Read Dangerously: Banned Books (3)

New Course

Why are people, parents, teachers, administrators, members of school boards and legislatures afraid of books? What harm can emerge from allowing readers to think deeply and critically about important ideas? How do great works of literature survive in spite of attacks against them? We will explore all of these questions as well as other complex ideas in this course by examining the history of book banning, the religious and philosophical rationales for both censoring books and upholding them as sacred by reading a number of books that have recently been challenged in the U.S., books written for a wide range of audiences: children and young adults as well as sophisticated readers.

LIB 396 Co-Op:Parallel(PT) (1-3) EXP

Prerequisite(s): CED 220

A work-related experience supervised by a faculty coordinator in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

LIB 400 Liberal Arts Culminating Experience (3)

Prerequisite(s): Six Hours of Liberal Arts Seminar Coursework

The culminating course is designed to demonstrate the student's strong command of the learning outcomes and performance indicators associated with the Liberal Arts major. Working closely with peers and a faculty scholar, the student will compose a research question of significance and depth, conduct research and apply critical analysis from across the Liberal Arts in addressing the question, craft a twelve-to-fifteen-page paper presenting his or her findings, and articulate those findings to the wider University community.

MAF

MAF 101 Mount 101 (1)

New Course

This course is designed to engage predetermined student groups with skills that teach resiliency: self-awareness, responsible decision making, self-management, social awareness, relationships, and leadership, e.g. soft skills and build a community of support. These resiliency skills will be attained through weekly meetings utilizing a variety of presentations, experiences, service, and reflections.

MAF 126 Mission Ambassadors Formation (1)

New Course

This course is designed to engage the Mission Ambassadors with the University Mission explore models of

servant leadership and build a community rooted in faith. These objectives will be attained through weekly meetings utilizing a variety of presentations, experiences, service, and reflections.

MAF 126H HON: Mission Ambassadors Formation (0)

New Course

Concurrent requisite(s): MAF 126

Course description as stated in MAF 126 (Honors Course)

MAF 211 Mission Ambassadors Formation II -Vocation and Call (1)

New Course

Prerequisite(s): MAF 111

The Mission Ambassadors Formation II -Vocation and Call course is designed to assist Mission Ambassadors in reflecting on and understanding the depth of meaning in a vocational call in connection with one's chosen field of study. Students will learn about men and women in the sacred biblical texts who model discernment in response to a call. Diversity of cultures and beliefs and respect and concern for all persons will be emphasized in teaching the cultural, religious, and historical context of these biblical figures. The connection between Christian baptism, vocation, and call will enrich their understanding of servant leadership as an integral component of the University's mission as well as their role as Mission Ambassadors.

MCE

MCE 300 Introduction to Middle School (3)

Prerequisite(s): EDU 190 and EDU 217

This course is focused on best teaching practices to complement the development, needs and learning processes of students in grades 4 through 9. The course provides teaching theory and practices designed to elicit personalized, active student learning complimentary to adolescents' physical, cognitive, affective, emotional/psychological, moral /ethical, and social development. The course includes a component where participants review the research literature for best practices used within their two content areas. The course will include applying theory to practice through the planning of instruction, selection of teaching strategies, ethics, classroom management, multiculturalism, inclusion, diversity and motivation.

MCE 333 MCE Ed Content Practicum (2) EXP

Prerequisite(s): Admission to School, MCE 300, EDU 217, EDU 207

Corequisite(s): Two of the Following: EDU 355, EDU 383, EDU 384, EDU 386

This 100 hour field experience is designed to give the MCE student an opportunity to work with middle school level students in their two areas of concentration. Teaching activities as designated by the instructor and/or content area methods specialist will be assigned in order to apply theory learned in prior course work. Within each area of concentration, students will teach a minimum of four lessons in the classroom, with scheduled mentor teacher and Mount supervisor evaluations. The candidate is required to attend their assigned placement a minimum of two times per week throughout the semester, with seminars back on campus. The overall goal of the course is to prepare students for student teaching.

MCE 444 MCE Student Teaching (12) EXP

Prerequisite(s): Admission to School and Permission from Clinical Experience Director

An intensive all day experience for 15 weeks in a parochial, private or public middle grades/school (grades 4-9). Students in the Middle Childhood program will complete their student teaching either by working in both content areas simultaneously across the 15 weeks or by spending seven weeks in one concentration and eight weeks in the other. The middle level preprofessional will be supervised in his/her student teaching experience by both practicing licensed teacher(s) in his/her concentration areas and by qualified university personnel.

MGL

MGL 300 Management/Organizational Behavior (3)

Examine the knowledge, skills, and abilities needed to lead and participate effectively in organizations. Emphasis will be on the functions of management (planning, organizing, leading, controlling), on understanding the behavior of individuals and groups in organizations (perception, motivation, group dynamics), and the impact of technology on organizations.

MGL 301 Leadership Foundations (3)

Explores the meaning and importance of leadership in our time, culture, and organizations. Emphasizes the importance of developing leadership as individuals and within organizations. The course focuses on theories of leadership and how they are applied to include leadership styles, behaviors, and skills.

MGL 310 Human Resource Management (3)

Prerequisite(s): MGL 300

Explores topics involving the management of people through the employee lifecycle, including recruitment, interviewin , selection, assessments training, job analysis and design, salary and benefits, performance management, discipline, and grievances. Also included are topics such as diversity, inclusion, equity, organizational culture, policy management, including Family and Medical Leave, Americans with Disabilities Act and other compliance and legal regulations.

MGL 325 Project Management (3)

Prerequisite(s): MGL 300

Comprehensive overview of the elements of modern project management, including project initiation, project planning, and project execution. Explores project management in the context of leading change for the organization. Dimensions and elements of project management, concepts, methodologies, strategies, and structures will be examined.

MGL 332 Operations Management (3)

Prerequisite(s): MGL 300

Explores operational functions, processes and tools needed to run the organization, with particular focus on production of goods and services. Includes quality planning and control, scheduling, inventory management, and product and process design. Decision-making strategies and governance, as well as the intersection of operations management with other organizational functions are examined.

MGL 345 Conflict Management and Negotiations (3)

New Course

Prerequisite(s): MGL 300

Addresses conflict management theories and negotiation strategies, as well as the needed analytical skills to develop optimal solutions for a variety of settings.

MGL 375 Nonprofit Management (3)

Prerequisite(s): MGL 300

This course provides an overview of the knowledge and skills needed to effectively lead and manage a non-profit organization. The course explores governing boards, partnerships, advocacy and lobbying, fundraising, grants, innovation, international nonprofits and other important topics associated with nonprofit management.

MGL 396 Co-Op:Parallel(PT) (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

MGL 435 Strategic Management (3)

New Course

Prerequisite(s): MGL 300

This course integrates core business concepts in examining and developing organizational strategy. Frameworks for assessing the organization are applied. Through critical thinking, processes, and tools, plans are developed to achieve organization mission. Leader roles in guiding decision-making and implementation of plans are considered and applied.

MGL 435S Serv Lrng: Strategic Management (1)

New Course

Concurrent requisite(s): MGL 435

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

MGL 450 Contemporary Issues and Perspectives in Leadership (3)

Prerequisite(s): MGL 300 or MGL 301

Examination of contemporary issues and perspectives of leadership with a focus on current findings and innovative practices related to the leadership processes. Students will explore emerging issues facing organizational leaders. Topics will be timely, relevant to today's organizations, and have practical leadership implications.

MGL 453 Current Topics in Management (3)

Prerequisite(s): MGL 300

Covers selected topics in management. May be repeated more than once based on the specific contents of the course with advisor's permission.

MGL 480 Group Dynamics & Team Building (3)

Prerequisite(s): MGL 300

Examination of formation, function, and leadership of teams. Addresses how and when to use teams to improve organizational performance and effectiveness including exploration of group dynamics. Topics are comprised of stages of group development, intragroup processes and challenges, team problem solving, and collective decision making.

MGT

MGT 335 Understanding Quality Management (3)

Prerequisite(s): MGT 300

This course examines the role quality plays in today's workplace. IT surveys major approaches to quality, quality management concepts, tools, and the major approaches of Deming, Juran, and others. Systems thinking, continuous improvement, and customer value strategy are emphasized.

MGT 335H HON:Understanding Quality Management (0)

Concurrent requisite(s): MGT 335

Course description as stated in MGT 335 (Honors Course)

MGT 396 Cooperative Education Work Experience: Parallel (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

MGT 461 Leadership & Politics of Power (3)

Prerequisite(s): MGL 300

The study of various aspects of leader/follower transactions as a basis for understanding the political power structure of organizations with its implications for management, design and performance.

MGT 461H Honors Leadership & Politics of Power (0)

Course description as stated in MGT 461 (Honors Course)

MGT 490 Seminar in Management (1-3)

The course covers selected management topics in depth

MGT 492 People in Organizations (3) LAS

New Course

Prerequisite(s): PSY 103 or MGT 300

Crosslisted PSY 420. This course explores individual, group and organizational processes to increase understanding of self and others in organizations. Emphasizes awareness, self-development, and self-management in the context of organizational issues such as conflict resolution, team performance, and leadership.

MGT 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

MGT 499 Independent Study (1-3)

Independent Study Course

MKT

MKT 300 Principles of Marketing (3)

Explores the marketing concept of customer orientation focusing on product development, pricing, distribution, promotion, and achievement of organizational objectives.

MKT 300S Serv Lrng:Prin of Marketing (1) EXP

Concurrent requisite(s): MKT 300

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

MKT 311 Principles of Retailing (3)*Prerequisite(s):* MKT 300

Conventional department stores, discount department stores, variety stores, etc., are examined in the context of the "retail revolution." Buying methods, pricing, management merchandising techniques, store locations and equipment, sales promotion, customer service, and data processing are among topics discussed.

MKT 311S Principles of Retailing (1) EXP*Concurrent requisite(s):* MKT 311

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

MKT 356 Advertising (3)*Prerequisite(s):* MKT 300

The course is a survey of the principles and practices of advertising. It covers the social and economic significance of advertising, its relation to business organization, the importance of an advertising plan, the preparation of advertisements, and the selection of media. No prerequisites. COM 200 and MKT 300 recommended.

MKT 357 Professional Selling (3)

Presents a behavioral approach to persuasion in the business transaction. The social and psychological elements of effective communication are emphasized. Individual and group presentations will be evaluated.

MKT 357S Serv Lrng:Professional Selling (1) EXP*Concurrent requisite(s):* MKT 375

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

MKT 365 Consumer Behavior (3) LAS*Prerequisite(s):* MKT 300

Examines consumer behavior, broadly defined, from the perspectives of consumer psychology and marketing. Psychological theories and concepts are used to understand our behaviors as consumers and the application of psychological theories and concepts in developing effective marketing strategies.

MKT 365S Serv Lrng: Consumer Behavior (1) EXP*Concurrent requisite(s):* MKT 365

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

MKT 371 International Marketing (3)*Prerequisite(s):* MKT 300

Develops competency in evaluating and applying concepts essential to the executive operating in an international environment; describes international trade, customs in both the global and multinational marketplace, legalities, and advertising techniques.

MKT 377 Digital Marketing (3)

New Course

Prerequisite(s): MKT 300

This course examines social media from a marketing perspective, including defining digital marketing goals for a brand; identifying consumer targets; selecting digital marketing platforms; planning, designing, and deploying content; and using analytics to drive strategic decisions about digital marketing.

MKT 392 Direct Marketing (3)

Prerequisite(s): MKT 300

Provides students with an overview of how direct marketing is an integral part of an organization's total marketing program. All aspects of direct marketing are surveyed, from decision making to customer segmentation to the media and creative elements of direct marketing and promotion.

MKT 392S Serv Lrng:Direct Marketing (1) EXP

Concurrent requisite(s): MKT 392

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

MKT 396 Cooperative Education Work Experience: Parallel (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

MKT 415 Marketing Research (3)

Prerequisite(s): MKT 300, MTH 174, and BUS 240

Emphasizes the role of market research in marketing management. It includes planning research design, observation, experiment, and simulation. It also covers the execution of survey design: questionnaire construction, sample design, interviewing, tabulation, analysis, interpretation of results, and presentation.

MKT 420 Marketing Management (3)

Prerequisite(s): MKT 300 and BUS 240

Provides an understanding of the administration and the management of the marketing function including the treatment of marketing planning and strategy.

MKT 420S Serv Lrng:Marketing Management (1) EXP

Concurrent requisite(s): MKT 420

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities,

and an increased awareness of their own faith and values.

MKT 453 Current Topics in Marketing (3)

Prerequisite(s): MKT 300

Covers selected topics in marketing. May be repeated more than once based on the specific contents of the course with advisor's permission.

MKT 490 Seminar in Marketing (1-3)

Prerequisite(s): MKT 300 and permission of instructor

Examines selected marketing topics in-depth through readings and group discussion. May be repeated more than once based on the specific contents of the course with advisor's permission.

MKT 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): CED 220

A business related work experience supervised by a business faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

MKT 499 Independent Study (1-3)

Independent Study Course

MTH

MTH 097 Introductory and Intermediate Algebra (4)

New Course

Prerequisite(s): Placement

Operations with signed numbers, simplifying expressions; order of operations; solving linear equations and inequalities; graphing of linear equations and inequalities; solving systems of equations; polynomials; exponents; roots and radicals; factoring; solving quadratic equations.

MTH 098 Intermediate Algebra (3)

Prerequisite(s): Placement

Simplifying expressions; order of operations; solving linear equations and inequalities; graphing of linear equations and inequalities; solving systems of equations; polynomials; exponents, roots and radicals; solving quadratic equations.

MTH 165 Hacking Math: A Tech-Based Survey of Mathematics (3) CMA

Prerequisite(s): Grade of "C" or Better in MTH 097 or MTH 098/Equiv or Placement.

This course is a survey of major branches of mathematics with examples of problems and methods in each, and explored primarily through the use of the programming language Python. (However, no previous coding experience is needed or required for success in this course!) Topics include solving linear equations in one variable and applications of linear equations in one variable, basic concepts of number theory, geometry, mathematics of finance, probability, and basic descriptive and inferential statistics.

MTH 170 A Liberal Arts View of Math (3) CMA

Prerequisite(s): Grade of "C" or better in MTH 097 or MTH 098/Equiv or placement

This course is designed to enhance students' mastery of the mathematics encountered in everyday life. These skills will foster a student's ability to make good life decisions and to be a good citizen. Topics will include interpreting commonly-encountered statistics, decision-making in health and social science issues and the mathematics of chance. Financial mathematics will also be explored including personal budgeting,

investing, credit and loans.

MTH 172 Mathematics for Early Childhood and Special Educators (3) CMA

Prerequisite(s): Grade of "C" or Better in MTH 097 or MTH 098/Equiv or Placement

This course prepares pre-service early childhood and special educators who are charged with teaching regular education P-5 and special education K-12 students. Educators will be exposed to the breadth and depth of critical concepts mandated by the state according to the Ohio Mathematics Learning Standards and Progressions. The course will challenge students to develop a deep understanding of the material they will eventually be teaching through critical thinking, mathematical investigations, discussions, and writing. The major mathematical concepts covered in this course will be Algebra (expressions, equations, functions, linear equations), Geometry (shapes, area, perimeter, symmetry, congruence, similarity), and Transformations (volumes, reflections, translations, and rotations) with a focus on how these topics would be applied in a classroom. There will be an emphasis on understanding and using the NCTM mathematical processes of problem-solving, reasoning and proof, communication (including writing), representation, and connection.

MTH 174 Statistics I (3) CMA

Prerequisite(s): Grade of "C" or Better in MTH 097 or MTH 098/Equiv or Placement

Introductory level college statistics course; Topics will include data collection; graphical representation; measurements and interpretation of univariate and bivariate data; continuous distributions; hypothesis testing.

MTH 180 Math for Business (3) CMA

Prerequisite(s): Grade of "C" or better in MTH 097 or MTH 098/Equiv or placement

Application of linear functions; matrices and their use in solving systems of equations; basic concepts of probability; geometric and simplex method for linear programming; mathematics of finance.

MTH 187 Precalculus Algebra & Trigonometry (4) CMA

Prerequisite(s): Grade of "C" or better in MTH 097 or MTH 098/Equiv or placement

Rational expressions and equations; quadratic, radical, and polynomial equations; linear, and nonlinear inequalities. Also, the course will include a comprehensive study of polynomial, rational, exponential, logarithmic, and trigonometric functions along with properties, graphs, inverses, and applications.

MTH 193 Calculus I (4) CMA

Prerequisite(s): Grade of "C" or better in MTH 187/Equiv or placement

Differential calculus, limits, continuity, differentiation, applications of the derivative, antiderivatives, Fundamental Theorem of Calculus, definite and indefinite integrals, numerical integration.

MTH 194 Calculus II (4)

Prerequisite(s): Grade of "C" or better in MTH 193 or "4" or higher on AP Calc AB

Techniques of integration, applications of integration, improper integrals, sequences and series, Taylor series and polynomials, binomial series, polar coordinates, parametric equations.

MTH 220 Discrete Mathematics (3)

Prerequisite(s): Grade of "C" or better in MTH 193

Most, if not all, of the math classes you've taken up to now have focused on computation and problem solving. This class is intended as a transition to more abstract mathematics, so the emphasis will be on theory, critical thinking and the ability to communicate mathematically. The topics covered will include but are not limited to propositional and predicate logic; methods of proof, sequences, recursion, recurrence relations, set theory, functions, relations, graphs and counting.g.

MTH 255 Introduction to Linear Algebra (3)

Prerequisite(s): Grade of "C" or better in MTH 193

Corequisite(s): MTH 194

Vectors, systems of linear equations, vector spaces, linear transformations, matrices, determinants, and related applications.

MTH 293 Calculus III (4)

Prerequisite(s): Grade of "C" or better in MTH 194 or "4" or higher on AP Calc BC

Functions of several variables, vectors, lines and planes, vector functions, 3D parametric curves, partial derivatives and applications, gradients and directional derivatives, multiple integrals, line integrals, Green's Theorem, Stokes' Theorem and Divergence Theorem .

MTH 301 Mathematical Modeling (3)

Prerequisite(s): INF 120

Modeling techniques to solve problems from fields such as natural sciences, social sciences, business, and engineering; applications of general problem-solving strategies and fundamental modeling techniques to support future studies or work in mathematics-dependent fields.

MTH 305 College Geometry (3)

Prerequisite(s): MTH 220, junior or senior level or permission of instructor

Study of geometry from different perspectives, including Euclidean and non-Euclidean geometries, and other assorted topics; use of current geometry software; survey of the history of geometry.

MTH 310 Differential Equations (3)

Prerequisite(s): MTH 194 or INF 120.

First and second order ordinary differential equations having constant coefficients; linear systems; non-homogeneous equations using determined coefficients; applications.

MTH 315 Number Theory (3)

Prerequisite(s): MTH 220

Study of relations between and among integers; including divisibility, primes, unique factorization, congruence, primitive roots, and indices; Diophantine equations and Fibonacci numbers; selected historical topics.

MTH 320 Probability/Statistics (4)

Prerequisite(s): Grade of "C" or better in MTH 193

Corequisite(s): MTH 194

Descriptive statistics, probability, discrete and continuous random variables, probability distributions, sampling, estimation, and combinatorics.

MTH 325 Numerical Analysis (3)

Prerequisite(s): MTH 255

Numerical differential and integration; measures of accuracy; sources of error and error analysis; solutions of non-linear equations by iterative processes; differential equations; functional approximation; initial value problems; applications.

MTH 361 Abstract Algebra (3)

Prerequisite(s): MTH 220

Abstract algebraic structures and their application; group and group isomorphism and homomorphisms; rings and fields; historical references.

MTH 391 Advanced Calculus (3)

Prerequisite(s): MTH 220 and MTH 293

This course studies the foundations of calculus, including convergence, limits, sequences and series of real numbers and functions, continuity, differentiation, and Riemann integrals.

MTH 396 Cooperative Education Work Experience: Parallel (3) EXP

Prerequisite(s): CED 220, MTH 220

Opportunity for students to work in an area to which mathematics is applied such as computers, statistics, business, or actuarial science. Credit is awarded upon successful completion of the work experience, documentation of predetermined Learning Agreement and evaluation of work performance. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

MTH 400 Senior Research (1)

Prerequisite(s): 21 hours of mathematics above MTH 193

(1 credit per semester taken in two semesters). Students work independently mentored by a faculty advisor on a topic that integrates mathematics learned in previous courses.

MTH 496 Cooperative Education Work Experience: Alternating (3) EXP

Prerequisite(s): CED 220, MTH 220

Opportunity for students to work in an area to which mathematics is applied such as computers, statistics, business, or actuarial science. Credit is awarded upon successful completion of the work experience, documentation of predetermined Learning Agreement and evaluation of work performance. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

MUS

MUS 000R Repertoire Class (0)

This is a class in which the music majors perform for one another in preparation for the public recital. Students research and deliver a verbal Program Notes as part of the performance and receive comments from faculty members. Attendance and participation is required for music majors.

MUS 000S Serv Lrng:Repertoire Class (1) EXP

Concurrent requisite(s): MUS 000R

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

MUS 101 Theory and Skills 1 (3)

Concurrent requisite(s): MUS 113

Studies in basic musicianship. Development of skills in clef reading, pitch identification, interval identification, basic melody writing and elementary harmonic analysis.

MUS 104A Studio Recording Lessons (1)

Prerequisite(s): MUS 101 and MUS 121

Weekly 50 minute lessons in the Art of Studio Recording.

This course can be repeated without any limit.

MUS 105 Piano I (3) CAM

Designed to teach piano basics in a useful and enjoyable manner. Students will experience a wide range of repertoire, 2-hand playing, left hand chord accompaniment with a melody, experience with various piano styles, and playing in an ensemble. Optional supplementary music will be provided each week for students wishing to learn more contemporary "pop" songs. Practice pianos are available.

MUS 106 Piano II (3)

Prerequisite(s): MUS 105

The following areas of piano skills will be covered: chord progressions, harmonization, harmonization with

two-hand accompaniments, improvisation, transposition, sight reading, repertoire, technique.

MUS 110 University Singers for Core (3) CAM

The University Singers is a choral performance class which performs a variety of choral music from all musical periods and styles. Both mixed (SATB) and women

MUS 110E University Singers (0-1)

University Singers is a choral performance class which performs a variety of choral music from all musical periods and styles. Both mixed (SATB) and treble (SSA) and sometimes lower voice (TTB) choral music will be prepared during the class time frame. There are no prerequisites and enrollment is open to all MSJ students. The group performs one or two concerts per semester and is occasionally featured at various university functions. This ensemble also may have the opportunity for off-campus performances as part of being a "Beacon to the Region."

This course can be repeated 8 times for credit.

MUS 110G Chamber Singers (0-1)

Chamber Singers is a smaller ensemble that will tackle more difficult repertoire and have faster-paced, more intense rehearsals. Chamber Singers will be called upon to do last-minute pop-up gigs, represent the choral program as ambassadors as needed, and perform at special events as needed. This group is open to anyone who is interested, and being a music major is not required. Auditions happen throughout the fall and spring semester and invitations to join Chamber Singers are offered prior to registration week each semester.

This course can be repeated 8 times for credit.

MUS 110J Voices of Gold (1)

Voices of Gold is an auditioned, competitive a cappella vocal ensemble.

This course can be repeated 8 times for credit.

MUS 117 Class Guitar (1)

This course provides the beginner guitarist with the fundamentals needed to read music, gain facility in playing and strumming chords, perform basic songs, and understand basic music theory. Each week students will meet to review and perform the previous weeks assignment in a group setting with some individual performance expected.

This course can be repeated 8 times for credit.

MUS 118 Theory and Skills 2 (3)

Prerequisite(s): MUS 101

Further studies in musicianship. The course will cover Harmonic Progression/Harmonic Rhythm, Secondary Dominants, Neopolitan and Augmented Sixth Chords, Modulation, Modal Mixture, Harmonic Analyses, and Contrapuntal Composition Techniques. Students will continue to develop analytical and compositional skills.

MUS 119 Acting Workshop (3) CAM

Acting Workshop is designed for students who are interested in exploring the acting process. Over the course of the semester students will build foundational acting skills including self-awareness, vocal/physical technique, script analysis, rehearsal process, improvisation, and general theatre terminology. These skills will be developed through a combination of readings, discussion, exercises, written analysis, and performance presentations. By the end of the semester students will have the fundamental skills allowing them to approach the world with curiosity, compassion, and confidence.

MUS 120 Band for Core (3) CAM

Prerequisite(s): Director Approval

The Band is open to all wind, brass, and percussion instrumentalists, by director approval. Drawing from

the wide variety of traditional and contemporary band literature, the ensemble performs two concerts in the University Theatre each semester, as well as other on and off campus events. This Ensemble provides students with the opportunity to rehearse and perform high quality repertoire with emphasis on individual and group musical improvement. Open to all music majors and non-music majors.

MUS 120B Rock Band: Joe Lion Experience (0-1)

Available to all qualified instrumentalists, featuring works for classical guitar, strings, brass and woodwinds. The ensemble performs a variety of music from all eras.

This course can be repeated 8 times for credit.

MUS 120E Lion's Roar Band (0-1)

The Lion's Roar Band is open to all wind, brass, and percussion instrumentalists, by director approval. It is a pep band that supports the University at home football and basketball games, and at a variety of other on and off campus events. The Band performs a diverse selection of music ranging from current Top 40 to classical and Broadway. Open to all music majors and non-music majors.

This course can be repeated 8 times for credit.

MUS 120F Concert Band (0-1)

The University Band is open to all wind, brass, and percussion instrumentalists, by director approval. Drawing from the wide variety of traditional and contemporary band literature, the ensemble performs two concerts in the University Theatre each semester, as well as other on and off campus events. This Ensemble provides students with the opportunity to rehearse and perform high quality repertoire with emphasis on individual and group musical improvement. Open to all music majors and non-music majors.

This course can be repeated 8 times for credit.

MUS 120J Jazz Band (0-1)

The Jazz Band performs a wide variety of styles, arranged for the Big Band format. There are typically 2 required Performances a semester, with others as needed.

This course can be repeated 8 times for credit.

MUS 120K Orchestra (1)

Open to all strings and other orchestral instruments as needed, music majors and non-music majors, by director's approval (director approval requires an audition). The Orchestra performs standard symphonic literature and "pops" orchestral repertoire. Members of the orchestra will develop a deeper sensitivity not only toward outstanding musicianship, but also to historical style, performance practices, aesthetics, discipline, and professionalism. Students do not need to take this course for credit to participate.

This course can be repeated 8 times for credit.

MUS 120L Percussion Ensemble (0-1)

Open to all percussion students, music majors and non-music majors. The Percussion Ensemble performs literature from both the traditional and contemporary ensemble repertoire. Members of the ensemble will develop a deeper sensitivity not only toward outstanding musicianship, but also to historical style, performance practices, aesthetics, discipline, and professionalism.

This course can be repeated 8 times for credit.

MUS 120N Lab Band (1)

The Lab Band is open to all instrumental musicians. The ensemble serves music majors as a learning laboratory for secondary instruments, and new instrumentalists as a chance to learn an instrument. All standard instruments may be accommodated, though contacting the director is encouraged.

This course can be repeated 8 times for credit.

MUS 121 Live Sound and Lights (1)

Experiential Course in Live Sound and Lighting. Students gain skills through event setup, assistance, operation, and tear down of actual Theatre Productions.

This course can be repeated without any limit.

MUS 122 Theatre Arts Ensemble (1) LAS

New Course

Theatre Arts Ensemble is an active theatre making experience. Members of the class will be participating, supporting, attending, and performing in public performances both on and off-campus. Theatre Arts Ensemble provides students with the opportunity to work on individual and group projects in areas of their expertise and interest. Enrollment in the group is open to all MSJ students by instructor approval.

This course can be repeated 8 to 10 times for credit.

MUS 123 Dance 101 (3) LAS

New Course

This course will focus on the beginning to advanced level of technique in different styles while focusing more on the student's technical ability and movement quality. Throughout the course of the semester, students will develop an increase sense of technical ability/skill, choreography, movement, and different techniques that will be continuously taught throughout the course along with the history of styles.

This course can be repeated without any limit.

MUS 131 World Music (3) CAM

A survey of the diversity of musical cultures. Emphasis will be devoted to music/musicians of Africa, North and South America, Eastern Europe, India, Indonesia, China, and Japan.

MUS 140 Piano (0.5)

Weekly half hour private instruction. For non-music majors who are interested in taking piano lessons as an elective (no prerequisite).

This course can be repeated 8 times for credit.

MUS 140A Piano (1)

Weekly one hour private instruction. For piano majors and very serious non-music majors. Audition required.

This course can be repeated 8 times for credit.

MUS 140P Piano and Pedagogy (0.5)

Prerequisite(s): Approval by instructor

This course will provide time for intensive study and analysis of pedagogical methods and graded repertoire of the area of study (as indicated by national teaching associations) through the support and resources of the instructor.

This course can be repeated 8 times for credit.

MUS 141 Organ (0.5)

Weekly half hour private instruction. Preparatory studies: Regatz, Peeters and Gleason. A substantial repertoire of Bach, Mendelssohn, Franck, Dupre, and other composers representative of the Baroque period through the 20th century.

This course can be repeated 8 times for credit.

MUS 141A Organ (1)

Weekly one hour private instruction.

This course can be repeated 8 times for credit.

MUS 150 Voice (0.5)

Weekly half hour private instruction. Principles of method and style periods. Uniform breath management, resonance, focus, and diction mark a beginning upon which may be built a stable and fluent technique.

This course can be repeated 8 times for credit.

MUS 150A Voice (1)

Weekly one hour private instruction. Principles of method and style periods. Uniform breath management, resonance, focus, and diction mark a beginning upon which may be built a stable and fluent technique.

This course can be repeated 8 times for credit.

MUS 150D Voice Lyric Diction Lesson (1)

This course will provide time for intensive study and analysis of pedagogical methods and graded repertoire of the area of study (as indicated by national teaching associations) through the support and resources of the instructor.

This course can be repeated 8 times for credit.

MUS 150P Voice & Pedagogy (0.5)

Prerequisite(s): Approval by Instructor

This course will provide time for intensive study and analysis of pedagogical methods and graded repertoire of the area of study (as indicated by national teaching associations) through the support and resources of the instructor.

This course can be repeated 8 times for credit.

MUS 160 Violin (0.5)

Weekly half hour private instruction. Technical facility in scales, arpeggios and violin studies. Baroque, Classical and Romantic concerti and sonatas and contemporary music.

This course can be repeated 8 times for credit.

MUS 160A Violin (1)

Weekly one hour private instruction. Technical facility in scales, arpeggios and violin studies. Baroque, Classical and Romantic concerti and sonatas and contemporary music.

This course can be repeated 8 times for credit.

MUS 161 Viola (0.5)

Weekly half hour private instruction. Technical requirements: major, minor scales and arpeggios. Studies by Krutetzer, Sitt, Rode, and Campagnoli; concerti by Handel, Mozart and Deberiot; sonatas by Brahms and Reger.

This course can be repeated 8 times for credit.

MUS 161A Viola (1)

Weekly one hour private instruction.

This course can be repeated 8 times for credit.

MUS 162 Cello (0.5)

Weekly half hour private instruction. To study the techniques and musical skills for playing the Cello.

This course can be repeated 8 times for credit.

MUS 162A Cello (1)

Weekly one hour private instruction. To study the techniques and musical skills for playing the Cello.

This course can be repeated 8 times for credit.

MUS 163 Bass (0.5)

Weekly half hour private instruction. To study the techniques and musical skills for playing the Doublebass

This course can be repeated 8 times for credit.

MUS 163A Double Bass (1)

This course can be repeated 8 times for credit.

MUS 164 Guitar (0.5)

Weekly 30 minute private instruction. Technical facility in scales, arpeggios and selected studies. Emphasis on contemporary guitar techniques.

This course can be repeated 8 times for credit.

MUS 164A Guitar (1)

Weekly one hour private instruction. Technical facility in scales, arpeggios and selected studies. Emphasis on contemporary guitar techniques.

This course can be repeated 8 times for credit.

MUS 165 Classical Guitar (0.5)

New Course

Weekly half-hour private instruction. Emphasis on Classical Guitar.

This course can be repeated 8 times for credit.

MUS 165A Classical Guitar (1)

New Course

Weekly one hour private instruction. Emphasis on Classical Guitar.

This course can be repeated 8 times for credit.

MUS 170 Harp (0.5)

Weekly half hour private instruction. Technical studies, etudes, preludes, orchestral, and ensemble parts from Salzedo, Naderman, Vito, David. Original works and transcriptions from composers of classical, romantic and modern periods.

This course can be repeated 8 times for credit.

MUS 170A Harp (1)

Weekly one hour private instruction. Technical studies, etudes, preludes, orchestral, and ensemble parts from Salzedo, Naderman, Vito, David. Original works and transcriptions from composers of classical, romantic and modern periods.

This course can be repeated 8 times for credit.

MUS 180 Flute & Piccolo (0.5)

Weekly half hour private instruction. Studies by Kohler, Anderson, Altes, Karg-Elert, JeanJean. Representative works by Handel, Bach, Mozart, Schubert, Debussy, other French composers. Prokofiev, Berio and other 20th century composers.

This course can be repeated 8 times for credit.

MUS 180A Flute & Piccolo (1)

Weekly one hour private instruction. Studies by Kohler, Anderson, Altes, Karg-Elert, JeanJean. Representative works by Handel, Bach, Mozart, Schubert, Debussy, other French composers. Prokofiev, Berio and other 20th century composers.

This course can be repeated 8 times for credit.

MUS 181 Clarinet (0.5)

Weekly half hour private instruction. Studies by Klose, Rose, Perier, JeanJean, Jetti. Representative works by Schumann, Von Weber, Mozart, Brahms, Stravinsky, and others. Single reed making and adjusting.

This course can be repeated 8 times for credit.

MUS 181A Clarinet (1)

Weekly one hour private instruction. Studies by Klose, Rose, Perier, JeanJean, Jetti. Representative works by Schumann, Von Weber, Mozart, Brahms, Stravinsky, and others. Single reed making and adjusting.

This course can be repeated 8 times for credit.

MUS 182 Saxophone (0.5)

Weekly half hour private instruction. Open to all students. This course will include discussion and understanding music fundamentals, and building a foundation for saxophone performance in any style.

This course can be repeated 8 times for credit.

MUS 182A Saxophone (1)

Weekly one hour private instruction. Open to music majors. Primary focus will be performance of standard repertoire, scales and etudes. Pedagogy, professional expectations, and equipment will also be discussed.

This course can be repeated 8 times for credit.

MUS 183 Oboe (0.5)

Weekly half hour private instruction. Studies by Barret, Ferling, Andraud, Labate, Bleuzet. Representative works by Dittersdorf, Marcello, Handel, Telemann, Schumann, Mozart, Vivaldi. Double reed making and adjusting.

This course can be repeated 8 times for credit.

MUS 183A Oboe (1)

Weekly one hour private instruction. Studies by Barret, Ferling, Andraud, Labate, Bleuzet. Representative works by Dittersdorf, Marcello, Handel, Telemann, Schumann, Mozart, Vivaldi. Double reed making and adjusting.

This course can be repeated 8 times for credit.

MUS 184 Bassoon (0.5)

Weekly half hour private instruction. Studies by Weissenborn, Milde, Bitsch. Representative works by Wolf-Ferrari, Elgar, Mozart, Von Weber, Vivaldi, Bach. Double reed making and adjusting.

This course can be repeated 8 times for credit.

MUS 184A Bassoon (1)

Weekly one hour private instruction. Studies by Weissenborn, Milde, Bitsch. Representative works by Wolf-Ferrari, Elgar, Mozart, Von Weber, Vivaldi, Bach. Double reed making and adjusting.

This course can be repeated 8 times for credit.

MUS 190 Trumpet (0.5)

Weekly half hour private instruction. Studies by St. Jacome, Charles, Clarke, Maxime-Alphonse, and Pietzsch. Representative solo literature by Haydn, Mozart, Faure, Hindemith, Clarks, Sowerby, and other 20th century composers.

This course can be repeated 8 times for credit.

MUS 190A Trumpet (1)

Weekly one hour private instruction. Studies by St. Jacome, Charles, Clarke, Maxime-Alphonse, and Pietzsch. Representative solo literature by Haydn, Mozart, Faure, Hindemith, Clarks, Sowerby, and other 20th century composers.

This course can be repeated 8 times for credit.

MUS 191 French Horn (0.5)

Weekly half hour private instruction. Studies by Kopprasch, Huth, Maxime-Alphonse, and Hauser. Representative solo literature by Haydn, Mozart, Beethoven, Hindemith, Bassett, Jacob, and other 20th century composers.

This course can be repeated 8 times for credit.

MUS 191A French Horn (1)

Weekly one hour private instruction. Studies by Kopprasch, Huth, Maxime-Alphonse, and Hauser. Representative solo literature by Haydn, Mozart, Beethoven, Hindemith, Bassett, Jacob, and other 20th century composers.

This course can be repeated 8 times for credit.

MUS 192 Trombone/Baritone (0.5)

Weekly half hour private instruction. Studies by Blume, Vobaron, Paudert, and Blazhevich. Representative solo literature by Bach, Gaubert, De La Lux, Saint-Saens, Coker, Blazhevich, other 20th century composers, and appropriate selections from the literature for bassoon and violoncello.

This course can be repeated 8 times for credit.

MUS 192A Trombone/Baritone (1)

Weekly one hour private instruction.

This course can be repeated 8 times for credit.

MUS 193 Tuba (0.5)

Weekly half hour private instruction. Studies by Blume, Slama, Bell, and Gregoriev. Representative solo literature by Bach (Bell), Frankkiser, Rossini (Hume), Persichetti, Martelli, Beversdorf, Williams, other 20th century composers, and appropriate selections from the literature for trombone, bassoon and violoncello.

This course can be repeated 8 times for credit.

MUS 193A Tuba (1)

Weekly one hour private instruction. Studies by Blume, Slama, Bell, and Gregoriev. Representative solo literature by Bach (Bell), Frankkiser, Rossini (Hume), Persichetti, Martelli, Beversdorf, Williams, other 20th century composers, and appropriate selections from the literature for trombone, bassoon and violoncello.

This course can be repeated 8 times for credit.

MUS 194A Jazz Trumpet (1)

Weekly one hour private instruction. Studies in jazz trumpet styles and repertoire.

MUS 195 Percussion (0.5)

Weekly half hour private instruction. Studies in the representative literature of snare drum, timpani, keyboard percussion, multiple percussion, accessories, drum set and world percussion. Includes discussion and instruction in the technical, physical, musical, and logistical factors in preparing music for solo, chamber, and large ensemble performance settings.

This course can be repeated 8 times for credit.

MUS 195A Percussion (1)

Weekly one hour private instruction. Studies in the representative literature of snare drum, timpani, keyboard percussion, multiple percussion, accessories, drum set and world percussion. Includes discussion and instruction in the technical, physical, musical, and logistical factors in preparing music for solo, chamber, and large ensemble performance settings.

This course can be repeated 8 times for credit.

MUS 200 Composition (1)

Prerequisite(s): Music major or approval of instructor

Students learn techniques and ideas of composition, including but not limited to elements of melody, harmony, rhythm, form, counterpoint. Studies include consideration of existing music styles, cultural implications, context and philosophy of music. Students are expected to utilize technological tools for notation of music and computer realization of arrangements. Exercises in compositional technique lead to fully realized compositions for public performance.

MUS 212 American Popular Music: From Minstrelsy to MP3 (3) CAM

This course is intended to help you think creatively and critically about popular music. We will study the most significant styles of American music in chronological order, beginning with the roots and continuing through the present day. We will explore several recurring themes throughout the course: (1) The interaction of European American, African American, and Latin American traditions; (2) The influence of mass media and technology (printing, recording, radio, video, Internet); (3) The role of popular music as a symbol of identity (race, class, gender, generation).

MUS 213 Church Music and Worship (3)

This course will provide musicians with the skills and knowledge to plan, prepare and lead music for worship. From Catholic ritual to Contemporary worship, discover why music is the core element of the Christian celebration, and learn to implement these skills in a church setting.

MUS 233 Listen to This: Musical Masterworks from the Middle Ages to 1750 (3) CAM

The great composers and their works in context: personal, artistic, philosophical, social, economic and religious backgrounds and circumstances. From the beginnings to 1750.

MUS 234 Listen to This: Musical Masterworks from 1750 to Present (3) CAM

The great composers and their works in context: personal, artistic, philosophical, social, economic, and religious backgrounds and circumstances. From 1750 to the 21st Century.

MUS 246 Mus Exp For Young Children (3) CAM

Music and music making in childhood with particular focus on developmentally appropriate experiences in pre-kindergarten and child care/preschool settings as well as for the K-3 grades. For early childhood education and special education majors.

MUS 307 Theory and Skills 3 (3)

Prerequisite(s): MUS 101, MUS 118

Further studies in musicianship. Transpositions, Phrases, Periods, Motives, Musical Forms from Teoria,

MUS 309 Game Music Lab (1)*Prerequisite(s):* MUS 101, MUS 121

Study of Game Music with the express aim of learning to use current trends and techniques to compose and implement computer generated or recorded music into Games.

This course can be repeated without any limit.

MUS 311 Film Music Lab (1)*Prerequisite(s):* MUS 101, MUS 121

Study of Film Music with the express aim of learning to use current trends and techniques to compose and implement computer generated or recorded music into Film.

This course can be repeated without any limit.

MUS 343 Methods of Music I (3)

Strategies, models, methodologies for guiding the musical needs and experiences of children age pre-school through grade 6. Music teaching/learning will incorporate Kodaly, Orff and Dalcroze theories, multiculturalism and the use of music technology. For music majors. Field experience.

MUS 344 Methods of Music II (4)

Instructional strategies and resources for developmentally appropriate music for learners from grade 7 through age 21. Areas of vocal, instrumental and general music will encompass teaching methodologies and models of curriculum integration. Resources will include those of multiculturalism and technological advance. For music majors. Field experience.

MUS 350 Special Topics (1-3)

Independent study courses. Topics are determined according to student needs.

This course can be repeated 8 times for credit.

MUS 396 Cooperative Education Work Experience: Parallel (1-3) EXP*Prerequisite(s):* CED 220

A music related work experience supervised by music faculty in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, evaluation of work performance and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

MUS 403 Basic Conducting (3)

Basic conducting patterns and conducting techniques for vocal and instrumental ensembles will be addressed. The course will also focus on score reading preparation, rehearsal techniques, repertoire selection, and writing for small ensembles.

MUS 404 Theory and Skills 4 (3)*Prerequisite(s):* MUS 101, MUS 118, MUS 307

Studies in Style, focusing on the Western Art Music Tradition, and the ensuing American tradition of music. Further studies in basic musicianship, including the vocal execution of themes, and aural recognition of chords, qualities, as well as various transcription skills.

MUS 405 Senior Recital (1)*Prerequisite(s):* Music Major with 6 hours of Applied Lessons (MUS 140A-MUS 200A)

Senior Recital is the culmination of a student's private lesson study. Taken with their applied instructor, the Senior Recital course readies students for a final public recital, featuring themselves. Prior to the Recital Event, students must pass a Recital Hearing, where they perform their intended Recital Repertoire for their private instructor, as well as at least 2 other selected members of the Music Department. A pass on the

Recital Hearing will approve their Recital to take place, and successful completion of the Recital Hearing, and Recital, shall consist a Pass for the course.

MUS 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): CED 220

A music related work experience supervised by music faculty in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, evaluation of work performance and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

NLP

NLP 105 Introduction to Linguistics for Computer Scientists (3)

In this class, we will explore common questions that linguistics answers such as: Where did English come from? Why do people have accents? If a baby hears two languages, will the baby be confused? The course will explore language structure (syntax), language in culture and use (pragmatics), word parts (morphology), and the sounds of human speech (phonetics and phonology). Expect to dive into fun projects, like teaching people to speak English, creating your own language, and finding out where your favorite words came from and why. This course provides necessary conceptual background for students interested in corpus linguistics and natural language processing and is a prerequisite to Introduction to Language and Computers.

NLP 106 Introduction to Secondary Research Methods (3)

Have you ever heard on the news "scientists have discovered" ...says who, where? Or what about a medical procedure or a drug...how do we know what kind of research has been done...is it safe? If you have ever wondered about these type of questions, this course is for you. We will learn how to find and interpret academic and scientific articles in order to find answers to real world questions. We will learn to think critically about things that may impact the value of the research, such as sample selection and researcher bias. We will also work together to write an article with the view of submitting it to a journal or conference for publication. Natural language processing and computational linguistics requires a deep understanding of the real-world problems at hand and whether the computer derived solutions indeed work as intended in the messy contexts of workplaces and society-at-large. This course will prepare students to be critical consumers of information about the problems they are trying to solve and is a prerequisite to Introduction to Primary Research Methods.

NLP 120 Principles of NLP Programming I (3)

Prerequisite(s): MTH 165

This course will enable students to develop an understanding of the basic concepts and considerations of structured and object-oriented programming methodologies and be able to apply these concepts appropriately to solve a variety of real-world problems using Natural Language Processing (NLP) algorithms from existing open source libraries. INF 120 can be substituted for this course for CS-NLP double major students.

NLP 125 Introduction to Language and Computers (3)

Prerequisite(s): NLP 105

If you've ever wondered how your phone knows what you're going to type or how Google knows what you're trying to buy, this course will answer your questions. Using examples from technology and media we use every day, this course will overview basic concepts related to corpus linguistics (using a big collection of language to understand how language works) and natural language processing (understanding what language is trying to say and often using that information to make real time decisions). Working together, we will engage in hands-on activities and projects using corpus linguistics and natural language processing tools. We will also contemplate what all the advancements in technology mean to our daily work (are robots going to take

over?) and privacy (who or what is listening to us and how and why?).

NLP 126 Introduction to Primary Research Methods (3)

Prerequisite(s): NLP 106

The first step to solving a problem, in computer science and other concentration areas, is narrowing the problem down and developing a plan of attack. Suppose we have a formal business or computer problem - and we determine that no one else has ever answered our exact question - how would we go about finding the answer? In this course you will learn how to develop and refine your own research question and conduct a mini-study using proper research theory and methods to look for answers. You will have the opportunity to explore pathways towards publishing or presenting your research.

NLP 221 Principles of NLP Programming II (3)

Prerequisite(s): NLP 120

Students will expand their knowledge of concepts and considerations of structured and object-oriented programming methodologies mastered in NLP 120 by learning approaches for development of reliable, highly maintainable, and re-usable NLP projects. To this end, students will expand their knowledge of object-oriented design approaches through the introduction to encapsulation, inheritance, polymorphism, and abstraction. Students will utilize these approaches to expand the project they developed in NLP 120. Additional topics include systems development lifecycle (SDLC), multi-dimensional arrays, exception handling, addresses, pointers, and dynamic storage allocation. INF 221 can be substituted for this course for CS-NLP double major students.

NLP 230 Applications of Database & Design Development for NLP Programming (3)

Prerequisite(s): NLP 120, INF 120, or equivalent

In addition to providing an introduction to fundamental database concepts including current relational database modeling, file management, data definition, and standards, students will learn to develop structured query language (SQL) statements to develop, retrieve, manipulate, and maintain NLP data generated in in their previously developed projects. Students will learn to use complex and compound criteria from multiple tables to develop appropriate reports and perform data analysis of the NLP data stored in the relational database. Additionally, students will explore some contemporary non-relational databases. INF 230 can be substituted for this course for CS-NLP for double major students.

NLP 250 Web Fundamentals and NLP Programming (3)

Prerequisite(s): NLP 105, NLP 120, NLP 230 or equivalent

This course is intended to equip students with robust understanding of the fundamentals of current and proposed standards for HTML, XHTML and CSS. Using this knowledge, the students will develop web applications aimed at expanding their existing project developed in NLP 230. This course also examines various multimedia formats (images, audio, video, sound and animation), web standards and user accessibility. INF 250 can be substituted for this course for CS-NLP double major students.

NLP 270 Creating NLP-Driven Mobile Applications (3)

Prerequisite(s): NLP 221/INF 221and NLP 230

In this course, students will be introduced to the foundations of mobile app development and its unique requirements and constraints. Students will create a mobile app for their NLP web project created in NLP 230. Students will learn the requirements and design decisions tied to mobile application development and how they relate to limited resources available on mobile devices are emphasized. INF 270 can be substituted for this course for CS-NLP double major students.

NLP 340 Directed Research (1-3)

New Course

In this course, the student will design and conduct Natural Language Processing research under the direction of an NLP faculty member. The student will collect and interpret the data gathered and will present the results of the work as agreed upon by the student and his or her research advisor. Normally this will include a presentation at the University's annual Celebration of Teaching and Learning and at a regional conference or authoring a written paper.

NLP 350 Applied Social Computing (3)

New Course

Applied Social Computing: The goal of this course, taken towards the end of the student's Mount education, is to synthesize the student's Mount experience and aid students in acquiring real-life technical, professional, and research skills. In this course, students will select from one of several possible research and/or technology projects that are associated with the Mount. Students will participate in their selected projects to review relevant professional and/or academic literature, conduct a needs analysis and/or develop their project's technical specifications, and then map out a project goals timeline document. At the end of the term, students will present their experiences and their project to stakeholders and the Social Computing faculty and students.

NUR

NUR 100 Health Promotion (3)

Prerequisite(s): BIO 197 and BIO 197A with grade of C or higher, Nursing major or permission of the BSN Program Director

Corequisite(s): CHE 104 and CHE 104A

In this course, students explore the concept of health promotion in terms of exercise, sleep, stress, self-concept, with an emphasis on nutrition. The health-illness continuum is examined, with a focus on strategies that promote health and well-being in today's health care system. Throughout the course, students perform a variety of assessments and design an individualized health and wellness plan for self or others.

NUR 205 Health Assessment Across the Lifespan (3)

Prerequisite(s): BIO 198/198A, CHE 104/104A, PSY 103, SOC 103, NUR 100

Corequisite(s): NUR 210/210A/210C

Concurrent requisite(s): NUR 205A

This course presents the art and science of assessing the health of clients across the lifespan. The content addresses the purpose and method of obtaining a comprehensive holistic client database using a nursing assessment model. The use of effective communication techniques to obtain assessment data is addressed. Deviations in health patterns are identified by comparing assessment data to norms, standards and theories. Assessment findings are documented in a manner appropriate for an interdisciplinary health care community.

NUR 205A Health Assessment Across the Lifespan-Lab (0)

Prerequisite(s): BIO 198/198A, CHE 104/104A, PSY 103, SOC 103, NUR 100

Corequisite(s): NUR 210/210A/210c

Concurrent requisite(s): NUR 205

Course description as stated in NUR 205

NUR 207 Population-Focused Primary Health Care Nursing (4)

Prerequisite(s): NUR 220/220A/220C, NUR 317/317A, NUR 280

Corequisite(s): NUR 360/360C, NUR 430

Concurrent requisite(s): NUR 207C

This course explores the role and responsibilities of the professional nurse beyond the acute care setting and into the global community. The focus is on promoting health in communities, examining the health care system to advocate for clients, and utilizing epidemiological principles to understand global health risks. Students begin to use the nursing process to plan culturally sensitive care that addresses a variety of aggregate health concerns such as violence, poverty, homelessness, and communicable diseases.

NUR 207C Population-Focused Primary Health Care Nursing-Clinical (0) EXP

Concurrent requisite(s): NUR 207

This course explores the role and responsibilities of the professional nurse beyond the acute care setting and into the global community. The focus is on promoting health in communities, examining the health

care system to advocate for clients, and utilizing epidemiological principles to understand global health risks. Students begin to use the nursing process to plan culturally sensitive care that addresses a variety of aggregate health concerns such as violence, poverty, homelessness, and communicable diseases.

NUR 207S Serv Lrng:Population-Focused Primary Health Care Nursing (1) EXP

Concurrent requisite(s): NUR 207

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

NUR 210 Foundations Patient-Centered Nursing Care (5)

Prerequisite(s): BIO 198/198A, CHE 104/104A, PSY 103, SOC 103, NUR 100

Corequisite(s): NUR 205/205A, BIO 215/215A, PSY 204

Concurrent requisite(s): NUR 210A/210C

This course introduces the student to the foundations of the art and science of nursing. The evolution of professional nursing and the history of health care are explored as the basis for the practice of patient-centered nursing care. The concepts fundamental to professional nursing such as nursing process, ethics, legalities, human diversity, and communication are emphasized. Application of the concepts and content fundamental to the practice of nursing is addressed in an on-campus skills laboratory and in clinical settings in the community.

NUR 210A Foundations of Patient-Centered Nursing Care - Lab (0)

Concurrent requisite(s): NUR 210/210C

Course description as stated in NUR 210

NUR 210C Foundations of Patient-Centered Nursing Care - Clinical (0) EXP

Concurrent requisite(s): NUR 210/210A

Course description as stated in NUR 210

NUR 210S Serv Lrng: Foundations Patient- Centered Nursing Care (1) EXP

Concurrent requisite(s): NUR 210

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

NUR 220 Medical-Surgical Nursing I: Common/Chronic Conditions (6)

Prerequisite(s): NUR 205/205A, NUR 210/210A/210C, BIO 215/215A, PSY 204

Corequisite(s): NUR 317/317A

Concurrent requisite(s): NUR 220A/220C

This course builds on the concepts introduced in Foundations of Patient Centered Nursing Care. The focus is the health promotion, health maintenance and illness/disease management for individuals experiencing common/chronic health conditions. Critical thinking skills are enhanced as evidence-based practice is presented and discussed when planning care. Clinical experiences allow students to develop caring relationships, and use therapeutic communication, collaboration, assessment and developmentally appropriate interventions as they provide patient-centered care. Other concepts integrated throughout the course include ethics, legalities, professional role, information literacy, health care technology and human diversity.

NUR 220A Medical-Surgical Nursing I: Common/Chronic Conditions-Lab (0)

Concurrent requisite(s): NUR 220/220C

Course description as stated in NUR 220

NUR 220C Medical-Surgical Nursing I: Common/Chronic Conditions- Clinical (0) EXP

Concurrent requisite(s): NUR 220/220A

Course description as stated in NUR 220

NUR 280 Pathophysiology: A Nursing Perspective (3)

Prerequisite(s): BIO 197/197A, BIO 198/198A, CHE 104/104A/104R, and BIO 215/215A

This course examines alterations in biological processes that affect homeostasis with an emphasis on disorders of body systems. Causes, pathogenesis, and compensatory mechanisms for disease states are discussed. Cellular, genetic and tissue changes in infection, inflammation, immunity, fever, and tissue repair are explored.

NUR 317 Pharmacology and Medication Administration (4)

Prerequisite(s): NUR 205/205A, NUR 210/210A/210C, BIO 215/215A

Corequisite(s): NUR 220/220A/220C

Concurrent requisite(s): NUR 317A

This course explores: Basic mechanisms of drug action, indications and contraindications of drug therapy; nursing interventions related to dosage; and therapeutic effects as well as toxic and expected side effects of various medications. Emphasis will focus on the care of clients receiving medication across the life span and in culturally and socioeconomically diverse settings. Techniques involved in the calculation of drug dosages, regulation and maintenance of controlled substances, I.V. therapy and administration of medications in parenteral and non-parenteral forms are presented and practiced.

NUR 317A Pharmacology and Medication Administration LAB (0)

Concurrent requisite(s): NUR 317

Course description as stated in NUR 317

NUR 320 Medical-Surgical Nursing II: Acute/Chronic Conditions (6)

Prerequisite(s): NUR 207/207C, NUR 360/360C, NUR 430

Corequisite(s): NUR 370/370C

Concurrent requisite(s): NUR 320C

This course explores the needs of patients and families experiencing acute/chronic medical/surgical conditions. The focus of nursing care is on the health promotion, health maintenance and illness/disease management for individuals experiencing acute/chronic health conditions. Sound research evidence and clinical judgment provide the foundation upon which students base nursing practice. Clinical experiences allow students to develop caring relationships and use therapeutic communication, collaboration, assessment and developmentally appropriate interventions as they provide patient-centered care. Concepts integrated throughout the course include ethics, legalities, professional role, information literacy, health care technology and human diversity.

NUR 320C Medical-Surgical Nursing II: Acute/Chronic Conditions- Clinical (0) EXP

Concurrent requisite(s): NUR 320

Course description as stated in NUR 320

NUR 360 Family-Centered Maternity Nursing (4)

Prerequisite(s): NUR 317/317A, NUR 220/220A/220C, NUR 280

Corequisite(s): NUR 207/207C, NUR 430

Concurrent requisite(s): NUR 360C

This course explores the needs of patients and families experiencing the childbearing process, including normal and high-risk health conditions. The focus of nursing care is health promotion, health maintenance, and illness/disease management for the childbearing patient (mom and baby) and family. Sound research evidence and clinical judgment provide the foundation upon which students base nursing practice.

Clinical experiences allow students to develop caring relationships, and use critical thinking, therapeutic communication, collaboration, assessment, and developmentally appropriate interventions as they provide family-centered care. Concepts integrated throughout the course include ethics, legalities, professional role, information literacy, health care technology, and human diversity.

NUR 370H HON:Patient-Centered Nursing Nursing in Mental Health (0)

Course description as stated in NUR 370 (Honors Course)

NUR 396 Co-Op:Parallel(PT) (1-3) EXP

A part-time work related experience supervised by a faculty coordinator in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation of predetermined learning agreement and evaluation of work performance. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

NUR 410 Medical-Surgical Nursing III: Complex Conditions I (5)

Prerequisite(s): NUR 320/320C, NUR 370/370C

Corequisite(s): NUR 460/460C, NUR 470

Concurrent requisite(s): NUR 410C

This course explores the needs of patients and families experiencing complex medical/surgical conditions. The focus of nursing care is on the health promotion, health maintenance and illness/disease management for individuals experiencing complex health conditions. Sound research evidence and clinical judgment provide the foundation upon which students base nursing practice. Clinical experiences allow students to develop caring relationships, and use therapeutic communication, collaboration, assessment and developmentally appropriate interventions as they provide patient-centered care. Concepts integrated throughout the course include leadership and management, delegation, ethics, legalities, professional role, information literacy, health care technology and human diversity.

NUR 410C Medical-Surgical Nursing III: Complex Conditions I-Clinical (0) EXP

Concurrent requisite(s): NUR 410
Course description as stated in NUR 410

NUR 420 Medical-Surgical Nursing IV: Critical Care (5)

Prerequisite(s): NUR 410/410C, NUR 430, NUR 460/460C, NUR 470

Corequisite(s): NUR 421

Concurrent requisite(s): NUR 420C

This course explores the needs of patients and families experiencing life-threatening medical/surgical conditions. The focus of nursing care is on the health promotion, health maintenance and illness/disease management for individuals experiencing critical health conditions. Sound research evidence and clinical judgment provide the foundation upon which students' base nursing practice. Clinical experiences allow students to develop caring relationships, and use therapeutic communication, collaboration, assessment and developmentally appropriate interventions as they provide patient-centered care. Students will develop professional practice behaviors while working with a variety of healthcare professionals in the clinical setting. Concepts integrated throughout the course include ethics, legalities, professional role, information literacy, health care technology and human diversity.

NUR 420C Medical-Surgical Nursing IV: Critical Care-Clinical (0) EXP

Concurrent requisite(s): NUR 420

Course description as stated in NUR 420

NUR 421 Transition to Professional Nursing (2)

Prerequisite(s): NUR 420/NUR 420C and must have successfully completed all nursing courses

This course is the culminating clinical course of the baccalaureate nursing program. The focus is on socializing the student into the professional role of nursing. Throughout the course students collaborate with a professional nurse, further developing practice competencies including: communication, collaboration, critical thinking, teaching/learning, leadership and management, coordination and evaluation of patient care. Students also engage in activities in which they integrate knowledge and practice experiences from current and previous learning in nursing and the liberal arts and sciences.

NUR 430 Research for the Health Sciences (3)

Prerequisite(s): NUR 220/220A/220C, NUR 317/317A, NUR 280

Corequisite(s): MTH 174

Research in the Health Sciences focuses on the interaction of the components of the research process with application to the theory and practice of healthcare. This course emphasizes the critical appraisal and utilization of health-related research including selected theories and ethical considerations. Critical and reflective thinking, as a health care clinician who provides evidence based practice, will be emphasized.

NUR 452 Independent Study (1-3)

Independent Study, repeatable up to a total of 3 credit hours; 3 total credit hours can only be exceeded at the discretion of the student's Department of Nursing Academic Advisor.

NUR 460 Family-Centered Pediatric Nursing (4)

Prerequisite(s): NUR 320/320C, NUR 370/370C

Corequisite(s): NUR 410/410C, NUR 470

Concurrent requisite(s): NUR 460C

This course explores the needs of children and families experiencing common and complex health conditions. The focus of nursing care is health promotion, health maintenance, risk reduction and illness and disease management for the child and family. Sound research evidence and clinical judgment provide the foundation upon which students base nursing practice. Clinical experiences allow students to develop caring relationships, and use critical thinking, therapeutic communication, collaboration, assessment, and developmentally appropriate interventions as they provide family-centered care. Concepts integrated throughout the course include ethics, legalities, professional role, information literacy, health care technology, and human diversity.

NUR 460C Family-Centered Pediatric Nursing-Clinical (0) EXP

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

NUR 470 Leadership in Professional Nursing (2)

Prerequisite(s): NUR 320/320C, NUR 370/370C, NUR 430

Corequisite(s): NUR 410/410C, NUR 460/460C

This course explores leadership, management, and followership in the context of professional nursing in a variety of health care delivery systems. With an emphasis on nursing responsibilities, it prepares the student to implement effective leadership behaviors in the beginning practice role. Concepts emphasized in this course are: empowerment, negotiation, delegation, change, conflict resolution, team building, and case management.

NUR 470H HON:Leadrsph in Professional Nursing (0)

Concurrent requisite(s): NUR 470

Course description as stated in NUR 470 (Honors Course)

NUR 496 Co-Op:Alternatng(FT) (1-3) EXP

A full-time work related experience supervised by a faculty coordinator in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation of predetermined learning outcomes and evaluation of work performance. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

PHI

PHI 140 Philosophical Point of View (3) CP

This course provides the student with an understanding of the particular perspective from which philosophers consider the world and human experience.

PHI 140H HON:Philosophical Point of view (0) CP

Concurrent requisite(s): PHI 140

Course description as stated in PHI 140 (Honors Course)

PHI 200 Perspectives on Human Nature (3) CP

This course emphasizes the importance of our views concerning what it means to be human and the effect of these views on human experience and personal identity. Attention will be given to major views within the history of philosophy or to various ways humanity relates to the world.

PHI 205 Philosophy of Mind (3) CP

This course introduces students to contemporary and historical perspectives on the mind and its relation to the brain. Topics such as thought, language, emotion, mental causation, and consciousness will be explored.

PHI 205S Serv Lrng:Philosophy of Mind (1) EXP

Concurrent requisite(s): PHI 205

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

PHI 220 Political Philosophy (3) CP

An examination of major political theories and ideologies from antiquity to modern times. Among the writers considered: Plato, Aristotle, St. Augustine, Niccolo Machiavelli, Thomas Hobbes, John Locke, Jean-Jacques Rousseau, Edmund Burke, John Stuart Mill, Karl Marx, Henry David Thoreau, and Mohandas Gandhi.

PHI 220H HON: Political Philosophy (0) CP

Concurrent requisite(s): PHI 220

Course description as stated in PHI 220 (Honors Course)

PHI 285 Philosophy of Art (3) CP

This course investigates the place of art in life as a whole. Emphasis will be placed on the function of art, the nature of art, and major theories of art as presented in the Eastern and Western philosophical traditions.

PHI 398 Independent Study (1-3) LAS

This course is designed for students who wish to study an area of their own interest independently. Permission of an instructor is required.

This course can be repeated 2 times for credit.

PHI 398H HON: Independent Study (1-3) LAS

Course description as stated in PHI 398 (Honors Course)

PHY

PHY 105 Physical Science L/L (4) CN

Prerequisite(s): MTH 098 or equivalent

Basic laws and principles governing the nature of matter and forms of energy are considered with an emphasis given to astronomy. Concepts are related to the student's environment. This course is designed primarily for the non-science student. Lecture, lab.

PHY 130 Astronomy Lecture & LAB (4) CN

Prerequisite(s): MTH 097 or equivalent OR MTH 098 or equivalent

Introduction to astronomy including: observations of the sky and how they are effected by Earth's motion; the evolution of astronomical thought; the tools that astronomers use; the Solar System; the nature and evolution of stars and galaxies; and the evolution of the universe. Lecture and laboratory.

PHY 201 General Physics I (3)

Prerequisite(s): MTH 187 or equivalent

Concurrent requisite(s): PHY 201A

Fundamental principles, laws, and theories of mechanics, energy, and momentum. Lecture.

PHY 201A Gen Physics I (LAB) (1)*Concurrent requisite(s):* PHY 201

Laboratory applications of the concepts introduced in PHY 201.

PHY 202 General Physics II (3)*Prerequisite(s):* PHY 201, PHY 201A*Concurrent requisite(s):* PHY 202A

Fundamental principles, laws, and theories of heat, sound, light, electricity, and relativity. Lecture.

PHY 202A Gen Physics II (LAB) (1)*Concurrent requisite(s):* PHY 202

Laboratory applications of the concepts introduced in PHY 202.

PHY 202H General Physics II (0)*Concurrent requisite(s):* PHY 202

Course description as stated in PHY 202 (Honors Course)

PHY 264 Physical/Chemical Forensics (4)*Prerequisite(s):* One of the following core sciences: BIO 101, BIO 110, BIO 111, BIO 131, BIO 197, CHE 104, CHE 105, or PHY 105; plus MTH 098 (or equivalent), and COM 100.

This course explores some of the chemistry and physics applications within forensic science, such as fibers, paints, glass, soil, questioned documents, firearms and toolmarks, blood spatter, fires and explosions, forensic engineering, digital evidence, forensic chemistry, toxicology and illicit drugs. Students will research appropriate topics, obtain, analyze, and interpret data, and present their results in oral and written formats. Lecture and Laboratory.

PRM

PRM 333 Primary Math Practicum (1) EXP*Prerequisite(s):* EDU 207*Corequisite(s):* SPR 336 or SPR 337

This practicum provides students with practical and pedagogical applications of the concepts and skills found within the discipline of mathematics. Each MSJ undergraduate student will participate for at least 50 hours, under supervision, as a pre-service instructor within the primary classroom setting.

PRM 444 Primary Student Teaching (6-12) (6-12) EXP*Prerequisite(s):* Prerequisite(s): Admission to School and permission from Clinical Experience Director and EDU 207

The student will experience fifteen weeks of supervised teaching in primary setting approved by the Ohio Department of Education. The student teacher will plan and implement a variety of learning experiences for young children grades pre-K through 3rd 5th gradually taking responsibility for the entire program. The student teacher will be evaluated by the cooperative teacher, university supervisor and key faculty.

PSC

PSC 201 American National Government (3)

An introduction to the American political system, its structure and historical evolution. The role of political parties, the media and interest groups are considered.

PSY

PSY 103 Introduction to Psychology (3) CEP

An introduction to the scientific study of human behavior and mental processes, including the basic terminology, methods, principles, and theories of psychology.

PSY 103H HON:Intro Psychology (3) CEP

Course description as stated in PSY 103 (Honors Course)

PSY 103S Serv Lrng:Intro Psychology (1) EXP

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

PSY 205 Child/Adolescent Development (3)

Prerequisite(s): PSY 103 or PSY 103H

A comprehensive study of human development from conception through adolescence. Principles and theories of development with emphasis on their application to the prenatal, infancy, childhood, and adolescent stages of life. Effects of genetic and social factors on the adaptive capacities of the child. Emphasis on empirically-obtained information. [Not intended for students taking PSY 204.]

PSY 207 Educational Psychology (3)

Educators must design learning experiences based on sound research and theory. This course provides an overview of major educational theories and the associated research for understanding student factors,

environments, instructional strategies and interactions that promote learning. A focus is on the development of reflective practice which draws upon this knowledge to make and justify effective teaching decisions.

PSY 208 Social Psychology (3)

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H or SOC 103

Crosslisted SOC 208. The study of how we think about, relate to and influence one another. Social perception, attitudes, social influence, prejudice, aggression, and attraction are examined.

PSY 208S Serv Lrng:Social Psych (1) EXP

Concurrent requisite(s): PSY 208

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

PSY 210 Sensation and Perception (3)

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H

Students will examine the processes of vision, hearing, taste, smell, and touch through a combination of lecture, discussion, and both in and out of class activities.

PSY 212 Domestic Violence (3)

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H

This is an interdisciplinary course that looks at the issue of domestic/interpersonal violence from various disciplines (culture, history, health care, criminal justice, psychology, economics, politics, etc.) to assist students in understanding the complex nature of this problem. Students will explore possible solutions that utilize a combination of these disciplines and be able to reflect on how each discipline informs the other to create as well as exacerbate this complicated societal problem.

PSY 212S Serv Lrng:Domestic Violence (1) EXP

Concurrent requisite(s): PSY 212

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

PSY 220 Health Psychology (3)

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H

Examination of psychological influences on how people stay healthy, why they become ill, and how they respond when they become ill. Topics include behaviors that promote or compromise health, stress and coping, patient-provider relations, and management of pain and chronic illnesses.

PSY 225 Human Sexuality (3)

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H

Biological, social and psychological aspects of sexuality. Issues related to communication, gender, dating, sexual behavior, pregnancy, roles, contraception, and sexual deviance and dysfunction are among the topics discussed.

PSY 225H HON: Human Sexuality (0)

Biological, social and psychological aspects of sexuality. Issues related to communication, gender, dating,

sexual behavior, pregnancy, roles, contraception, and sexual deviance and dysfunction are among the topics discussed.

Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

PSY 275 Sport Psychology (3) LAS

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H

This course is an introduction to the behavior in a sport environment and the mental skills associated with high-level performance in sport.

PSY 292 Forensic Psychology (3) LAS

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H

Crosslisted CRM 292. Persons with mental illness often come in contact with the legal system, and this course addresses major areas of that confluence from the perspective of a forensic psychologist. Topics include competency, sanity at the time of the offense, involuntary hospitalization, civil litigation, child custody psychological evaluations, psychopathy as it relates to criminal behavior, and the challenges associated with being an expert witness.

PSY 309 Social Influence (3)

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H plus 6 additional hours in PSY

An in-depth look at how salespeople, governments, marketers, friends, and others influence our attitudes and behavior. A variety of influence tactics and ways of defending ourselves against them will be examined. Seminar format.

PSY 310 Cognition & Memory (3)

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H and MTH 174

In this course, students will examine the major ideas and theories regarding human cognition and memory. This will include Information Processing, Parallel Distributed Processing, Semantic Networks, Neural Networks, Fuzzy Set Theories, as well as both implicit and explicit approaches. Students will examine this material through class discussions, activities and research projects both in and out of class.

PSY 310S Serv Lrng:Cognition & Memory (1) EXP*Concurrent requisite(s):* PSY 310

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

PSY 342 Child Psychopathology (3)*Prerequisite(s):* Grade of "C" or better in PSY 103 or PSY 103H

During the course of this semester, students will become familiar with psychopathology as it is manifested in children and adolescents. Topics and disorders covered will include mood disorders, anxiety disorders, developmental disorders, eating disorders as well as examining causes of child psychopathology, and their diagnosis and treatment. However, to fully understand psychopathology, a thorough knowledge of typical development is required. As such, we will be briefly reviewing typical development as well as the developmental theory of child psychopathology.

PSY 360 Biological Psychology with LAB (4)*Prerequisite(s):* Grade of "C" or better in PSY 103 or PSY 103H and BIO 131 or BIO 197

Examines how the human brain and nervous system influence our behaviors, including sensation, emotions, sleep and dreams, cognition, memory, and psychological disorders. Includes outside-of-class lab activities that allow students to gain experience and apply their learning.

PSY 375 Research I (3)*Prerequisite(s):* Grade of "C" or better in PSY 103 or PSY 103H, MTH 174 and 6 additional hours in PSY

An introduction to psychological research emphasizing ethics and the integration of research design and statistics. Observational, correlational and survey research are explored in conjunction with descriptive and inferential statistical analysis.

PSY 376 Research II (3)

Prerequisite(s): Grade of "C" or better in PSY 340 and PSY 375

A continuation of PSY 375. Use of more advanced research designs and statistical methods. Includes experimental design, single-subject research, and quasi-experimental methods.

PSY 380 Pseudoscience and the Paranormal (3)

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H plus 6 additional hours in PSY

Examines a variety of controversial therapies (e.g., Thought Field Therapy), criminal investigation techniques (e.g., lie detection, criminal profiling), psychological tests (e.g., Rorschach Inkblot), paranormal claims (e.g., psychic abilities), and other psychological phenomena. Pseudoscientific approaches to gathering evidence for these phenomena will be compared to scientific approaches. Seminar format.

PSY 385 Personality Theories (3)

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H and at least Sophomore Standing

This course covers the major theories used to guide research and practice in personality psychology. Theories include trait, cognitive, behavioral, psychoanalytic and humanistic perspectives. Students will apply concepts from these various theories to personalities of well-known figures to contrast the different perspectives.

PSY 385S Serv Lrng:Personality Theory (1) EXP

Concurrent requisite(s): PSY 385

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

PSY 390 Counseling Theories (3)

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H and at least Sophomore standing

Several dominant paradigms of counseling and psychotherapy will be studied from both a practical and a theoretical perspective. Freud and Psychodynamics, Rogerian Person-Centered Therapy, Gestalt Therapy, Reality Therapy, Existential Therapy, Rational-Emotive Therapy, and Behavior techniques will be discussed.

PSY 395 Schizophrenia Oral Histories (1)

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H

In this discussion based seminar, students will gain foundational knowledge in preparation for implementation of a project of their design that will be conducted in a subsequent course (PSY 395A). During this term, students will learn about schizophrenia, oral history design and methodology, The Schizophrenia Oral History Project (TSOHP), ethics involved in conducting academic work with vulnerable populations, and stigma related to mental illness as well as ways to challenge that stigma. Students will also take a strengths assessment to identify their personal leadership strengths. Then, at the end of the semester, students will submit a written proposal of a project that will contribute to TSOHP and utilizes their leadership strengths that they will implement in PSY 395A. Students and the instructor will complete a learning contract which will outline the specifics of the seminar.

PSY 395A Schizophrenia Oral Histories (1-3) EXP

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H and PSY 395

In this course, students will implement a project of their design that will contribute to The Schizophrenia Oral History Project (TSOHP) and that utilizes their leadership strengths. (The identification of personal leadership strengths and development of the project proposal were completed at the end of PSY 395 in the

previous semester.) During this term, the student will implement the project (or a part of it, depending on the size of the project) and at the end of the semester submit a written evaluation of that semester's work based on success of project and use of leadership strengths. Students and the instructor will complete a learning contract which will outline the specifics of the project. Note: This course will count towards experiential learning for the core curriculum.

PSY 396 Co-Op:Parallel(PT) (1-3) EXP

Prerequisite(s): CED 220 and permission of psychology advisor

A work-related experience supervised by a faculty coordinator in collaboration with the cooperative education staff. Credit is awarded on successful completion of the work experience, documentation of predetermined Learning Agreement and evaluation of work performance. Evaluation of work performed is on a pass/fail basis.

Pass/Fail course, does not count as a PSY elective. This course can be repeated for a maximum total of nine credits.

PSY 397 Practicum (0-3) EXP

This course involves participation in pre-professional activities in a clinical and/or research setting. Credit hours are awarded based on type of activity and number of hours served.

Pass/Fail course; does not count as a PSY elective.

PSY 398 Supervised Research (0-3) EXP

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H and Nine Semester hours of PSY

Students conduct research under the supervision of a psychology faculty member and /or researcher at an off-campus work site.

PSY 399 Independent Study (1-3)

Prerequisite(s): Junior or senior psychology major

Students pursue a psychological topic independently under the supervision of a psychology faculty member. Instructor's approval required.

PSY 399S Serv Lrng: Independent Study (1) EXP

Concurrent requisite(s): PSY 399

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. and an increased awareness of their own faith and values.

PSY 410 Great Ideas/History of Psychology (3)

Prerequisite(s): Grade of "C" or better in PSY 103 or PSY 103H plus 6 Additional Hours in PSY and Junior or Senior Standing

Students will gain a perspective on the modern field of psychology by examining its origins. The intellectual environment that gave rise to the field of psychology and important themes through which the field has evolved over the last hundred years will be examined. Seminar format.

RDG

RDG 330S Service Learning: Phonics and Linguistics (1) EXP

Concurrent requisite(s): RDG 330

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

RDG 331H HON:Methods of Teaching Reading and Writing (0)

Course description as stated in RDG 331 (Honors Course)

RDI

RDI 215 Foundations in Literacy (3)

The Foundations of Literacy course provides a research-based foundation in the cognitive, socio-cultural, linguistic, and motivational influences on literacy and language development. Scientifically-based reading research models that support the teaching of reading, writing, vocabulary, and spelling will be included. The course contains the empirical research and theoretical knowledge needed to understand the methods and strategies used to teach reading language arts skills and strategies to children through young adults. Topics include language development, the sequence of learning to read, as well as an introduction to the most common approaches to reading language arts instruction across the grade bands. The underlying learning philosophies that support the teaching of reading, writing, vocabulary and spelling will be emphasized, along with the connections between research and practice will be emphasized.

RDI 215S Serv Lrng: Foundations of Literacy (1) EXP

Concurrent requisite(s): RDI 215

The purpose of the service learning component is to integrate course content and material with service to an identified community organization. Service learning consists of completion of a minimum of 30 on-site hours, as well as instructor- guided reflection. Students will be expected to complete a learning contract, document clock hours, and participate in all reflective activities.

RDI 304 Children's and Adolescent Literature (3)

Prerequisite(s): Admission to the School of Education

This course is designed for undergraduate and/or graduate students and has a two-fold purpose. As a survey course, it is designed to assist students in becoming acquainted with the many trade books that are available for children today. An equally important purpose is to enable educators to utilize comprehensive, creative, and insightful strategies to incorporate children's literature into their daily lessons in the classroom. The

course will also demonstrate the connectedness of children's literature and the total language arts program.

RDI 305 Structured Literacy Practicum (1) EXP

Prerequisite(s): Admission to the School of Education and RDI 215

Corequisite(s): RDI 311

The candidate will complete 50 hours of teaching reading and writing under the supervision of a classroom teacher. The candidate will assess, plan, and implement literacy instruction for small groups of children. Candidates are required to be in their practicum placements for a minimum of twice per week.

RDI 311 Content Area Reading (3)

Prerequisite(s): Admission to the School of Education

A basic course in methods and procedures for teaching reading skills to use in teaching the content reading subjects, particularly math, science, and social studies. This reading course includes skills and strategies which can be used to assist students in these subjects. Teaching emphasis will be placed on the use of comprehension skills, readability formulas, vocabulary, and study strategies. This course will also include adaptations of reading strategies to meet the needs of the diverse students. 20-hour field experience required.

RDI 330 Phonological Awareness, Phonics and Fluency (3)

Prerequisite(s): Admission to the School and RDI 215

To teach the teacher candidate the fundamental principles and concepts of the phonological structure of language. The teacher candidate will learn the sound-symbol correspondences of language and understand the relationship of phonemic awareness and phonological system of language to the reading process. The teacher candidate will also learn about the linguistic and cognitive bases of reading.

RDI 331 Methods of Teaching Comprehension, Vocabulary and Writing (3)

Prerequisite(s): RDI 305

This course will utilize research findings which emphasize the development of literacy skills (reading, writing, listening, and speaking) across the grade bands. The focus will be on instructional methods and strategies (curricula, lessons, materials, assessments) that exemplify best practices in reading, writing, vocabulary, and spelling instruction. Thematic planning which incorporates differentiated and developmentally appropriate instruction will be included.

RDI 338 Assessment, Instruction, and Intervention in Reading (3)

Prerequisite(s): RDI 330

The purpose of this course is to provide instruction to preservice or inservice teachers concerning the diagnosis of reading difficulties in students. The assessment instruments to use when determining the causes of reading difficulties will be stressed. Specific tests for these purposes will be introduced, explained and later administered to students who have been identified as having reading disabilities. Specific needs of a diverse population and/or cultural needs will be included.

RDI 391 Orton-Gillingham Method: Instruction and Practice (3)

Prerequisite(s): Admission to the School of Education and a grade of "C" or better in RDI 215, RDI 330, and RDI 338

This course requires the student to implement a research based intervention program to an individual student and/or small groups of students who are struggling with reading skills. Emphasis is placed on the instructional strategies appropriate for use in effective intervention design and implementation. This practicum course includes three components: 1) learning the Orton-Gillingham method of reading intervention, 2) 20 teaching hours and 3) supervision.

REL

REL 100 Introduction to Christianity (3) CR

The Jesus of faith serves as a starting point to explore contemporary and global expressions of Christianity, a major world religion. Christian history and doctrine will be explored in light of Christian practice.

REL 100S Serv Lrng:Intro to Christianity (1) EXP

Concurrent requisite(s): REL 100

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

REL 101 Introduction to Religion (3) CR

This course is an examination of how fundamental religious questions arise out of human experience and the variety of ways that people respond to those questions. Attention will be given to both historic and contemporary expressions of religious concern. Concepts of God, faith, religious experience, and theological reflection will be among the topics examined.

REL 102 Christian Scriptures (3) CR

An exposition of the basic theology of the four Gospels coupled with an analysis of the historical and cultural milieu from which the Christian message arose and the manner in which that message was transmitted and interpreted.

REL 102H HON:Christian Scriptures (3) CR

Course description as stated in REL 102 (Honors Course)

REL 102S Serv Lrng:Christ Scriptures (1) EXP

Concurrent requisite(s): REL 102

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

REL 104 Personal Spirituality and Theology of Human Experience (3) CR

This course focuses on developing and articulating a personal spirituality culled from theological reflection on one's own experiences and decisions. Methods and principles from both Eastern and Western religious traditions, as well as psychology and the social sciences, serve as resources.

REL 107 Intro to Catholic Christianity (3) CR

This course offers students an introduction to the study of Christian theology from the Roman Catholic perspective. It begins by exploring the importance of theological reflection in contemporary culture, and then focuses on the development of present-day Church teachings drawing from both Scripture and Tradition. Topics explored include the Old Testament foundations for Christianity, the life and teachings of Jesus Christ, the profession of faith in the creeds, and the sacraments as sources of God's grace. The course also introduces students to principles of Catholic morality, and offers them an opportunity to compare Catholic teachings with those of other Christian traditions.

REL 107S Serv Lrng: Intro to Catholic Christianity (1) EXP*Concurrent requisite(s):* REL 107

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

REL 108 World Religions (3) CR

The core question that people have asked from the beginning of reflective thought can be summed up in one sentence: What is the meaning or purpose of my life? In a world filled with conflict and war, in a country held bound by consumerism and fear, the answers provided by some of the major world religions can show us ways to live a vibrant life. Pre-supposing a basic Christian grounding of the majority of class participants, we will study the age-old wisdom found in Hinduism, Buddhism, Taoism, Judaism and Islam, with emphasis on how this knowledge can energize us to become peacemakers and healers of our global home.

REL 108S Service Learning:World Religions (1) EXP*Concurrent requisite(s):* REL 108

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

REL 109 Introduction to Biblical Literature (3) CR

This course explores the texts and basic theology of the Bible coupled with an analysis of the historical and cultural milieu from which the Old and New Testaments arose and the manner in which these texts were transmitted and interpreted.

REL 203 Theology of MLK and Malcolm X (3) CR

This course is a study of the life and thought of Martin Luther King, Jr., focusing on his contribution to Christian theology and ethics through his leadership role in the Civil Rights Movement. Students will be compelled to examine King's interpretation and appropriation of the Bible, of Gandhian ideas and methods, of Western philosophical categories, of the principles of American participatory democracy and Social Gospel concepts, considering how the black experience of oppression and the traditions of the black church influenced him.

REL 206 Spirituality & Wellness (3) CR

Judeo-Christian spirituality is incarnational at its core. In the book of Genesis, God "walks in the garden" to encounter the first humans. Moses first meets God in a bush and his people are freed through natural plagues and physical death. The prophets see God's hand in the political-social-economic events of the day and call people to live justly through it all. Jesus Christ is born as a human being to show us that the kingdom of God is among us in the here and now. In this spirituality God enters the "natural world" to show us how to live as whole, healthy, fully conscious humans, through the exercising of freedom of choice—our "Free Will"—in accord with the Divine.

REL 215 Life Through Death (3) CR

The human encounter with death and dying poses a significant challenge to persons as physical, psychological, social, and spiritual beings. This course will acquaint students with recent research on death and dying from several disciplines, at the same time it helps the student raise his/her consciousness about personal reaction and responses to this encounter. Particular emphasis will be placed on the religious/spiritual dimension of

death, grief, and loss, and theological responses to that issue from within the Christian tradition. Ethical issues related to death and dying will also be examined. The student taking this course should emerge from it with an increased awareness of the diversity of issues involved in death and dying that can be applied to managing one's own life journey, as well as to caring for others.

REL 221 Theology of Human Marriage and Sexuality (3)

This course introduces students to the theology of marriage and sexuality from the Roman Catholic perspective. The first half of the course explores the biblical and historical foundations that underlie the sacrament of marriage, as well as marriage's nature, purposes, and essential properties. Topics discussed in this part of the course include the importance of matrimonial consent, "mixed" or inter-church marriage, and the distinction between annulment and divorce. The second half of the course focuses on human sexuality and explores the Catholic Church's teachings concerning the nature and purpose of sex, as well as its teachings on pre-marital sexual relations, cohabitation, birth control, and same-sex unions.

REL 236 History of Christianity (3) CR

History of Christianity examines the history and theology of Christianity in its various cultural and geographic contexts. It will focus on the key issues, events, and individuals that have impacted the development of Christian tradition from its earliest roots to today. Of particular interest will be the formation of doctrines concerning the divinity and humanity of Jesus.

REL 242 Exploring the Sacred (3) CR

This course seeks to explore the ways in which we may encounter the sacred in our lived experience, rather than in formal creeds or religious institutions. Students will examine the spiritual/sacred dimensions of their world by looking through a variety of different lenses, and using the tools of several different disciplines to bring those experiences into focus. Students can expect to develop a clearer understanding of the experience of the sacred, by exploring their own stories, and the stories of others as those are presented in both sacred and secular texts. The course will pay special attention to the significance that culture has in shaping and interpreting the experience of the sacred, and the variety of responses that may emerge out of this experience.

REL 245 Women in Christianity (3) CR

This course will consider all of the dimensions and dynamics of the spiritually-potent women who have imagined and enfolded the mission of Jesus. Using short readings, input, and reflective dialogue we will consider ideas shaped by the religious experience of women throughout Christian history. Theological themes to be explored will include God, Trinity, Redemption, Reconciliation, Sacrament and Discipleship.

REL 314 Spirituality of Leadership (3) CR

Prerequisite(s): 12 hours in Theological core

This course aims at the relationship between one's personal spirituality and effective leadership. Further, it considers leadership in the workplace as a personal calling. The course will explore one's innate desire for integrity of life, and will examine the common good as both the purpose of business, and as necessary for human development. The good habits of acting, known as virtues, will be considered. The application of virtue to practical situations in the workplace, and in the world at large, will allow the principles of Christian social teaching to be integrated with management theory.

REL 339 Seminar in Spirituality: Critical Issues in Human Sexuality (3)

New Course

Prerequisite(s): REL 101,102 and 107 or any JCG Course

This upper-level seminar in spirituality explores complex and critical issues of human sexuality. Students will reflect theologically on topics of sexuality, and identify resources to develop a spirituality oriented towards human flourishing. Instructor's permission required for non-majors.

REL 350 Pauline Theo/Christ Begin (3) CR

Prerequisite(s): 100 level REL

This course is a study of the content and background of the letters of the Apostle Paul. Emphasis will be placed upon Paul's life, the literary and rhetorical structure of his letters, and the specific theological and

pastoral themes addressed in the letters. Particular attention will be given to the social context of Paul's Christian communities, and how it impacts his message to them. We will also explore the impact of these issues in contemporary pastoral ministry contexts.

REL 351 Spirituality of the Johannine Literature (3) CR

Prerequisite(s): 100 level Religion

Together we will explore the basic theology and spirituality of the Gospel of John and the Johannine Epistles, with an analysis of the milieu and culture out of which the Christian message arose and was transmitted.

REL 351S Serv Lrng:Johannine Literature (1) EXP

Concurrent requisite(s): REL 351

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

REL 370 The Catholic Tradition: From Rome to Assisi and Back Again? (3) EXP/IDS

This accelerated 3 credit course offers students an on-site, immersion learning experience of Catholic culture, history, and theology in Rome and Assisi from an interdisciplinary methodological perspective. The majority of the course takes place in Italy and requires travel.

SED

SED 215 Human Exceptionalities (3)

Concurrent requisite(s): SED 215S

Survey of the differing areas and types of human exceptionalities. General characteristics, etiology, classification, incidence, and learning potential of different exceptionalities are presented. An overview of federal and state laws governing the education of children with disabilities is presented.

SED 215S Serv Lrng: Human Exceptionalities (1) EXP

Concurrent requisite(s): SED 215

The purpose of the service learning component is to integrate course content and material with service to an identified community organization. Service learning consists of completion of a minimum of 30 on-site hours, as well as instructor- guided reflection. Students will be expected to complete a learning contract, document clock hours, and participate in all reflective activities.

SED 331 Moderate to Intense Instructional Strategies & Methods (3)

Prerequisite(s): Undergraduate students must be within 30 credit hours of graduation

Corequisite(s): SED 332

This course provides a study of curriculum programming, instructional environments and strategies, and assessment techniques for use with students with moderate to intense needs. The areas of social skills, behavior, functional academics, technology, communication, and transition are covered. Curriculum adaptations and support in the general education curriculum are addressed. Best practices in community-based instruction, authentic assessment, and ecological evaluations are emphasized. Students must participate in a practicum along with this course. Failure to complete the practicum will result in failure of the course.

SED 332 Moderate/Intense Practicum (1) EXP

Prerequisite(s): Undergraduate students must be within 30 credit hours of graduation

Corequisite(s): SED 331

This course involves 50 hours of field work. Students will develop and implement differentiated instruction and supports for students with mild/moderate education needs in inclusive settings across different age levels and under the supervision of a cooperating teacher(s) and university supervisor.

SED 334 Inclusive Teaching, Support and Transition Practicum (1) EXP

Prerequisite(s): Admission to School

Concurrent requisite(s): SED 345

This course involves 50 hours of field work. Students will develop and implement differentiated instruction and supports for students with mild/moderate education needs in inclusive settings across different age levels and under the supervision of a cooperating teacher(s) and university supervisor.

SED 340 Teaching in an Inclusive Setting (3)

Prerequisite(s): Admission to the School, Practicum and SED 215

This course focuses on the skills teachers need to fully integrate students with special needs into general education settings. Models of teacher consultation and collaboration for differentiating instruction, course content, materials and grading procedures to accommodate students with diverse needs in an inclusive classroom are covered.

SED 444 SED Student Teaching (6-12) EXP

Prerequisite(s): Admission to Department and permission from Clinical Experience Director and EDU 207 Intensive full-day experience in teaching and related professional development. The 15-week experience involves systematic planning and execution of responsibilities under the supervision of experienced certified special education personnel and University supervisors in two settings.

SLH

SLH 101 Intro to Speech, Language, and Hearing Sciences (3)

This course is about communication and an overview of the kinds of disorders that disrupt communication across the life span. The course includes an overview of normal speech, language and hearing development and explanations of causes and characteristics of a wide variety of communication disorders. The roles of audiologists and speech-language pathologists are explored.

SLH 207 Anatomy and Physiology of Speech and Hearing with Lab (4)

Concurrent requisite(s): SLH 207A

The course will focus on normal anatomy and physiology of the body systems involved in the processes of speech, language, hearing, and swallowing. Lecture/Lab

SLH 207A Anatomy and Physiology of Speech and Hearing (LAB) (0)

Concurrent requisite(s): SLH 207

Course Description as stated in SLH 207

SLH 210 Neuroscience and Communication Behavior with Lab (4)

Concurrent requisite(s): SLH 210A

This course provides an overview of neuroanatomy, neurophysiology, and neuroscience pertinent to processes of human communication behavior and disorders of communication. Emphasis is on structural and functional relationships necessary for speech, language, hearing, and cognition although a general knowledge of the nervous system is first required. Topics include: gross anatomy of central and peripheral nervous systems; sensory systems, especially special systems (vision, auditory, gustatory), motor systems, and functional hemisphere and cortical organization. Neuropathology of stroke, progressive diseases, traumatic brain injury and other neurological disorders that result in cognitive or communication disorders are emphasized throughout the course. Lecture/lab

SLH 210A Neuroscience and Communication Behavior (LAB) (0)

Concurrent requisite(s): SLH 210A
 Course Description as stated in SLH 210

SLH 210S Serv Lrng: Neuroscience and Communication Behavior with Lab (1) EXP

Concurrent requisite(s): SLH 210

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SLH 220 Speech and Language Development (3)

Prerequisite(s): BIO 211/211A

This course explores speech and language acquisition theory and stages from birth through adolescence. A variety of methods for analyzing syntax, semantics, pragmatics, morphology and phonology across the stages of development are discussed. Contributions of biological, social, cognitive and environmental factors on the process of language development are integrated. Information on language variation in multicultural populations is presented

SLH 221 Seminar in Speech Language Pathology and Audiology I (1)

This is the first professional seminar for majors in speech language pathology and audiology. Students demonstrate observational techniques in class and observe with licensed SLPs in the community.

SLH 233 Phonetics (3)

Study of the various aspects of speech sounds and their production with a clinical focus on articulatory, acoustic, and linguistic bases of phonemes used in American English. In addition to the basic anatomy of speech sound production, students learn to discriminate, analyze, and transcribe speech sounds using the International Phonetic Alphabet (IPA). The relevance of course content to clinical and other applications is discussed as students learn to use the IPA to transcribe the speech of individuals with communicative differences and are introduced to phonological analysis.

SLH 310 Introduction to Audiology (3)

Prerequisite(s): SLH 210/210A, SLH 220

This course focuses on the topics related to the field of Audiology including the history of audiology, different employment settings for Audiology, hearing loss types and causes, diagnostic and treatment procedures for hearing impaired populations.

SLH 310S Serv Lrng: Introduction to Audiology (1) EXP

Concurrent requisite(s): SLH 310

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SLH 320 Science of Speech and Hearing (3)

An introduction to speech physiology, acoustics, perception, models of speech production, research methodology and current topics in the area of speech science. Students will also engage in analysis of speech signals to provide application of theories discussed in class. Clinical applications will also be discussed.

SLH 321 Seminar in Speech Language Pathology and Audiology II (1)

This is the second professional seminar for majors in speech language pathology and audiology. Students demonstrate observational techniques in class and observe with licensed SLPs in the community.

SLH 394 Cooperative Education (0) EXP

Prerequisite(s): CED 220

A speech, language, or hearing related work experience supervised by a speech, language, and hearing faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

SLH 396 Cooperative Education Work Experience (1-3) EXP

Prerequisite(s): CED 220

A speech, language, or hearing related work experience supervised by a speech, language, and hearing faculty member in collaboration with the cooperative education staff. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

SLH 410 Research in Speech, Language, and Hearing Sciences (3)

Prerequisite(s): MTH 174

Evidence-based practice focuses on the interaction of the components of the research process with application to the theory and practice of audiology and speech pathology. This course emphasizes the critical appraisal and utilization of research including selected theories and ethical considerations. Critical and reflective thinking, as a professional who provides evidence based practice, will be emphasized.

SLH 411 Senior Seminar in Speech, Language, and Hearing Sciences (3)

Prerequisite(s): SLH 320, SLH 321

Concurrent requisite(s): This course provides the concepts of professional collaboration and counseling theory and practice as it relates to individuals with communication disorders. Consideration will be given to the psychological and psychosocial implications of communication disorders to individuals and their families. Interviewing and intervention styles will be discussed and practiced in a series of exercises and assignments. Students will be exposed to professionals that they may collaborate with in order to have an understanding of role sharing and professional cooperation.

SLH 420 Evaluation and Treatment of Speech and Language Disorders (3)

Prerequisite(s): SLH 320

This lecture course focuses on the study of speech and language disorders in children. Topics include assessment techniques with emphasis on language sample analysis, consideration of cultural and communication differences, and treatment techniques to facilitate generalization.

SLH 452 Independent Study (1-4)

Independent Study Course. Learning Contract and approval of Speech, Language, and Hearing Sciences Chair Required.

SOC

SOC 103 Our Social World (3) CS

This course introduces students to the scientific study of society. It offers a systematic analysis of the dynamic interconnections between our individual lives and our social worlds. In this course we'll explore many dimensions of local and global social institutions and practices, working to understand how our own lives are embedded within and shaped by our social environments.

SOC 103S Serv Lrng:Intro Sociology (1) EXP*Concurrent requisite(s):* SOC 103

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SOC 202 Race, Class, Gender (3)*Prerequisite(s):* SOC 103

Study of intergroup, racial and ethnic relations in America, including the cultural and political problems resulting from prejudice and discrimination.

SOC 202S Serv Lrng:Race, Class, Gender (1) EXP*Concurrent requisite(s):* SOC 202

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SOC 208 Social Psychology (3)*Prerequisite(s):* PSY 103 or SOC 103

Crosslisted PSY 208. The study of how we think about, relate to and influence one another. Social perception, attitudes, social influence, prejudice, aggression, and attraction are examined.

SOC 212 Sociology of Sports (3)

Students will explore and discover the structural and cultural relationship of sport to society. Students will also examine the issues of race, gender, social stratification, deviances, and economics as they relate to sport in society.

SOC 216 Sociology of the Family (3)*Prerequisite(s):* SOC 103

Families and the functions of the family as a social institution are studied within the context of social and cultural forces that have an impact on them. The interdependencies of families and communities are examined.

SOC 218 Mars and Venus? Gender,Culture and Society (3)*Prerequisite(s):* SOC 103

Are men and women really so different? This course examines this question by exploring the social construction of sex, gender, and sexuality across cultures and societies. It explores the various ways in which gender shapes and is shaped by social institutions, organizations, ideologies, representations, and practices. We will examine several substantive topics as they intersect with sex, gender and sexuality such as the body, media, religion, sport, love, and health/medicine. This course will facilitate the development of your critical thinking, reading and writing skills.

SOC 219 European Sport:A Comparative Approach (1) EXP

Students will examine the particularities of different European sports to understand the larger political, economic, and cultural frameworks within which they emerged.

SOC 220 Childhood and Society (3)

New Course

Prerequisite(s): SOC 103

This course provides an introduction to twenty-first century childhood in the United States. It explores the concepts, theories, and empirical research within the sociological study of childhood. The course examines: Competing theoretical approaches to children and childhood, how the meaning of childhood and adolescence changes over time, place, and social context, how children's lives and identities co-constitute peer, popular, and media cultures, and the social problems and public policies that impact children's lives.

SOC 220S Serv Lrng:Sociology of Childhood (1) EXP

Concurrent requisite(s): SOC 220

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SOC 221 Sociology of Film (3)

New Course

Prerequisite(s): SOC 103

The primary goal of this course is to use movies, documentaries, and docudramas to illuminate sociological phenomena and events in terms of sociological theory, concepts, and research, and thus help students to understand and apply core sociological concepts and theories and apply them to a number of movies watched in class and outside of class. Students will also evaluate movies in terms of the extent to which they uncritically transmit bias, stereotypes, ideology, and misinformation regarding gender, race ethnicity, poverty, and important social problems.

SOC 222 Health and Crime (3)

New Course

Prerequisite(s): SOC 103

This course examines the different ways crime and health intersect. Sociological, criminological and public health theories will be explored to understand how delinquency/crime and health relate to one another. Additionally, this course will explore how crime and crime location may be a predictor of health outcomes.

SOC 250 Sociology of Deviance and Social Control (3)

Prerequisite(s): SOC 103

This course introduces students to the sociological study of deviance and familiarizes them with key concepts and sociological theories. Studying deviance from a sociological perspective means focusing not on individual acts of deviance, but on the social forces that create and facilitate it. Deviance, or the breaking of social norms, is always dependent on what those norms are in a given context. Deviant behaviors, beliefs, and conditions all have origins in socially shared expectations of behavior, are learned and made manifest in social interaction, and produce profound consequences for individuals and society at large. The topics covered in this course attempt to answer a variety of questions. For example: How are socially shared expectations of behavior created and maintained? Why do people engage in deviant behavior? How is such behavior learned? What makes people more or less likely to be deviant? And, what are the consequences of being labeled deviant? The theories covered will be used in the analyses of various forms of deviance, such as criminal behavior, illicit drug use, white-collar crime, sexual deviance, mental disability, obesity, paranormal beliefs, and more.

SOC 261 Social and Psychological Aspects of Aging (3)

Prerequisite(s): SOC 103

An explanation of the basic sociological and psychological concepts and principles of aging individuals. Topics such as the social theories of aging, socialization, life course, social inequality, primary relationships, economy, the community, politics, and government will be covered.

SOC 289 Women's Issues & the Law (3)

This course is about gender differences and gendered human interrelationships. Through reading and discussion of legislation, judicial opinions, and other sources, we will examine how U.S. law reflects and reinforces social and institutional arrangements that channel men and women into different roles and allocates power between them. We will also look at alternative formulations of legal concepts and at how law is made and implemented. Students should be able to develop a critical analytical approach that can be the basis for evaluating future changes in law.

SOC 300 Mgmt/Fnd Raising in Nonprofit (3)

Prerequisite(s): Junior status or above and permission of instructor

The purpose of this course is to introduce students to the nonprofit, philanthropic sector and expose students to many of the important aspects of nonprofit management and fund raising. The course is structured specifically to meet several of the American Humanics competency requirements for certification, including competencies within the areas of: historical and philosophical foundations, general nonprofit management, board and volunteer development and management, program planning, financial and risk management, fund raising, and career development and exploration. Service-learning in a nonprofit agency is an important aspect of the class.

SOC 301 Sociology of Science and Technology (3)

Prerequisite(s): SOC 103

This course is an introduction to the study of science and technology from a sociological perspective. Students will learn about science

SOC 302 Social Perspectives on Motherhood (3)

New Course

Prerequisite(s): SOC 103

This course explores U.S. motherhood as a socially constructed institution and set of practices. Students will examine the social context that shapes contemporary social expectations and experiences surrounding motherhood. Students will become familiar with diverse social perspectives on birthing, maternal health and wellbeing, work-family balance, and mothering practices. The impact of social class, race-ethnicity, gender and national policy are also explored. Special topics such as poverty, incarceration, postpartum maternal health, and single-mothering are considered.

SOC 302S Serv Lrng:Social Perspectives on Motherhood (1) EXP

Concurrent requisite(s): SOC 302

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SOC 310 Power, Politics, and Social Movements (3)

Prerequisite(s): SOC 103

The course will explore processes of extra-institutional politics. How do people who are not professional politicians engage in meaningful political behavior? How do people with common interests organize and pursue their goals? How do groups who have been shut out of institutionalized political processes assert influence on society? When large numbers of people organize to pursue common interests, these groups are called social movements, and this class will be devoted to understanding what social movements are, how they work, how they interact with political institutions, and the forms they have taken, and continue to take, in the United States and throughout the world. The major topics covered will be: theories of social power and influence, theories of collective behavior in the context of individual interests? political processes and opportunities that affect movement outcomes? how movements mobilize and deploy resources? issue framing? protest policing? the Black civil rights movement? labor movements in the United States? and

?new? social movements. At the conclusion of this course, students will have a basic understanding of the nature of social power, major social movements in the U.S. and around the world, the theoretical models employed to understand them, and some of the methodologies that sociologists use to study them.

SOC 334 Holistic Wellness and Aging (3)

Prerequisite(s): PSY 103 or PSY 103H or SOC 103

This course uses an interdisciplinary approach to integrate knowledge and concepts about holistic health across multiple disciplines and applies them to the maintenance of wellness in aging. Concepts and approaches address the physical, mental, nutritional, social, spiritual, and cognitive aspects of wellness.

SOC 334S Serv Lrng: Holistic Wellness and Aging (1) EXP

Concurrent requisite(s): SOC 334

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SOC 350 Special Topics: Sociology of Work, Occupations & Professions (1-3)

Topics vary. May be repeated once as topic changes.

SOC 351 Special Topics Global Aging: Comparative Perspectives (1-3)

Crosslisted SOC 350. Announcement of topics will be made when course is offered.

SOC 359 Work, Leisure and Retirement (3)

This course provides an overview of work with the emphasis on the importance, background, development, and current trends of work, retirement and leisure issues in the United States. Comparisons are made on how other cultures address these issues.

SOC 361 Mental Health & Aging (3)

This course provides an historical overview of the mental health system. Common emotional problems, psychiatric and cognitive disorders, and community mental health issues are addressed. In addition, mental health promotion as well as intervention in and treatment of mental health problems among older persons and their families.

SOC 370 Sociological Theories (3)

Prerequisite(s): SOC 103

The development of sociological theories; the study of outstanding contemporary sociologists and their contributions in research, social policy and practice.

SOC 373 Sociology of Globalization (3)

New Course

Prerequisite(s): SOC 103

This course explores diverse themes and aspects of emergent global society. Course will examine how globalization impacts individuals and societies and the development of world culture. Students will gain knowledge of and insight in processes of globalization and their consequences for cultural diversity.

SOC 375 Social Research I (4)

Prerequisite(s): PSY 103, SOC 103, MTH 174 or MTH 175, and two additional courses in PSY or SOC

Crosslisted SWK 375. An introduction to social research emphasizing ethics and the integration of basic and applied research designs and statistics. Observations, surveys and simple experiments are carried out in conjunction with descriptive and inferential statistical analysis.

SOC 375S Serv Lrn:Social Research I (1) EXP

Concurrent requisite(s): SOC 375S

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SOC 377 Evaluation, Research and Grantsmanship (3)

Crosslisted SWK 377. An application of basic research methods and data collection learned in Behavioral Sciences Research Methods I to the evaluation of existing programs in social agencies, and the tasks and skills of grant writing to develop new programs and services. Students learn how to locate grant sources, integrate program evaluation into grant proposals, and practice grant writing.

SOC 377S Serv Lrng:Eval,Res,Grants (1) EXP

Concurrent requisite(s): SOC 377

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SOC 380 Independent Study (1-3)

Student-initiated project intended to add a new dimension of education and encourage intellectual activity, initiative and sustained effort. Topics to be chosen in consultation with an instructor who has special competence in the subject involved. Open to junior and senior majors. Approval of instructor required.

SOC 396 Co-Op:Parallel(PT) (1-3) EXP

Prerequisite(s): CED 220

A work-related experience supervised by a faculty coordinator in collaboration with the cooperative education staff. Credit is awarded on successful completion of the work experience, documentation of predetermined Learning Agreement and evaluation of work performance. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

SOC 400 Senior Thesis (3)

Prerequisite(s): SOC 375 and SOC 377 or PSY 376

Independent projects which integrate the theory and research relevant to students' areas of specialization. Thesis projects demonstrate critical thinking skills and growth in students' areas of study.

SOC 401 Behavioral Science Seminar (1)

Prerequisite(s): SOC 103, CRM 103, PSY 103, MTH 174 and CRM 375 OR SOC 375

This course is designed to have students in the Behavioral Sciences program demonstrate their background and mastery in the areas of Psychology, Sociology, Criminology, and related fields. Students will apply their knowledge in these areas to current and historical issues that face the scientific community and general population as a whole.

SOC 405 Behavioral Sciences Capstone (3)

Prerequisite(s): 40 hours Core curriculum completed

A reflective, integrative experience for all majors from the Behavioral Sciences. Fulfills the university capstone requirement. Students will examine their undergraduate learning through reflection, discussion, and

examination of a significant problem. Students will produce a paper and a poster presentation in which they will integrate the Baccalaureate Level Learning Outcomes with their majors and their life-long goals for learning and service.

SOC 496 Cooperative Education Work Experience: Alternating (1-3) EXP

Prerequisite(s): CED 220

A work-related experience supervised by a faculty coordinator in collaboration with the cooperative education staff. Credit is awarded on successful completion of the work experience, documentation of predetermined Learning Agreement and evaluation of work performance. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

SPA

SPA 101 College Spanish I (3) LAS

Concurrent requisite(s): SPA 101A

A basic introduction to Spanish emphasizing confidence-building in the use of practical, spoken language. Attention is focused on pronunciation and speech patterns, the development of a working vocabulary, and the framing of simple sentences. Students are introduced to the concepts of cultural diversity and the appreciation of other cultures. Laboratory practice. No prerequisite.

SPA 101A College Spanish I (LAB) (1) LAS

Concurrent requisite(s): SPA 101

Course description as stated in SPA 101

SPA 102 College Spanish Lev I (3) LAS

Prerequisite(s): SPA 101

Concurrent requisite(s): SPA 102A

This course builds on material covered in Spanish 101 to further develop the student's ability to speak, write and read in Spanish. Attention is focused on expanding vocabulary, increasing mastery of Spanish grammar and parts of speech, and introducing additional verb tenses. Guided practice will strengthen student's communication skills in Spanish. Students will continue to explore the diverse cultures that make up the Spanish speaking world.

SPA 102A Col Spanish I (LAB) (1) LAS

Concurrent requisite(s): SPA 102

Course description as stated in SPA 102

SPA 201 College Spanish II (3) LAS

Prerequisite(s): SPA 101 and 102 or their equivalent

Concurrent requisite(s): SPA 201A

For students who can already control simple Spanish structures in conversation. This class will increase the student's facility in speaking, improve aural comprehension and expand vocabulary. Stress is placed on diversity in communicative styles within the Spanish-speaking world. Cultural and literary readings. Laboratory practice.

SPA 201A College Spanish II (LAB) (1) LAS

Concurrent requisite(s): SPA 201

Course description as stated in SPA 201

SPA 202 Col Spanish Lev II (3) LAS

Prerequisite(s): SPA 101, 102, 201 or their equivalent.

Concurrent requisite(s): SPA 202A

For students who can already control simple Spanish structures in conversation. This class will increase the student's facility in speaking, improve aural comprehension and expand vocabulary. Stress is placed on diversity in communicative styles within the Spanish-speaking world. Cultural and literary readings. Laboratory practice.

SPA 202A College Spanish II (LAB) (1) LAS

Concurrent requisite(s): SPA 202

Course description as stated in SPA 202

SPA 220 Spanish Written Communication (3) LAS

New Course

Students will practice intermediate-level Spanish writing skills for use in personal and professional communication requirements; prior ability in Spanish needed.

SPA 230 Spanish Conversation and Culture (3) LAS

Students will practice intermediate-level Spanish conversational skills and strategies within culturally appropriate context for personal and professional use; prior ability in Spanish needed.

SPA 358 Hispanic Literature in English (3) CL

Prerequisite(s): SPA 101/Equivalent, COM/ENG 101 and COM 100

Crosslisted ENG 358. Students will examine a selection of modern Latin-American authors translated into English for their literary, cultural, and linguistic content. Minimum competency in Spanish needed.

SPM

SPM 150 Introduction to Sport Management (3)

This course introduces the components of sport and the sport industry including an introduction to business concepts applied to sport. Career opportunities and competency skill sets will also be discussed as well as the many different settings in which sporting activities occur.

SPM 150S Serv Lrng:Intro to Sport Mgmt (1) EXP

Concurrent requisite(s): SPM 150

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SPM 185 Historical & Socio-Cultural Dimensions in Sport (3)

This course discusses sport as a microcosm of society. The influence of history, cultural traditions, social values, and psychosocial experiences will be explored. Students will learn that as sport managers in the sport industry, they will benefit from recognizing that these historical and socio-cultural influences affect every aspect of sport. Students will also identify and discuss the internal and external factors that influence and shape sport in society.

SPM 185S Serv Learn:Hist & Socio-Cultural Dimensions in Sport (1) EXP

Concurrent requisite(s): SPM 185

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service

Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SPM 225 Principles of Athletic Administration (3)

This course is designed to assist the prospective coach and administrator with gaining competence in applying competitive tactics and strategies appropriate to the sport environment. Particular emphasis will be placed on developing effective administration, coaching education, scouting procedures, conducting efficient practice sessions, utilizing game management strategies, skill analysis, sportsmanship, coaching diverse athletes, managing athletes' behavior, preventing and addressing drug and alcohol abuse, and coaching using the games approach. A 15 hour field component is required.

SPM 240 Governance & Policy in Sport (3)

This course introduces students to the power and politics of sport organizations. Students learn how people involved in governance set the tone of an entire organization and how individual sport governing bodies fit into the greater sport industry. How these organizations control sport activities on a local, national, and global level will be discussed as well as an understanding of their authority, organizational structure, and function.

SPM 330 Sport Marketing, Promotion and Sales (3)

Marketing and sales concepts within the unique aspects of sport and the sport industry will be discussed. The sport consumer and sport product markets will be studied. A 20 hour minimum field component including active participation in at least one of the following areas with instructor/department approval is required: fundraising, ticket sales, consumer demographic or psychographic research, merchandising, sponsorship, endorsement, venue and event marketing, special events, media promotion, or other instructor approved area.

SPM 340 Coaching of Team Sports (3)

This course focuses on the coaching team sports. Emphasis will be on coaching theory, instructional skill development, planning for practices, and game strategies.

SPM 342 Sport Skills (3)

This course focuses on the development of cognitive and psychomotor skills of selected sports. Emphasis will be on psychomotor skill development and assessment of these skills.

SPM 355 New Media & Public Relations (3)

Prerequisite(s): COM 100 and COM/ENG 101

This course stresses the familiarity with the principles of interpersonal communication, mass communication, and interaction with the public and media as they involve the sport industry. Emphasis will be placed on interactions both internal and external to sport agencies particularly those involving communication at entry-level sport management positions that also include "new media" such as broadcasting and webcasts.

SPM 355S Serv Lrng:New Media & Public Relations (1) EXP

Concurrent requisite(s): SPM 355

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SPM 360 Professional Team Sports (3)

New Course

An examination of professional team sports including topics such as ownership, league operations, governance, the role and impact of television, labor/management relationships, licensing and sponsorship, and the perceived role of professional sport in American society. Course content will be disseminated through a combination of lectures, readings, guest speakers, videos, field trips, and student presentations.

SPM 375 Sport Facilities and Event Management (3)

This course will introduce students to the application of basic principles of facility management with emphasis on intercollegiate athletics, professional sport, and multisport club operations. The function of the course is threefold: first, it is intended to provide Sport Management students with a broad appreciation of facility management; second, it will provide students with an up-to-date understanding of facility management concepts as they are currently being applied in various sport management contexts; and finally, it is intended to provide a foundation for those students who plan to do advanced study and work in facility management.

SPM 375H Honors: Sport Facilities and Event Management (0)

Course description as stated in SPM 375 (Honors Course)

SPM 375S Serv Lrng:Sport Facility Mgmt (1) EXP

Concurrent requisite(s): SPM 375

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SPM 380 Sport Law (3)

Sport and recreation activities by their very nature have the potential for litigation. Familiarity with the law in these areas and the legal concepts behind the law will be discussed. Topics such as risk management, liability, crowd control, as well as tort, constitutional, and contract law will be stressed.

SPM 386 International Sport Management (3)

This course is designed to guide students toward a critical understanding of sport in the global context. The course provides students with a conceptual and theoretical foundation of international sport management through a sociocultural examination of the field of play in various parts of the world, issues and challenges of the global sport environment, and the governance of international sport. Management principles such as macroeconomics, finance, law, service quality, and social responsibility in the global environment will be discussed. Students will also be exposed to international sport business strategies in marketing, new media, facility management, and tourism.

SPM 386S Serv Lrng:International Sport Management (1) EXP

Concurrent requisite(s): SPM 386

The service learning travel experience is a teaching and learning strategy that integrates meaningful community service with instruction and reflection to enrich the learning experience, teach civic responsibility, and strengthen communities. This course includes a service learning component of one credit hour which will be attached as a pass/fail credit to the course on your transcript. The following are requirements for the service learning credit: confirmation on MountConnect, completion of a pre and post evaluation, journaling, creating a presentation, and attending a guided reflection. Students will receive an incomplete for their service learning credit so they can complete the service component during the summer. As soon as all requirements are satisfied, the grade will be changed from an incomplete to pass.

SPM 390 Contemporary Sport Leadership (3)

New Course

This course is designed to guide students toward a critical understanding of contemporary leadership in the sport context. The course provides students with a conceptual and theoretical foundation of leadership in

the context of sport. Students will develop their own models for effective leadership by exploring leadership styles and skill sets, ethical approaches, strategy and innovation, communication and conflict resolution, team and group dynamics, diversity, global contexts, and organizational change.

SPM 394 Sport Management Internship (0) EXP

A sport management related work experience supervised by a sport management faculty member in collaboration with the cooperative education staff. Work assignment is for a minimum of 15 hours a week. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis. The course may be repeated as a general elective up to nine credit hours.

SPM 395 Sport Finance & Development (3)

This course discusses contemporary examples from marketing, sponsorship, facility construction, and sport law to illustrate the crucial role that money, budget, and finance plays in the finance and economics of the sport business. The economics of sport teams, championships, and merchandising will also be discussed.

SPM 396 Sport Management Internship (3) EXP

Prerequisite(s): CED 220

A sport management related work experience supervised by a sport management faculty member in collaboration with the cooperative education staff. Work assignment is for a minimum of 15 hours a week. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

SPM 396A Sport Management Internship (1-3) EXP

Prerequisite(s): CED 220

A sport management related work experience supervised by a sport management faculty member in collaboration with the cooperative education staff. Work assignment is for a minimum of 15 hours a week. Credit is awarded as a general elective upon completion of the work experience and documentation of predetermined Learning Agreement. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

SPM 440 Current Issues Business of Sport (3)

Prerequisite(s): SPM 150, SPM 185, SPM 240

This course addresses the continuing growth of the multibillion dollar sports industry and the contemporary issues and dilemmas currently facing today's sport business leaders. Overviews and insights into collegiate, professional, and Olympic sports will be discussed in the multidisciplinary context of major business disciplines such as: management, marketing, finance, information technology, ethics, and law. This course is intended to pull together all of the aspects of the sport industry and prepare the student for the internship through focused readings on current issues.

SPM 499 Independent Study (1-3)

Independent Study Course

SPR

SPR 250 Developmentally Appropriate Practice & Observing and Understanding Whole Child (3)

Prerequisite(s): SED 215

Teacher candidates will learn about professional and developmentally appropriate education for ages birth to 8 years as well as children in grade 4 and 5. Teacher candidates will study typical and atypical development in

children from birth to age 10. Major developmental theories, conditions and risk factors that affect children

SPR 330 Assessment and Diagnosis for Special Education (3)

Prerequisite(s): Admission to Division and SED 215

This course involves the intensified study of educational assessment and diagnosis of school-age student, including the referral process for special education services. The course includes the study and use of standardized and non-standardized assessment instruments to diagnose academic, behavior and other learning problems. It emphasizes the ability to evaluate reading, spelling, arithmetic, written language, and spoken language problems as well as social and physical disabilities. This includes development of knowledge and skills for progress monitoring, curriculum aligned assessment, and strategies for remediation and enrichment.

SPR 330H HON: Assessment and Diagnosis for Special Education (0)

Prerequisite(s): Admission to Division and SED 215

Concurrent requisite(s): SPR 330

Course description as stated in BIO 255 (Honors Course)

SPR 333 Curriculum & Methods/Students with Mild/Moderate Needs Practicum (1) EXP

Prerequisite(s): Admission to School and EDU 207

This course involves 50 hours of field work. Students will plan and implement differentiated curriculum and instructional strategies with students who have mild/moderate needs in a variety of settings, across different age levels, and under the supervision of a cooperating teacher(s) and university supervisor.

SPR 333H HON: Curriculum & Methods/ Students with Mild/Moderate Needs Practicum (0)

Course description as stated in SPR 333 (Honors Course)

SPR 336 Methods of Teaching Math I (3)

This course examines the mathematical content, methods, and strategies for effective instruction within the context of primary and special education environments. Emphasis is on multiple approaches, problem solving and communication of mathematics. The use of manipulatives and technology will be stressed. The course focuses on the following domains of The Common Core State Standards: Counting & Cardinality, Operations & Algebraic Thinking, Number & Operations in Base Ten, and Number & Operations-Fractions. These are examined through the lenses of Mindsets, responsive teaching, and explicit instruction.

SPR 337 Methods of Teaching Math II (3)

Prerequisite(s): Department Admission, one history course with a grade of "C" or better, and one lab science with a grade of 'C' or better

This course examines the mathematical content, methods, and strategies for effective instruction within the context of primary and special education environments. Emphasis is on multiple approaches, problem solving and communication of mathematics. The use of manipulatives and technology will be stressed. The course focuses on the following domains of The Common Core State Standards: Measurement & Data, Geometry, Ratios & Proportional Relationships, The Number System, Expressions & Equations, Functions, Statistics & Probability. These are examined through the lenses of responsive teaching, and explicit instruction.

SPR 341 Methods of Teaching Social Studies and the Sciences (3)

Prerequisite(s): Department Admission, one history course with a grade of "C" or better, and one lab science with a grade of 'C' or better

The course is designed to prepare students to use best practices and procedures in the teaching of the social studies and the sciences in pre-school through 3rd grade. It addresses Ohio's content standards for social studies and science in primary education. Learning to be an effective social studies and science teacher comes with practice, experience, and a willingness to experiment with new approaches. Because primary teachers must be generalists more than specialists, they must be able to address a wide range of students' academic and social needs. An essential element is a willingness to engage in inquiry and exploration and to model problem-posing and problem-solving along with your students. These are the skills that we will be practicing throughout this course.

SPR 345 Collaboration and Transition Methods (3)

Prerequisite(s): SED 215

Concurrent requisite(s): SED 334

This course provides the student with the knowledge, and skills necessary to work in a collaborative manner with parents, teaching peers, support staff, school administrators, and individuals from outside agencies on behalf of students. Students will explore strategies for building relationships and collaborative interventions within diverse contexts. The course also includes principles and techniques for providing career education and transition services.

SPR 345H HON:Collaboration and Transition Methods (0)

Course description as stated in SPR 345 (Honors Course)

SPR 351 Intro to Learning Disabilities (3)

Prerequisite(s): SED 215

This course will survey the field of learning disabilities (LD). Students will learn the history of the learning disability field by studying the different underlying theories. Students will also examine the characteristics, assessment, and diagnosis of students classified as learning disabled. Emphasis is placed on relevant literature as it pertains to the aforementioned topics.

SPR 351S Serv Lrng:Intro to Learning Disabilities (1) EXP

Concurrent requisite(s): SPR 351

The purpose of the service learning component is to integrate course content and material with service to an identified community organization. Service learning consists of completion of a minimum of 30 on-site hours, as well as instructor- guided reflection. Students will be expected to complete a learning contract, document clock hours, and participate in all reflective activities.

SPR 380 Curriculum & Methods/Students with Mild/Moderate Needs (3)

Prerequisite(s): Admission to School

Corequisite(s): SPR 333

Methods, materials and techniques used in the education of students with mild and moderate needs. Emphasis is placed on both remediation and compensation strategies and techniques for academic, social and behavioral problems. The course presents a variety of techniques for teaching basic academic skills (reading, spelling, mathematics, writing, oral language) and how to modify instructional materials for students who need mild/moderate levels of support. The course also relies on research-supported instructional strategies for designing classroom environments that best facilitate learning. Students participate in a practicum in a classroom in conjunction with this course.

SPR 380H HON: Curriculum & Methods / Students with Mild/Moderate Needs (0)

Concurrent requisite(s): SPR 380

Course description as stated in SPR 380 (Honors Course)

SWK

SWK 201 Interprofessional Approaches to Suicide Prevention (3)

New Course

Prerequisite(s): SOC 103 or PSY 103

Using readings and interactive case studies from health sciences, public health, law and psychology, the course addresses multi-level influences on suicide and its prevention. Topics covered include suicide prevention-related ethical issues, terminology, attitudes and social norms, vulnerable populations, risk/protective factors, and mental health services and public health approaches to suicide prevention.

SWK 205 Play Therapy (3)

*New Course**Prerequisite(s)*: PSY 103 and SOC 103

This course provides an overview of Play Therapy. It will address the various types of play that children engage in and the various types of therapy that can be used for working with children. This course will look at both Directive and Non Directive therapy.

SWK 219 Issues In Aging:A Social Work Perspective (3)*New Course**Prerequisite(s)*: SOC 103

Provides base to integrate gerontology knowledge with social work education. Informal and formal support networks will be stressed as students learn to assess older clients and devise appropriate interventions.

SWK 220 Introduction to Social Work (3)*Prerequisite(s)*: SOC 103

An overview of the profession of social work and human services in health, education and welfare institutions. Includes historical development, basic concepts, as well as current trends and issues in human service systems and the social work profession.

SWK 220S Serv Lrng:Intro Social Work (1) EXP*Concurrent requisite(s)*: SWK 220

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SWK 223 Social Policies and Issues (3)

A problem-focused analysis of past and current social policies: income maintenance, family, educational, social service, environmental, and civil rights. Political analysis includes factors which influence policy development, policy implementation. Attention is given to local, state and federal policies.

SWK 223S Serv Lrng:Soc Pol/Iss (1) EXP*Concurrent requisite(s)*: SWK 223

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SWK 226 Mental Health and Social Work (3)*New Course**Prerequisite(s)*: SWK 220 or SOC 103

This course offers an approach to addressing mental health issues, emphasizing the relevance of mental health. The student will be given the tools to be competent in the area of mental health case management, while exploring community systems in place for the mentally ill and the different populations affected by mental illness.

SWK 233 Ethics and Social Welfare (3)*Prerequisite(s)*: PSY 103, CRM 103 or SOC 103

This course examines ethical issues as they relate to social professions and provides an overview of legal and ethical aspects in the field of social work with implications for the social worker. Includes topics such

as confidentiality, rights of clients, client records, equal protection for staff and clients, and discrimination. The National Association of Social Workers code of ethics and related codes are covered with an overview of ethical dimensions of practice. The course examines various social policies, mainly federal laws, that impact society and how they influence our ethical decision-making processes.

SWK 310 Crisis Intervention (3)

New Course

Prerequisite(s): PSY 103 or SOC 103

Provides beginning training for people who anticipate or are presently working with people in crisis situations.

SWK 313 Addiction: The Foundation I (3)

This course focuses on theories and fundamentals of addictive illnesses and addictions treatments. Topics will include addiction knowledge, treatment knowledge, professionalism, evaluation, service coordination, documentation, and individual and group counseling. Designed to meet the CDCA Phase I education requirements.

SWK 314 Addiction: The Foundation II (3)

Prerequisite(s): SWK 313

This course focuses on theories and fundamentals of Substance Use Disorders and treatments. Topics will include assessment and diagnosis, treatment planning, theories of addiction, psychopharmacology, group, and individual treatment strategies, and professional ethics for substance abuse counselors. This course exceeds the Ohio Chemical Dependency Professional Board (OCDP) requirements for the Chemical Dependency Counselor Assistant (COCA) Phase 2.

SWK 315 Addiction: Stopping Before It Starts (3)

Prerequisite(s): SOC 103, PSY 103, or CRM 103

This course examines various prevention and intervention strategies used with individual, taking into special consideration the impact diversity plays in selecting such strategies. Student will learn about models and theories used to describe prevention from a contemporary and historical view point and risk factors that influence an individual's probability of misuse of substances of psychoactive substances.

SWK 316 Addiction: Brain, Body, and Relationships (3)

Prerequisite(s): SOC 103, PSY 103, or CRM 103

This course examines the impact of drugs of abuse on the biological, psychological, and sociological areas of the consumer. This course will also explore pharmaceutical intervention to assist in the detoxification process and potential interactions between drugs of abuse and those that treat addiction, as well as mental and emotional disorder. Students will also learn how various relationships are directly impacted by the addiction process and indicators of dysfunction within those relationships.

SWK 317 Interdisciplinary Approach to Diversity and Social Justice (3)

Prerequisite(s): SOC 103, PSY 103, or CRM 103

This course builds on the generalist practice curriculum and serves as an introduction to diversity and social justice in the context of social work practice. The course aims to enhance cultural competence by raising students' awareness of their own values, assumptions, and biases, as well as their relationships and styles of interaction and communication with people from cultures different than their own. Competence is considered in dimensions of values, knowledge, skills, and cognitive and affective processes. This course will examine social justice issues through an interdisciplinary lens.

SWK 320 Race in America (3) IDS

Prerequisite(s): 48 or more Credit Hours Earned

History and Sciences Interdisciplinary Course. Students in this course will use an interdisciplinary approach to ask questions about the idea of "race" and examine how it functions in American life, drawing on perspectives from the biological and anthropological sciences, social and behavioral sciences, ethics, history and the arts.

SWK 322 Human Behavior and the Social Environment I (3)

Prerequisite(s): Nonsocial work majors: SOC 103 or PSY 103. Social work majors must also have completed SWK 220

This course is designed to provide the student with a descriptive overview of the theoretical and conceptual diversity framework that is used to understand the complexities of interactions of human behavior within the social environment from ages birth to adolescent. The course provides an in-depth description of the intervention approaches which impact the human condition and the dynamic developmental components that creates unique relationship and adaptations to their environment from ages birth through adolescence. The course will also describe the systems which create, shape, and influence the social structures, organizations and communities in which we live that impact children ages from ages birth to adolescence.

SWK 322H HON: Human Behavior and the Social Environment I (0)

Concurrent requisite(s): SWK 322

Course description as stated in SWK 322 (Honors Course)

SWK 323 Human Behavior and the Social Environment II (3)

Prerequisite(s): Nonsocial work majors: SOC 103 or PSY 103. Social work majors must also have completed SWK 220

This course is designed to provide the student with a descriptive overview of the theoretical and conceptual diversity framework that is used to understand the complexities of interactions of human behavior within the social environment from late adolescent to late adulthood. The course provides an in-depth description of the intervention approaches which impact the human condition and the dynamic developmental components that creates unique relationship and adaptations to their environment. The course will also describe the systems which create, shape, and influence the social structures, organizations and communities in which we live.

SWK 327 Interviewing and Assessment (3)

Prerequisite(s): SWK 220 & SWK 321 OR SWK 322 OR SWK 323; Junior Standing. For non social work majors: SOC 103 or PSY 103.

Assessment, relationship-building and problem-solving with individuals, groups and organizational systems with the emphasis on work with individuals. Students learn how to integrate knowledge and values of social work as they learn interviewing techniques and the skills of assessment, goal setting and intervention. Students are expected to participate in practice exercises and observational activities outside of class meeting time.

SWK 328 Group Approaches to Problem-solving (3)

Prerequisite(s): Junior class standing

Intervention and planning with families, groups and community systems with the emphasis on working with families and groups. Students expand their mastery of the roles that social workers play as they develop skills in forming and leading groups, developing programs and teaching problem-solving skills. Students are expected to participate in practice exercises and observational activities outside of class meeting time.

SWK 328S Serv Lrng:Group App/Prob Solving (1) EXP

Concurrent requisite(s): SWK 328

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SWK 329 Organizatn'l/Community Devel (3)

Prerequisite(s): Junior class standing

Emphasizes organizing and planning service delivery primarily at the macro level. Students develop skills in

community needs assessment and action research in monitoring programs, as well as social action on behalf of client groups. Students are expected to participate in practice exercises and observational activities outside of class meeting time.

SWK 330 Fieldwork I & Seminar (5) EXP

Prerequisite(s): SWK 322, SWK 327, SWK 317, Admission to the Social Work program, and senior class standing

Corequisite(s): SWK 328

The student spends sixteen hours per week in a social agency (for a total of 224 hours during the semester) under the supervision of a worker in the agency serving as field instructor. The seminar is held to help students integrate theory with practice and to guide students to address pertinent ethical and policy issues.

SWK 332 Child Abuse (3)

Prerequisite(s): PSY 103 or SOC 103

Legal Studies, Psychology, Sociology and Social Work Interdisciplinary Course. An examination of the interrelationship between various types of abuse and neglect and its short-term and long-term impact on the lives of children. A review of the latest research on sexual abuse, physical abuse, psychological abuse, and emotional neglect.

SWK 333 Elder Abuse (3) IDS

Prerequisite(s): PSY 103 or PSY 103H or SOC 103

Crosslisted GST 333. This course will explore the topic of elder abuse from multiple perspectives including the spiritual, psychological, legal, ethical, and health impact of abuse. The global, cultural, social, economic and political factors contributing to elder abuse, victim assistance and methods to prevent abuse will be discussed.

SWK 360 Case Management in the Helping Professions (3)

Prerequisite(s): for social work majors: SWK 327, for non-social work majors: SOC 103, PSY 103, or CRM 103

Catalog Description: This course is designed to provide the student with an introduction to concepts and skills for effective case management skill sets within the helping professions. This course will assist students in developing the skill associated with effective case management in social service settings. This course will provide students the opportunity to explore the current overview of the case management practice. Discussion topics include, but are not limited to: case management roles, case management components (intake, assessment, establishing goals, evaluation, and termination), interpersonal skills, record keeping and technical writing skills, working with special populations (addictions, mental health, health care, child welfare, geriatrics, etc.), crisis intervention, and termination.

SWK 370 Addictions (3) IDS

Prerequisite(s): PSY 103 or PSY 103H, SOC 103 and Junior Class Standing

This course will explore the process of dictions. Addiction represents an intemperate relationship with an activity that has adverse biological, social, and psychological consequences for the person engaging in the behaviors. The problem of addictions will be examined from the disciplinary perspectives of medicine, psychology, sociology, social work, and political science.

SWK 375 Social Research I (4)

Prerequisite(s): PSY 103 or PSY 103H, SOC 103, MTH 174 or MTH 175

Crosslisted SOC 375. An introduction to social research emphasizing ethics and the integration of basic and applied research designs. Observations, surveys and simple experiments are carried out in conjunction with descriptive and inferential statistical analysis.

SWK 377 Evaluation, Research and Grantsmanship (3)

Crosslisted SOC 377. An application of basic research methods and data collection learned in Social Research I to the evaluation of existing programs in social agencies, and the tasks and skills of grant writing to develop new programs and services. Students learn how to locate grant sources, integrate program evaluation into

grant proposals and practice grant writing.

SWK 377S Serv Lrng:Eval,Res,Grants (1) EXP

Concurrent requisite(s): SWK 377

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

SWK 396 Co-Op:Parallel(PT) (1-3) EXP

Prerequisite(s): CED 220

A work related experience supervised by a faculty coordinator in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation of predetermined learning agreement and evaluation of work performance. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

SWK 399 Independent Study (1-4)

The student fulfills the objectives of a learning contract under the supervision of a social work faculty member. Any topic which supplements or expands the student's knowledge of social work may be the focus for study. Requires approval of program director and Behavioral Sciences Department chairperson.

SWK 400 Senior Thesis (3)

New Course

Prerequisite(s): SOC/SWK 375, SOC/SWK 377

Independent projects which integrate the theory and research relevant to students' areas of specialization. Thesis projects demonstrate critical thinking skills and growth in students' areas of study.

SWK 405 Behavioral Sciences Capstone (3)

Prerequisite(s): 40 hours Core curriculum completed

A reflective, integrative experience for all majors from the Behavioral Sciences. Fulfills the university capstone requirement. Students will examine their undergraduate learning through reflection, discussion, and examination of a significant problem. Students will produce a paper and a poster presentation in which they will integrate the Baccalaureate Level Learning Outcomes with their majors and their life-long goals for learning and service.

SWK 432 Fieldwork II & Seminar (5) EXP

Prerequisite(s): SWK 323, SWK 328, SWK 330, and senior class standing

Corequisite(s): SWK 329

The student spends sixteen hours per week (or 224 hours during the semester) in a social agency under the supervision of an agency field instructor. Students take responsibility for service to clients applying the knowledge and intervention skills learned in the classroom. The seminar assists the student to integrate theory with practice, and guidance in the design and implementation of practice related research.

SWK 496 Co-Op:Alternatng(FT) (1-3) EXP

Prerequisite(s): CED 220

A work related experience supervised by a faculty coordinator in collaboration with the cooperative education staff. Credit is awarded upon successful completion of the work experience, documentation of predetermined learning agreement and evaluation of work performance. Evaluation of work performed is on a pass/fail basis.

This course can be repeated for a maximum total of nine credits.

THEA

THEA 119 Acting Workshop (3) CAM

Acting Workshop is designed for students who are interested in exploring the acting process. Over the course of the semester students will build foundational acting skills including self-awareness, vocal/physical technique, script analysis, rehearsal process, improvisation, and general theatre terminology. These skills will be developed through a combination of readings, discussion, exercises, written analysis, and performance presentations. By the end of the semester students will have the fundamental skills allowing them to approach the world with curiosity, compassion, and confidence.

THEA 122 Theatre Arts Ensemble (1) LAS

Theatre Arts Ensemble is an active theatre making experience. Members of the class will be participating, supporting, attending, and performing in public performances both on and off-campus. Theatre Arts Ensemble provides students with the opportunity to work on individual and group projects in areas of their expertise and interest. Enrollment in the group is open to all MSJ students by instructor approval.

This course can be repeated 8 to 10 times for credit.

THEA 122S Serv Lrng: Theatre Arts Ensemble (1) EXP

New Course

Concurrent requisite(s): THEA 122

Service Learning is an opportunity to engage in service to others while making academic connections to course material. This one credit hour course requires 30 hours of meaningful community service. Students will serve a community partner accomplishing projects relevant to the academic course to which the Service Learning credit is attached. Students will also be required to engage in different forms of reflection such as journaling, group guided reflection, and a one-on-one meeting with the course instructor. Students will develop a greater understanding of social problems, a sense of responsibility to our surrounding communities, and an increased awareness of their own faith and values.

THEA 214 Introduction to Technical Theatre (3)

This course is designed to introduce you to theatre production areas including scenic construction, scenic painting, lighting, sound, costumes, make?up and stage management. Students will gain hands?on experience variety of class activities and production assignments. This course will give a basic foundation in theory with a primary focus on practical application of skills.

This course can be repeated 3 times for credit.

THEA 217 Directing (3)

Directing is designed for students who are interested in exploring the fundamental techniques of theatrical directing. Students will learn to analyze a text, prepare for the rehearsal process, and work with actors in staging a play, musical or theatrical production. This course culminates with a showcase performance of directorial work.

Appendix B: Faculty

Office of the Provost

ALMQUIST, STEVE (2023)

Provost

B.A., St. Mary's University of Minnesota; M.A., University of North Dakota; M.A., University of Iowa; Ph.D., University of Iowa

CURRIE, CHRISTA (2008)

Vice Provost; Associate Professor, Chemistry

B.S., University of Cincinnati; Ph.D., University of Cincinnati

School of Arts and Sciences

SONTAG, MICHAEL (2004)

Dean of Arts & Sciences; Associate Professor, Philosophy

B.A., University of Cincinnati; Ph.D., University of Cincinnati

ALLEN, REBECCA (2020)

Chair, Computer Science & Mathematics; Assistant Professor, Computer Science

B.A., University of Cincinnati; M.A., York University; Ph.D., University of Cincinnati

ALTHOFF, CAROLYN (2025)

Program Director, Art Education

B.A., College of Mount St. Joseph; M.A., Art Academy of Cincinnati

BARKLEY, ELIZABETH BOOKSER (1990)

Chair, Liberal Arts; Professor, English

B.A., College of Mount St. Joseph; M.A., St. Louis University; Ph.D., University of Cincinnati

BATCH, BROOK (2024)

Assistant Professor, Computer Science

B.S., Mount St. Joseph University; M.S., University of Cincinnati

BODLE, JIM (1996)

Professor, Psychology
